Mission To Kenya, Africa

First Day of Conference in AM at Naitiri, Nazareth

Tony:

Our God is awesome! There is no other like Him! We are so thankful for the privilege of loving Him, knowing Him and serving Him.

The first day of the conference brought forth a powerful move of Holy Spirit. Again wonderful worship that is full of life and energy. I tried to dance with the movements of the young ones as best I could. I really want an impartation from them!

Everyone was really into the teaching on healing today. You could feel the atmosphere getting more and more charged. We reached a point I felt that we passed over into miracle mode. At that point I stopped the teaching and moved to practical demonstration. We asked for someone in pain to come up. Three people came up and I had the interpreter repeat everything I was saying to the man. He had bad intestinal pain and all the joints in his body ached badly. I think it was arthritis. Holy Spirit instantly, miraculously healed him so there wasn't a whole lot to demonstrate. But little did I know what HE had in store. As testimonies of these first few people were given, a bunch more people just came up for prayer. We asked for others to come and pray for them. I turned around and there was a young lady on the floor with a terrified look on her face. I was told that she was partially paralyzed, with some kind of debilitating disease that kept her so weak she could not exist without the constant assistance of her mother. She couldn't even wipe her runny nose herself or hold a paper cup in her hand. She was so afraid that she wouldn't talk. We discovered that she became immobilized right after her father died. Her father was involved in the realm of darkness when alive and never received salvation. As Holy Spirit led us, we made declarations over her life that got the house cleaned and filled with Holy Spirit. There was a

familiar spirit that came from her father that we showed the exit door.

What we didn't realize was that many of the people were standing around us that knew this young ladies' condition for many years, waiting to see the reality of the gospel we have been preaching. We could see her getting free and a one point she shot up into the air, jumping up and down, praising The Lord. Wow, what a sight! I put my hand in hers and asked her to try to squeeze it. **This girl, who couldn't hold a paper cup, completely cut off the circulation to my fingers with her new vice grip!**

When the people, watching to see what was going to happen, saw the miracle, here's what they said: "we want impartation prayer right now so we can go out to the village and pray for the sick people. We will come back tomorrow with testimonies!" OK, so we normally have impartation prayer on the last day of the conference, but it's His plans we're after. As we began praying, Yolanda, it was powerful. There was no room and the people were falling hard and fast. This time I could feel the anointing flowing into them. There were some that had some sovereign deliverance going on while on the ground. There was a lot of noise as God was doing every manner of things with these wonderful people! Some were caught up into heavenly places. Oh my, we all stood in amazement at what God had done!

Here is another bonus:

I turned around after trying to gently help someone to the ground and there was a mother standing in front of me with her little son who was deaf. The Presence of The Lord was there to heal and his ears were instantly opened up. Momma checked it out and was very, very, very thankful!

Caroline:

What a day today at the Pastor's conference. After Tony spoke about them having the power to do the same things that Jesus, we had a few people come up for prayer for healing. After praying for a few minutes Tony came up to us and said (with an amazed look

on his face) and said, “the people want us to impart the healing anointing to them right now!” My response was, “let’s give it to them then.” So we started praying for people and there was a lot of imparting that took place. I laid my hands on two women at one time and both of them hit the deck (without catchers☺.) The amazing thing was that they were not hurt. Thank you Lord for the angels doing the catching!

I walked away from the conference thinking about the level of desire and passion that these Kenyan Christians had. I think I would have been better served if they prayed for me to have the passion that they do. I was reminded that though we lead such different lives we are still one in God’s Spirit.

September 17th 2007

Report: Fredrick

Leaders Conference at Nazareth Church and in the afternoon
Crusade at Mukuyuni Market:

The leader’s conference was well attended, by many leaders from different churches, the message was powerfully presented by Pastor Tony through the leading of the Holy Spirit and the response was encouraging. He taught on prayer ministry concerning healing.

Towards the end of the message he carried on practical demonstration, by calling out some few people were sick and needed healing to come forward, and also those who felt that they can be used of God after hearing the teachings, people responded positively, thereafter, they proved the Word of God to be true, after following the instructions given by Pastor Tony, they got amazed of what God could do through them. At the same time, Tony led some of the team to minister to a mentally retarded girl, crippled in her both arms and legs girl and God delivered by totally restoring

her. It was a great joy among the people, the mother full of joy was really happy she danced to the Lord for what He had just done for her daughter.

The congregation cried out to come forward for impartation, to be sent out into homes and prayer for the sick and to all those with different problems, so that tomorrow morning each shall come with a testimony of what the Lord has done through them.

Almost everyone came forward, almost everyone came and the power of God hit most of the people to confirm the commission.

Harvey:

Wow, it is so great to have the privilege to be here and see God work. This morning was our first conference and God showed up in a big way. Worship was awesome and then Pastor Tony gave the teaching. After that we had words of knowledge and then called up the hungry ones to pray for those that responded. One after another people were healed, God is soooooo good. The service then switched to an impartation service and I think every one came up for impartation. It was soooooooooooooooooo good.

Vee:

Today we went into the God Zone! Right from the start of the pastor's conference, the Holy Spirit took over. We were asked to impart and as I began, the first lady quickly fell down with the Spirit, then another, and another until I couldn't find room on the floor. Praise God! At the end of the conference there was a girl 19 years of age who seemed to be retarded and disabled. She had a spirit of worthlessness and shame. She was sitting on the floor looking crippled, but as God moved she received healing right before her mother's eyes. Her paralyzed hands now had strength and her expression was overjoyed as she ran and jumped out of the church and across a field to her home. Thank you Lord!!!

Mama Moto:

Today the conference started off a little different than usual. We were led into the church as the caboose of a train of singers and dancers. It only served to prove the fact that white people really can't dance!

After awesome worship ... Tony taught to a group of pastors, local church women, men and children. Usually the impartation is the last day of the conference, but they were not waiting, as they stormed the platform for all they could get. I only prayed for a few, and as we had no catchers, they were stacking up like cordwood.

The best part of lunch came after the meal. A young man came to the door and asked to speak to Tony and Mama Moto. He came in with a shy smile and said that he had a testimony to share. Not from this meeting, but from our first trip to this area in 2004. He came to our first crusade in Luuya with a lot of shoulder pain from a broken arm that did not heal properly. Tony prayed for him and he received a miracle of his healing. He wanted us to know that to this day, he has retained his healing and that he, in response, has dedicated his life to Jesus, to serve Him as a pastor. Then he turned to me, and said, "Mama, while you were here, you prophesied over me, and everything you told me has come to pass. You asked me if I was married, and when I said no, you said that God would bring me a Godly woman. Within the year, He brought me that wife, and we now have a 9 month old son." (Kleenex please) ...
