

Mission to Liberia, Africa Cotton Tree Village, Body of Christ Church Pastors Conference Day 1

Tony,

We were a day late to start the conference due to mechanical difficulty with a plane we were on. But we were right on time! Right on God's time. We had Divine Appointments in Ghana and then saw a tremendous outpouring of Holy Spirit on the first day in Liberia. All Glory to God!

At one point during the teaching today, when I thought there was a lot of teaching to go, Holy Spirit gave me a word of knowledge to release NOW. I am learning that His timing is always far better than mine. I stopped the teaching and got ready for miracle mode, released the word for those with gum and teeth issues. There were about 200 pastors here this morning from all around this outskirts village.

About 15 pastors lined up. It is always amazing to watch Him work. Now get this: while they were in line, I asked all of them how many were in bad pain right now. As it turns out, about half of them were sovereignly healed while standing in the line. Amazing! They were all in shock. Just standing in His Glorious Presence!

It was fun watching God heal these folks and the bizarre ways it was happening. We prayed for the first Pastor and then had him do the praying for the next, assisting them and explaining what was happening to all those watching. Then the next one healed prayed for the next pastor needing prayer. It would have been neat to have a dentist here today to see how God fixes teeth. I didn't look in their mouths, but I'm sure some of them got some new teeth.

Pastor stood to give testimony: He said "I started out as a Pastor leaning on the Holy Spirit. Then without even realizing it I moved to theology and became very dry. I went to all the conferences that came our way. When I heard about this conference, I thought, no, not another conference, none have helped me. Then I heard the voice of the Lord clearly "GO to this conference!" I knew I needed to go. When the preacher started teaching and demonstrating the Holy Spirit and Power, again the Lord spoke to me: "This is Me! This is REAL Ministry! This is what I am calling you to do!" As he was sharing this, at this moment he let out a scream as the Power of God came upon him and he shook violently for a minute, then went on to speak more: "Today I have abandoned ministry by rules and I am back with Holy Spirit. The Holy Spirit is very, very powerfully in this place. Our lives and ministries are being transformed today!"

A Pastor under the strong influence of The Spirit got up of the floor and stood vibrating to give a message in tongues with interpretation. The interpretation was "The Lord is saying, I show you mercy. Experience My power! Let the crippled, blind, deaf and dumb come to this place. I Am The Anointed One and I Am Here! Do Not Doubt, but receive My Glory!"

Note: All of the following testimonies are from Pastors as the conference was All Pastors today.

Here is a sampling of what I saw as all the pastors came for prayer (seems they all had something needing healing prayer):

New Pastor only 1 year in ministry and new church. Got typhoid after entering ministry. Experienced burning all over his body. He said that fear has gripped him since the disease came and he has been powerless in ministry. I led him thru deliverance and he got free and the burning left his body and refreshing came over him. He said "OK, now I can pastor the church!"

A woman with a 'soft head' and head pain, experienced the power of God remove the softness and fix her skull. Wow, this was quite the creative miracle!

A pastor that 43 years ago was up in a palm tree and the tree broke and he fell and smashed his foot. The doctors and hospitals could not fix it properly. Prayed for the bone to be creatively put back correctly. He has not been able to walk without pain and not able to put much weight on it. Today, in a moment of time, the power of the Most High God came upon him and he started stomping the foot on the ground. He said, "My God, the pain is going now!" and he began walking around. After a few minutes of testing out what God had done he proclaimed "I am totally restored, thanks to God!" Did I mention it was 43 years he had been suffering with this! Now he can learn to live and walk normally. That was 43 years!

Another Pastor said that for 15 years every time that he lies down he has intense burning all over his body. We cancelled the curse, sent the devil and his work out and welcomed the healing balm of Jesus to fill this man's temple. We prayed and asked how he felt and he said "I need to lie down to check it out." We directed him to the platform where there was an empty space. He came back and said that when he lied down, something like a 'cool breeze' flowed all thru his insides and the burning was NO MORE! He did it a second time and Hallelujah, he was free!

A man for 1 year has a semi paralyzed hand that was bent sideways and his neck and jaw bone hurt when he tries to chew. He didn't know how this happened, but has been unable to get relief anywhere. Short prayer and BAM his wrist snapped back into place and full mobilization returned to his hand and NO PAIN when he performed chewing action. Glory to God!

Check out what this Pastor has been living with for the last 30 years: Whenever he walks it feels (the best way he can describe it) like there is someone cutting across his chest with a big pair of dull scissors, tearing his flesh. This man walked extremely slow to get to the front and every movement of his body was very slow as it brought excruciating pain. And the act of walking brought shortness of breath with every step. He said any kind of exercise is totally impossible. Pastoring has been very difficult under this weight of pain! His right arm and hand seemed to have suffered some sort of stroke with very limited movement. We prayed and told him to check it out. He started running in place at hyper speed and spinning his stroke inflicted arm and hand like a windmill. He then said "something has just come out of my finger and I have NO MORE PAIN!" Oh, Lord of Glory, how great You are!

