5-21-2015 Mission to the Philippines

Tony,

Thanks to all that are praying for this mission. I am always amazed that the size of the group we minister to totally doesn't matter to God. Sometimes, the smallest groups we see the greatest life transformation and greatest miracles! Today demonstrated that again. The people were completely open and eager to receive Truth! I really enjoy serving the meal God has prepared for His people!

During the team ministry time we gave words of knowledge and up they came. Our team prayed thru the people looking for healing pretty quickly. I thought I would take an older man to use my prayer for him as demonstration for the rest of the folks sitting in their seats. He said that he had a problem in his head. Each time I prayed for the issue, it would get fixed and then he had another one somewhere else! We made the tour around his body. After about 10 rounds of prayer for this one man, for all different problems, the folks got to see persistence and love for the person in action. Finally, his body had gotten a complete tune up and he demonstrated to the folks what he could now do that he couldn't do before! Glory to God!

OK, so all these folks are now waiting to give testimony. I took out the video camera and started taping. Amazing the testimonies! Just listening to these folks as they began to cry, giving glory to God, I cried right along with them! Man, I could feel it, I could feel where they were and the overwhelming tear filled joy they were expressing.

One lady gave her testimony of how she was healed of a damaged shoulder and then said "but I am almost blind and haven't been able to see well for a long time!". She said that in the native language, then went and sat down. I asked for an English interpretation and when I heard she couldn't see I said, "hey, get her back up here!" She came back up and while the team was praying for her I watched and all of a sudden she started bawling, saying "my God, my eyes have just opened! I can see clearly!" Now she couldn't contain herself, nor should she. Clearly I got caught up in her joy and now I'm bawling also!

Now this guy really got me: An older man told of how he was hospitalized for heart and kidneys and they could not fix him. He didn't know how he got here today but knows God brought him here. He started talking about the condition he was in when he walked in the building, when he got to the part about his blurry eyes opening up so he could see clearly, he began to cry.

One woman had to have "Mr. Tony" do the praying for her and would not let the Filipino people pray for her. She said that she had sprained muscles in her leg and could not walk without terrible pain! They brought her to me and told me that and instantly Holy Spirit said, "tell her you will not pray, that she is to pray for herself!" So, I asked her if she understood what I had been talking about this morning and the authority of Jesus that she has to use His Name and she said yes. So, I said, ok go for it. She put her hand on her leg and just spoke a clear command to the pain and twisted sprained muscles to be restored NOW and BAM, she shot up in the air jumping. She was beaming and crying out "I am healed, I am healed!"

Another woman gave testimony of having a bad heart and poor blood circulation and not getting medical help and then her husband left her and the responsibility of caring for her family was overwhelming to her. Her breathing was shallow and labored and with the pressure in her chest, it was so hard for her to live. BUT today, God has shown his mercy and completely healed her. As she took deep breaths she too began to weep tears of joy! Thank You Jesus!

Casey:

I just love the worship here, it is so awesome. The worship team in this church is led by the youth, and they really flow with the Holy Spirit. Jesus was in the house. On one of my first trips here I had made some worship flags and left them behind for them to use. I was meaning to make some new flags and bring them on this trip but I never got to make them and ran out of time, but this morning Daisy brought over to me the old flag bag that I had left behind and just smiled at me. To my surprise when I opened the flag bag it was full of all new flags. They took one of my old flags and used it as a pattern and now they are in full production of making their own flags now. They are made with bamboo so they are very light weight and super strong. They fly so nice, I think they are on to something.

The teaching was an intro to working with the Holy Spirit and it was well received by everyone. When Tony finished teaching we gave out words of knowledge and started praying for the sick. I was running back up for the team helping wherever I was needed. I prayed with Dawnmarie for a woman that had a stroke on the right side of her body and because of the stroke this woman had even lost her voice. She had become a mute. After we prayed for what seemed like a few seconds she had regained her strength, and started to speak softly. After a second shot of prayer her voice became normal, praise God. When the ministry was finished they went back into praise and thanked God for all the healings.

After the second session on words of knowledge we again prayed for who ever needed prayer. I prayed for this man that was having pain in his shoulders and he also said he had lung cancer. I prayed for the shoulders first and the pain left his body instantly so I then moved to praying against the lung cancer he said he had. I don't know the outcome as of yet, but after the prayer he was taking deep breaths with ease now and no pain in his chest either. So I'll take that as healing for him.

