Conference Extra Day and Final Open Air Crusade at Bumbo Market

**Tony:**

We give thanks to all prayer intercessors from all around the world that have held up this mission. We are truly grateful. The great victory we have seen is on your ledger book. May you all be tremendously blessed in all you do.

Our last day of scheduled ministry was non-stop from the extra day added on to the conference to the last crusade tonight, from what we saw and what we were told, it has been a tremendous victory for the Kingdom of God. They are already planning another area of Uganda to take for the Kingdom.

We just finished meeting with more church leaders that came to say goodbye and I don't know how this happens, but we feel like we have know them all of our lives.

The morning session was once again, led by Holy Spirit. There were great testimonies given, some teaching and then impartation service. There was no lack of power here today. Any words would be inadequate to describe what happened.

Off to the crusade where again there were massive salvations. A large number of people came at once and then one after another as they came individually for prayer. It was as if most of the lost waited until the last night. The first two people we prayed for on the platform took a lot of work to get healed and one of them was only partial. After that it was back to the INSTANTLY all the rest of the night. As one of our goals is impart and get the locals to do the praying, when I got to the third person to pray for, I shifted the lead for all prayer off to the lady doing my interpreting. That was the point where INSTANTLY returned. It was a clear statement from the Lord of what we are here to do.

There were many more people for prayer tonight. I think it was because it was Saturday night and the last night and all the sick people in the village that have held back knew they needed to come tonight.

There were literally hundreds of people with back, legs, head, chest and stomach problems that came and were healed. It seemed that after dark again, the deaf people came out to be healed and all but one we saw get it. Here are a couple of individual testimonies:

- This is my favorite for tonight: A drunken man came up to the platform. He said “I don’t want to be a drunk anymore, I want a new life.” He also said that he had been suffering with chest pains for years. We asked if he had received Jesus and he said no. We explained the He will be the One to set him free and to give him the power to stay free. He said, “well, that settles it, I want Jesus now.” At this point the man is still drunk and very loud and slurring his words and eyes all bloodshot and about to fall over. We helped him to salvation and he was happy. We then led him thru deliverance. Now this was way cool. As he commanded the demons bound and to leave him, his composure changed, he got sober, he started hooting. Then we prayed for him to be filled and all the pain left his chest and he was free. Glory!
- The man I prayed for the other night that was impotent came running up and said “I am so happy, I am healed, I have my manhood back, I praise God!”
- People that have come for prayer because they were not able to sleep due to demons attacking them, many of them this has been going on for years, are coming back tonight to tell us that all oppression has stopped and they are sleeping now.
- There was a 10 year old boy that has not been able to hold any food down for a long time who came for prayer earlier this week. They came back to testify that for the first time in months all food is staying down, no matter what he eats and his appetite is fully restored. Glory!

### **Casey:**

Where the heck do I start this report? Well, it is our last day in Bumbo and we arrived while it was raining and now we are finishing while it is raining. They say

here it is a great sign of blessing if you cross the border while it is raining. I would say we have been tremendously blessed for the week we have been in Bumbo. We all got to see the power of God move among this village and it will never be the same. This morning they added another session so Tony taught on dreams and we had a time of impartation. I have really come to love this time of the meetings. The pastors were getting blasted and they started to stack up on the floor. When we finished with the pastors we had a fire tunnel to pray for the rest of the people. Man I love fire tunnels and even more people were hitting the deck. This meeting turned into one huge praise party. Ahhhh, good times.

At the crusade Tony had Pastor Ogara and a local girl, and I do a skit. The skit was about Jesus and Him giving the authority to the girl and satan played by Pastor Ogara coming and stealing her and the authority away. It was a lot of fun wrestling Pastor Orara on the stage, but hey I got to play Jesus so he had to let me win. He made it look like I threw him off the stage and the crowd went wild. Then I went back over to the girl and picked her up and gave the keys of authority back to her. The skit went very well and it made it easy for them to understand salvation. We had a salvation call and several hundred came praise God. When we started to pray for the sick it was like we had to fight and really press in for the healings to come. This lasted for a little while, then it was like a switch got flipped and the healings started to come INSTANTLY once again. Again this ministry still remains to be a mystery to me. Tonight I prayed for several people that had headaches and nothing was moving, but a totally deaf mute man came to me for prayer and I prayed for him and instantly he was healed. I don't understand this at all, but I give all the glory to God. Another man came that was almost totally blind. He couldn't even see me standing a few feet in front of him. I placed my hands over his eyes and prayed. When I removed my hands he said wow you are a mzungu. His eyes were now healed. I don't think I have ever prayed for so many deaf and blind people that instantly received their healing. Thank you Jesus.

