Day 2 Leaders Conference

Holy Ghost Ministries Building and Open Air Crusade

We have combined both the morning conference and the evening crusade because they ran together into one meeting with no time in between

Tony:

Again, we cannot thank those interceding enough. There has been an atmospheric change, so the people say. They tell us the word is going out to other villages that Jesus is here bringing healing and that the ministers are just touching people very lightly and there is no screaming and blind eyes are opening instantly.

They want a lot of teaching here, they cant seem to get enough so out she comes. With our goal being to fully impart to the pastors and leaders so they can impart to the people, we gave over the prayer at the end of the service to the pastors. There are many people just jamming the back of the church and outside waiting to get prayer with all kinds of disease. The crowd is swelling everyday.

The only morning prayer I was involved in was with Casey for a deaf boy. Casey tells the story below, but please try to imagine for a moment. This mothers boy was born deaf and dumb. He has never been able to hear or to speak to his mother. No doctors or hospitals have been able to help him. The mother has spent all her money on doctor bills. She hears from another village many miles away the Jesus is visiting with healing. She borrows enough money to get transportation to the meeting. She waits until the end with the hope that we would be praying today. She has never seen a healing miracle, but she has heard about them. She watches as hands are laid on her son. When he motions that he can hear, we tell momma to call to her son. She does and he turns and motions to her that he can hear her. He speaks the first word, JESUS. Tears run down her face as the reality of what Jesus has just done hit her.

Here are some testimonies that I heard from the pastors that were praying:

- A man with two years of suffering with burning all over his body was Instantly healed
- A lady that was brought in that couldn't walk and had extreme difficulty breathing was healed Instantly
- WOW, I LOVE THIS: A lady that has not been able to wear shoes for years due to disease and pain in her feet came to the meeting today with a pair of shoes. She was fully expecting that when she got prayer her feet would return to normal and she would walk out with shoes on. She was prayed for, her feet shrunk to normal size, all pain was removed and she put on the shoes and stood before everyone and gave testimony of what God had done.
- A number of people with very bad eyesight were all miraculously healed. One man said he not had very poor sight but he constantly had stars in his eyes, whether they were open or closed. He received Instant healing.
- A man that was unable to use his hand for years and has been out of work due to it being paralyzed. He received Instant healing.
- A woman that had both of her legs paralyzed and was carried to the meeting. Immediately after prayer she jumped in the air and rejoiced for her miracle as she was now able to walk and run.
- A woman with tumors all over her body, especially on all her joints which made her unable to move her joints without terrible pain. We watched as the tumors disappeared one after another. She was going crazy as she felt all over her body and could no longer feel the tumors. Wow, was she a happy lady or what.

Evening Crusade:

The people were really open during the preaching and I could sense the anticipation in the air again. We gave one word of knowledge for THROAT AND CHEST PROBLEMS. Up came the people. Now look at what the conditions of these

people were that came up. Normally, we would only begin by praying for those specific words, but I sensed the compassion of Jesus to heal them all, so ahead we went. As I am out of time, I will give a short summary and my favorite for the night: These are just the people that came up on the platform, there were hundreds more that got prayer down on the ground. After the first few miracles, we had Fredrick give an invitation to those that were being moved by The Spirit to receive Christ. Hundreds came running forward. I will never stop being amazed at the awesomeness of His Glory.

- One blind lady after another. ALL healed very quickly.
- Three deaf people all Instantly received their hearing.
- There were kidney, back, stomach, heart, crippling diseases, leg and shoulder problems. Every one of them Miraculously healed. What we saw on the stage tonight was miracles, everyone got what they came for when we prayed.
- Here is my favorite: An older lady was brought up to the stage by her daughter. She had to be supported under her arm by her daughter and she herself used a cane with the other arm. The lady was bent over and in a lot of distress. Her daughter told us that she had severe stomach problems, crippled legs bad enough that she couldn't walk on her own or even support her own weight and she was totally blind (pitch black) for the last 10 years of her life. The daughter said, please help my mother. We wanted to begin with the stomach, then the legs, then after she had seen the loving power of God in those areas then we would pray for the eyes. We prayed quickly for the stomach and legs and while we were praying her bend over back shot to an upright stance. We asked how she was doing and she said I am healed. We said ok, lets see. We told the daughter to let go of holding up her momma and to take away her cane. Then we told her to start walking. Well, off she went. Wow, it was like a family reunion. Then we went for the eyes. First prayer, she said, I can see light. Second prayer, she

said I can see people. Third prayer, she said, I can see two white men.
Glory, Glory, Glory to God!