It was so awesome to walk into the afternoon session with all the worship flags flying everywhere. Better yet it was all the men that were flying the worship flags. I love it. What an awesome day thank you Jesus. Blessing to everyone praying for us. Later ><>

Dick Evans

After a teaching on Jesus wanting all to be healed and how He is in every believer, Pastor Tony called for words of knowledge from the team. I had a word for a right shoulder. Two came forward and received their healing after a quick prayer. A third woman came up with shoulder and right hip pain. Prayed twice and all pain left. Thank you Jesus.

In the afternoon pastor taught on words of knowledge. He called for words from the people. Many came up for prayer. I prayed with a woman who had had a stroke leaving her with a right eye issue and a left arm in pain and a clenched left hand. I asked one of the young men to come up to interpret for me as I could not understand the woman speaking in her native dialect. I had him lay his hands on her and pray. A number of prayers later her hand was unclenched and her eye

was better. She began to cry and one the female team members came over to assist. She still had pain in her left arm so we prayed again and all pain left. She left without pain and with the knowledge that she was healed and Holy Spirit was bringing complete healing to her hand. Praise God.

Bobby,

My testimony starts on Tuesday, week before the team left Florida, when Tony ask me if I was going on the trip because I had told him earlier I was wanting to go. I told him I didn't have the money, but I thought I was supposed to. After talking to Tony on the phone I knew I was supposed to go. I began making phone calls to friends and family trying to sell things to get the money to go. By noon the next morning I had all the money and then some. On Friday I left for Japan and stayed with my mother in law where I was able to speak at her church That was in Japan where I gave my testimony and my mission calling to the Philippine people. They gave me money and said they wanted to support my ministry. PRAISE God.

Thursday, Tony called for words of knowledge. Holy Spirit reminded me of the word I had gotten for kidney problem while I was on the airplane from America to Japan. Today, He also added to that a word for lower back, and weakness in left arm. I prayed for 4 people with pain in their back and 3 with kidney pain. No one came up for weakness in left arm. The lady with left arm weakness was in the meeting when I gave the word, but she didn't respond. It was tomorrow's meeting when she would respond to this word, only one day after it was given! Everyone was healed that came forward. Later on I shared my testimony and prayed for gallbladder and stomach pains. Again everybody was healed! Thank You Jesus!

Melody,

Excitement is in the air as we anticipate what God has for us! The morning session was very scant on people but the ones that were there got blasted. God showed His love with healing. I had a word of knowledge for someone who had a neck to shoulder pain. A woman came forward and said she had that pain and also cataract in her left eye that caused very blurred vision. I used my authority in Jesus and commanded the pain out in Jesus name. It left, and she was amazed then said "now my Eye"... I prayed and then asked her what was happening... She said it was a little better, I told her that was evidence that Holy Spirit was working

and I prayed again. I prayed again, she said a little better. So I went and got another team member and we prayed again... This time, she started crying saying I can see, I'm healed, I can see.. Then I said. Wahoo!

The next meeting was packed with people everywhere... Yeah God!

Dawnmarie,

Today, what an amazing day, It's no wonder the enemy tries to put up road blocks in our way, but with a Team who already knows these truths Stand firm against the enemy and cast him out and Bless what the Father is doing and we were Blessed. To Start as Pastor Tony preached the Hearts of the people were being renewed, Many in the Church were hungry to receive the Truth, and they did. The Holy Spirit was operating in Miracles . Transformation , was being seen, Restoration of The Holy Spirit's Joy, Today what an amazing day, It's no wonder the enemy tries to put up road blocks in our way, but with a Team who already knows these Truths Stand firm against the enemy.

What a day. A women came up for cataracts and instantly her eyes were clear and no more stigmatism, Then a women came up with 7 children from a stroke, I declared spirit of cripple to go in Jesus name, and she started to receive a healing and Believe the Lord for a full healing, The Holy Spirit used me to Hug and Love on many women and children, the Lord did a work so much so that I was told they felt the Heart of Jesus and they could see Jesus in my eyes, and that the Lord used me for discerning the women and children gained a trust as well different tribes were touched and now will open other doors, to know that when you take the risk and Love on God's people a Mighty work is being done, of healing and their life will begin to change daily. I'll call her R with 7 children today I saw a lot more healing on her she gave me a photo to remember to continue to pray for her. Amen.

