Mission To Kenya, Africa

Sunday Morning Service and Evening Crusade at Ndalu

Tony:

Thanks to all for your prayers! I would need to have a computer for a brain to remember all that God did today. In the AM we went to the the first official service for a new church. They had been meeting in a home, but this Sunday was their official beginning held in a school. It was so beautiful outside that we decided to hold the service out under a big tree. There were many children and all of them participated in the praise and worship with great enthusiasm. After worship, I again asked for the people to lay hands on me for impartation. I really want what they have. Such humility and such RHYTHM. After we gave a word on the importance of God's Presence, we released words of knowledge. There were probably 50 people there and 40 came up for prayer in response to the words.

I love it when the children come, they are so sincere and honest. Everyone that came for healing prayer received a miracle. I will tell you of a few I can remember.

- A lady whose heart was beating very fast and was very painful. She had been suffering for years. She received instant healing.
- A man with a chronic cough and congestion in his lungs for 3-1/2 years and had very bad vision was instantly healed. He gave praise to the Lord.
- A lady with problem for 6 years with a burning every time she urinated. She felt the power go in her and checked it out and found she had been healed.
- A young girl could only see a few feet in front of her. She could not see anything at a distance. God was so awesome as

he opened up her eyes and she saw perfectly. Her mother was ecstatic.

- A man whose head was so dizzy and thick that he couldn't even think. He was really excited and the power of God came upon him and he became stabilized. He said now I can think clearly.
- It was so precious to see the children say after confessing their healing that they will be serving the Lord the rest of their lives.
- Many with stomach, head and back problems- all instantly healed.
- A little girl who had difficulty walking. Something disabling wrong with her leg. As she jumped up and down, she said "I have received a wonderful healing!"
- There were students at a boarding school on the other side of a fence that were listening to the message and asked that we could pray for them. We went over to the fence and I got to pray for a teenage girl with malaria. She spoke good English and said that all symptoms disappeared and she felt very good after prayer. Immediately after that the rain started pouring and we had to leave.

Harvey aka Moshe:

Today was another action packed day. We went to a little church that was at a primary school. There were actually five churches there but we only were at one of them. Worship was good as usual then P. Tony gave a message and it was words of knowledge and prayer. I had words for chest pain, right foot and itchy back. I got to pray for back pain, chest pain, headache, eyes, and cough. They all got healed. Yea God!! I also had one salvation. There was a high school beside the place we were at and some of the students wanted prayer, but were not allowed to come over where we were

at. So we went over to the fence and prayed for them. P Tony, Vee, and Caroline did all the praying as there were only about four that came for prayer. Again God showed up and all were healed. Thank you Thank you to all of the prayer warriors. Later

Fredrick:

The church we visited began late April this year as a home group, with two families, which has grown to 30 members since then, today it was the first time day the began fellowship at the primary school.

The service began on a slow note at about 10am by 11:15 the attendance had grown to a big sizable number of congregation; the Presence of the Lord was there, I was asked to usher in the man of God Pastor Tony, before I invited him on the stage I introduced the USA team with their African names.

When Pastor took over the meeting, he began with the prophetic Word to the local pastor Emmanuel, the Lord had showed him two tornados the first one was to clean the pastors life and the ministry while the second one was to raise his standard spiritually, the second prophecy was for a young man by the name Isaac who an upcoming and powerful praise and worshipper. Both prophecies everyone agreed with them as a Word from God Himself.

Pastor Tony called the team to come forward to receive the praise and worship impartation from the church by laying on of hands. In his message he spoke much about the relationship between a believer and the Holy Spirit and the response was so good, that when the team was called upon to minister through the Word knowledge many people responded by coming forward to be prayed for.

Children:

The most amazing this was the response of children, many of them came forward in response to the prophetic, they were prayed for

and got instant healings, they were given opportunity to testify, with a lot of courage without fear they stood before people and gave their testimonies on how they were sick and now Jesus has healed them. (kids don't know how to say a lie).

Adults:

Many adults were also healed and received, deliverance from various areas in their lives. Many had malaria, fever, stomachaches, backaches and dizziness, all were healed.

