

Mission to Africa, Bumbo, Uganda, Friday, February 19, 2010

Open Air Crusade at Bumbo Market

Tony:

I will start with the end of the night first (after the crusade). About 15 of the local leaders, lead by the regional leader and governmental official came to have a meeting with us before we went to bed. They expressed their gratitude and told us that this ministry is the one they have been praying for. They told us of how this fire will spread and it has already ignited the people in the streets of Bumbo, but will spread throughout the mountain. THEY TOLD US OF HOW PEOPLE THAT HAVE BEEN IN THE TRAINING SESSIONS ARE PRAYING ON THE STREETS AND SEEING MIRACLES RIGHT NOW. I stand amazed at what God is doing. This truly is another land prime for the harvest.

Tonight was another great night. We can never understand what God is doing by the looks of the size of the crowd. It began smaller tonight. By the end of the night the crowd had tripled. Casey had fun up on the platform tonight while I blended in with all the people out in the crowd. I started hooting and hollering and the kids picked it up.

There were many salvations again tonight. I was praying for someone on the platform and I asked Fredrick to give the call to those that would come and I turned just in time to see so many running to the platform. What a wonderful sight.

A lot of people praying tonight, there was so much going on I only know a small fraction of it. Here are a few of the testimonies from some folks I prayed for that came up on the platform in response to words of knowledge. Here are a few of them:

- A young man had an accident and hurt his body beyond medical repair. He had damaged his chest, perhaps it was broken ribs that made breathing difficult and his right arm was paralyzed. He showed it to me and it was like stuck in a bent position, unable to bend the wrist or fingers or elbow

or lift the arm. It was lifeless. We prayed and in just a few seconds his arm shot into the air and he was waiving his hand, fingers and arm unto the Lord. The chest problem was instantly cleared up. Hallelujah!

- A lady stood before us with stomach problems and knee problems that were keeping her from moving other than at a snails pace and with great pain. She also had hearing loss and constant pain in her ears. We prayed for the stomach and legs first. She was quickly healed and her faith went thru the roof as she tested out her miracle, jumping on the stage and rubbing her tummy to see if she can find any more pain. Then the ears were simple, she was ready for that. Quickly all pain left her ears and the they were completely opened.
- Headaches- an easy thing to handle in America, right? Just grab your favorite pain medication and wait for it to work. But what if there were no drugs, doctors or hospitals available. That if you wanted to get to one you would have to find a vehicle and drive for at least 3 hours. By the way, we only saw a few other vehicles in this entire village. So, the next lady stands in front of me saying she has had what sounded like a migrane every day for 3 YEARS and her chest has been paining her for the same time. The look on her face of being in agony. We prayed and BAM the pain was gone and she just stood there is shock. A very good shock.
- We have had many deaf mutes healed on this mission. Many of them come, for some reason after dark. Normally, it is the Muslims that come for prayer after dark, but many of these children and adults were from Christian homes. It is just soooooo cool to watch this happen as they hear for the first time. Many times it has happened so quickly that we just want to ask them, “are you sure!”

Fredrick:

There was a school boy around 14. He said that if someone calls him from a far distance, he cannot hear them. I prayed for him, then I told him to get a friend of

his to go far and call to him. He did that, his friend went way far and called and he heard him.

While I was praying they came and called to me. They took me to a man that was the senior business man for the market. He does the taxes. He vowed never to accept Jesus. He was a traditional priest from one of the clans. In every clan they worship ancestral spirits. He always feared that if he came to Christ something bad would happen to him. Two days ago his brother took me to him and he told me outright that he is not interested in anything I have to say about Christ. So I took Tony's counsel and asked if I could just bless him. He said ok and I did that. I saw him today and I shouted his name and asked how he was doing. I went to him and asked if I could bless him again. He said yes. I embraced him and left him. Then when I was praying for people they called me and brought me to him. He said I need prayer. I said, do you want me to lead you to Christ, he said YES. Wow, the power of a blessing is most amazing! As he was standing there after we had made an altar call another man called to me and I went to him. He was the ruler of the market center here. He said everything here is under my rule. I asked him, do you go to church. He said yes. I said have you ever received Jesus. Do you have a personal relationship with him. He said no. I asked would you like me to lead you to Christ. He said yes. Wow. This market will never be the same.

