

**Tony,**

Thanks to all that are praying for this mission. We are in a place where the Gospel of the Kingdom has not been preached. This is so exciting to me to watch Holy Spirit open the eyes of these Pastors to the reality of God's world and the inheritance left for them by their older brother, Jesus.

It was a day of training and activation and helping these precious folks to enter into supernatural experience with training in deliverance and the prophetic. They all got at it, leading each other thru deliverance and receiving and giving words from the Lord. They did all the praying which will lead up to tonight as they hit the crusade field with us to pray. When they prayed for each other as a result of the words received, all testified in total miraculous healing.

**Rev. Kettor:** I just want to report on SOME TESTIMONIES FROM PASTORS:

The first Pastor that stood to speak this morning said "before the conference I realized that I was dead and buried as a minister. But after the conference, I realized that I came back to life. I experienced real resurrection life! I never knew that in prayer I should just speak the word and not push people with physical strength. I saw it yesterday thru the healing that took place. It was only the word that was spoken, gently, yet authoritatively that healing took place instantly."

Another Pastor said "one of the things that touched him was when teacher said to ask before laying hands on someone. If they say yes, then proceed with discretion. I practiced that yesterday when we were praying and I saw the manifestation of the Holy Spirit. I also prayed last night at the outreach and saw the same power. It is amazing!"

Another Pastor said "I have been attending many , many conferences and I never understood those conferences. But now, for the first time, I understand what God is saying in this conference. Many times I have prayed for people and healing did not come. I learned that I do not need to yell, but just speak the word and trust Him to perform it! It is so wonderful!"

Another Pastor said "I was really, really touched when the teacher said that we need to speak with Holy Spirit (the key is relationship with Him) to do this right and to command the sickness to leave in Jesus Name!"

Another said "I fell to the ground as they were praying for me. I now understand what it means for a believer to just trust and speak and watch for miracles to come. I have such a new understanding and wonderful revelation of what has been given to me. My ministry will never be the same."

Another said "I learned that I do not need to close my eyes when I pray for God to hear me, but I can look at the person while trusting Holy Spirit to move thru me, and watch to see what He is doing."

Another assembly man said "In the past we would never attend any conference as we felt our denomination was the best and no one else had anything to add to us. I now realize that our

denomination (and I don't think we are the only one) is steeped in tradition and I have a new liberty in the Holy Ghost that I never knew that I could have. I am the head of our denomination in this area and now know we have been wrong. I am humbled to say now I am learning to pray and have learned so much about the ways of the Spirit."

Host Pastor said "I have never in my life or ministry been happy. I am now happy. My doctrine was to yell and push on people when I pray. I have seen the truth and the way of God. I have learned now how to pray and have seen the results. It is so powerful. I have seen the true power of God! I am so excited to begin ministry in a whole new way, under the clear leading of the Holy Spirit."

**Casey:**

Day two of the pastor's conference, wow is only the second day here? Everything is going so smoothly and the pastors are really soaking up all the teaching. It's too bad we got a late start, but there is no lack what so ever. Today's teaching was on deliverance and a second session was taught on words of knowledge. During the deliverance session there were a bunch of questions asked. This is something new for them moving in power with authority to cast out demons. No more yelling and that's a good thing. Tony and I gave them a demonstration on deliverance using the back pack as baggage that we all carry until we are set free. This demonstration is a real eye opener. I thank the Holy Spirit for giving this to us. We also had a mock deliverance that Tony and I did for them to see just how easy deliverance can be and that they don't need to be fearful of this. When we finished the look on the faces of the pastors was priceless. They just sat there in shock like they were thinking, really, it's that easy? I can do that! So we paired them up next and had them put what they learned into practice by taking each other through deliverance. They were slow to start but once they did there was no stopping them. Freedom was in the house today. Got to love that!

We got right into the second session because time running out. They got the cliff note version of how to receive a word of knowledge. During the teaching most of them were excited to know they have been receiving words all along. They just didn't know they were. Now they know how God speaks to them they all received a few more Holy Spirit bullets to use when ministering. At the end of this session Tony activated all of them and prayed for them to receive a word for someone in the conference. Wouldn't you know it that's just what happened too? We released them to begin praying for each other. We didn't do any of the praying today at the conference it was all on them. They got it, thank you Jesus.
