

January 10, 2014 Mission To Liberia, Africa Foya Village

First Session Pastor's Conference

**Tony:**

Here we go! Surely, His Patience being released to us is essential to the kinds of things that happen on these trips. Really in all of life, but it is intensified out here on the spiritual front lines! Delayed overnight in Ghana, getting to the bush site of the mission a day late! Not really! We are right on time, right on God's time! How can we live any other way? He is such an amazing God! Thanks to all for your prayers. I have learned that apparent delays and obstacles just release greater Glory!

One of the reasons we are in this place is because of the prayers of Taya. She is a home based missionary here with Samaritans Purse ministry and she has been praying for a greater release of His Glory. Her plea for us to come to this place carried the weight of The Spirit and here we are.

After stoking the fires in these Church leaders, giving some demonstrations of power that Holy Spirit clearly and plainly gave to these folks, as everyone watched the healing prayer process. Now get this: when He had us transitioning into miracle mode, I had people with gum disease come up. There were about 8 people. As I started to question them, all but 2 had the problem removed since walking in the building, so we just agreed for it not to return. Too cool.

When we gave the invitation for any sick or infirmed to come for prayer, everyone came up! I had two pastors praying with me to drink deeper of this mystery!

I asked the first man what he would like prayer for. He said "I want the anointing! Now! My wife is at home, she is barren and not feeling well. I want the anointing! OK, so I imparted to him and he had this huge smile on his face and was staring at his hands. I said "go do it man of God, get your wife healed, her womb open and get ready to have a baby!" He bee lined out of the place!

Then some more pastors said "I want the anointing NOW!" Each of them said they were going to go and pray for people RIGHT NOW! And off they went! Hallelujah!

Then a whole string of pastors with sicknesses and ailments they have been suffering with for years, one after another Instantly Healed! A man with burning hot pain in both his thighs for years, nonstop. Gone! In Jesus Name!

One pastor when I asked what he needed, he said "listening to the teaching today, the thought came to me, Hey, my back has been bad for a lot of years, I'm just going to put MY hand on my back and pray, in Jesus name and see for myself what this guy is saying!" "You know what, he said, years of suffering disappeared in a moment AS I PRAYED! Please, impart to me right now, I must leave here to go pray for people. I have been waiting all of my ministry for this!"

So many said that during the teaching One of their sickness problems "JUST LEFT THEM!" and they were telling me of how amazed they were. I said, well that should make it easy for you to believe for the rest of your sickness problems, right! Sure enough, all healed! One pastor said he walked in the building having bad stomach ailments for many years, coming today in that pain. He said "as I walked in the door I actually felt something come out of me and it went out of me and out of the building!

What an encouragement to all of these Church leaders to have All their sicknesses and pains removed. It will make preaching the gospel of Healing so much easier!

I liked this old pastor say that for the last 3 years he had extreme blurriness to his sight, he could not see anything at a distance. Thirty second prayer and he hollered out “look at that woman walking by on the outside of the building! I can see her clearly! He was one happy camper! Yeah God! Oh, did I say 30 seconds?”

One man ran up to the front to give testimony. Get This: He said “I was walking by the building and I heard someone say “do you want to be healed?” So, I walked in came up and got prayer and was instantly healed. I was on my walking to get more tablets to relieve the constant pain I was in. He said “My body is soooo happy! I thank Jesus!”

Another pastor stated that he was headed to get more “pills” before the meeting this morning. He said he has not been able to live without the pain pills every day for many years due to his shoulder and back ailment. He could not lift his arm or bend or twist his back at all without excruciating pain. He said, “BUT this morning on my way to get the pills I clearly heard The Spirit say to me” NO MORE PILLS! So I came to the meeting. During the teaching he said the speaker was lifting his arm and shoulder demonstrating how God had healed someone. While he was doing that I felt something or someone touch my shoulder and back. So, while I was sitting in the seat I started lifting my arm and turning my back and realized a miracle had happened to me! ALL GLORY TO GOD!

Whit,

Hey Guys! God is really moving over here. This is like woah! Are you kidding me! Getting to see all this stuff goin’ down, Hey Mom, would it be ok if I could just keep doing this. Can I stay here, Mom? This is so Amazing! My love for God has just increased more than I could ever imagine. I am stuttering trying to explain what I felt today as HE flowed thru me to touch so many others! I have never felt such LIFE!

