

**Mission to Sierra Leone, Africa October 16, 2013**  
**First Night Outreach at Outvillage**

Tony,

SALVATIONS, HEALING AND DELIVERANCE FLOWING FROM THE THRONE TONIGHT! This high witchcraft area saw and invasion of Heaven tonight!

Here we go, four wheeling thru muck and mire, traversing a small river, on a dirt, rock, mud road that runs up and down like a roller coaster, headed to a small village. We pulled up into the village with many people walking around and shouting declarations of victory over the enemy. Three men sat on a little bench and were the praise team tonight. The first played a bongo with his hands, the second some kind of hollowed out log with slats cut in it played with what looked like chopsticks, the third had some bells that looked like cow bells. Holy Spirit came on them and they rocked the crowd as all were dancing and praising God!

We gave an into to the heart of Jesus and an invitation to see His Heart heal people. We gave words of knowledge and about 30 people came up. One at a time we took a few so all could watch. All instant miracles! Then before we prayed for any others we had Emmanuel give a call for salvation so we could see who Holy Spirit was going to bring into the kingdom tonight. There were a number of folks and Emmanuel had church leaders surround them to take them into the family. Right then these folks lined up to go get baptized. No time lag here!

When we got to pray I saw absolutely everyone I prayed for receive a miracle. It was very fast, everything from digestive problems to malaria to near blindness!

There were almost constant shouts of joy being heard as the miracles were being released! Man, there were so many very happy people in this village tonight. A lot of families sitting in their living rooms now talking about what it was that they saw and happened to their families and lives tonight!

I had many people pray for themselves tonight, all of them saw a miracle healing and all were totally amazing at what happened thru their very own hands.

Here are a couple of testimonies:

A man, maybe in his late 20's had his right thigh twisted somehow (actually turned to the side). You can imagine the complications from that. After a few moments of prayer his thigh just turned back around, everything lined up and he was jumping like a teenager!

My favorite: A young girl, maybe 10 years old came with her mother and they pointed out a tumor on the girl's abdomen. I had the little girl put her hand on it so she could feel it at all times. I prayed and said, "what happened?" The little girl said I can't find it. Well, the mother was in a state of disbelieving shock, so she put her two fingers on the child's abdomen pressing everywhere, even moving up to her chest thinking it might have changed locations. I mean she was really pushing on this kid. I said "where is it momma?" When she said "It's gone!" The little girl jumped up about 4 feet into the air just lit up with excitement!

There was a lady with pains and heaviness from her hips down to her feet for last many years. As I prayed the pain kept moving down lower and lower. As the pain moved lower the heaviness got heavier until it was like weights on the ladies legs. I kept praying until that huge weight went right out the ladies toes. She was like in shock at what had just happened to her, but it was a happy shock.

A man came, whose life had been falling apart in every area, physically, mentally, emotionally, in his marriage and business. He had a dream that someone gave him something to eat a while ago that was bad. He got scared in the dream and then saw scorpions coming out of his body. Well, this scared him more. He had repeated dreams of these scorpions like breeding inside of himself and then coming out and being on the floor around him. In the dream, his wife walked in the room, saw the scorpions and simple said "well, get rid of them!" So, he says to me "how do I do that!" A quick lesson on self deliverance and off we went getting him free. You could literally see the release. I then blessed all those areas of his life and he ran away, so excited, literally jumping for joy, running to find his wife to tell her of his freedom.

