

Tony:

Thanks to all for every prayer you have submitted for this mission. We have truly seen a great move of the Spirit with many transformed lives, church leaders that have dumped the old wine and will now be serving the New Wine of the Spirit, many salvations including hundreds from the Muslim religion, thousands of miraculous healings, a spiritual atmosphere that is infused with the very Glory of God and so much more.

This morning we had the last ministry time for this mission as we traveled into Monrovia and met at Christ Life Ministry Church. It is a newly built building and we were blessed today to dedicate the altar for its official use. The people poured into the church and I asked how many were married as the men and women were mostly sitting on opposite sides of the church. We discovered that 95% of this church is single or widowed. I could see on their faces that again we were met with many Liberian Christians living with sickness in their bodies for many years.

After a time of announcements and worship they handed the microphone over to me. We encouraged the people to receive the inheritance the Jesus bought for them. We told them that the miracles they were about to see were prophetic, for them to receive for themselves the healing they need and to walk in the same healing anointing TODAY! We had one of the pastors from Cotton Tree village where we ministered this week come along with us saying "I am determined to get every last ounce of anointing out of you guys before you leave, so I will be with you to till you get on the plane!" At one point I sensed a release of the prophetic and I asked this pastor if he was receiving something. He said "yes, I have been seeing things in the spirit since the conference and today, during worship I saw a beautiful bird flying from corner to corner in this place. I recognized it as a dove, a beautiful Dove. However, I do not know what that means!" Many of you know what was about to happen, don't you.

We gave a couple words of knowledge for healing, about 10 people responded. Again, instant healings! Then when we invited others to come for prayer, then entire church got out of their seats and lined up. No long altar calls, no pleading to come, just "whoever wants prayer!" They had seen enough to bust loose the faith in their hearts.

We don't often see real old folks in Liberia, but there was this one lady, 70 years old. She was the oldest lady in the house. I was drawn to her and when I asked her what she needed, she said "for the last 20 years I have been in pain all over my body. Nothing has been able to bring me relief. Today I am going to get free as soon as you touch me!" OK, In Jesus Name, and BAM she was jumping, dancing, spinning, hooting and hollering like a little kid! Hallelujah! Every bit of pain removed from all the joints in her body, instantly! Well, the people were all packed all across the front so there were all the people on either side of this lady watching and hearing this. Also, their bodies were all pressed against each other so the Anointing was hitting others before we got to them. I felt the hunger and faith go right thru the roof. Wow, do I love working with Holy Spirit and seeing His tangible loving touch manifest on these folks. Some, before we got to them, tears were flowing and they were vibrating under His Power. For some we barely had a chance to ask what the problem was before His Healing manifested.

To make all this even better, Rev K gave a call for salvation in the midst of all this going on and we discovered there were a bunch of new people here today that 'just happened to show up' and they all got saved! Glory Hallelujah!

Here are some of the miracle healings:

Many stomach ailments healed, headaches (some living with this everyday not touched by medication, if you can imagine that), various pains all over their bodies (some suffering from obvious arthritis) all healed, various degrees of both deafness and blindness all healed, lots of back problems, skin problems, all sorts of heart and circulation issues all miraculously healed! There were only a few people with problems that were current, most everyone had been suffering for many, many years.

But then the ones that really got me, those were the folks after receiving Healing from the Lord, grabbed on to my hands and said "I have got to have the anointing that is on your life, I will restrain you until you release it!" Well, no need to restrain me, freely I have received and freely I give. So, I imparted the Anointing to them and I know that same was happening to Casey and the other pastors. The determination in their eyes was powerful, as I heard them say, "I will go pray for people, right now!"

Casey:

Whelp this was our last shot at giving out every last bit of anointing for this trip, and we held nothing back. The church service was buzzing with the Holy Spirit as they worshiped, wow I wish I had rhythm like that, lol. They worship with their whole body, soul, and mind, I love being here.

After the worship was over and Tony shared we had released some words of knowledge. Tony and I got the same words this morning. We know we were tracking with the Holy Spirit when this happens. So we called up the persons that the words were for and got to it. Again the Holy Spirit was healing instantly. I have come to expect nothing less now, my faith has been growing to stand for healing with no doubt. The first few that I prayed for were stomach problems. Most of them have had this condition for years. I can't imagine living with this every day so to watch them be totally healed is awesome. The one that I remember the most was an older man that wanted prayer. He had a stroke several years ago and was paralyzed on his right side. He couldn't raise his arm or walk without help from someone to keep his balance. After the first shot of prayer he began to weep as the Holy Spirit began to touch his body. He started to lift his arm in total faith that he has been healed, and up his arm went. I prayed again and had him start walking around. This man didn't only walk he started to jump up and down and kick his right leg back and forth. I hung out with this man for the rest of the service just pouring in the anointing into him. When the service was all over he was walking all by himself and drinking a bottle of water using his right hand and arm. God is soooo good. This trip was the best.