Martin:

A lady that came complaining of a high pitch of the heart and a problem with the neck and right elbow also was so painful. As I commanded the pain to leave her. I didn't even pray yet and she said the pain has moved over to the other leg. The second time I prayed I was amazed to see the pain move and she said I am now totally healed.

Another man who was complaining of chest and when he breathes he has difficulty and has pain in the back. After commanding the problem to go , he started sweating. I asked what was happening and he said I am healed completely.

A lady who was complaining of chest and heart beat hard and kidney pain. I commanded the infirmity out of her. The power of God came upon her and she started just screaming and going round and round, spinning. I asked what was happening and she said the pain is all gone.

A man I began to pray for and he started moving all around as the Presence of God came upon him. I kept following him all around. After a while of running around, I commanded him to be at peace. I asked what was happening and he said ahhhhhh I feel so good, there is not more pain.

Emily:

A lady that I prayed for had a problem of bleeding for many years. I prayed and she said there was no more bleeding, that she could feel that.

A lady had stomach, head, back problems. She was healed Instantly.

A woman came that said she had a large tumor, down low under her stomach. She could feel it. We prayed and she felt it and said it was small, small. The second prayer she felt for it and felt it disappear. She said that he had not had a child since 1987 and she asked for prayer. She said because of the tumor she had many complications from the tumor. Her body had been real messed up. I told her to come tomorrow and testify about what God had done.

Casey:

Ahhhhhh, what a great night we had. We started out by handing out a bunch of candy to all the children, and if you have ever been to Africa you know this was no small feat. We got instantly mobbed by all these small hands grabbing for anything they could get their hands on. They didn't care what was being handed out. It was free so they wanted it. It's a good thing I'm bigger than them or I would have been in trouble. I stood my ground barley, but managed to pass out the candy as fairly as I could.

Again Tony had me bring the message for the crusade and I was wondering if I was going to make it through a message without any mishaps this time. I know I am still in training and I still have a lot of room to grow, but hey at least I'm going

for it. It was fun preaching tonight and there was this crazy mzungu out in the crowd jumping up and down getting the people around him all worked up and excited. Thanks Tony 😊. When I was finished I gave out some words of knowledge and called them to the stage for prayer. When I asked the first person what they needed prayer for again it was not for the words given. They all want to be prayed for so badly that whenever a call for prayer is given they just come. This first man was having chest pressure and he said he was having a hard time breathing. After a quick prayer he said the pressure was gone and he could breath freely again. Next I prayed for a woman that was in a lot of pain from stomach ulcers. She said that she worries about everything all the time. Good reason for ulcers hu? She was saved so I took her through deliverance and then prayed for her. Instantly she said the burning stopped in her stomach and the pain was gone. She said she felt at peace now Praise God. Then I got a whole slew headaches come one after another, and every one of them was instantly healed. There didn't seem to be as many people needing prayer tonight I think Bumbo is running out of sick people ha ha I love it. As we were getting ready to leave a group of kids brought up one of their friends for prayer. The boy they brought was totally deaf and mute. After the first prayer his right ear opened instantly and he began to look around hearing all the noise around him. I prayed again and the left ear instantly opened. This young boy was in shock and totally amazed at all the sound around him. I bet it was a lot for him to take in all at once. Now it was time to get his voice working and we had him place his hand on Pendix's throat so he could feel the vibration of the words being spoken. We then placed his own hand on his throat and had him say Jesus. Then came the sound across his own lips and he started clapping for joy. What a great finish to a great day . Thanks again to everyone praying for us. Blessings 😊