Vee:

The morning service was a blessing in itself. The weather was perfectly cool balanced with beautiful sunshine. As we were dancing, I bonded with a few of the little girls about 7 or 8 years old and they all wanted to hold on to me. I then had one of the young women impart to me the gift of their praise tongue and she got blessed as the Holy Spirit dropped me like a fly. So Cool! Then as I saw Harvey standing behind our team, praising, I decided to impart my dancing heart to him without his knowledge. Before worship was over, he was dancing. He had not danced at all since we were here, not that I know of. He says he usually just sits in God's presence. Go Harvey! Then it was time to pray for others. I got a young lady with chest pain and irregular heart beat. The Lord healed her and she was so blessed, she was praising God. Another came with irregular heart beat and she was healed. She said she felt something expanding deep inside her belly and moving through the chest. One came with leg pain and received healing and I was blessed with this one as I felt the anointing coming over the leg and felt it shaking. This is something I've noticed happen on more than one occasion. Thank you Jesus! We also prayed for some school children after service across a fence line. One girl had malaria and was feeling sick and achy. She received healing. There were a couple of others who wanted prayer for the educational exams and so we prayed blessing and

knowledge retention. I'm sure they were pleased and will give God the Glory when they pass.

Caroline:

This morning we went to a new church that started. It was in a location of a couple of schools. Children here really want to go to school in Africa, unlike America. Parents feel very bad if they are unable to afford to send their children to school. Many children and young people want to ask you to pray for their studies and their exams. They all want to be successful – it is their way out of poverty.

During the time of prayer I prayed for a lot of stomach problems, female problems, headaches and eye problems. God healed everyone who came for prayer.

Evening Crusade In Ndalu

Fredrick:

Praises were powerful, it had just rained we did not expect many people to attend, to my surprise during the praises people came and some of them opted to stand by far to watch what was happening. Pastor Tony gave a brief and powerful Word then he asked the team to come forward to minister along him in the Word of Knowledge, those whose needs were mentioned were asked to come forward to be prayed for, when the first person who was prayed stood and testified what the Lord had done to him, the rest began to flock in even those who were afar began to draw near want to be ministered to.

Testimonies:

- A Youngman was operating under the spirit of suicide came forward for prayer, his father died 6 years ago and he was left with his mother whom the are not in good terms always, recently he tried to commit suicide by taking poisonous

staff(insecticide for plants), he was rushed to the hospital where he got some help. I led him into deliverance through confession; renunciation and repentance in the process the power of God came upon him and got slain on the ground. When he woke up I asked him what was happening to him while in trance he told me that he saw people came over wanted to kill him and his stomach there was a great war that was going inside.

- A woman who had pains all over her body, she had severe headache, chest pain and her legs were burning inside she could not support herself properly, she managed to reach the prayer line, after prayer the Lord healed delivered from all the sickness. She wore a very bright face thanking God for what he had done to her.
- A man came to me and told me that he is born again, and he feel he has a call to serve God but he does not know in which area he is being called into, he wanted to be prayed for so that the Holy Spirit may reveal to him what where to serve in the Kingdom of God. I laid hands on him and asked the Holy Spirit to show him the area of his calling and then I thanked Him for His faithfulness after saying amen, I saw a smile on his face, I asked him what is it? He said to me, while you were praying for me I saw myself in a vision reaching many people by going home to home praying for them and some being healed. We both thank God for His faithfulness.
- Asthmatic woman came to me, she could breath with a lot of hardship, she had been in this kind of problem for many years, I rebuked the spirit of asthma and asked the power of the Holy Spirit to cover her with His warmth, after prayer she told me that she had never felt the she was feeling and believe the Lord has healed her, because she now breath with a lot of ease.

A woman had so many things she wanted us to pray with her:-

- She had a painful chest, backache, stomachache and her legs her also painful
- Her two eldest daughters have had bad marriages that has forced them to, leave their matrimonial homes and she felt that there must be something wrong spiritually in the family.
- She also wanted us to pray for one her grandchild who was short sighted due to sickness.

Prayer:

We prayed first to the daughter then we laid hands on the mother for the healing of her body, when we asked her on how she was feeling, she was very happy because all pains had left the Lord had healed her, she laughed until we could see the December teeth.(last dental formula teeth).

As we were leaving she followed us shouting as she said, I want to shake your hands before you go away we stopped she shook our hands and gave us some money Ksh.50.00 we thanked her very much, later we showed the money into local pastors kitty.

Caroline:

The crusade went well despite the rain we had the beginning. After words of knowledge were given people slowly started to come up. It seemed that others just held back for a while to see what would happen to those who came up for prayer. After a while more people started to come up.

