

Mission to Sierra Leone Crusade Pujehun Town 5/21/2010

Thank you, prayer intercessors, your prayers are powerful and effective and have accomplished much in Sierra Leone.

The crusade tonight is in the town where we are living these days. It has been raining every day during crusade time, and this crusade in totally open air. The hand of The Lord stayed the rain from the field, as it rained all around us. The bright physical light that we have built first attracted tons of bugs. The bright spiritual light then began to dispel the dark spiritual bugs. I loved being out in the crowd during praise and worship, to come from behind and just come next to someone that is not aware that a white man is praising next to them. Then they turn and see me, and jump!

The crowd was primarily Muslim and they have no basis, in the beginning, for understanding what we are doing. So, when we ask for people with various conditions to come for prayer, this is totally new to them. So, at first, they just stare at us. The first words at this place need to be more specific. Thank you Lord, for He knew, and has done it. We start with an older woman (a mama of many children), that has had intestinal disease for many years and right now is sitting there with an intense burning that is very bad. OK, now this lady knew it was her. up she comes and the power of God came upon her and Instant Healing. The people watched and were amazed saying “we have never seen anything like this!” (We have been hearing a lot of that on this mission). Shock and Awe as Brian would say. We continued to give words and pray until we felt the faith level was ready for people to come to Jesus. Two blind eyes and two damaged vertebra were miraculously healed and we were there! Now we had the call for salvation. Wow, they had all those receiving salvation to go over into a roped off area. There were about 1500 people there and $\frac{3}{4}$ of them received salvation. Most of the pastors went off to administrate the new believers (since they only had about 15 counselors and that was nowhere near enough) while there were just a few pastors remaining to pray for the few hundred people that ran up to get healing/delivering prayer.

So, I couldn't oversee tonight, I had to get into the prayer. In a matter of seconds, I was surrounded by people pulling at my arms and clothes. I was being yanked from every direction. I had no interpreter at first so I tried to tell them "1 at a time, please, just one at a time", but they were so desperate. I felt The Lord's compassion for them. A young man spoke to me in perfect English and I knew God had sent him to help me. He had bad migraines for many years and was under serious pain right now. I prayed and his head instantly cleared. He was so thankful and agreed to help me. As the new converts were done talking with the counselors and pastors, they ran over for prayer too, so the prayer crowd kept getting larger and larger.

As Emmanuel was busy administrating and trying to bring some order to all that was happening, I will give the testimonies of what I saw and know happened. There were hundreds more of miracles this night that I have no report on.

- A teenager came and said "I have been having terrible nightmares and demons have been beating me at night and I am afraid!" This teenager was a Muslim, but now is a Christian and has The Deliverer with him. We began to pray and down he went, he appeared to be wrestling and fighting someone on the ground. We commanded the demons to leave him. The young man cried out and all of a sudden he yelled out "it is well now, I have received my deliverance!", as he lay in peace on the ground.
- A woman came that said she has been suffering with epilepsy for years. We could see the hope in her eyes that she was very close to being free. Her mouth was twisted and her right hand and arm were paralyzed. Instantly, in prayer, we watched her mouth become untwisted and life come back into her hands and arm. She began to jubilate and jump for joy, declaring her liberation.
- A woman with one leg that was VERY MUCH shorter than the other. She was being powerfully touched by Holy Spirit; she said that there was heat burning in the bones of her short leg. She said "my leg is on fire, it's on fire!" Under the anointing her leg began to grow out and grow out for a few minutes until it

was the same size as the other leg and all pain was gone. She then demonstrated for all to see how she used to walk with the short leg and how she walks now, as it has been restored to normal.

