

Mission to Sierra Leone, Africa Valunia Chieftom, Bo District
Sunday night Last Crusade, October 20, 2013

Tony:

To everyone that prayed for this mission: Your participation in the gospel going forth in this place has brought a harvest of souls to your account. In a vision that came to me during one of our prayer times I saw an angel in heaven sitting at a table with a huge book. He was writing in the book. This angel's mouth was not moving, but I heard him say the answer to my question before I could ask it. He said "I am recording the works of God!" I knew exactly what that was- thank you all for your prayers!

I felt my body have the flexibility of a teenager again tonight during the praise time and we tore up the ground! Casey encouraged the people to be excited because Jesus was about to reveal Himself! We gave a couple words of knowledge and people started coming from everywhere. There were a lot of people out tonight, a huge crowd! In less than a minute we had people pressing in to get up the stairs of the platform. They set guards tonight at the stairs to restrain the people from storming us on the stage.

An important part of these missions is that the church leaders get to see the miracles happening thru their hands to settle the issue that it is absolutely God's will to SAVE (heal, deliver, make whole, give eternal life to people). Then, out of that ground of faith and confidence, to go give it away to all their people and send them to the streets.

The healing miracles were very fast tonight. The sounds of a multitude of people screaming praises to God could be heard throughout the night. The atmosphere was supercharged with the activity of Heaven.

There were many, what I call Notable, Remarkable, Miracles. It was when those people that many in the city had known to be crippled or very sick or blind or deaf for a long time; when they stood at the microphone after prayer and declared what Jesus had just done for them, the crowd erupted, shouting they had never seen such things!

There was a young man sitting on the platform, recording all the testimonies that were given at the microphone and he kept making the following comment: "My God, My God, ALL these Muslims are giving their lives to Jesus Christ!" It was after he recorded the 53rd testimony of miraculous healing that he wrote this entry into the testimony log: " 75% of the Muslims have just given their lives to Jesus Christ as their personal savior because of the signs and wonders Jesus performed so far tonight. Praise be to God!"

Here is some of what I got to see:

A child was on a motorcycle, the driver crashed and the motor of the cycle landed on the child's wrist and smashed it up. From three years ago when this happened, the wrist was unable to be fixed UNTIL touched by God tonight! A creative, restorative miracle!

There were a number of blind Muslim women that got their eyes opened one after another and ALL are now children of God. It was like the home for the blind came for prayer tonight. Except for one man, all of them had their sight restored.

Lots of testimonies of witchcraft inflicted sicknesses being completely removed as they met the Deliverer tonight.

So many women could feel what they called "living creatures" moving in their "stomachs". They could feel them moving inside of them inflicting pain. These living creatures came from involvement with the occult. After prayer they confessed that the creatures and the pain were gone.

A man lifted up his shirt to show us some kind of major bad skin condition. His skin was all bumpy and red. He said he was a muslim and went to the witchdoctors for help. I told him that from tonight he will only need to go to Jesus, but He must receive Him. He gladly confessed Christ then got delivered and with the deliverance came the healing and ALL the skin condition INSTANTLY left his body.

An older man has lived his entire life, from birth, as a deaf mute, unable to hear or speak. He WAS Muslim. I had to stop a moment for this one, the shocked look on his face. There was a man with him that came to talk for him. This is just amazing to me how this man has never heard a single sound nor ever spoken a single word ALL of his life. It was an amazing miracle to me as to how he can just start talking AS IF he has been talking all of his life. NO learning curve to learn how to speak now! ONLY GOD!!!

Casey:

Well tonight is our last night of ministry and we were expecting a total God blow out. Yes, God answers prayer, the crusade was a total success instant healings all night.

We arrived late again tonight because they were having technical difficulties with all the sound equipment. It's not like they can just run down the street to the local radio shack and pick up some repair parts. If it breaks here you have to fix it on the spot or find a plan B real quick. Well, they moved to plan B and made it work. The crowd didn't care one bit that the stage was not lit up and only half of the speakers were hooked up. They came for one thing and one thing only. The word on the street was healing and miracles are happening at the crusade. So if you want a miracle you better be there. The crowd looked almost twice the size from the night before. So after a quick word we gave out a few words of knowledge and got right into praying. When the first man came up onto the stage and was healed instantly we really knew we were in for a great night. Not only because the healings were happening so quickly but because most of them were Muslims coming up for prayer. Once they saw what Jesus was doing they all wanted to receive Jesus before they got healed. It was just so easy tonight God you are so awesome. I got to pray for totally blind people that received their sight instantly. Deaf people were instantly hearing and all kinds of pain and sickness instantly gone. I prayed for this one woman that has had a tumor in her chest for over five years. After prayer I asked her to feel for it to see what was happening to it. The look on her face when she couldn't find the tumor was total shock. With every healing miracle the pastors would shout out to the crowd and tell them what just happened and

the crowd would cheer with excitement. The air was supercharged tonight so when they gave a salvation call the pastors said the response was too many to count. The problem now is the churches are not big enough for all the new believers. Now that's a good problem. We prayed for everyone that wanted or needed prayer tonight, but again because everything was happening so fast when we got to the end of the line it was like a bummer no one else to pray for. Ya it was an increasable evening and to think we were writing history tonight. Thank you to everyone praying for us thank you. Blessings ><>

Lisa:

We went to the crusade tonight and it was a great event! We started off again by praising and dancing. Everything had much more order and we were able to each have an interrupter. We all three stayed on stage and let the people thru to come up one at a time and prayed with each pastor/interrupter. Yes, another night of miracles!! God reigned down within that place. Everyone was healed, simple as that! I won't get into specifics because there was breakthrough for every pain, affliction, and disease. I was so in awe of what The Lord had done! Everything was very organized and went very smoothly. Before I knew it, we had prayed for everyone! Emmanuel, Tony, Casey, myself and some of the other pastors all circled around on the stage when it was over and the generators had shut down. We gave thanks to God there in the dark and all that He had done in the land on that evening. We asked that Jesus reclaim back that territory and continue to bring healing to all we had prayed for and for them to be a light and a witness to every family member and friend. I came back to my room and sat down and talked with Pastor Eric and his wife, Deborah who have a ministry in Sierra Leone. We sat and chatted about all of the miracles that we had seen that evening as well as the ministry that Eric has in Freetown. I found out a lot more about them. I love talking to, getting to know and build new lasting relationships within God's kingdom. I know and trust that every new relationship is placed and ordained in our life for a reason. I think it's good to get to know each other when we are ministering, no matter where we may be.
