Leader's Conference held at End Time Harvest Church

Final day of Conference

Tony:

Thank you intercessors. Keep it up! There is such a wonderful move of The Spirit here. This was another one of those days that would be totally impossible for me to describe. It was such a wonderful orchestration of Holy Spirit. The way HE led the teaching , prayer and impartation time was awesome. Prophecy was just flowing into all parts of what was happening.

About half the building was filled with Church leaders coming for the training; the other half was people that heard that Jesus was healing here. And the crowd kept growing on the outside. When we got to the time of impartation prayer we had the pastors come first then the others. We knew when we got to the lady that had open wounds all over her legs that we were at the end of the impartation; it was time for healing prayer. There were probably about 80 people that just kept coming in for prayer. At that point we called the pastors back up to use their impartation. They were having a blast and really going after it, here are a few of this morning's testimonies:

- A Muslim girl just walks in and comes up for prayer and says, "I want Jesus in my life, right now, my aunt was healed by Jesus and I want Him too!"
- A pastor said that when he received impartation prayer he was taken into the spirit and a cloud came from heaven and rested upon him. When that happened he just fell to the ground. While he was on the ground he felt waves of power coming upon him and knew that the anointing he had received was great.
- I really felt moved to go to one of the pastors and just hug him. As I did that he grabbed hold of me and wouldn't let go. He later told me that while I was hugging him he went into an instant vision. He said he saw a big field

and he went to stand in the field. When he did that he felt great strength in his feet. That strength started up thru his body and moved all the way up to his head. It was so powerful he said. He felt as if he was drunk and the power of God kept coming upon him. And said even now, I feel that great anointing!

- A woman that couldn't walk on one foot. She could not even put on a shoe. She brought her shoe with her because she knew she was going to be healed. She got healed and put on her shoe with no pain and jumped up and down.

Fredrick:

A great training day today. So much was accomplished in the Spirit. These people have really got it. They stepped thru the door into their inheritance.

There was a young girl about 18 years old that came for prayer. She said she had a problem that she wants to steal things that don't belong to her. She said there is some force that is compelling me to do that. I asked if she wanted me to command those spirits to leave her. She said yes. I began to pray and the power of God hit her and she hit the floor. When she got up she said that she could no longer steal, that God had not spoken to her. Her entire composure changed. She went from a grey complexion to a very bright pink one.

An old lady came and said that she could hardly see at all. Not even enough to get around. I put my hand on her and had this strange impulse to use my free hand to turn an invisible crank and turning it and as I did that I said, "increase the light!" and turned some more and said it again. Every time I did that she would say, "I can see more, I can see more!" It was a strange experience but she received PERFECT sight! Hallelujah!

A woman said she was feeling a very severe headache. I asked her how long, she said most of her life. She also said there were wounds on her tongue and she couldn't swallow saliva or eat. We prayed and she said the headache was totally

gone. I asked her about her tongue and she stuck it out and felt it with her finger. It was perfectly smooth and just like a new baby's tongue. She was so happy. What a miracle for her.

A lady had bad ulcers. I laid my hands on her and she received INSTANT healing. She felt something leave her and all pain was gone.

A lady had a back problem going down into one leg. Again INSTANT healing.

A man had a chest problem for many years. He was vibrating expecting his miracle and he got it.

Part of the teaching today was on deliverance and there was a lot of deliverance that happened today. Only eternity will tell how much freedom came to us today.

Here is a strange miracle: There were two sick pastors that were lying under a tree outside. When the sick came up at the end I went out to those pastors and told them to get in there and pray for the sick. They did. Later they gave testimony of how everybody they prayed for received a miracle and in the process of praying they got done and realized that they too had been healed. Glory to God!

Casey:

Ok this is not going to be easy. Why you ask? How would you define the Glory of God? Not too easy huh?

The morning training session was one of the best teaching sessions I have been in. we didn't have enough time to give the pastors the whole teaching so Tony just flowed with the Holy Spirit and let it rip. It went so smooth and everyone understood what was being taught right away. I really think there is something to this. After the teaching we had them pray with each other setting each other free from strongholds. That was great to see this happen and to know they got it. When they were done we started to pray for impartation. From here on out is when things get a bit foggy. The power of the Holy Spirit was flowing so strong

and I was getting so many prophetic words, it was crazy. I don't think I ever got so many words in any one meeting it was great. The best part was they were totally receiving every word and just soaking it all up. Several of them ended up on the floor for a very long time and when they got up they were still in a stupor. They said there was a heavy weight on them and they couldn't move even if they wanted to get up. Get 'em God! The glory was still thick when we switched over into praying for the sick. This made it very easy and yes, they were instantly. I love instantly. The first lady I prayed for was blind and as soon as I touched her eyes she rocked back and shook her head. Next came "I can see" out of her mouth, I didn't even pray I was just getting ready and bam there it was. All the body aches and pains were the same way God was just in the house. I had one of the local pastors start to pray now and wouldn't you know his first person was blind. He looked at me and said "no you pray." Me? You got the impartation now it's time for you to test it out. So he placed his hands over this woman's eyes and gave it a go. For his first healing prayer he really got blessed. The woman got her sight instantly. This pastor was so excited and needless to say he finished praying for everyone that came up to us. Thank you Jesus for what you have done. Thank you to everyone praying for us. Keep it up, it's working, it's working. Blessings 😊
