

**Mission to Sierra Leone, Africa October 17, 2013**  
**Second Night Outreach at Outvillage**

Tony,

AGAIN A POWER INVASION OF HEAVEN IN THIS VILLAGE: SALVATIONS, HEALING AND DELIVERANCE FLOWING FROM THE THRONE AGAIN TONIGHT!

They said that missionaries don't want to go to these out villages anymore. They all want to go to the cities. I hear Jesus saying "Who Will Go For Me!" I am blessed beyond measure to bring His Kingdom to these people that just have not known or seen His Great Love Demonstrated in this way!

We could only drive a short distance to this village tonight and then began what they called "just a little walk thru the jungle". Certainly their definition of a little walk is far different from ours in America. We crossed another river tonight, only not in the vehicle. I had to roll up my pant legs, take off my sneakers and socks to walk across. When they saw my white, white legs and baby tender feet, the pastors felt compassion on me and one of them gave me his sandals to wear, then hung on to me all the way across. I would have fallen in at least 2 times without his help. Thank You Jesus!!

As we approached the village there was the smell of fires burning and the sound of drums beating. Suddenly, I had a flash vision of when I was a young man and used to like to read and look at National Geographic. I saw myself sitting and looking at the AFRICA pictures of the natives and remember thinking "it would sure been neat to go to those places!" I didn't have a clue that in eternity past, in the heart of my Heavenly Father, He ordained for me to be here!

I am here to tell you that the devil is ABSOLUTELY no match for the Power of God! This whole village was out to the meeting tonight, the white folks were the entertainment, so they thought. Little did they know what was about to happen. We did some native processional dancing/marching with them to the 5 drummers playing various types of drums and then Casey laid on them what was coming down from Heaven. One word of knowledge and then many came for salvation. Now, I knew there were many more that were not Christians, but that we would see the harvest as they came for healing. Sure enough, one after another, renounced their muslim religion and witchcraft. Did you know that those two tag team a lot in these remote villages?

By the time the night was over, I would have to say this village pretty much has come into the kingdom! It was an amazing sight to see. I could literally feel the atmosphere get more and more charged and the Glory of God get thicker and thicker with every confession of faith in Jesus!

Here is one testimony that is funny. An old woman came and said "I can hardly see anymore and I am so weak now and can hardly do much of anything!" Then she said "But I know it is my old age and my husband and others tell me nothing can be done, I am just OLD!" Then she walked away before we could pray. She had to get home before it got pitch dark because she could hardly see. I said "Hey, where are you going, get back here. Age doesn't matter to God, can I prove that to you?" She said, "I don't understand!" We prayed and strength came back into her body and her sight was restored. She just stood there laughing, then all the other woman around her starting laughing. They were laughing for joy and in total shock at the same time. Thank You Jesus!

Here are a few of the testimonies of people freed tonight from the effects of witchcraft. Every one of them receiving salvation, if not already saved:

- A curse on a man for the last 3 years made the left side of his body completely numb. He could get burned in the fire and not even feel it. Curse broken and in a matter of moments all feeling restored to his body!
- A 10 year old boy had a “living creature” in his stomach. He could feel and see it moving around giving him pain. With parent’s agreement, complete deliverance came tonight and the living creature disappeared.
- A man bound in terrifying fear that has crippled him. Tonight fear was put out of his house and he was freed.
- A woman who had been medicated by sorcery. For more than 15 years afflicted with every manner of sickness. Tonight completely set free and totally healed.
- A woman that had been under a witchcraft spell suffering with digestive and hearing problems was completely delivered tonight.
- Children set free from what they called the “wizards” that had put spells on them. Other young people that had been medicated by the practicing witches were totally delivered tonight.
- Women that “night demons” sexually molested them at night were set free and empowered to demolish any future attempts of demons to touch them.
- More people that had been shot by witch guns, all set free and healed tonight. Some with amazing testimonies like stroke symptoms GONE!

Casey:

We have always said that we would go to the ends of the earth to preach the gospel of the kingdom of Heaven. Tonight I think this was the closest we have been yet. The village that we went to was out there, even the 4x4 trucks couldn’t make it, so we went on foot. The walk thru the jungle was breath taking; the beauty of this place is just incredible. There was a huge canopy of trees that we were walking under when you could hear the native drums and chanting off in the distance. We had no idea where we were going we were just walking in the direction of the drums. Then we came up to this river that we were to cross with no bridge of course. So we just rolled up our pants and forged the river. The water was cool and felt great on my feet and legs. As I was crossing I was thinking it would have been cool if we walked on top of the water but it was only like 2 ½’ deep so no biggie. I will cash in my walking on the water where I could really use it. Once across the river the drums and chanting was louder and up the hill and into the village we went. This small village was “so Africa”, meaning National Geographic Africa. I felt so honored and blessed at the same time to be standing here.

The native worship was cranking as I looked thru the crowd I spotted Lisa dancing like a white girl of course. She was not hard to spot either being the only white woman there, but you could also see she was loving life in that moment. Next thing you know the locals pulled us into their dance line that was going around the center of this village. We danced until almost dark and they have no electricity so they quickly turned over the service to us. Tony asked if I wanted to preach tonight so I Gave a quick word on being saved and what that meant and what they could have by being saved, like of course salvation, healing and deliverance you know SOZOED the total package. When I finished I felt the spirit of faith rise up in me and I spoke out that someone had a deaf ear and if they came up right now they would be instantly healed. This man came out of the crowd and up to me. He was deaf in his right ear and after a short prayer he was instantly healed. Everyone was cheering with excitement from what they just witnessed. It was a fast healing, praise God. Since the crowd was really excited we gave a salvation call

and several people responded and a ton of children. It was so sweet listening to the children repeating the prayer of salvation. It really made my heart fill with overwhelming joy.