Sally Drost First Day: <u>Morning</u>

An older woman with cataracts came forward for prayer. She said she could see very little. After taking authority over the cataracts in Jesus' name, her

eyes moved around the room. She could see! She began to cry with joy and danced around.

Another woman, a stroke victim, could not speak. When the mute spirit was cast out, she said, "Thank you, Jesus." Her eyes brightened considerably and we knew she was free. We invited her to come back the next session so she could learn more about deliverance. She then gave testimony about God's goodness.

A woman with a breathing problem came for help. Two of us took authority over the problem and she took a deep breath as she rejoiced. She left with a big grin on her face.

A man stepped forward with cataracts. When the three of us commanded the cataracts to leave in Jesus' name, tears came to his eyes as he realized he could see. He began jumping up and down! Love, love, love!

Afternoon

A young woman with heart palpitations and polyps in her reproductive system received healing in the form of deliverance from a spirit of infirmity. She felt a lifting off of a huge weight. She was instructed to continue taking authority over the situation if it should return and to continue thanking Jesus.

An older woman stepped forward saying she was bothered with stomach cramps whenever she walked. When we laid hands on her, she noticed a difference. We instructed her to take steps forward. As she walked, the cramps disappeared. Praise to God!

Evening

A young lady was healed of anxiety through deliverance. Hands were laid on her for blessings and she received words of encouragement for her ministry.

A woman, who had earlier received healing for stroke damage, came back tonight. She was in distress about her family and was told to put them in the palm of her hand and throw them up to God in a symbolic gesture of letting go of them. She said she wanted to be with Jesus now and we simply loved on her. We then cast out the tormenting demon. She looked at us with eyes full of tears and a tiny smile on her face. She said she knew God had a plan for her for the rest of her life. Hallelujah!

Gem,

The plane ride to Davao, in the Philippines took many hours. During the trip I had my first Word of Knowledge. I was awoken from a deep sleep feeling terrible. I did not understand why so decided to get up and walk around. It's then I came upon Dawn Marie sitting on the ground with the stewardess telling her to get up. I immediately felt better. Dawn was having difficulty breathing and could not sleep. I changed seats with her and prayed over her to feel better and also to sleep a few hours. When the plane was landing a few hours later Dawn told me she felt better and had slept at least 2 hours.

Our first day at the Calinan Alliance Church the people were so nice to us and when I looked around to see them singing in their own language you could see they sang with so much love for the Lord. As the service went on the people were invited to come up for healing. First a woman who spoke no English came up and the translator said she had great difficulty breathing. With permission two of us laid hands on her chest and asked Jesus for healing. After the healing she stood staring at us. We got the interpreter to ask the woman how she felt and the woman burst into tears of joy taking deep breaths.

After her there came a woman who could barely see due to cataracts. With permission we laid hands on her eyes and we both prayed over her. This woman also cried after the healing.

Then a woman complained with every step she took was painful and she had stomach cramps. Again after getting permission We laid hands on her stomach and both prayed for her. She no longer had cramps or pains. Then two women came up and the one explained the other could not speak. So again we laid hands on her throat and prayed over her. Afterward she gave a verbal testimony.

We did three services this day. At the other services we prayed for a young woman who had a stroke and was paralyzed on her right side. She came back to a later service as she could feel the healing working and wanted more prayer to finish the healing and got it.

Also a woman needed prayer for polyps, lower intestines and heart palpitations. We prayed over her and she said she felt a great lifting and healing. We advised her to keep praying to Jesus and she said she would.

One man had 98% healing and I laid hands on Jesus healed him the last 2%, Hallelujah!

Respectfully submitted by
Gem Crilly

Whit Watson

Wow what blessing it is to be here in the Philippines. When we first landed I felt such peace and love that I knew this is where God wanted me to be. I knew then that we were about to experience great things on this mission trip.

It was such a privilege to be able to flag in front of everyone.
I really felt the presence of God upon me as I was flagging.

When ministry started I had a chance to talk with people one on one. I prayed for a number of people for the issues they had and God came through and healed them and set them free.