I prayed for a lady with itching and discomfort in her private parts (I believe that it was a yeast infection) but I believe that she was healed. I also prayed for several people with headaches who were healed. I prayed for a lady with pains in her chest and after prayer she was healed. There were also about three salvations prior to God healing them.

We were told by some of the pastors that people in the village were surprised to see white people. God used this to give favor to the

pastors with the people. We never know how God is going to work, it is always more than we ask or expect. Praise the Lord.

Tony:

We arrived at the market area of this small village and worship had already begun. Normally I will come up behind the children praising and dancing and put my hands on their shoulders and they will scatter. But in this place they smiled and laughed and I got to dance with them. It was a lot of fun and I could feel the joy of the Lord in our midst. There are some Kenyan believers that are following us on the crusade circuit that are great receivers and I so enjoy being around them. During the preaching I could tell the faith level was pretty high and the people were intent on hearing what I had to say. Most of them were pressed in close, like 3 feet away from me the whole time. When we gave words of knowledge, a number of people came before us. Everyone was being miraculously healed, very, very fast. As they were giving forth the testimonies over the microphone, I told the Pastor to announce to the skeptics what God was doing. He announced that the Presence of the Lord was there to heal and the people pressed in about 8 or 10 people deep. Mostly just wanting to see the miracles. The atmosphere was thick with His Presence!

- I saw MANY SALVATIONS tonight. It is so easy when they come for healing. Thank you Jesus!
- A teenage girl received Jesus in the morning and said that many demons had come out of her and that she really wanted to serve Jesus. She wanted to sing for Him. She was given a microphone and she sang and danced with the praise team. Wow, you would have thought that she had been singing and dancing for the Lord for years.
- An older lady who pushed thru the crowd near the end of my preaching, came near me and fell to her knees and was crying. It was real clear God was touching her. She got up for prayer and had bad head, stomach and back problems and was instantly healed.

- A lady came with baby strapped to her. She had rashes all over her body for many years. She had gone everywhere to get treatment and no one could help her. She was in much pain. As she gave her testimony she was overwhelmed with what had happened to her, someone grabbed her baby as she busted out in tears of joy. She told of how she was instantly healed.
- A man whose father had died and his mother cursed him was possessed of demons. He came to Jesus for help, first to be saved. As he received the Lord, Holy Spirit came upon him with power and he fell to the ground and was delivered soveringly. He spent much time on the ground and got up totally free.
- A young man who had an accident and damaged his knee, was in constant pain every time he tried to use his knee for years. He was instantly healed.
- There were a number of people instantly healed of asthma. It is so cool to watch them take that deep breath that they had been unable to take. Thank you Jesus!

Harvey aka Moshe:

More great worship, a short message and then it was time for words of knowledge and prayer again. I had words for headache and left knee. I got to pray for eyes, headaches, backache, chest pain, and studies. I also had two salvations and two deliverances. They are fun because the interpreter does all the praying and I get to stand and watch God work. All that I prayed for got healed. Yea God!! Many thanks to all of the prayer warriors. Later

Vee:

It was a rough start as the rain had just poured out of the heavens and it got pretty cold. There were children in shorts, no shoes, and no jackets. My heart went out to them. Then the generator

wouldn't start and it seemed to take some time, but Victory was only a brief moment away. I realized then, the devil was scared and God had big plans. Yeah God!

Three of us received word of knowledge for the left knee, but no one came forward. We gave several other words and they began to move forward for prayer. I first prayed for 2 stomach aches, then a back ache, a headache, and then came the left knee. It was a joint effort for Tony and I, although really God did the work and we got to watch the work of the Lord and again felt the anointing shake over the knee as it was healed. It was a young boy who started stomping on it and then began a hop dance and then gave a testimony. Totally exciting! Praise the Lord!

Nancy (Mama Moto)

Everyone has pretty much covered the morning service. I love the afternoon/evening crusades. One of my favorite things is giving out the candy and toys that we bring. I didn't think that that was too spiritual, but the pastor from this area told us the next day, that in the village, he now has quite a following. People followed him all day asking where we came from and how we provided all the sweets. He said that he witnessed to each person he gave candy to. It was a wonderful tool. It is very unusual for a crusade to come to these small villages. Kinda like Billy Graham visiting our little home church! Even if they have seen white people before, it's usually not in their villages. I prayed for a lady of about 65, who had chest pain. After prayer, it had moved to her throat...OK, getting closer to the exit. After a little more prayer to tell that little demon he was found out, he left and she smiled BIG.
