

Mission to Africa

January 26, 2012 Third Day Outreach & Crusade:

Tony:

God is doing tremendous things in the earth. He is drawing the nations to Himself. The harvest truly is ripe and we are seeing the Spirit of God revealing Jesus to souls in such powerful ways. Again this morning we awoke to people waiting on us to receive healing prayer, all were healed and confessed Christ.

As we arrived at the first of 3 villages we would visit today, we stepped out of the vehicle and saw God doing something new to us. Previously, all of our outreaches have been with our walking thru the villages, house to house. Today, we just simple announced to the few people standing there that we had been sent by Jesus to heal the sick. Right away two of them told us of their physical problems. They were quickly healed and shouted praise to Jesus. For the next 1-1/2 hours we didn't move 3 steps. I have no idea how, but more and more people kept gathering around us. The healings were happening quickly again and with every shout of praise someone would pull on my clothes or grab my arm and try to turn me to them. We have seen this at Crusades before and often groups of people would gather around us on the streets, but never this pressing in of so many on the streets.

We had to be pulled away so that we could go to the second and third villages. As we were turning to leave for the car, people kept yelling "just one more, just one more" while they tried to grab ahold of me. The people were told we would be having a crusade central to the 3 villages tonight so that those not prayed for could come. There is no way anybody could have gotten me out of there till every last one had prayer if we weren't coming back at night. I know this happened to Jesus everyday when he walked the earth bringing healing to people. I can feel just a little of what Jesus felt as the compassion in His heart for these people, like sheep without a shepherd, released the grace of God to keep Him going in the midst of such a physical drain from ministering to so many people. It is an amazing feeling to walk with Him this way.

This day is full of hundreds and hundreds of healing miracles that happened in front of me. Here are just a few of what I saw as I am just overwhelmed with His Goodness!

A man, 59 years old man has an accident 33 years ago and for all those years has found no help for his condition. He could not put any pressure on right leg or stand on it at all. This condition has affected every area of his life and he has not been able to be the husband or father that he wanted. He came having given up on life, but was excited when he heard about the healings taking place today. When the words of knowledge were given, none were for legs, but he didn't

care, he got as close as he could and then his friends helped him to get in front of us ahead of everyone. After a few moments, today he stood and walked giving praise to God.

A lady 53 years old stood in front of me. She has had arthritic pain all over her body for the past 42 years, with not one of those days with any relief. She grimaced as she attempted to show me the various parts of her body that caused her agony when she moved them. I got the picture pretty quick and told her, ok, no need to show me more, let's watch Jesus heal you. I watched her stand in amazement as she went from one body part to another checking out the miracles Holy Spirit was releasing. After about 5 minutes of verifying to herself it was real, she just started jumping up and down, tears flowing as the reality of His Touch finally settled in.

A woman had malaria, we prayed and she started burning up, sweating like crazy, just standing there. After a couple of minutes she said, "I am healed, I am healed!", as Holy Spirit burned it all out of her.

Now this was cool. A lady had an accident and her knee cap was dislocated and could not be bent. It looked like she had 2 knee caps. It looked real painful. No hospital was able to help her all these years. After a couple rounds of prayer, she felt her knee cap moving. Don't know how God did it, but she got blessed to feel it come back into place. Well, she took off like a roman candle shooting into the air. She danced and danced for all to see.

A woman with crippled fingers on her right hand that were unusable and, now this is weird, a frozen upper lip and right cheek. It was like they were paralyzed for years. If you could imagine what it would be like to not be able to move your cheek or upper lip. It would affect your eating and talking at a minimum. I prayed the first time and she said she felt something moving. I prayed the second time and it was like she got hit with a mini lighting bolt. She just started screaming with excitement and her fingers and face returned to normal. She started running around and showing everyone what God had just done for her. I got the picture of the woman at the well that went back to her town and spread the good news after being touched by Jesus. I have a distinct impression this lady is probably still up going house to house telling of the mercy of the Lord.

