

Mission to Sierra Leone, Africa Thursday, October 17, 2013
Pastors Conference Day 1 Session 1 & 2

Tony:

Again thanks to all that are praying for this mission. You wouldn't even know that we are in an area of the world steeped in witchcraft. There is great liberty coming to these people, and quickly! Holy Spirit used the first session to talk about healing and then to get most everybody in the building healed.

The demonstrations for all to see today were for back issues. We walked thru conversation with Holy Spirit as we co-labored together to get these women healed. Then had each lady that was just healed do the praying for the next lady. One after another, all the healing took place thru their hands. They were very happy ladies!

I prayed along with 2 pastors helping them see how much fun and easy this ministry really is. They just laughed and smiled saying how thankful they were that they had finally entered in. One of them said to me "you know, last Sunday there was a young crippled boy that came in my church, of course I did the praying for him. In front of everyone I prayed and you know what happened?" I said, "tell me!" He said, "NOTHING! And I did lots of shouting at the devil! But today everyone I prayed for was instantly healed with No shouting and No pushing! It was so great!"

A pastor that I prayed for was stoned for preaching the gospel 4 years ago. His head was cracked open and he has had headaches every day since. He said that it has been hard for him to pray believing God to heal others when he couldn't do anything about his own healing. Today that all ended, he was healed and restored and ready to get others free.

A man had been in a motorcycle accident 2 years ago. He came to the meeting with a crutch. His foot was all bandaged up with padding because he just couldn't take the pain that hit him when his foot has any pressure put on it, like as simple as walking. When the pain left him today, he knew he was healed. He threw down the crutch and started walking on that foot, smiling and rejoicing, saying "I can now walk, there is no more pain!"

How about this: A woman was in the hospital with terrible pains all over her body, bad enough to incapacitate her. She heard about this meeting, she felt that God would heal her if she came. They told her she could not leave. She got up out of the bed, dressed herself and walked to this meeting. Now she stands totally healed and giving all glory to Jesus!

So many of these ministers have been affected by the witchcraft in this area both directly and indirectly. Here is one testimony of a man that was shot by a witch gun. This is basically a curse that is "shot" in the spirit realm into somebody's body. A man came giving testimony of how he was shot and his eyes immediately got bad and kept getting worse until now he can only dimly see. Today he came to know the truth and has been set free and his eyes are totally open and restored! Glory to God!

Casey:

We got a late start today which was ok with me because we got to sleep in a little bit. Even nicer we have been blessed with awesome rooms to rest in with extremely comfortable beds. For those of you that got words from God about this trip stating we were going to be in abundance and Gods favor, well we are in it in more ways than one. I love being blessed by God. At today's meeting we saw God's favor pour out with His healing over the people in the building. After the teaching we just released everybody

that needed healing to come up front and we would pray for them. Most of the people that I had prayed for today had lower back pain and pain in their legs. All of them were instantly healed. I really love instantly.

Then this older man was standing in front of me with stomach pain and a right blind eye. Now the eye was totally white no pupil no color just white, so I thought to myself I am going to pray for the stomach first. I was seeing instant healing all morning so I wanted to build his faith level before I prayed for his eye. After I prayed for his stomach he was still in some pain, so I prayed again but still small pain in the stomach. Then I heard the Holy Spirit say to me, "the eye." Ok God, no problem, so I stood up with this guy looking at me with this look on his face as if he wanted to say "what's up." I didn't say a word, but placed my hand over his eye and spoke life into it and cast out the spirit of blindness. I knew I heard the Holy Spirit say 'the eye' so I knew he was going to be healed.

When I removed my hand I was totally expecting to see a new eye ball starring right back at me. Well I did see an eye ball starring back at me but it was still totally white. Ok, I know it doesn't matter what I am seeing so I asked him to look around to see if he could see anything. He replied I see shapes so I placed my hand back over his eye and prayed again. Surely this time I would see a new eye ball when I removed my hand. Nope just that ole white ball staring right back at me, but this time this guy had a huge smile on his face. He started to say I can see I can see.

I was thinking to myself "really?" I mean, really, you can see? One would think as many blind eyes that I have been blessed to see opened by God that I wouldn't react this way, but I was expecting a new eye, but this man just wanted to see. He didn't care what his eye looked like he just wanted to see. I just love being rocked by God and His awesomeness. I mean really this guy could see through his totally white eye ball.

I had him cover his good eye and told him to tell me what he was seeing. It's not that I didn't believe him I just wanted to make sure. So I stood back and started waving at him and asked ok what do you see? He said you are waving at me so I held up some fingers and asked again and he said two fingers you are holding up two fingers I told you I can see just fine. Ha Ha this old guy was so cool. Then he said ok now that I can see what about my stomach?

Honestly I totally forgot about the pain in his stomach. So I prayed again and the pain left instantly this time. Wow what cool thing to witness. So I sent this old guy up front to give a testimony on how God just healed him. I think the pastor holding the microphone couldn't believe this dude could see through that white eye either. So he started to test out that eye as well. The old guy didn't care one bit and called out every answer to what color was being pointed out or hand movement. This guy could see! Thank you Lord.

Thank you again to everybody praying for us on this mission trip. Blessings ><>

Lisa:

I woke up this morning expecting great and mighty things! I woke up and had a fantastic breakfast and then came back to my room to get in the Bible for a little while before we left. Tony spoke to the people this morning and afternoon and then we began praying for people. There was an abundance of great testimonies that were given and a lot of healings which took place.