- I prayed for a boy that had a brain problem. This happens to him every year when he is about to have school examinations. He will be out of his own sense until the examination is over. Tonight when prayer was going on, he felt something going out of his head. He said that instantly clearness came to his mind and all the craziness and confusion left instantly. He said “I have never seen nothing like this before, I know that I am totally healed!”
- A deaf and dumb boy was brought by his parents. There was the look of desperation in their eyes that their son would get his life given back to him. Both parents had just now given up Muslim religion and received Jesus. Now, this is a powerful miracle. As prayer was given, all of a sudden the boy yelled “Jesus, Jesus!” His ears just popped open and not only his tongue was loosed but he had the miracle of language given to him at the same time. His parents were in total shock.
- A child was brought by her mother with the left arm paralyzed. The arm was just limp. I looked into the eyes of momma; there was such focus and determination to do whatever she must do to see her daughter healed. The mother also needed prayer, but left without even asking because she was so caught up in the Glory of God touching her daughter. We prayed and I put my two fingers inside of her hand and asked momma to tell her to squeeze my finger. All of a sudden she started squeezing my hand like a grown man. Then her arm shot up into the air. The little girl was just looking at her arm with amazement that it was now working.
- Some pastors came and got me and said there were two ladies that needed deliverance that they could not get free, could I go and help? Since I had a good interpreter, I went. Both women had the same testimony. They both came as Muslims tonight and both received Jesus tonight. The both have been pregnant many times, but have lost every child either before birth or right

after birth. All children have died. The said that in the night time a “man” comes to them and forces himself on them sexually while they are sleeping. These are demon spirits looking like a man. One of the husbands was there so we got him and we led all of them thru deliverance. They felt very free after deliverance prayer and then we blessed their wombs. They were both currently pregnant.

- Woman with blind eyes for many years according to her testimony, she was not able to read or write and could only see small light. I had just begun to pray for her and she started screaming and yelling and jumping up and down. She started grabbing people around her and shouting to them what had just happened to her. At this point, I still didn't know what happened yet, but had a pretty good idea. My interpreter finally got her calmed down enough to ask what had happened. She said it was like God just suddenly turned on the lights as she has been living in darkness. Interpreter pulled out a paper and said “read this!” She did perfectly and then took off like a spinning top with excitement.
- A woman unable to walk without suffering pain in her knees. She received instant healing and then demonstrated by doing deep knee bends for the first time in many years!
- A woman said that she had serious head pain in her skull. She said that she was dizzy all the time. After prayer, she said that it felt as if she had heavy rocks on her head and they were all removed during prayer. “All pain is gone and I am free!”
- A number of people with various stages of blindness were Instantly totally healed!
- A young man was suffering from stomach pain for a long time and he felt as if someone was trying to kill him. In his testimony, he came to the crusade thru somebody that invited him. He was seriously under high attack with this sickness. During the time of prayer, he received an instant miracle and it all left him.

- A woman suffering from stomach pain for more than 15 years. In her testimony, she had spent all the money that she had for treatment, but to no avail. Thank God for Jesus, she said, who has healed me! She felt something was moving in her stomach, like a living creature. It felt like worms or snakes moving around inside her. But, the Lord has taken care of the sickness tonight!
- A woman testified that for the past 3 years she has repeatedly dreamed of someone cutting her hair. From that time she has been feeling headaches continuously. Sometimes she cannot see anything during the daytime, when the sickness is severe, her eyes go blind. It has almost developed to the point that she loses her sense of memory, like she is going crazy, she says. "I thank God for Jesus tonight." While she was prayed for, she felt that her head got very light and got emptied out of all the bad stuff. She declared healing! AMAZING THINGS HAPPEN IN HIS GLORIOUS PRESENCE. There are probably many reading this saying, wow, Lord, I would like to have my head emptied of all the bad stuff. Come on Jesus!
- A young boy was brought by his father. The young man was suffering from epilepsy. The father said that for years the young boy would start to walk or start to play and just fall down and start convulsing and shaking violently. We prayed, there were no manifestations, but the young man felt he was now well. The father asked him and he said, "daddy, something has happened, it is now alright!"
- A young boy seriously disabled by frequent demonic attacks. As he was prayed for, something came out of him (he said after he got up) and he fell under the power of God and he believes he has his healing and deliverance.
- A woman came with a heart problem. In her testimony, she wanted to praise God because her heart WAS giving her such trouble. When the sickness attacks her, it was pinching her all over her body and sometimes it was so bad she just wanted to give up life. INSTANTLY, in prayer she was healed!
