

Mission to Sierra Leone Crusade Pujehun Town 5/22/2010

With God there is always more, right? We live and are moved from faith to faith, from glory to glory, right? Tonight the crowd had swelled from 1500 to about 4000. All the people saved and healed last night are back tonight with their lost and sick friends and family. The intensity of The Spirit has definitely heightened. As I was out amongst the crowd of people during praise and worship time, there was a distinct moment when His Tangible Presence changed radically. We seemed to have moved into a time of worship and I could feel the heaviness of His Glory come upon me and over the field. I just began to cry as I sensed He was about to reveal Himself to these people.

From that moment of the intensity of His Presence, all sorts of manifestations began to happen all over the field. People were falling, screaming, making lots of noise and commotion. It quickly went way beyond what the ushers were able to handle. Just before I stepped out to begin to minister, one of the ladies manifesting broke loose and ran to me and just stood next to me. Ushers came and tried to wrestle her away. I told them to leave her alone. They said “she is a mad woman” and I said “no she is not” and I blessed the lady and she turned to mush and stood motionless. Sometimes the caterpillar bug comes to the light because it is time for transformation to a butterfly. Hey, I like that.

As I began to minister, the manifestations continued in an attempt to distract the people. It is interesting how all attention turns to what the devil is doing. This included the power being put out 2 times. I stopped and said, “OK, it is time for the manifestation of King Jesus!” I said “bring all the blind up and all those with eye problems!” It is time for the attention to turn to what God is doing. There were about 10 people and one after another they were touched and received a miracle. As they gave testimony for all to hear of how blindness was instantly gone, of how they couldn’t read, but now can read, of how they had no peripheral vision but now full vision or not able to see at night but now can see clearly at night or of how the burning and pain in their eyes has been removed, the crowd erupted. At the right faith moment we gave invitation for those to come to Jesus. Again, there were a lot of salvations tonight. Pastors are saying that every Muslim

in attendance is coming to Jesus as they stand in amazement as Our True Living God reveals Himself.

The power went out again in another sabotage attempt by the devil. In the dark we asked the pastors to come and the people that wanted prayer to come. The people ran and in an instant I was surrounded by a crowd and they pressed in and in, until the oxygen got real thin. Wow; the hunger, the desperation, the faith, the expectancy! There were sounds of deliverance and rejoicing all around as people were shouting and crying out.

Then the power and lights came back on and Emmanuel began to announce testimonies of what God was doing over the sound system. One of the pastors came running up saying "Oh my God, Oh my God, look at this man who was crippled for 10 years!" An older man came walking to the platform. He was walking totally normal and briskly. He had been known in the village as a man with a crippled leg that required him to use a wooden cane to very slowly drag himself around. This pastor said he felt Holy Spirit speaking to him to go to the man standing at the rope, in the crowd and pray for him. So, pray for him he did and instantly the Power of God came upon the man and he jumped up and down, started screaming that Jesus had touched him and threw down his cane and took off walking. The crowd again erupted when they saw what God had done.

There were so many people coming and pulling on me and asking me to go with them to pray for others, when I had many waiting in front of me. But, at one point a man came and said "you must come with me to pray for a woman that is crippled and cannot get out of her seat to come, you must come!" Well, I just knew I was to go. So, I turned over the people waiting for me to others to pray. Admire (Emmanuel's 18 year old daughter) and I went to this lady. She was sitting and said "I tried to get prayer earlier, but couldn't stand in the crowd. I had an accident and have been to all doctors and hospitals, but no one could help me. I am in constant excruciating pain and my legs, my legs, oh God, my legs!" We prayed for just a few short moments and then I said "Stand up and walk!" This is not one of those cases that we have to help the person to stand and then hold them up as they try to take steps. Nope. She leaped to her feet (jumph-ah is how

it is pronounced in the native tongue) and had this huge smile on her face. She said “there is no pain, there is no pain!” Then she took off walking. I walked with her to the platform, watching the miracle being displayed. We got to the front and I asked one more time what was happening, she said “I am completely restored” and told all the people what God had done. There wasn’t any small rejoicing.

Well, we have two generators running and they are slightly undersized for the load. When this miracle happened, there was a person in the crowd of substantial means (rare to find in these parts) and they said “I will give a very large generator for your use tomorrow and provide it full of petrol!” Glory to God!

By the way, the local doctor, that professes to be an atheist, has been attending every night to see if these things are so. His intention is to test some of the people to see if the miracles are genuine. The pastors are so excited about this.

The atmosphere this night cannot be described accurately, the more it is of Him and thru Him, the less we can explain.

Here are a few of the miracles that were documented this night:

- An old woman has been suffering with intestinal pains since she was a child. She has grown to accept this as her lot in life. But tonight, she said, “that is not from Jesus; tonight, I will receive what Jesus has for me!” In an instant, maybe 50 years of tormenting pain from the devil has come to an end! She was completely set free and healed.
- Untold numbers of body aches and pains, deliverance from ALL sorts of demonic activity- Many, many woman that have been attacked by demonic “night husbands” and a huge number of woman that have been cursed to lose their children. Healing and Deliverance was flowing like a river tonight.
- Even more eyes opened as those that were timid at the first call came and received their miracle. Clearly, it is more than physical blindness being healed; The Lord is saying “I am opening the spiritual eyes of Pujehun!”

- A lady came that said she was having very bad chest pain and health problems. She was admitted to the hospital and heard about this crusade while she was in there. She heard that Jesus was healing people. She got up, got dressed and walked out of the hospital and came to the crusade. Just moments after prayer, instantly, all the problems were removed and she was totally healed. She was so happy.
- There were literally hundreds and hundreds of miracles tonight, but I end with a special report (separate)