Casey:

Morning comes quick in Africa and with the rising of the sun we awoke to a group of people that had already showed up for healing prayer. This has quickly become our morning routine. We sit down for a nice quick breakfast and piping hot cup of mocha coffee and out the door and up the hill we go to pray for the sick that have assembled. This trip has so far been the most amazing time working with the Holy Spirit. Each day we are feeling what Jesus must have felt when He walked on the earth and the anointing has even seemed to have kicked in to another level. I can't wait to see what He is going to do today.

We were planning on going to a market this morning for an outreach but hey this is Africa and plans change quickly here as we have learned. No problem you just go with the flow knowing Holy Spirit is in charge and you will end up right where He wants you to be. That's where we found ourselves today ending up in another bush village and not a market. As soon as we climbed out of our car we were greeted by a few of the locals and we told them we were here to pray for the sick. What happened next is something we have never seen on any of our past trips ever. We were only able to move about 20' from the car when a crowd formed around us. At the same time they all were pulling at you asking for prayer. Who to pray for first was the only thing you could think of, well that and please don't rip off my clothes. It was like an evening crusade atmosphere here in the village. The hunger to be healed and touched by Jesus was so awesome to be right in the middle of that. I have no idea how long we were there but the pastor I was praying with told me it was time to go to the next village. I didn't move because there still were people waiting for prayer and I just couldn't pull myself away and leave them without getting a touch from God. So pastor would say ok Casey lets go and I would reply back to him ok one more and I would start to pray for the next person. The pastor just started to laugh and ask me how many one mores are there. This went on for a while until he gave up and started to pray again himself.

The healings were popping quickly today without any struggles. From what I saw all were healed with only a handful with partial healing. I found out at the end of the crusade the ones who only received partial healing this afternoon were totally healed at the crusade tonight praise God.

I wish I could remember everyone that I prayed for but at the end of this afternoon I was lucky to remember my name. Needless to say I was going to take a good nap.

This evening's crusade was a bunch of fun and again the worship was awesome as we danced with the people and children. We were kicking up some dust tonight. Tony had me preach at the crusade tonight so I just gave them a quick word on the kingdom of heaven and again we went right into prayer. For me the prayer time went real fast and I didn't have any struggles at all. Everyone I prayed for was healed instantly. I didn't have any deaf mutes tonight or blind eyes to pray for...maybe all of them have already been healed☺. I prayed for mostly stomach pain tonight and for a bunch of women that could not have children. Those prayers are fun just speaking life into to them and releasing blessings over their bodies to have children. They all said they felt different inside like something left them so I told them go have babies as they just smiled. I also prayed for this older woman that was having a bunch of pain on the left side of her body down to her foot. She said she has had this pain for a long, long time. After a quick prayer the pain left her body and the look of shock on her face was priceless. At first she was like, "really that's it?" It can't be that easy and that quick as I told her to shake her leg and kick

her foot up and down. Ahhh, the power of God is so cool I love it. What a great end to an awesome day. Blessings to everyone that is praying for us on this mission trip.

Rev. Kettor,

This morning people came to the compound at 5:30 to 6am for prayer. This is normal since we have been here. They were prayed for and healed!

We left for the outreach and the town people called us and slowed us down a little to head out. But God's timing is the best. There is no late with God. Our plans got changed and we went to a different village. It was D (division)8 New Camp. We wanted to go from house to house to pray, but to our surprise people just rushed us for prayer. Now, we never told them we were coming. How could such a thing happen? We saw blind eyes open, the deaf and dumb hear and speak, many, many problems were all healed. It was so good.

We were supposed to go to the next camp for prayer, but they kept coming, so many of them. It must have been angels bringing these people out of their houses. It was quite a sight.

We went to the next town called D8 (old camp) where we met marketers selling their goods. Again, we never moved more than 5 feet from our vehicle. We never told them we were coming, but we got surrounded by so many people. Again, blind see and deaf hear and lame were walking.