I prayed most of the evening with Pastor Martin's wife Pentrix, she was also my translator. We made a good team and I was able to coach her along with praying for deliverance for those who needed it. We prayed for all kinds of problems and saw everyone healed. This one woman who came was having pain in her feet,

knees, back, and her shoulders. We would split up the problems and attack from both ends. I normally got the lower end, the feet, knees, and stomach and she prayed for the top end. After we started to pray for this woman the spirit of infirmity started moving all around her body. It moved from her feet up her legs and from her head down to the waist. We met in the middle and BAM, the spirit left this woman's body. Nothing like teamwork to set some one free. Even though there was a huge salvation call almost everyone that came up onto the stage Pentrix led them to Jesus first before we prayed for them. This was an awesome trip and it is hard to believe we are now finished with all the ministry that we came to do. This trip was a total success. Thank you to everyone that held us up and covered us in your prayers. Blessings 😊

### **Pentrix:**

A woman came with pain in her knees and headaches. She said she has been having that problem for a long time. I prayed and she was instantly healed.

A woman that was blind for 10 years, totally blind got her sight and said "at last now I see what a musungo looks like!"

A boy came and a tribal spirit was following him wherever he goes, even when he goes to school. We asked if he was saved, he said no, but said that he wanted to be. I led him to salvation and led him thru deliverance. He said that he felt very nice, he was ok, delivered.

I prayed for lots of deliverance tonight.

A woman came complaining about her chest and her heart was beating very fast. We prayed and she got healed INSTANTLY.

Another boy came and said when he urinates, he feels pain. I looked at Casey and said, "YOU PRAY!" He said that he felt better but we told him to go and urinate and see what happens.

A man came when we are about to leave. He said pray for me I having stomach aches. When we prayed for him, Immediately he received healing. He was really getting touched a lot by Holy Spirit.

A girl came and she could feel something moving around in her head and shoulders. We prayed for her and thing went off and she said she was now ok.

**Fredrick:**

During the impartation, the power of God overshadowed me. From near the entrance of the door, there must have been an angel there. Everybody that was in that spot fell to the ground. God's Presence was tremendous in that spot especially.

At evening crusade, it seems like everyone I touched received instant healing. Mostly knee and ear problems and there were so, so many miracles. At the general call for salvation there were over 200 that came to Christ. There were also very many that came individually for salvation tonight.

**Emily:**

In the morning at the time of the impartation I felt in my waist my strength going out, I was nearly falling and I didn't know what it was. At the time I was praying for the pastors, they had opened their hearts to receive and I could feel a very, very strong anointing.

At the crusade I was feeling a very painful headache. At that time Tony was announcing that someone was feeling headache. So, I went up and prayed for another man with a headache and nothing was happening. We had to lead the man thru deliverance and then he received healing.

Another had everything wrong with her, head, chest, back, stomach and legs. I prayed and she received instant healing on the platform. More came with exactly the same problem. All were healed.

I was then called to come down on the field to pray for people that were deaf and dumb and blind. It was most amazing as I saw God heal them all.

I prayed for many, many children for help in school, for them to be able to remember what they are doing. Many complained of confusion, dizziness,

sleepiness and inability to remember in school. We prayed for many to be set free and their normal God given abilities restored.

A man that came and he had a small boy that was carrying a tiny infant. The infant was wrapped in a towel. I thought the child was dead. I asked the man, he kept saying pray for this baby, pray for this baby. I said where is the mother and he said she is a long ways away and very sick. I asked what is wrong with the baby. He said she cries all night long, very sick. I put my hand on the baby. I COULD FEEL THE POWER OF GOD MOVING FROM MY HAND TO THE BABY, IT WAS VERY POWERFUL! I don't know what happened after that as the baby couldn't tell us anything, but I know there was tremendous power going in this baby.
