Leader's Conference held at End Time Harvest Church

Day 1 of 2 day Conference

Tony:

A long, long trip getting here, but we have arrived. After a short fight with a giant cockroach my head hit the pillow and the next thing I know it is time to get up and go. I praise God for all of you that are interceding for us, thank you all.

Out to a bush area church for the Leaders conference where all different denominations have come together. The people here are very quiet and reserved, but I am told they came out of the shell this morning. I kept telling them what Holy Spirit wants to do thru them, but as soon as they began to see the demonstration of power with their own eyes, they really lit up. I was just going to give them an example of some of the ways Holy Spirit will lead them to pray for people and I just "thought" a bad right knee sounds like a good example. Then I looked around and was drawn to a man that I would ask to use as an example. Get this, the guy stands up and says "I have a problem with my right knee!" I am a Pastor and have struggling with this problem for years. Wow! Oh how Holy Spirit loves to set us up. He just wants the reality of His kingdom to be seen in everything. Anyways, I began to show how to pray and they guy says, "I am healed, my knee is perfect!" I had only begun to pray. It turned out to be an example of "instantly" healing. I asked how many others had a similar problem and some women came up. Much to this Pastor's surprise, I had him do the praying for the woman. It was awesome, as each of the ladies told of their stories of being in bad distress for years and all were totally healed. They told of how their life was made so difficult from their various damaged knee conditions. This time the teaching went on as different manifestations occurred with each person being prayed for. Wow, working with Holy Spirit is such an awesomely wonderful experience.

Having only two meetings to train these folks, it was cool to see how Holy Spirit orchestrated so much. Get this: We taught for only 5 minutes on word of knowledge, didn't even pray for them to receive them and immediately people were raising their hands saying "I have a word, Oh, I have a word!" IT was real obvious "The Teacher" showed up and taught these people what we never could. The words were all for physical problems in others that were in the building. And we think we HAVE to teach certain things before they happen! They would give it, pray for the people and all received a miracle. I stand amazed.

The same anointing that was released in Liberia, the "instantly" anointing, began immediately here! Wow, church, Holy Spirit is continually stepping up the release of the Kingdom of God.

Some of these folks were excited about getting out there and doing what Jesus did.

Some of what I saw God do:

- A young girl came for her vaccine shot from God. She had the flu, operative word being HAD as all flu symptoms left her body. She was so happy.
- A word was given for someone that had a big ole tumor on their tummy. A lady came up and I got someone that had never seen a miracle thru their hands before to pray. A man pastor prayed, put his hand on her hand on the tumor and we all watched it shrink and totally disappear in about 5 seconds. Glory to God! The look on both the lady's and the Pastor's face that was praying was one of total shock.
- A man that said he was so weak for the last 7 days he could hardly eat or get out of bed, but instantly after prayer, he said he felt so strong he could run a few miles in record time.
- A man for 10 years couldn't bend over to lift anything because of a bad back and now he is doing deep knee bends, to the Glory of God!

- A lady for two years her hand was paralyzed and remained lifeless. As she received prayer, pain started in her hand and moved up her arm. That tormenting spirit was cast out and she received total use back of her hand and arm.
- A man with very bad teeth and gum problems received a dental miracle and God restored everything in his mouth. Wow, was he happy.
- A man for two years suffering with arthritic pain in his joints all over his body. He was instantly healed and could move like “Gumby” now.
- A man suffering for last 2 years with ulcers was set free today. He felt they disappeared with prayer today.
- How about this: A man with kidney pain every day for two years miraculously healed today.

Fredrick:

Kenyans are very funny people. Normally, when you talk to them you would think they are not listening. They act like they are not into anything that is going on. But today, a miracle happened, the people were responding and really into everything God was doing. It was an absolute miracle. They talked, they responded, they cried, they laughed, they shouted, they got involved, they participated, oh my, what an awesome day!

A woman was paralyzed on one side totally for some years. She came up pulling her leg. She got healed INSTANTLY after prayer. Now this is amazing. I looked at her dragging herself up, seeing the pain and struggle for her to do anything. Seeing the look of distress on her face and then God comes and all that is GONE. How do I explain what I have seen? Do you understand, this lady’s life has just totally changed for the better because she was touched by Our Living God!

A drunken man came into the meeting (he was a village elder). He was told by his wife that he better get to the meeting. He came up for prayer for serious kidney

problems. He couldn't bend at all. He was shocked and instantly got sober and instantly was totally healed. It is quite a sight to see a slobbering drunk man get totally soberized in a second! What a mighty God we serve!

Concerning the young girl that came in bad sick with malaria that Casey prayed for. She was told to take her daughter to the hospital quickly. That if she didn't get her to the hospital she would definitely die. She heard about this meeting and felt that God would move on her daughter's behalf and would save her the need to go to the doctors. So she brought her daughter to the meeting. The mother and daughter were so happy as tears ran down both of their faces, overwhelmed with the awesome thing God had done.

Casey:

Our first morning was great. We are at a small church out in the bush, but that didn't stop the Holy Spirit from showing up. Tony and I were talking on the long plane ride here and we asked each other if we thought if we were going to see instant miracles like we had seen in Liberia. We prayed we would and this morning our prayers were answered. Everyone that came up for prayer was healed instantly. Oh, I can see we are in for a good trip.

The local pastors did most of the praying this morning so I only got to pray for a few. The first one was a small girl that was suffering from malaria. After a quick prayer I felt the fever break and her body temperature drop. She was now cool to the touch. Her mom asked her how she was feeling and she smiled and said I feel ok.

The second one was a pastor that was having pain in his tongue. It was all cracked and looked like a bunch of holes all over his tongue. I prayed and at first all the pain didn't go away so I prayed again. He stuck his tongue out and said the pain is all gone and all of the cracks were also gone. It looked normal now. He said that he was suffering from this for over two years. I kept watching the rest of the meeting it was fun watching him as he kept sticking out his tongue and kept looking at it as if what just happened? The rest of the ministry time the local

pastors finished praying for all the others. So you could say we had a great morning. Now we are off to lunch and to rest up for our crusade this afternoon. Thanks to everyone praying for us. Blessings.