Casey:

This morning after the training session, we again prayed for those people that showed up just to be prayed for. We had the pastors do most of the praying but there were a few they didn't want to pray for so they sent them to us. One of them was a young boy that his mother brought from a different village. She heard that Jesus was healing in Bumbo so she brought her son for healing. This boy was deaf and mute since birth. We prayed for him and nothing moved at first, so we prayed again. This time he started to hear just a little bit. We prayed again and checked his ears to see if he could hear. I think he was too interested in staring at the white guys so one of the local pastors came over spoke into his ear. The little boy jumped and was startled because it was the first time he was hearing. Then the pastor had him say Jesus and for the first time he spoke. The mother was so excited the long journey from her village was worth it. We saw all kinds of healings this morning through the pastors and the other team members.

During the crusade when the people came in response to the words of knowledge, we had them come up onto the stage for prayer. After the first few we noticed that none of these people had any of the problems that the words were given for. Oh well they all just want to be touched by Jesus and receive their healing. So we prayed anyways and they were getting healed instantly. This one lady was brought up onto the stage was almost blind and had to be led around by someone. I placed my hands over her eyes and prayed and when I removed my hands she was seeing perfectly. Instantly she was healed. We prayed for another young boy that was deaf and mute and his ears were instantly opened so the pastor had him try and speak. He opened his mouth and for the first time he was speaking. The boy just smiled, he was so excited to hear his own voice. We had another young man come up who was deaf in his left ear. After prayer he too was instantly healed. Another old woman was brought onto the stage that was totally blind, almost deaf, stomach pain, and knee pain. She was even crippled over and couldn't stand up straight or walk without her stick. I was taking video for this

healing so I got to watch this old woman get totally restored. I even got this on tape. I will let Tony give all the details on this one. Last I prayed for this woman with her baby. The baby was sickly and even had a fever. During prayer the baby fell asleep and the body cooled right down to normal. The mother when she went to give birth she had to have a c-section. She said that she never healed and was still in a lot of pain. I prayed for her and she started to shout out the name of Jesus. Then tears began to fall down her cheeks so I asked her what was going on. She said I feel the wound closing and all my pain is all gone. I said praise God and she replied do you want to see? Hummmm I don't think so I'll take your word that you have been healed. What a great night thank you to everyone that is praying for us. Blessings 😊

Fredrick:

The morning service was very powerful impartation to the people. At the end we had the pastors do most of the praying for all the sick people that had come and were waiting at the back and outside of the church to receive healing.

The evening crusade began very powerfully. As the miracles were happening up on the stage for all to see I was instructed to give a call for salvation. Many, many people came for salvation. There were hundreds of salvations. My God, it was awesome!

In the am a woman with cancer we had prayed for the first day came and said she has had the best sleep she has ever had in many years, but still had a few pains. After prayer she felt she had INSTANTLY received total healing.

A woman had a miscarriage last year and she was bleeding from that time until now. I prayed and she said she was INSTANTLY healed.

A old woman had tumors all over her body and all the tumors disappeared and she was totally healed.

A woman came with pains in her bones and said she had been having a problem with her nose. Her nose was completely closed off for years and has only been able to breathe thru her mouth. You could see that there was total closure of the

flesh in the nasal cavities. I prayed once and there was a little movement, the second time we watched the nasal passages completely open up and she was breathing thru her nose fully, glory to God!

An old lady retired teacher came and all her body was paining all over. She also had one side of her leg with very severe pain. The pain moves from one leg to the other constantly. We prayed and no response. The sickness just kept moving all over her body. I moved to deliverance mode and I led her thru deliverance and she renounced all the negative words she had been speaking about herself. She then received total healing at the moment.

Many responded to Emily's word of knowledge and they all received INSTANT healing.

During the crusade I prayed for an old lady. She had head, back and all over body pain. I prayed 5 times and she didn't respond. I then went to deliverance and was shown that she believed she was going to die and was making that her confession. She went thru deliverance and then INSTANTLY got full healing.

A young man came with congestion in his chest; it has been there for over 10 years. No doctor could help him. I rebuked the spirits and nothing happened and I asked him if he was saved. He said no, but wanted to be. As soon as he confessed faith in Christ, at that moment he received INSTANT healing.

Lots of children came that don't sleep at night. That all came at different times and all explained the same thing. They were all getting bad dreams. I asked the parents if they had named the children after dead relatives that were involved in the demonic. They had all performed certain rites that were demonic. The same testimony for all the children's family. I had the parents renounce what they had done and every one of the children got total INSTANT relief at that time.

I felt the anointing of Holy Spirit and when I felt that everyone I touched after that, whether it was stomach, head, legs, no matter what it was there was absolute total INSTANT healing and I felt the anointing flowing thru me. WOW!

A mother brought an infant that was being tormented at night with demons and I prayed and the child looked like it was calmed and the mother said she could feel peace.

I had a dream of a boy that asked me to remove the foreign object in his throat. A young boy came up to me and said I have something in my throat, can you take it out. I looked in his throat and saw something in there but decided to just pray. I did and he said it is gone, it is gone.

A woman came with a kidney problem and a stomach problem that keeps coming and going, I prayed and she was INSTANTLY healed. Glory to God!

A man came with a severe headache, I prayed and it was INSTANTLY healed.