A man with a long time, recurring again and again, infection in his stomach that produces intense pain and he cannot keep food down. The doctors are unable to help him. Began to pray and chased the pain out of his stomach, down and out his leg. He stood there and said "I feel it going, I feel it leaving me, down, down, down, Oh God it is gone!"

A pastor said "for the last 4 years, since the accident I had, I have been suffering with pain in my shoulder and arm!" He opened his shirt, took my hand and put it on a big knot on his shoulder. It was about the size of a golf ball. He said that he couldn't lift his arm or shoulder even a little bit without pain. Now I loved the expression on this guy's face, after we prayed, as he starting moving his arm and shoulder and began to feel the anointing taking away the problem. He was like a child on Christmas morning opening his presents. At one point he said, "did you hear that!" The knot popped and he felt for it, but it was gone! In less than 3 minutes, he was completely restored! Hallelujah!

Those of you that have experienced hypertension know what that feels like. This pastor stood there and felt the lightheadedness lift, heart beat calm down, change from tension and pressure in his chest to the life and the peace of God settle over his heart. Wow, was he ever happy.

Casey:

Whelp I guess you could have guessed we had an awesome day in Liberia today. The devil tried everything in his power to stop us from coming on this trip. As always this really backfired on him. Even though we had to spend the night in Ghana and delay our arrival into Liberia God used this time to have us minister to a young woman. I sat next to her on the bus ride to the motel Sunday afternoon and we shared with each other why we were going to Liberia. She lives there and works with Samaritans Purse on water projects as well as local ministry with the churches. The next morning during breakfast she came over to our table and asked if we could pray for her. She had a neck ache and thought to herself why put up with this when there are two men that I met that pray for healing so what do I have to lose. At first I don't think it was real easy for her to ask for prayer, but we quickly invited her to sit down at our table. We share some testimonies and she asked some questions that she needed answered. Our time of fellowship ended with us praying healing over her and imparting our anointing into her so she could do the same thing. She even wanted to try and go to the meetings we were holding. I wish she could have joined us, but I know God will use her where ever she goes. Bless you Taya.

First day of conference was real good. There were a bunch of pastors here and all of them were hearing our teaching for the first time. I wish there was a button on the key board that would insert the facial expressions as Tony was teaching them. Well there were a few jaws dropping to say the least. Tony never finished his teaching because the Holy Spirit moved him into a few words of knowledge. I know this is what needed to happen because they couldn't really understand the teaching without any practical experience of their own. Well they all have an experience now lol. At first only a few of the pastors came for prayer, but when they saw the power of God touch the other pastors and instantly heal them they all came forward for prayer. This is always the hardest part for me, to remember everyone that I had prayed for. We prayed for well over an hour nonstop for the pastors, but the one that I remember the most was a woman that came up for prayer because she was having pain in her head and chest. She said she had this pain since 1991. So I started to pray and not long into the prayer she began to shake and vibrate all over. The shaking became more violent and she ended up on the floor. We never assume that everything we witness is demonic but rather we ask them what is happening to you. When I asked this question she answered she had a snake inside her and it was biting her at the base of her skull. She said she could feel the body of this snake move around inside her chest and cause her pain. Ok so I switched gears and moved right into deliverance (no kidding huh?). It took a few shots to get this demon to submit but they always do because of the authority given to us by Jesus. I took her through the steps of deliverance and when she was done she said that the snake demon came out of her like burning fire out of her right ear. She said she has been everywhere to and to everyone that she could get to for deliverance, but never was set free. Well that was until today. The key to any good deliverance is to have the person being tormented to use their own authority. It's not what I did or any special power that I have. I just showed her what is available to all of us and simply loved her enough to walk her through it. Without love nothing...

Rev. Kettor:

I want to thank God for the team coming this year. I am so pleased, to see a beginning like this one it was absolutely amazing. Most of the pastors in this area really don't understand the work of the The

Holy Spirit. They don't even understand the power of God. And many of them don't even understand the power of healing or of laying on of hands. So, as a result the teaching today was something that they had NEVER heard before. Many confessed today that they didn't know that they didn't have to yell or push on people. The pastor's hearts were so opened today. They heard how to properly touch someone when praying and they were amazed at the love of God. Many of the churches were dying down because of their lack of knowledge. Pastors were crying today as they realized they have not been near the Holy Spirit but just practicing religious traditions that have been passed on thru the denominations, all without power.

Today we got to the grass root pastors that will go out everywhere in the bush. What will come out of this will astound this country. To see pastors confessing in the midst of other pastors that they have been doubting and to confess that they have been the cause of the downfall of their churches is absolutely amazing.

To see every pastor submit themselves to the teaching today and allowing Holy Spirit to reach thru to them and draw them back home.

So, I thank God so much for the Conference today!
