Sunday Worship Service held at End Time Harvest Church, Bungoma

Fredrick:

A young lady that came for prayer and she had a bad back. She had visited doctors for the last 2 years but has become worse and worse. I prayed once and nothing. The second time she said it is better. The third time the power of God really came upon her and she hit the floor. I waited while Holy Spirit worked on her until she got up. When she stood, she bent, twisted, and did what she couldn't do for the last 2 years. She said, "I have received my miracle, praise God!"

A man had a tumor in his stomach. It stuck way out from his body and it was very hard to the touch, like a baseball. The first prayer we felt it get soft, like jelly. We prayed again and we WATCHED it completely disappear. All of his money spent on trying to be fixed, but only Jesus could do this!

Many had a problem with their head, back and stomach, neck and all sorts of things and EVERY one said they were totally healed!

A lady that was in so much emotional pain. She was torn up on the inside for many years and living in torment. We prayed, Holy Spirit came and delivered her and it was wonderful to see her lift up her hands unto the Lord, with tears of thankfulness pouring down her face for her deliverance. Years of inner turmoil was gone in a matter of moments. Our God is so lovingly powerful!

A baby that had a very high temperature was brought by her mother. When I laid my hands on her head, the fever INSTANTLY left and we could feel the cool come. The face of the child changed and momma knew her baby had been healed.

A man came and had a problem with his eyes for the last 1-1/2 years. Could not read and at night could not sleep because of the terrible pain. The eyes were very

red. I prayed, the redness instantly left his eyes, the pain instantly left his eyes. I said, let us check your eyes for reading. I got out a Bible and gave it to him. It was small print. He read it perfectly and quickly. He rejoiced as his eyes have become new!

One of the church elders has had pain at the back of his neck for a very long time. He said he was prayed for before without any change. But today, he was instantly healed. Glory to God!

Tony:

What a great morning of praise and worship Kenyan style. I had forgotten how they all look like they are hooked up to a power cord while they praise God, especially the children. The sound of whistles and that high pitch chirping they do can only be experienced to be understood. It is so cool, praise God!

The people were super intent on the message today, just hanging there as if they were literally being fed food.

Again we gave a brief explanation of words of knowledge and the people started getting them. So, off we go, the people praying and the miracles quickly following. What an awesome sight!

A woman that had been tormented night and day for years, physically, spiritually and emotionally stood before me. She said, "I want this Holy Spirit you have been talking about, please ask Him to come to be my help!" OK, He came upon her and cleaned house. I stood back and just watched a beautiful Divine deliverance by the Head Deliverer. Her arms were lifted up in praise as a steady stream of tears came, evidence of the healing that was occurring. After awhile, I asked her what had happened and she said, "I am totally free, it has all left me, I am free, Oh God, I am free!"

A lady brought her son, maybe a year old. She said that her son has a tumor. I asked her where. Then she proceeded to show me on the little boys private parts.

She put her hand there and said “pray!” Ok, I prayed and the little guy got everything restored. Oh my!

A man said that for the last 2 years his life was impossible. He had constant itching and pain and burning in his eyes. And on top of that, he was almost blind. Every night around midnight he would wake up and not be able to go back to sleep from the pain and itching. He said that this morning during the preaching he felt something begin to happen in his eyes, the burning and itching stopped. He said, “I know that if I go for prayer I will receive the total miracle.” He came for prayer and instantly his sight returned to perfect. He could read and see perfectly. His eyes were total red before prayer. After prayer they were total normal. Yea God!

Another man had rotting teeth and they needed to be pulled. He was in constant pain in his mouth. He also had damaged his foot and could not take one step without pain for years. After prayer, he got a dental miracle and his teeth and gums were restored and felt like new teeth. His foot was also healed as he jumped up and down on it to demonstrate what God had done.

Casey:

Wow the morning church service was great. The praise and worship was so good even if I couldn't understand what was being sung. No matter I got it in the spirit. After the message we released a few words of knowledge and got right into praying for them. The hunger here hasn't gone away and they are still pressing into the Holy Spirit. I prayed for several people that were having stomach pains. All of them received total healing and said they felt great now. One of the men that I prayed for was having a problem with his throat. I'm not too sure what the problem was, but he said he had this problem for a long time. He was having a hard time drinking and eating. After a short prayer his throat opened up and all the pain was gone. He was very excited he said he was going to go eat something. When we were going to give out words of knowledge I received a word for a lady there but I didn't get to give it out. When the service was all over this woman

came up to us asked for prayer. She said that she couldn't ask earlier for whatever reason, but she is asking now. She said that she couldn't have children and her husband and she would love to have a child. So we prayed for her and now all we can do is wait. Nine months right? We have seen God do this before why not again. After church we went out to lunch fish and chicken yum. Thanks to everyone praying for us. Blessings 😊
