

Mission to Africa

January 25, 2012 Evening Crusade at Village called Factory Camp

Tony:

MUSLIM VILLAGE INVADED BY HEAVEN.

In one evening what the enemy thought he had, was given back to the True Owner, Jesus. Wow, it was again just an amazing night. After wild praise and sweet worship, we gave the people an acting out of the life of a lost person under the influence of satan and how that changes when they call out to Jesus and He comes. It seemed to click for the muslim audience. We gave a couple words of knowledge and about 100 people came up. After the first 10 announcements of healings more and more people came even before we called for anyone else to come. When I was getting lots of other stuff besides the words, I knew it was time for salvation call. That's when we saw how open Heaven was in this place. Every person that I could see in this village gave their lives to Christ tonight.

We had to ask the people to move back several times as they had Casey and I pressed up against the keyboard table. There was just no room to even turn, so Rev Kettor kept asking them to move back. More than a few times people got to pushing each other, vying for position. I could again see the desperation on some of the faces trying to push thru the crowd. I thought of the woman with an issue of bleeding that received her healing just by pressing in and touching Jesus. There were people tonight that were healed the moment they touched us. Now that was wild. Suddenly, they would smile and start jumping or praising when the power went into them. Then we had to ask them what they just got healed from. Awesome God!

Here are just a few "different" testimonies:

A 25 year old lady had pains and aches in her mouth for 3 months. She opened her mouth wide to show me the inflammation in her mouth. I got out my flashlight and looked in. I saw redness and teeth with holes in them. She said she couldn't bite on anything. Quick prayer and she just started yelling "I am healed!" Pastor instantly asked her how she knew she was healed. She said buy me some chips and let me eat some and I will tell you. She said there was no way she could bite on a chip without extreme pain before. So, he bought her chips and she ate them all singing with her healing.

A child 5 years old had a large lump on his stomach. The mother said that there was something living in the boy as they have been able to see and feel this lump moving since birth. Tonight it completely disappeared. I would love to some slow motion photography of this stuff. It's like now you see it, now you don't.

Again arthritis pains were wiped away in people's bodies. A man fell 22 years ago and has had joint pain in his right knee every minute of every day for the last 22 years. He said that he had tried everything to get well and nothing and no one could help him. Only tonight was it removed. He pounded his right leg to the ground to test out his new knee.

A 55 year old man with a hydrocele had it disappear instantly. This happened so fast that I had to do a double take. I had to ask myself what I just saw. Oh my, was he happy. He couldn't wait to go home and show his wife!

I saw the crowd around us make way for one middle aged woman with a tree stalk for a cane, hobbling towards the front. Whatever the people's conditions were, they seemed to know this lady and want to see her get prayer, so they pushed aside and made a walkway for her thru the crowd. She stood before me and I could see her faith. She had the typical stomach ailment that so many have here from the bad water mainly and the right leg that was being supported by the wooden cane (it was about 5 feet long), her leg was crooked and deformed. I prayed for her leg and BAM a creative miracle and she started jumping. I was holding the cane. I didn't need to ask how she was doing, except for her stomach. She said "yes my stomach is well!" That was a side benefit as I didn't pray for that. Rev Kettor took the walking shaft she had and waived it in the air as all in the village knew her. As he waived her stick, she was walking away with her new leg. Glory to God!

Other than one case of a man and a young woman that were blind and received only partial sight back, everyone was healed within seconds. Just touching them power was released.

Rev Kettor:

I am still sitting amazed that EVERYONE in this town gave their lives to Christ tonight. **I HAVE LIVED ALL OF MY LIFE IN THIS AFRICAN NATION AND HAVE NEVER SEEN 100% OF A MUSLIM VILLAGE GIVE THEIR LIVES TO CHRIST!** This is just amazing, it is just amazing! Tonight as we entered that town, my spirit was moved that something really big was going to happen here tonight. Absolutely everyone got their healings that I could see. There were people singing and dancing all night, there was so much happiness and excitement. I so enjoyed the way they were dancing with pastor Tony and all so happy.

From what I see with my eyes and experience with my spirit, so many lives are transformed that I want others to agree with me in prayer that God will touch hearts to release finances to this ministry as there can be very few ministries in all the world where there is so much eternal fruit.

Pastor Instantly:

The healings were happening Extremely fast tonight. It was amazing to see this. The people had the faith that they could be healed. It was instantly, instantly miracles, one after another tonight.

There were many people both totally blind and partially blind that received their clear sight tonight.

There were so, so many cases of people with various leg problems that prevented them from being able to walk. They were all instantly healed. Many with side pains all healed.

A man of 57 years old said that when he was 8 years old he fell from a palm tree and damaged something inside that has been causing him pain everyday of his life. Today, for the first day of the last 49 years, all the pain is gone!

Many, many people healed of stomach disorders. Way too many to even begin to count.

Two women and one man with arthritis in their hands and fingers had total recover tonight.

Many chest and heart problems instantly healed.

Typhoid, 44 year old lady healed form 4 years of this disease. Tonight for the first time she felt her body free.

Casey:

Ok... again wow what a night. The crusade was in a total Muslim village but you wouldn't have ever known. We were in the enemy's camp bringing the very Glory of God to the people and nothing was going to stop us tonight. The praise was rocking tonight and all the kids were dancing with Tony and me. I had to stop for a bit because the dust was so bad it was hard to breath. That didn't last long because the children would grab your hands and pull you back out and if it wasn't them, the worship singers would do the same. It was a lot of fun tonight and you could feel the freedom in the air.

When it came time to pray for the sick we gave out words of knowledge and again that didn't matter much because they just started coming for prayer. Once a few testimonies went out on how fast they were getting healed there was no stopping the crowd. They all started to press in real hard and pushed us back into the tables so we had nowhere to go. When the crowd is this hungry the healings just pop instantly so actually it was a bunch of fun.

The first lady I prayed for went deaf twenty five years ago, not sure why she just went deaf. As soon as I touched her ears she started to smile real big as her ears were starting to open. By the end of the prayer they were totally opened again and she was hearing clearly. Praise God. The next person I prayed for was also deaf and so were the next two. How about that four in a row

and each one received total hearing instantly tonight. I had also prayed for several blind people that were instantly healed as well. I don't understand why two of the blind that came only got small improvement to their sight, but I guess some is better than none though. All I know is that God is calling the shots and He knows way better than me. It was just hard to stand there and watch them as everyone was totally healed, hummm?

I got to pray for a man that came walking up with a stick it looked like he had a stroke or something. No matter, after prayer he just smiled and walked away carrying his walking stick. Maybe he is going to use it for firewood never know. I also prayed for a ton of stomach pain and back aches. The way of life is very hard on one's body so this problem is very common in every village we go to.

One of the coolest things I witnessed tonight was the salvation call. When Rev. Kettor gave the invitation to come and receive Jesus from what I could see the whole village came. I didn't see anyone standing back as hundreds came into the kingdom tonight. Can you say party in Heaven woot woot 😊. Thank you again to everyone praying for us it's working 😊 Blessings.
