

Mission to Sierra Leone Last two Crusades Combined Pujehun Town Evening of 5/23 and 5/24/2010

Tony:

The spiritual climate has been hot, hot, hot. This mission has ended with a very real sense by all that The Kingdom of Our God has clearly invaded this District. This is rainy season and it rains EVERY day, usually starting late afternoon and going most of the night. The people of Pujehun have said, in addition to all else God has been doing, it has been a clear sign that God is here and on what is happening by His stopping the rains all around the field. They know it is God and are praising Him!

It was a huge crowd the last nights. The Muslim people just kept coming and coming. My estimate would be 7 or 8 thousand salvations for this mission. The church leaders here have been learning much about moving and flowing with Holy Spirit. The “program” part of the services have been moved to the very beginning so that Holy Spirit can move without our “good intentioned interruptions!” We went from praise to high praise to worship and His Presence continued to intensify. When they brought me out to preach, all I could do was give out what was flowing from the spring. The atmosphere kept getting more and more charged. Their faces were fixed on what I was saying. It is amazing how it could actually get silent with all these people and many children. But at one point all you could hear was the hum of the generators. He had their attention. I gave one word of knowledge for demonstration before the salvation call. We called out intestinal disorders. About 15 people came out and the crowd watched as Holy Spirit showed The Face of our God! The miracles were fast and as the people gave testimony, His Presence continued to increase. The people were just being sucked into the Glory more and more. At the right moment, we called the people to come to salvation in Jesus. As we went on to pray for others there seemed to be only increase in the Spirit.

Now this is amazing: It is now almost 1 AM in the morning and the people are still awe struck and not moving, just intent on all God was doing. Remember that most of these people have been STANDING here for 6-1/2 hours at this point. These people are up before dawn to go to work and in bed usually by 9 PM every night. The Pastors were saying, “There is something very unusual happening here tonight, there was a continual sense that God was about to do something more, and it kept happening!”

We were getting to the end of the people being prayed for and Emmanuel asked, “what now, the people do not want to go home.” I said, they are waiting to hear something, begin to talk to them.” Well, Emmanuel began to sing a song of worship, then began to call on Holy Spirit to touch all the people that are not moving from where they were standing. At that moment I heard Holy Spirit say “ask Me to Baptize them!” I told Emmanuel and he lit up like a roman candle. As he continued to call on Holy Spirit to touch the people, they began to start falling all over. People were yelling out with cries of ECSTASY everywhere. I heard cries like: “Oh, Jesus, You are so beautiful; Oh Jesus, I give you my life: Oh Jesus, I will serve you always; Oh Jesus, I am a sinner, cleanse me tonight; Oh Jesus, please forgive me for..... “ On and on it went, all over the place! The ushers started running and picking up the people on the ground and carrying them like logs up to the front platform (it was a very large concrete area). These 20+ ushers got the workout of a lifetime. As some people were being baptized they were being sovereignly delivered. It was an amazing sight to see. Glory to Our God and Savior.

We again saw all manner of eyes healed, from partial sight to damaged to fully pitch black blind, all made well. Malaria and Typhoid symptoms in those suffering from those diseases were instantly removed. There have been thousands of miracles, I will report a few of the highlights of what I personally saw:

- I was in the middle of a hot spot, surrounded by people pressing in for prayer. A mother pushed through with her 4 year old son. With the look of desperation she said “my son has never walked, he has never taken his first step, can you pray please?” When the little boy and I made eye contact, he started screaming because he had never seen someone that lost all their color before, and most certainly this washed out person was not going to touch him. At that moment the thought came to me to take the little guy in my arms, move away from momma and then put him on the ground, stand him and let go of him. That is what I did. When I picked him he screamed like he was about to die. I moved about 4 feet away from momma, put his feet down on the ground. He was squirming like crazy to get away from me. He saw momma and when his eyes were on her, I let go of him. His first step was more a like a marathon run. He took off and covered the distance with only three steps, he was moving so fast. Wow, you should have seen momma. The people were screaming with joy for what God had done.

