

Tomorrow we will be at Rev Kettor's church in Monrovia and while we were on the road back we got some news to pass on and also another installment on the Adventures of God:

As we were passing by an area where Rev Kettor's sister lives he was impressed of the Spirit that we should stop to go pray for her as she is very sick. There was no way to drive to get to her house, so we parked on the highway and walked for a while thru the woods (actually it was a rubber tree plantation). We got to her house and met her husband, a minister, outside the house just pacing back and forth. His wife (Pastor Kettor's sister) was sick inside and he was pacing and declaring prayers for her.

He went in to get her out of bed, where she has been for the last 3 days, unable to move. She came out and looked like she was ready to give up on life. She has been in such bad pain as she couldn't function at all, she could only lay in bed. We shared some God healing testimonies with her and told her what God had sent us to do. Her husband then said "I have a very bad back also, I cannot bend or squat, please pray for me also!" I sensed some faith coming from him so we started praying for him first. We told him to bend and he looked at us like we were nuts but we said just do it. As he did he hollered out "Oh My God, the pain is gone!" He then went into deep knee bends and twisting his back every which way to test out his new healing. I watched Rev K's sister while this was happening and I could see the anticipation rising. We had her husband start out the prayer for her, we smiled as the old pentacostal traditions came out. Then we let loose with the prayer of command and in a matter of moments she was beaming from ear to ear as healing anointing was flooding thru her. She started exercising to test what she had been given and rejoiced in her pain free body.

Then there was an old lady sitting there, she was totally "pitch black" blind. She was not saved, but was anxious to receive Jesus after hearing what had just happened. We now prayed for this brand new child of God to experience His Healing. We prayed for her eyes to open and she said "I am seeing small!" We prayed the second time and we had her lift her head up and fully open up her eyes and look around. She did that and said "I see you two white men!" Hallelujah, Hallelujah!!!

We prayed for a couple more neighbors that came over and then headed out back thru the woods. We got to the road and just as we arrived to the vehicle a motorcycle taxi stopped to drop off a woman and a man that live down in the village thru the woods. Rev k looked at her and saw a big bandage on her arm and asked her if we could pray for her. She said yes. She said she had been to the hospital because of severe back pains, but the hospital couldn't help her. Then her husband said "I too have a bad back and it is painning me right now!" OK, we prayed for both of them and they were both instantly healed and very upset. They were upset that they didn't meet up with us BEFORE they went to the hospital!

SOME FEEDBACK FROM YESTERDAY:

We found out that at last night's outreach a man was sent by satan to destroy the meeting. By his own words he came with a "staff" that was spiritual demonic snake that he was to loose over the meeting . He was going to see if we were there in the real power of God or not. He brought his daughter with him. When he got to the site and he stepped on to the ground he said the Power of God was so strong that it

scared him. He dropped his staff and told his daughter “we must go now, come we have to leave!” And he ran away and told others that “The Real God is on the field tonight!”

You might also be interested to know that after we left, the praise erupted big time amongst all the new Christians that were just saved. They were all dancing and praising and the Glory of God fell on them and many of them hit the deck and lay prostrate, under His power, for hours on the ground.

Then one of the pastors that came from afar got a call from his home saying that his daughter was near death and that he needed to rush home. He was going to get us and one of the other pastors said, “No, we have been imparted to, we can handle this! Let’s call and pray over her on the phone. We will not submit to fear!” They called and sure enough they didn’t know what was wrong with his daughter but her vital signs were all but dim and it appeared death was imminent. They prayed with the phone up to the daughter’s ear. They prayed authoritatively and cancelled all that the devil was trying to do and broke every curse. A little while later the father pastor got a call that something very strange had happened. His wife said that after the prayer the daughter threw up. However, what came out was two things: 1. A small frog and 2. What looked like a tiny gun. As the mother was staring at what looked like a gun, it turned into a needle. Then immediately the daughter started coming back around and feeling better. ‘Our weapons are mighty thru God to the demolishing of strongholds!’
