

Tony,

Here we go, people everywhere, waiting for a miracle from God. There were a lot of the Pastors here tonight to enter into the praying to confirm what they believed they received. Praise was wonderful, looked like a dust bowl with so many dancing. After praise, Casey gave encouragement in the Word to prime the pump, then I was like the coach. The team (pastors) lined up for a pregame huddle. They had prayed together and now the coach needed to give them last minute instructions. Even though there were a lot of people here tonight, the prayer time would be fast due to such a large prayer team. I told the team: "OK boys, remember short prayers of authority, then test the water to see what is happening. No long prayers. Remember boys, keep your eyes open and watch what Holy Spirit is doing. Call on a teammate if you run into trouble. When God takes out the opponent (devil of sickness), then see if the person will give testimony over the microphone." These guys were like school kids getting to play their first game, they couldn't wait to get in there.

Well, we gave a few words of knowledge and BAM the people started storming us. It was not like normal, where we pray for a few people, one at a time for all to see the miracle. Nope: What happened next was just like one of those movies where two opposing armies came at each other and then clashed. The people ran towards us and our pastor team ran out to meet them. Only the opposing team were the demons of sickness, disease and torment riding on their victims. We went in to free the victims and take out the opposing team. It was one of the coolest things I had ever seen. All the pastors had on white shirts (from the conference) and ran into the darkness. For a moment I just stood there looking at the many flashes of light shooting into the crowd. Well, they engaged and I joined them.

You could hear shouts of joy and laughter and praise everywhere as the INSTANT miracles were happening like crazy. The pastors that had never experienced this before were shouting with such joy, it was riveting right thru me. I cried, I laughed with joy at what God was doing in this place. Now, we are talking, within the first 5 minutes, there were maybe 50 healing/delivering miracles. Then it stepped up from there. The demons of sickness were taken by surprise and I think many of them ran off the field for fear of the power in the hands of the Pastor Saints team. Healing miracles were very, very fast. There was no way to get the majority of testimonies as there was a flood of liberated ex-victims rejoicing on the field!

The whole battle was over in 15 minutes, with hundreds and hundreds of people healed and freed up. Then as many ran to their homes to get their sick family members to bring them back a call for SALVATION WAS GIVEN. Wouldn't you know it, now that the ex victims had been freed, they nearly all gave their lives to Christ tonight. I don't know if you can picture what I am trying to describe happened, but it was Awesome!

I got down on the ground to minister to some little children brought by their mothers that could not walk or stand and suddenly found myself completely surrounded by lots of people, to where it was hard to breathe. I was praying, the child would stand and then more little children would get air lifted over the crown and dropped down into the hole where I was praying. All Glory to God!

Then suddenly I had deaf children and their ears were instantly opened. Now I am talking 5 seconds. "Ear Open, in Jesus Name!" And it did!!

During the initial rush of the armies, I got to see some tumors disappear.

- A woman had a tumor on her stomach. It was very hard for last 4 years. She said that people would tease her that she was pregnant. She tried to get help everywhere. Tumor instantly disappeared. Oh, how I love the look on their faces as they search all around with their fingers to feel the tumor, but it's gone.
- Had a lady with a tumor in her throat that we watched disappear. Yeah God!

Rev. Kettor:

I was so impressed this morning as I looked at pastors that were able to receive the teachings that were brought to us by pastor tony fire. They are able to now know that power comes from the Spirit and not their efforts. Many eyes have been opened. All the years they have been pastoring they didn't know about laying on hands God's ways. I was so impressed that the pastors really understand the teaching. It is amazing to see these pastors tonight out there moving in Holy Ghost power.

For me to see someone who is totally deaf and see her walk a distance to come to crusade and to see her ears completely opened. Even the children that came for prayer testified how they were born with sickness issues and tonight the sicknesses left them.

The man with a crooked foot that got straight, wow, what a thing to see. Tomorrow will be even greater. One of the most things that made me happy was all the people that were jubilating from all the miracles that happened tonight.

The gospel has been presented in a right manner with such power that the pastors really got it.

The following testimonies are ALL INSTANT HEALINGS, I will just describe the problem they came with, the results are all the same. TOTAL INSTANT MIRACLE. Most sought help from everywhere they could, but their help didn't come until tonight when they encountered Jesus Healing Presence.

- 32 year old woman suffered from back pain for 15 years, until tonight.
- 36 year old man suffered from back pain 7 years, until tonight.
- 46 year old man came with severe pain in one ear and deaf in the other for the last 2 years, until tonight.
- 28 year old woman. Severe headache 11 years. She could not even put on her hair tie due to pain. Several other woman with severe headaches, until tonight.
- 45 year old woman cough for 10 years. Tried all medications, until tonight.
- 28 year old man with back problems for 8 years in constant pain, until tonight.
- 25 year old woman with severe stomach pain for 6 years. When she would eat food she would throw up. Another woman had it so bad that she couldn't breathe freely, she would gasp for air often. Many, many more woman and even boy children, of all ages, with same problems suffering for many more years, until tonight.

- 17 year old girl with back pain. She was born with that back problem. Her mother carried her all over to try to find healing. It could not be found, until tonight. So many others with back conditions, amazing what God did!
- Lots of boys with neck pains in their necks giving them problems with their studies, until tonight.
- 35 year old woman with a tumor in her abdomen for last 2 years, until tonight.
- 17 year old boy was deaf for 5 years, until tonight. Instant pop!
- 38 year old woman was deaf. She heard about the crusade today. Her brother took her. She had been deaf for 2 years. She was one of those that made it to the microphone and more people stormed the front who knew her. THERE WERE MANY OTHER TESTIMONIES OF THE DEAF RECEIVING THEIR HEALING.
- We have page after page of recorded healing testimonies. We hope you get the idea of what happened here tonight. Here are just a few more:
- Many reporting of having received sickness in their dreams as they ate something given to them. Some reported of how snakes, spiders & scorpions bit them in dream and they woke up sick.
- There were cripples tonight that walked. Crippling diseases, like arthritis and rheumatism. Crippled, that is, until tonight.
- There were stroke victims suffering, until tonight.

Casey:

This evening's crusade was turned over to me to bring the message. So I got prepared and had it all planned out as to what I was going to share. Whelp that didn't turn out the way I thought it was going to. When Rev. Kettor handed me the microphone everything went blank. The cool thing was the Holy Spirit just filled my mouth with the words He wanted me to speak. That was pretty cool. I didn't share to long, well we try to keep it short anyways because we are there to pray for them not to convince them with words. Just let the healings and miracles speak for themselves. We gave out a few words of knowledge and before long we were totally engulfed by a sea of people all wanting prayer. There were a bunch of the pastors with us tonight which was good because we would still be there praying if they didn't show up to help. They all were having so much fun and couldn't get over how easy this is and how fast the healings were coming. It doesn't get any quicker than instantly lol. I had the privilege to pray for two persons that were deaf. I used my ole finger in the ear move on them and both of them were instantly healed. Even though I am standing right in front of them, this is still such an awesome wonder to watch. I can't see this ever getting old to me. I didn't get to pray for a whole bunch of persons tonight because I wanted to give all the pastors the shot at praying. So I spent most of my evening helping them out as much as I could. By the end of the evening a bunch of the children came over to me and all of them wanted to be touched by God. This kept me busy for a little while, but I loved every minute of it. We finished off the evening kicking up some dust in a huge Holy Ghost party with all the healed people. Ahhh haaa take that devil J.