I have never in my life experienced anything like this before. When I got to lay hands on all the people, EVERYONE that I laid hands on got healed of absolutely everything that was wrong with them. It was so much fun for God to use me that way.

There was one man that said he had back problems for many years. I just laid my hands on him and prayed for him and he was INSTANTLY healed. I got just so blown away that I was actually seeing this happen in front of me. I was so excited to be a part of this.

I never thought that God would be able to use me like that! That He actually chose ME to do and see this! There are not words to express this. I have heard the testimonies, but to see it happen thru MY hands, I am so thankful.

Did I say EVERYONE prayed for today received a miracle? They did! One thing I was really hoping for was to see someone that couldn’t see get their sight restored and I SAW GOD DO IT!

**Casey:**

Well it took way longer to get here than one would have expected. With all the delays with our air travel, an unexpected stay over in Ghana, and another missed flight when we arrived in Liberia. We had

no idea that we were going to be in Foya City again and as a surprise Taya had arranged air transportation for us to fly into Foya. That would have only been a 45 min. flight but because we missed the flight we had to spend the whole day and night driving to Foya. It was about a 12 hour drive and most of it was on a very dusty bumpy dirt road. When we arrived it looked as if someone rolled us in red clay. So we are sorry to report we missed the whole first day of ministry. This just means God is going to kick it up a notch. I can't wait to see all that He is going to do in this short time.

It sure is great seeing all of my old friends here, I only wish I could remember all of their names, so 'chief' will have to do until I learn all their names again. It is also amazing how much this place has changed since the last time we were here and all for the better. It's all cleaned up and a ton of new businesses and the land is thriving praise God, and to think it's only going to get better.

The first session this morning was on the authority that has been given to us. It was a great teaching Tony gave. I have sat under his teaching a few times but this one was different the clarity and new wisdom he was teaching was like wow. Almost like as if I was hearing it for the first time myself. Well God did say He will make all things new right? When the session was over we asked for whoever needed prayer to come on up front and we would pray for them. Wouldn't you know it everyone came up for prayer? (Like we didn't see that one coming J.) I started out praying with Whit so he could get used to praying for them and to help him out if he needed it. The first guy we prayed for was sick with malaria and his body was in pain. After a short prayer we asked him how he was feeling. He had this shocked look on his face and said he had heat pushing through his whole body and he didn't feel sick anymore. He even said he didn't need his medication any more. The next person we prayed for was a woman that had chest pain and she said she couldn't see very well either. She couldn't make out letters everything was all blurry. So after a short prayer we asked how she was feeling. She said her chest pain was all gone so I grabbed a bible to have her check her eye sight. She instantly could make out the letters and numbers on the page. She said it was still hard to see the small print so we prayed again. She looked at the bible again and was able to see the smaller print now. She was excited for what God did for her and you could tell by the huge smile on her face. The next few people we prayed all had body pains and all of them too were instantly healed. Whit was having a blast being used by God and doing great so I went over to see how Taya was doing. God was using her too with the instant healing and it looked like she prayed for half of the people by herself. She truly is a mighty woman of God and I am so glad we got to meet her last year in Ghana. It was cool to find out that she brought a bunch of her friends to the meeting today and watch God open their eyes. Thank you to everyone that is praying for us. Blessings.

#### **Rev Kettor:**

I have recorded pages and pages of testimonies of the lives in this place being miraculously healed this morning. Rather than list them all here is a survey of some of the things we saw God do in prayer and looking at it with the prophetic implications.

Typical of ALL is that they have gone from Hospital to Hospital seeking help and came here today still suffering. Typical of ALL is that the healing was INSTANT!

These are the main categories:

1. Eyesight restored. From totally blind to partially blind. God is saying that He is restoring sight to His Body to see the things of the Spirit!

2. Legs and Feet all producing difficulty walking. God is saying that He is restoring to His Body the ability to Go for Him. To walk in the power of His Spirit!

3. Stomach and digestive problems. God is saying that He is restoring the ability of His people to digest and absorb the spiritual food they are eating. No more passing thru the body without absorption for nourishment!

4. Back problems. God is saying that He is restoring the ability of His Body to carry the burdens of others. His church has been unable to carry their own, let alone others.