Then we moved right into praying for the sick. This was a witchcraft and Muslim village. No Christian church has been planted here yet, but one will be planted there now and real soon. Especially after the God invasion they had tonight. During the prayer time I prayed with so many people that I can't remember them all. How ever there was a woman that brought her small daughter up for prayer because she was paralyzed in both legs and one arm. We were told she had a curse put on her from the witch doctor. So momma received Jesus and I took her through deliverance renouncing all spirits of witch craft that they were involved in. She took back her ground and booted the demons out of her life and her daughter's life. I then took the child into my arms and began to pray over this small child. I felt in my spirit that it was finished so I told momma to back up and I put down her daughter. I told the mother to call her child and put out her arm and her daughter walked into her arms. I did this a few time with the distance getting greater between them. Every time the child walked right back to her mother's arms. The mother was so excited she just kept thanking Jesus for the miracle. We had most, if not all, the Muslims get saved as well tonight and a bunch of deliverances and tons of instant healings. Speaking for myself all the healings that I prayed for were all instantly. Yes it was an awesome night even the walk back in the dark. Thank you Jesus and thank you for praying for us. Blessings ><>

Lisa:

After the teaching sessions today, we went to the cafeteria, ate lunch and fueled up for the evening ahead! I returned back to my room to rest as we had only about an hour or so before we were to head out into the village. I slowly drifted into a light sleep as I was praying and had a vision of a long pathway in the desert. I was awakened shortly thereafter but laid back down and continued to pray as I fell back into a light sleep. I was so tired but I asked the Holy Spirit to provide everything I was lacking! Although physically exhausted, I was confident knowing that my God ALWAYS delivers and He would give me the strength to push on and move forward! We jumped in the car and drove a few short miles but then the road ended and there was nothing ahead but grass. It appeared that this is where the road was ending and so we got out and started hiking towards our destination! Yeah, this meant an adventure and lots of fun! I ran ahead with the other girls and they were allowing me to sing alongside of them, each one of us laughing and smiling! We came to a river about knee deep and crossed over to the other side.

Apparently, when there is a strong current, you want to take off those flip flops! I learned that you move MUCH faster through the water without them on! They laughed and we all had a good time. We took some pictures by the river and the others girls and I walked into the village singing praises to Jesus! We were welcomed by a village full of people who were hungry and thirsty to see the healing and miraculous power of Jesus Christ! We started singing songs of praise and danced among the villagers within a circle. We started shouting Holy Spirit Fire and pleading the Blood of Jesus again as we all shouted in unison to the heavens in every direction: north, south, east, and west. Pastor Casey then spoke and we saw several people come up for salvation! I was then able to witness one of the best memories of my entire life which was a group of about twenty little children who gave their life over to Jesus Christ! We were standing in the midst of a village where witchcraft was the primary religion!

Tonight, that ground was taken back and reclaimed in JESUS NAME! Pastor Tony, Casey and myself all broke off with a pastor who could interrupt and we started praying. Instantaneous miracles started to manifest, one right after another! You name it and we prayed for it. I spoke to so many with disease, affliction, pain, demonic spirits and they all just left one right after another! It was incredible as I laid my hand on a man's eyes and his eyesight was completely restored! Then there were several deaf ears that

were opened, stomach pain, back pain, head pain, a spirit of fear, a baby with a fever, you name it, it was all cast out in Jesus Name! Several times I would feel the sickness leaving through my body and other times, I would also feel pain in my own body before praying for the person who I was about to pray for next. I think I must have prayed for over fifty or sixty people, maybe more with 100% success rate! I give ALL THE GLORY TO GOD as he showed up and showed out tonight! I think there were maybe only one or two people who had lingering pain in which we had to pray two or three additional times for but every single person that we prayed for tonight was healed!! As I was promoted by the Holy Spirit earlier, I had brought my anointing oil along with me this particular evening. I took it out at a particular point as I was led by the Holy Spirit and poured it all over my hands. As it turns out, the next person in line to be prayed for was deaf! I commanded the deaf and dumb spirit to leave in the Name of Jesus and after testing her, it was confirmed she was able to hear crisp and clear! I couldn't help but to stop and give thanks to our almighty God performing one miracle after another in a little remote village called Mogba!

It was an incredible feeling not only to simply experience that kind of presence and atmosphere but also to know that I was being used by Him in such a powerful way; what a great honor and privilege! I walked out of that village down the long path that I had seen earlier in my vision alongside Pastor Tony beaming from ear to ear. Yes, a permanent smile was indented into my spirit and reflected in the same way all over my face!! It was an uncontainable joy, only to be described as one of the best days that I've ever known and one of the most cherished memories I will ever have! To any and all who may be reading this now, thank you for your prayers! I also say to any and all that may be suffering to keep HOPE ALIVE!

God RESTORES broken dreams and broken promises that the devil tried to destroy! He is doing it for me and He WILL do it for you! Walk in the faith that Jesus is our Healer! Jesus is your Deliverer! Jesus is The Lord of Lords and The King of Kings! There is absolutely NOTHING that can come against the almighty Name of Jesus! Wow! I pray that this is just the beginning of Holy Spirit Revival here in Sierra Leone!
