

Mission to Sierra Leone Karlu Village Crusade 5/19/2010

ANOTHER ENTIRE MUSLIM VILLAGE COMES TO JESUS AND A NEW CHURCH BEGINS

Tony:

We are just getting back from the latest bush village crusade at almost 1 am. This is the farthest out village yet. We had another really old van again with even more people in it today. They said that Karlu was an island, but yet it wasn't. We got to find out today what they meant. When it rains, the ground is so low that it floods completely around the village. Well, it poured on the way out. Only The Hand of The Lord got us thru. The van is not four wheel drive and we got off into the high brush under a lot of water. There is no way, except by miracle we didn't get stuck. We got into the village and they too had a roofed pavilion so the rain was ok. It stopped as soon as we got started and didn't start again. Thank you Lord.

We set up and started playing music and the children came first, then the entire village. After introductions, we praised the Lord and danced. I actually had someone ask me if I would teach them how to dance like I do. I told them all they had to do was to watch the chickens. Actually, my white skin and dancing with abandon seem to be an attraction for many. Any thoughts about me being a stiff necked preacher disappear quickly as I get down with the children.

- ❖ There has been a bit of a shift for me concerning words of knowledge on this trip. Holy Spirit has been giving them to me on the fly. As I am ministering, He has been releasing them to me and showing me people and their problems. I had just started preaching and I got a word for heart problems and chest pain. I knew there were a number of them, but was drawn to a lady and knew that I should ask her. I said, "mama, is that you?" She said yes, I am having chest pains right now. I had her come up and she received a miracle very quickly. She also had pains going from her chest to her shoulders and that was taken care of as part of the package. When she told the people what had happened, everyone's eyes got real big and totally fixated on what was happening. I went on and preached a few more

minutes, then it happened again, only this time it was for crippled fingers and damaged wrist. Two ladies ran up.

Now, get this: The first lady's wrist looked like it might have been broken which made her hand at an angle to her arm. She said it was bad pain for the last 3 years and hasn't been able to use her hand. Not able to bend or use her fingers. We prayed and called forth a creative miracle. Her wrist came back and her hand became fully functional and she was rejoicing as she showed everyone what God had just done. The other lady just couldn't move her fingers without terrible pain. It looked like some kind of arthritis. We prayed (2 times as it came in stages) and watched her fingers get restored also. At this point people started rushing up. We told them we would pray for all, but not just yet, to sit back down. Now, it was time for the call to salvation. Faith level was up to miracle level clearly. When I asked who wanted to receive Jesus as Lord and Savior, EVERYONE; every man, woman and child raised both their hands to the air to enter into Eternal Life. Glory, Glory, Glory to God!

Next we got the Pastors down to line up for prayer, and then invited the people to come for prayer. It got pretty wild at this point, a bunch of manifestations and some great miraculous healings and deliverances. I will list what testimonies have been given to me by the pastors. Since we got back so late, I only got a few, so here they are:

- A lady came with pressure and pain in the heart. I prayed for her, as she was delivered from that pain. She said "I am released!"
- A teenage boy, he had numbness since January, in his hands and arms. Everyone was busy praying and he kept pressing in looking for someone that would pray for him as he felt that God would heal him. He pressed in and got my attention. I prayed and asked him how he felt. He said "while you were praying, something cold moved out of me, and INSTANTLY, all feeling came back into my hands and arms! I am so happy!"
- A young man came with a broken arm. A tree limb had fallen off a tree and hit his arm and did the damage. The bone was sticking out (still under the

skin) but you could see it and feel it. His hand and fingers were everyday in pain and could not function. He said it had been that way for more than a year. Many of you cannot imagine how there is no medical provision anywhere around, so that a person would have to live like this, but that is the case here. I wrapped my hand around the bone (just above the wrist) and began to pray. I FELT THE BONE GO BACK IN PLACE. Instantly, he was wiggling, twisting and doing everything with his hand and fingers. That is the coolest feeling to feel body parts moving under the anointing. He jumped up and down waiving his hand in the air, declaring praises to God!

