### **Open Air Crusade:**

Tony:

Most of the day was spent preparing for and traveling out to a new remote place to begin a week of outreaches and crusades. It was already dark when we arrived and we could hear the worship teams praising out at the crusade site, quite a distance away.

Oh my God, Oh my God, the Glory that He displayed tonight was truly unexplainable. We've been out here in the harvest for a number of years now. There are sometimes that seem far beyond our finding words to explain what we have encountered. I can tell you that there is an open heaven and there is a REALLY OPEN HEAVEN. This was one of those REALLY nights. As I was sharing a word of introduction to The Master, Jesus, I could feel such a clarity and authority riding on the words. I knew Heaven was At Hand and about to explode. I felt the overwhelming compassion of Jesus for these people. I knew Holy Spirit was about to demonstrate with great power the True Jesus!

We gave just one word of knowledge for problems with the right side of their bodies. About 30 rushed forward instantly. I had them ask if they all understood what that word was for and they all said yes, so we started praying. As soon as the first two people received miracles, in about 15 seconds and they gave testimonies, we got rushed. Everything changed at that moment and it didn't matter what the word of knowledge was, everyone was coming up. There was only a few of us praying.

Mothers were pulling on my shirt and grabbing my hands and arms to get my attention to pray for their children (and them). I kept telling them I would get to them all and Jesus will not let them go without touching them. Have you ever been in an elevator with twice the people limit in there or in a 15 passenger van with 35 people in it? I have and it was kinda like that. The people pressed in to the point the temperature went up about 30 degrees and it was already pretty warm.

All of a sudden, I had deaf mutes, I had totally blind people, I had cripples all around me tugging at me. By this time there had been a number of testimonies broadcast over the PA and the atmosphere was packed with faith. I gestured to Rev. Kettor to give a call for salvation. He did and the people rushed us, hands in the air crying out to receive Jesus. I stopped praying and just stood looking at all the hands in the air. In a moment the multitudes come to Jesus, what an amazing sight to see. All Glory to God!

Then it was back to praying again. There were so many people and many “not so normally easy” prayer needs that we needed healing angels to help. I felt the gift of faith come upon me as I was praying tonight and just “knew” they were being healed now and they were. They pushed a boy in front of me and said “he is mute and has never spoken even a small sound all of his 15 years of life!” I put my hand on his throat and said “I command the voice to speak, in Jesus Name!” The people that brought him said to me “didn’t you hear us, he can’t speak! You can’t just tell him to speak!” I said “I know, but he is going to speak right now, watch this, and I told him to say “Jesus”. Instantly he belted out the Name of Jesus with crystal clarity again and again, then starting laughing and then started singing. The people started screaming, took him over to the microphone and as soon as he started talking over the mike even more people started pressing in.

I asked the bigger people that were yanking on my clothes to just be patient as I felt extra compassion to pray for the younger ones at first. I could see another mother pushing thru the crowd with her son. I grabbed him and pulled him to myself thru the mass of bodies. He was 9 years old and was born blind, totally blind and had never seen anything but pure darkness. In this atmosphere I just looked at him, put my hand on his eyes and said “you will see NOW, in Jesus Name!” Took my hand off and the boy received his total eyesight back. As if we weren’t flying high enough, the Anointing increased even more now. The boy’s mother was knocking people over as she jumped for joy, picked up her son and they cried together while jumping.

A young girl, maybe 16 years old had a tumor on her navel, big tumor. She took my hand and made me feel it. It was big. I had her put her hand on it as I prayed. First it moved to the right, then the left, then up on to her stomach, then back down to the navel before it disappeared. All the time she had her hand on it and was describing to me what was happening until it disappeared.

I saw an older lady bent over trying to get thru the crowd. I told the people to let her thru. Her body was bend at 90 degrees. She said most of her life had been this way, not only bent over but in constant pain. Can we imagine trying to live this way? Oh God have mercy! And he did! I had to get down on the ground to look up at her face so she could see me. I could see the price of intense physical suffering written all over her face. I felt the compassion of Christ for her. I put my hand on her back and commanded the vertebrae to straighten up and be restored. I didn’t have a chance to tell her to try to straighten up, she just shot up straight and immediately went into a dancing frenzy. Wow!

Are you ready, there was an 11 year old boy that had leprosy and was instantly healed. Several people with malaria that felt the symptoms completely leave them instantly, two young children with Yellow Fever. I don’t think I have ever seen this before. Their eyes were actually

yellow. The mothers said they have been that way for a long time. We watched all the symptoms leave and their eyes turn normal color.

As the crowd started to thin out and I had a little more room I had a lady that could barely move. For 25 years she was racked with arthritic pain all over her body. Her face showed the signs of continual pain, her body moved like it just couldn't take another step. I put my hand on her and commanded that arthritic spirit to leave her. It looked like somebody hooked her up to electric shock and she started dancing. I joined in and did my crazy chicken dance. Now, I never, ever expected this lady to dance like my hyper speed chicken dance. All of a sudden she had moves that made me look like a baby chicken just hatched. The people that knew her started screaming with joy for what God had done for her.