Because of the multitudes of people that came there, the schedule for us was changed for the crusade tonight to be here. Again, they did not want us leave, they tried to restrain us and begging us to stay. But knowing we were coming back we went to the next camp. D9, we met a man that was sick for many, many years. He went to herbalists, he went to multiple hospitals, he even went to the country of Guinea to try to get well. Nothing would work for him. In less than 2 minutes he was completely healed by the power of God. Those watching started screaming out and running into the village to tell others. In a matter of moments we were surrounded again. And again, we never moved more than 2 steps the whole time we were there. Instant healings were happening! All manner of sickness healed. Blind, deaf, foot, back, all these things disappear in the lives of the people. We told them to join us for the crusade in the evening.

We took a short break and headed back out to the evening crusade grounds. At the crusade we saw almost everyone receive Christ as Lord and Savior. It was again so amazing to see this. The healings were so fast. Many just as they came they were healed, what a sight to see.

One of the interesting ones was a man that came with a hydrocele. I saw it, it was so big. I watched it as we prayed and saw with my own eyes it disappeared and he became normal. Oh my God, this is so good.

We thank Pastor Tony and Casey for leaving their homes, family and work to come to Liberia for the sake of the kingdom and to bring Christ to our hurting people. Every day we stay together with them is a new experience. Every move we gain new anointing, new touches, new revelation. We are one in this work, in maturity, in love, in respect. We appreciate them happily being here in the midst of the bad conditions of this land and they are so happy. We appreciate them eating our food, and living with us as we do. They are one of us. I appeal to all to invest in this great end time ministry of Living for Jesus International all over the world. Their coming has transformed so many lives. Pastors have received impartation from them that will carry them to the return of Jesus. This is an awesome ministry. We thank God for them.

Pastor Instantly;

Outreaches: Today we had to narrowly escape the grasp of so many people, as so many wanted us to help them today. Today as we walked, people were instantly healed except for a few complicated cases that had their healing started and will probably be done shortly.

Many muslims were converted today. It was so easy after they were touched by God.

Testimonies (hundreds of them): epilepsy healed, back conditions all instantly healed, all sorts of body pains healed, many joint pains healed, a man 41 years been feeling joint pain since childhood and today felt God's touch and instantly healed. Another 51 year old man suffered for 17 years instantly healed to his amazement today, heart problems healed, necks restored, many eye problems recovered including 3 totally blind receiving full sight, seemed like hundreds of stomach problems healed, typhoid healed, people claiming healing from appendix problems, tumors disappearing, asthma and chest pressure healed, many delivered from demonic attacks and nightmares, deaf ears instantly opened, teeth problems healed, hypertension and many headaches healed, impotency removed from men, a lady had strange symptoms for 3 years. All day long she would tremble and shake. Today she felt fire and started sweating and then all symptoms gone, a 9 year old child suffering with rheumatism since birth was healed today.

CRUSADE:

Overview: It is a tremendous blessing to be able to see the wonderful works of Jesus these days, I am so blessed. The healings were instant. The anointing was again extremely strong tonight. Our visit to the area this morning paved the way for anticipation to be very high and faith released. Many that were touched today brought all their friends and family. After the

closing of the crusade the people kept coming for a long time for healing. Some said it was a joke as they watched, but God got them all. One lady said she had body pain and was waiting to go the hospital tomorrow, I told her to just see what Jesus would do first. All of a sudden she just started jumping. No one prayed for her, she was just touched by the power of God while she was standing there. She became a believer tonight. The people were saying that a one day crusade is not sufficient; they recommend that we come back for second day. Living for Jesus International - Liberia will go back to them again. Glory to God!

Testimonies: Many, many people with the following conditions were healed tonight: Stomach pain, A 6 yr old child from birth cry every day with his stomach, the child's stomach could not even be touched, but after prayer all gone! Heart pains, malaria, knee problems, back problems, leg problems, a 21 yr old man from birth had pain in both legs, but today gone instantly, body pain - 23 yr. old lady said she had been suffering 20 years. She was so amazed, she just was in shock, and kept dancing over and over again, many with side pains and lots of people blessed in family, school, work, etc.

A young man was brought by his friends that were touched today and he had head pain. He said "I really don't believe this stuff". When he was healed he just stood there in shock for the longest time and he became a believer tonight!