- There were a few people with heaviness and pain in their chests and each had the pain going into the shoulders. All were miraculously healed and everyone jubilated with great enthusiasm.
- A teenager came with his right arm frozen in an “L” shape. He had broken his elbow and arm 3 years ago and it was never fixed. He couldn’t lift his arm or do any bending at the elbow. Any attempt to use the arm brought extreme pain. We prayed and the pain was easing, but no change in the elbow joint. When we prayed the second time, we heard and FELT the bones in his arm moving and being fixed. That is such a sight to see and hear! This young man was so, so, so happy as used his arm again! Thank you Jesus. The people around were amazed at what they had seen.
- A man came and said “I want a child, my wife and I have been unable to have child.” We asked where his wife was and to go get her. We did verify that they were in fact married. We put the two of them together and laid our hands on them. They felt the Presence of God and His touch.
- An old woman suffering from heart pressure. She was totally healed! Another woman right behind her suffering from hypertension and stress and anxiety and tormenting sickness. We prayed for her also and she received her INSTANT healing.

- A woman that had continuous stomach pain for 6 years. Each time it was time for her period, the pain would increase. We prayed for her and she was powerfully touched by God and received her healing!
- A seven year old boy was totally deaf. We don't know if he was born that way. He was prayed for and tested and his ears were miraculously opened. He was shocked.
- A man had a split in his head. It was extremely sensitive and painful for the past 15 years. It is covered by skin, but the skull is divided. He had to live everyday with extreme caution to not let anything hit his head or to touch it in any hard way, as others have died from blows to a head like this. After prayer, he testified that he could feel relief and the head was changing.
- A woman said she has been living with pain all over her body. All of her joints were in terrible pain. She received TOTAL INSTANT healing! She jumped up and down with great joy.
- A young man was suffering from an evil spirit that has been tormenting him for the last several years. During prayer, he fell under the anointing. Later, he got up and testified that while he was on the ground, he saw the evil spirit leaving him! "I am finally, totally set free, thank you Jesus!"
- Two women that fell under the anointing during the prayer. They had stated that they have tormented day and night by evil spirits for years. And that when Holy Spirit came upon them and they fell to the ground THEY SAW the evil spirits bidding them farewell, saying "GOODBYE, WE HAVE BEEN COMMANDED TO LEAVE YOU NOW!" Wow, this is amazing!
- A woman came suffering from skin disease. During the prayer, she started vomiting. There were living organisms in the vomit. They looked like small worms. She was healed internally. She said that she had not gotten her menstrual period for the last 4 months. During prayer while she was being purged, she said that she felt intense heat and fire inside of herself. There were three big piles of this living material that came out of her. All of the

pain that was in her skin was now gone and she lay on the floor wrapped in the peace of God.

- A woman came with her neck all swollen and what looked like some kind of large growth on her neck. She had trouble swallowing without pain and discomfort. We prayed and the swelling shrunk somewhat, but she knew that she was healed because she said “I can now swallow and the pain and discomfort is all gone! My throat is now open! Thank you Jesus!”
- A couple came for prayer saying that they wanted children. As we started to pray, they flew backwards and fell to the ground. Both of lay on the floor for almost an hour, lying totally motionless. When they began to get up we asked them what had happened. They both said the same thing, “I saw demons that came out of me. The demons said “We must leave you now; Jesus said that we can no longer stay.” And I saw them leave. This is truly a glorious day for me”. This was a most amazing thing to see the simplicity of deliverance by the power of God alone as I just watched!

Concerning the town: For a church to stand in this place was extremely difficult. We as the Pastors of Pujehun have been unable all these years to penetrate the darkness here. Since our coming here Wednesday night, it is clear that God has changed everything. We now have specific plans to start the new church, with the first service this next Sunday. The people are ready. One of the village elders made a statement that God had come and changed everything for them now and they have a new beginning and want to learn to know and worship Jesus Who has saved them!