Rev. Kettor,

I was so happy tonight. It was great tonight. We started with difficulties, we faced vehicle problems to get out to the bush area. I went for car and it took me almost all day to get taxi to come for us. The car still wasn't good but God made it run. We got here late for the crusade and didn't have the rooms set up yet. With all the difficulties I knew it was going to be so powerful tonight.

When we got to the crusade site I saw that there was such an eagerness to be healed. The people rushed us and they just were not going to hold back until they got touched. This is one of the most powerful moves of God I have ever seen.

The people that were blind were able to see and the deaf and dumb being able to hear and talk. People that had chest problems and back problems, oh, so many were healed. Everybody was touched. The people were saying, we are going to follow these people wherever they go. Just like the crowds followed Jesus, these people want to follow Jesus now. I am so grateful to God for what we experienced tonight.

A drunk man came, he said his eyes were real bad. He said I am drunk and please pray for me. God opened his eyes and the guy got sober and gave his life to Christ. He said I have never seen such a thing.

So many that were healed by Christ and received salvation said that they will serve the Lord all of their lives. They have never in all their lives seen such a thing where Jesus manifests Himself like this. They were all saying that with what God had done for them that they would NEVER forsake God.

Pastor Instantly,

Firstly people had very high expectations for healing tonight. Everyone was eager to be “me first”. Many were surprised how the healing occurred, how it happened so quickly. A lady with a growth just kept touching herself astonished at the fact that it was gone.

There was a Spirit of Revival in the atmosphere tonight. People were jubilating, dancing and very happy with what was happening.

This was a Muslim dominated area before Jesus showed up here, but now you will find more Christian than Muslim. Most of the elderly people here tonight were Muslims and after experiencing the demonstration of the Holy Spirit, they got converted.

The actual site of the crusade was owned by a Muslim and he donated the use of the land as he said “I cannot stop this gospel from going forth!”

Testimonies:

There were so many healings and salvations that they couldn't be counted. Many were getting healed and running home to tell their families and bring back other sick family members. Backs, heads, chests, hearts, arthritis, cripples, lungs, throats, legs, feet, stomachs, many eyes healed and even total blindness removed (one lady 25 years and one 20 years, for all their lives total blindness tonight received perfect sight).

I so enjoyed the people with tumors search and search to try to find them as Jesus made them disappear.

Again and again I heard: “The pain just left! It just left!”

Casey:

Ok now I want you to try and get a picture what I am about to tell you. Ok you ready? Picture me holding up a white towel in my hand, do you see it? Ok now picture me throwing the towel onto the ground and yelling uncle. Why you ask well tonight was another one of those nights when there are no words to explain what we encountered. The power of the Holy Spirit was so strong tonight and the hunger of the crowd...well this is just something you would have to experience for yourself. I really don't have words to give what happened justice so do I even try? Ok I am getting one word HOLY 😊

Something so bizarre was happening to me tonight and I still have not been able to wrap my head around it as of yet. I was seeing major healings and miracles take place instantly, but small body aches and pains were taking longer for healing. At one point I was looking for another deaf mute to pray for because they were being healed instantly and way easier. It just really

made you want to pray for the most difficult one first. I don't understand this but God knows what He is doing and who am I to question that?

Like Tony said we started praying tonight for pain in or on the side of their body and we instantly got rushed by the crowd. They were kicking up lots of dust and just jamming you from every direction. There was nowhere to go and who to pray for first was also a great question. So I just started praying in a right hand circle and that seemed to work out very well. I did have a few people try and keep up but the crowd was way too thick. As I was praying a group of persons were being pushed through the crowd right for me. So I stopped spinning for a bit to see what they needed and turned out to be a group of deaf, deaf mute, and blind people. Sweet I thought to myself. The first small girl was deaf and mute and as soon as I started to pray her head started looking side to side real quick. So I asked her what's going on and she pointed at the musicians and pointed at her ears with a huge smile shaking her head yes. Wow that was fast now on to the voice. I put my hand on her neck and told her to say Jesus and wouldn't you know, she said "Jesus." The next one was a teenage girl that was from the pastor's church and she was deaf in both ears but again in a moment she was totally healed. The blind eyes popped just as fast. With each healing and testimony everyone saw and heard the excitement level would again increase and they would press in even harder. The most memorable healing tonight for me was a young girl that was again a deaf mute. As I prayed for her tears just began streaming down her cheeks and I already knew that she was instantly healed. As I got down so I could look her in the eyes she just wrapped her arms around my neck and hugged me. She was so grateful now being able to hear and speak, God you are so awesome.

I also prayed for several young men and boys and one small child that all had the same painful condition. I don't know what you call it but let's just say their parts were all swollen and they weren't walking too good. All of them the pain instantly went away and so did the swelling. There was a young boy they said had a hydroseal, what's that? Anyways momma checked after prayer and said the little guys was totally healed! I also saw several tumors dissolve tonight and just about everybody's pain you could think of was healed. What an awesome night makes me think what's next?
