

Conference Report #4

Thursday, September 20, 2007

Mission To Kenya, Africa

First Day of **Women's** Conference in AM at Naitiri, Nazareth

Tony:

The ladies will tell you about the Women's conference because after worship the 20 or so men that came, gathered into 3 groups with Tony, Harvey and Nathan being the muzugu in each of the 3 groups. We went out on foot for door to door evangelism. I was with 6 other pastors. It is amazing how hospitable the people here are. We say we are missionaries and have come to bless them. We went to a number of homes and ministered to people along the road. Here are some of the testimonies from my team group:

- The first house (mud hut) that we went into the momma looked at me and said, "I saw you in a dream last night." She said that I was giving her a glass of cold water in the dream! Wow. She was born again but was in need of a fresh baptism of Holy Spirit. She was renewed and said that she was trembling all over with His Presence.
- At another house, husband and wife were there. Husband was not out working because he had malaria. We prayed and he said that the fire of God came upon him and he began sweating profusely. We knew that Holy Spirit had burned it out of him. He said that he felt miraculously restored.
- I noticed something a little weird to me. At a number of homes when we were going to pray for the people, they knelt down on the floor, facing the door. When I asked Pastor Tobias what was up with that, he said "this is a religious thing that many have and they believe that if demons are going to come out them then they want to be facing the door so the demons can go out of the house." Of course we know that is silly.

- We went to another home and the momma of the home had been sick for 3 months. Unable to get out of bed and couldn't eat anything, only drink some water. They had her blood tested and found she had malaria, typhoid and pneumonia. After sharing some testimonies with her we could see her faith was soaring. She had intense pain in her abdomen and was so weak she couldn't stand. We laid hands on her and Holy Spirit came upon her with healing fire. After a few moments she kept feeling around her abdomen to try to find the pain she had been living with, but it was gone. She stood up and walked across the room. She knew she was healed! And her husband was very happy!
- At another household there was a momma and four children. Daddy had abandoned the family and gone away. She was very ill and her household was unsaved. Here's what we saw: She had growths in both of her nostrils that completely closed them off so she could not breathe thru her nose, her neck was extremely stiff and she couldn't turn or bend it at all, her abdomen was in major pain for years and she was constantly dizzy. First she received Jesus as Lord and Savior, then we laid hands on her and the growths in her nose were dissolved and she was breathing clearly. She was twisting her neck all around without pain and feeling all around her abdomen to see where the pain went. She also was no longer dizzy. Her children watched this powerful miracle then said they wanted to be saved also. They knelt in a circle in the middle of the room and received Jesus then said that they wanted to begin to obey and honor their mother.
- Here's the topper for the morning. As we were walking on the dirt path back to the women's conference we met a boy whose ear was all bandaged up. We stopped and asked him what had happened. He said that he just had surgery on his left ear because it was deaf all his life and they were trying to fix it. He said that they operated but it was unsuccessfully and he was still deaf in that ear. We prayed and in about 5

minutes he had perfect hearing in that ear. This little boy showed up at the evening crusade so that he could give public testimony of the miracle.

Vee:

I can hardly describe how awesome this women's conference was today. Caroline headed up the sermon and the Holy Spirit conducted. The women received the word and we were all unified in spirit. The women were really built up in the word and many expressed their desire to lead a ministry and expand on what they were feeling led to do. They're really on fire! All the healings are becoming a blur now. We're seeing many miraculous healings now and they're coming so fast. God is really working quickly therefore I'm not recalling as many details, however one of the ladies I prayed for not only received the healing she asked for, but God also blessed her with better sight. No one even asked for it, God just did it. One elderly lady was so excited today. She had asked me to pray for her as she had many pains and her son who wasn't there had been having a stomach ache. She received healing and I told her how to proclaim the healing over her son when she went home. Read today's crusade for more on this. God is SO-O-O GOOD! The conference was amazing! I was blessed tremendously today as I bonded much more with the young women of the areas we are getting so familiar with. I feel like a princess as they all want me to be with them and hold my hand or hug me and I even visited one of the ladies homes today. This is a big blessing to them as well. God bless you all today. Miss You!

Mama Moto:

The women's conference was great! It was a teary experience for me as I watched Caroline's vision fulfilled as she stood before an audience of African women, teaching. God gave her everything she needed and more. They just ate up everything she delivered.

They responded with enthusiasm, and afterward, they asked questions, some of which we were unable to answer as they were culturally different. i.e. “My friend is a second wife, and a Christian. Her husband is not good to her and she wants to know if she can divorce.”

YIKES!! Luckily, there are some very wise women here, and we were off the hook. The only thing I added, was that in the USA, if a man has more than one wife, he is thrown in jail.

We later prayed for each one of them for various problems from husband and kid problems to female problems. This was so good as these women hardly ever have the focus on them, so many bared their souls. One of the pastor’s wives came to me for impartation, and after I prayed, I took her hand and put it on my head, as I need the passion for the Lord that she has.

Harvey aka Moshe:

Today the men went for a walkabout and visited families in the area while the women’s conference was going. The group I was with went to five houses and all the ones that we talked to got saved. We also prayed for headaches and peace in their lives. I prayed for one woman for the healing anointing because her children keep getting malaria. The impartation was very evident. God is so good.

Caroline:

Today was the first day of the women’s conference. I sensed what these woman needed was some encouragement and a sense that they have value. If you could hear what these women have to endure and how hard they have to work you would never again dare to complain.

I shared with them that God has a destiny for them. I also shared a prophecy that I had gotten for Africa shortly before leaving on the trip. It was an awesome prophecy and the women were really excited.

We allowed them to ask questions of us and we prayed for each one that wanted prayer. Some of the questions were hard for us to answer . . . we do not have to deal with a husband having more than one wife, husbands to leave and spend all their money and the family is left with nothing. One woman says she sees her husband one time a year. (With that the divorce rate is low.)

God did bless the conference despite my concerns. It is a little different speaking with an interpreter. If I went too fast Emily would hit me.

God is faithful and thanks for all your intercession. Bless you all.

Nathan:

While the women were having their conference the men got in groups went door to door doing evangelism and praying for people who wanted and needed it.

I was amazed at the hospitality of these people. (Here you are sitting at home minding your own business and a group of African men and one white guy show up on your door step.) They do not hesitate to invite you into their home. We were able to pray and bless many of these people.

Fredrick:

Home to Home Evangelism

We all gathered at the conference venue ready for women conference facilitated by Caroline assisted by team from USA and all men formed three groups to go into different village homes for home to home evangelism.

Home To Home Evangelism:

1. We entered into the first home and we find a lady who is the owner of the home she was outside washing clothes when she

saw us, she surprised to see unexpected visitors, we immediately explained our purpose of the visit she then gladly invited us into her house, we asked her if anything needed prayed for and if she born again, she told us that she was born again, but she wasn't feeling good, for she had chest problem, her children are sent away from the school due to lack of school fees, she us to pray for her healing and that God may open a door her children to back to school.

2. As we came out the 1st home heading to the next one along the road we met a woman she was on the way going for women's conference, we stopped her and greeted her, then one of the team explained to her about our mission, she asked us if we could pray her chest it was very painful and heart was beating unusually she also had breathing problems, we all laid our hands on her and prayed in agreement, and her face brightened up and put on a smile, when we asked her how she felt, she said I am healed and she thanked the Lord for the healing.
