

January 21, 2012 Paynesville City, Liberia (Soon to be No Painsville City)

Open Air Crusade:

Tony:

We showed up at the crusade field after numerous setbacks to total darkness and just a few (maybe 200 people there). As the praise and worship got cranking (two hours after the scheduled start) people kept coming and coming. It seems as though there were many people that wouldn't have been able to come earlier and Our Daddy arranged for the start time to be changed. All Glory to God!

It was demonstration time. Some words of knowledge came forth and I gave a word for damaged knees. We watched these women hobble up, receive prayer and then jump. It wasn't just us watching, it was a lot of people that came to see if what they heard about Jesus was true.

I got to pray for a number of women that were barren. It is so much fun to watch as they feel their internal parts getting touched.

Lots of Deliverance tonight. Night terrors, Demons coming at night and doing strange things to women, all sorts of strange events. The power of God came and set one after another free!

Now this was really cool. A young man came for prayer who had a bike accident. He stopped his fall off the bike by landing on his hands. The force of the fall crushed his wrists and they were pretty mangled. He basically had no use of his hands. I put my hands around his wrists and prayed. I was expecting to feel the bones moving, but felt nothing. Forgetting momentarily that the miraculous is miraculous and doesn't need to be felt, I thought that I would be praying again when I took my hand off his wrists. But, amazingly, without me feeling anything happen, his wrists were totally put back to normal with bones back in the right places. He freaked when he saw what happened as he didn't feel anything either. Glory to God, He is so amazing! I just stood there for a few moments in amazement at what I had just seen.

A man that could hardly breathe, looked like he should be in the hospital, spoke of pressure in his chest that made living nearly unbearable. He was shaking from this disease, in great fear and we could see and feel his concern for his life. In a moment, he felt something (someone) leave him with a great release and instantly all pressure was gone and breathing returned to normal. Wow, you should have seen this guy, was he ever happy. Thank you, Jesus.

As you will read from some of the other testimonies, the miraculous healings were fast and coming one after another. There were hundreds of miracles and large number of salvations that broke loose tonight. No one in the crowd moved, they were all fixed on the constant flow of miracle testimonies coming forth and the hooting and hollering of praise from people as they were released from their sicknesses.

Rev. Kettor:

First of all we appreciate all being so patient with us for the start of the outreach tonight. There was a big delay in setting up the instruments and lacks we had BUT I believe was totally on time. I believe it was to allow many to come that would have missed it if it was earlier. Many came to see if it was real that people are being healed. I was so impressed seeing those that came to watch, got healed, those that came to be healed, got healed, those that came to mock, got healed, those that didn't believe got healed. It was amazing as multitudes received salvation tonight after witnessing the loving healing power of Jesus!

The entire crusade tonight centered around a young girl that the whole village knew was deaf and dumb for all of her life and when she received her miracle the crowd went wild, screaming and yelling praises to Jesus. The people that were all around the back, not wanting to get too close, ran to hear this girl talk. They were in amazement and when it came to salvation call time, they all came running to Jesus. I was so impressed to see God do this.

There were a lot of trials before the crusade. A flat tire delayed us for more than an hour. Then no car to carry us to the crusade grounds. After all that was fixed we got to the crusade ground, there was no power, no lights, no music. We prayed and worked hard to get it ready. Then the batteries in the mikes blew up. We will not be taken out, in Jesus Name. With all the obstacles, there was breakthrough ahead of us. There was no negativity or speaking the problem, just all working together, praising God!

First, the deaf and dumb girl was born that way. To hear her begin to speak tonight, oh My God, what a miracle.

A lady that had terrible back problems for 30 years and was instantly healed! That was 30 years! Oh, there were some many healed of back problems. It was so fast, one after another after another.

Many, many people with head and neck disorders and head pains, that were all instantly healed. Many with pains that looked like kidney problems were instantly healed.

A man with crippled leg that was instantly healed and walked away praising God! Many others had leg and walking problems, all instantly healed! A young girl was suffering with in her legs daily with pain that was instantly healed.

Many women had stomach disorders for many years and all were instantly healed! There were two, one 30 years and one 25 years suffering with this everyday of their life. Gone in a moment! Thank you Jesus!

Many people with back problems instantly healed. Some 10, 15, 20 years of agony. What a joy to see them twisting and bending praising God!

Many with various forms of arthritis all over their bodies; instantly healed!

Ulcer victims were healed instantly! Amazing to see this.

Heart problems seemed to instantly disappear, praise God!

Pastor Instantly Report yet to come:

Casey:

Outreach time ☺ this evening was just awesome. I know this word gets overused all the time but hey it was awesome tonight. As you already know we got started real late tonight, but that didn't stop God He was there in full power with signs and wonders to boot. After a few words on knowledge were given we were off and praying. Right away we know we were in for a great night when the first few people being prayed for were healed instantly. It didn't matter what the condition was the healings were just popping. There were a lot of people here tonight and I couldn't even guess as to how many people we prayed for, but it was bunches.

I prayed for several backaches that the people had the pain for years, but just one touch from Jesus and it was gone. The people began to press in for prayer after they saw and heard what God was doing in this dirt field. In the middle of the crowd around me I felt the Holy Spirit direct me to this teenage girl that was trying to press through the crowd for prayer. So I pointed her out and got her to me so I could pray for her. Come to find out she was born deaf and mute. Just to say I love to pray for deaf mutes too so this was like a bonus. I placed my hands on her ears and began to speak to that deaf spirit and command it to leave her body and speak life and sound and healing into her ears and BAM one of her ears popped open right away. If this doesn't get you excited nothing will. Now that she could hear out of one ear I wanted to get her to speak so I came against the spirit of muteness and commanded it to go in Jesus name. I placed her hand on my throat so she could feel the vibration of my vocal cords as I spoke. Then I placed her hand on her throat and had her speak for the first time. Her first word she spoke was Jesus. Now one ear was open and she started to speak it was time to go after the other ear to get it opened as well.

Before I could do this Pastor Harris or as you all know him as pastor instantly gave a salvation call. We got swamped with so many people wanting to receive Jesus and he said for the people to raise their hands while they received salvation. The young girl that I was praying for put her hands into the air and prayed for Jesus to come into her life and as soon as she said Jesus her other ear popped open all on its own.

Needless to say she was stoked and once the crowd found out that she could hear and speak they went crazy. They all followed her around in amazement of what God did for her. See they all knew her and knew she never could hear or speak but in moments of someone praying for her she was made whole. Jesus was getting all the glory for this one.

Right after her a young boy with the same problem wanted prayer too. This took a while for both of his ears open, well one popped open right away and I fought for the other one to open. Several prayers later it opened and this little guy never gave up he knew after watching the teenage girl get healed he was going to get healed as well. He too also started to speak for the first time tonight. The last person I prayed for was an older woman in a wheelchair. She was totally paralyzed from the waist down. No feeling or movement at all. I wish I could tell you that she got up and walked but not yet. However she did get all of the feeling back in both legs all the way to the tip of her toes, and she even began to lift her right leg about four inches off the

foot rest. I even saw all of her toes wiggling to the worship music being played as we were praying for her. She was very thankful for the healing process that she has now entered into. I guessing she will be walking soon.