Casey

The ride out to the outreach would have been awesome sliding around in the mud getting stuck, crossing rivers with the trucks and four wheeling up the mountain if I didn't have a killer headache. Wouldn't you know right before we left for the outreach I got attacked with a migraine not fun, not fun at all. There was no way I was staying behind and miss out on what God was going to do tonight. So needless to say I was really enjoying myself for the first part of the outreach. Once we started to pray for all the people it was then I realized the migraine was gone. I knew I had to get myself under the anointing of the Holy Spirit. Tonight was so much fun praying because everything was happening instantly. Well, all but two that I know of but they were definitely getting touched and healed. I have no idea as to how many people were there tonight. It looked like the whole village to me. I started by praying for this man that was having chest pains. From what, I don't know, all I know is that it has to go in the name of Jesus and it did. I then was on a streak of people with back pain. Some upper and some had lower back pain but everyone was instantly healed. I love watching the shocked look on their faces when they were expecting on feeling the pain when I asked them to move or jump around, and it was no longer there. Ha ha I love it. I then moved onto leg problems and all of them too were instantly healed in the name of Jesus. Then one of the worship leaders came and got me to pray for a woman that had a stroke. I knew before I placed my hands on her that she was going to be healed. Her left side of her body wasn't moving at all and she even lost the vision in her left eye. I started by placing my hands on her head speaking to her brain to rewire and trigger the nerves back to normal. Within moments she was raising her arm and bending her fingers. Then she got up and started to walk without her walking stick. That's when I found out she had lost the vision in her left eye also. So I prayed for that next and her eye started to water so she rubbed it for a moment and when she put her hand down she could see. That was cool to watch. She was one of the ones that I didn't see a 100% total healing even though she had a bunch of healing take place in her body she was still not moving around very well. Another "I don't know" but I do know the healing has been imparted into her so it will come to pass. The last guy I prayed for was a young pastor that had gotten injured in a football game. It sounded like he tore his rotator cup and he said he spent a lot of money trying to get it fixed by the doctors with no relief for months. After I prayed I told him to move it around so he did but still had a little bit of pain. So I had him put his hand on the pain and take the authority and tell the pain to leave his body now check it out. All the pain was now gone and he was so excited. He said he has never seen anything like this before and was excited for the teaching to start tomorrow. All I know is that I am glad I stuck it out tonight. Thank you for praying for us. Blessings ><

Lisa,

As it got later in the afternoon, we all left and headed out for the first village outreach. We had to drive through some rough terrain, water, and got stuck in the mud a time or two but we made it to the village. As we arrived, the people were already shouting and proclaiming the Name of Jesus! An atmosphere of the Holy Spirit presence was created with a rising intensity that was overwhelming! We stood in all directions of the mountain, which had been used for human sacrifice, pleading the Blood of the Jesus and for Holy Spirit Fire to come! We all dropped to our knees as we continued to proclaim His Mighty Name! As the atmosphere continued to rise, the healings shortly followed. I started praying for a lot of people primarily with head pain and stomach pain all which were instantaneously healed after seeing the power of God move! I prayed for a boy with bad eyesight who was unable to see far distances. His eyesight improved but as I continued to test his vision, he was only having minimal success. I explained to him and to his mother that healing sometimes is a gradual process and the manifestation of that healing could sometimes appear over a period of time and was not always instantaneous. I then prayed for a lady who asked me to pray for her to conceive. Our host, Emmanuel, later in the evening spoke to the crowd that he had received a word of knowledge and that someone had a fibrosis or growth of some kind and this same lady raised her hand. I begin to feel the pain as he was speaking it out right where I was standing. I then spoke up, letting Emmanuel know that I had earlier prayed that God would bless her with a child. Emmanuel told me to pray an additional blessing which I did. How amazing our God is to confirm his promises to us in his own unique ways!! I prayed for another boy who had sliced his hand with a knife earlier and was in pain. I commanded all pain in his hand to GO in the Name of Jesus. His face lit up and he gave me a big smile as he clenched his fist. He was not able to even move those fingers earlier! Praise God! I had a couple whom I had the great honor and privilege of praying over and blessing their twin daughters. As things began to wrap up, I asked the gentleman holding the microphone to ask the crowd if there was any person remaining who needed healing and had not been prayed for. There was not a single person in the crowd that responded. We left after playing with some of the children and talking to some of the villagers, everyone smiling and happy. We returned back safely to our bunks and I am now going to call it a night! THANK YOU JESUS!!! What a MIGHTY and POWERFUL God we serve!