- A young man came and when we tried to ask him what was wrong, it sounded like he was trying to talk with his mouth full of marbles. Have you ever tried that? His friend said that he is not mute, but has never been able to speak words properly. We asked him to repeat “Jesus is marvelous” and it wasn’t even remotely close. We prayed and then asked him to repeat that again. He said it perfectly. All were amazed at the miracle of God.
- Before the salvation call, I prayed for an older Muslim man. He said that for the last 10 years, he has not been able to bend and lift up his legs. He had terrible pain from his knees down, everyday. We prayed and Instantly he started jumping and said “I am healed, I am healed!” Needless to say, receiving Jesus was a no brainer for him. Tonight he finished with religion and came to Jesus.
- Did you know that there was such a thing as a “witch gun”? A young man came for prayer and said that he had been SHOT with one of these guns. It is some kind of gun that shoots poisoned barbs in the spirit. They are not physical bullets or barbs, but a potion that is prepared by a witch doctor and put in this gun with the intention to shoot someone with a curse with the intention of slowly killing them. He had been to herbalists and doctors and no one could help him. This young man lifted up his shirt to show me where he had been shot. There was some swelling, but no outward evidence in the physical of any penetration. He said that it was like being stabbed with needles that were burning. We prayed and he said “I am set free, it is gone, that torment is over.”
- Three months ago a man had an accident and his left arm became crippled. He was unable to use his hand at all and could not bend or lift his arm more than 10 degrees. We prayed the first time and he could lift his arm half way, the second prayer was given and the arm went up $\frac{3}{4}$ way. The third prayer and his hand became functional and he could bend and use his fingers. The fourth prayer his arm shot all the way up. Glory to God!
- A woman came and said that she had a stroke on her face. It looked like Bell’s palsy . Everything on half of her face was drooped down. Her mouth wasn’t working on the right side. I know this happens in America from sleeping in an A/C draft, but that surely is not the case here. We prayed and watched her lip go from drooped to normal position and for her to begin to speak normally again.

- A woman came with serious stomach issues for 3 years. The doctors and hospitals couldn't help her so she went to the soothsayers and voodoo people. Yesterday she was at home lying in bed and she heard the sound of healing (people shouting for joy at the miracles they had received) coming from the crusade field yesterday. She knew that today she must come. She received Instant healing and gave Glory to God!
- Now this is weird. A young boy was brought by his mother that has been deaf in one ear from the time shortly after his birth. This is what happened: Momma was breast feeding him and some of the milk fell into his ear. From that moment he was deaf. It is amazing how even a little bit of occult involvement can bring strange, damaging problems in peoples lives. Momma got free, received Jesus today and the boy's ear totally opened up.
- A woman came with pain in her legs. Her legs were all swollen up. During prayer, not only the pain left, but all the swelling disappeared. She was overwhelmed at the miracle God had just given her.
- A man had an accident 4 years ago and his spinal cord was damaged which resulted in his not being able to bend at all Plus the problem of living with pain every day. In a moment he was doing deep knee bends and twisting and turning like a young athlete.
- A mother brought her baby and said that for the last 8 months, there had been one sickness after another on this child. There had not been a day that her baby has been 'normal'. Just stay in bed and cry and scream. We prayed and broke that curse against this child. Instantly the child jumped up, ran off to where some other children were. Momma said, "oh my God, my child is healed!"
- A young teenage girl came on crutches. She said that she had a problem when she was very young, they took her to the hospital and gave her an injection. From that injection she became crippled and unable to use her legs. In a moment, after prayer, she dropped the crutches and walked off praising God!
- A woman said for years there has been something alive moving around inside of her stomach. Like some kind of serpent. She has been living with that for years. In a

moment, she felt this “living thing” crawl out of her and all pain and discomfort left with it. She was jubilating.

- Another mother came up with her four year old child, just to give testimony of what had happened last night. She said that she brought her daughter for prayer last night because she could not stand or walk after 4 years. During last nights prayer, the little girl stood on her own. In the morning when she got up, the little girl got herself out of bed and she WALKED up to momma to show here that she could now walk. This was one very happy momma I want to tell you.
- An older woman came with a paralyzed left hand. It was completely unusable. A woman in this country not able to use her hands is considered to have her life over. We prayed and in a moment, full use of her hand was restored. Can you imagine how she felt?
- A woman came that had fractured her right hand shortly after birth and it was never fixed. Her hand was bent to the side and she was unable to use it. After prayer for a creative miracle her hand returned to normal bone positioning and full use was restored. Glory to God!
