Day 2 Open Air Crusade, Red Field, Brewerville

Tony:

Remember in Acts 14 when Paul saw a crippled man with faith and said to him “stand up straight on your feet” and the man leaped and walked? Then the people said “the gods have come down to us in the likeness of men!” The people began to worship the disciples. The disciples said “why are you doing these things? We are also men with the same nature as you.” Well, last night we had a number of people that were crippled, jump up, leap and walk totally normal. Before we began to minister tonight, a man came up on to the stage with his arms in the air praising and then knelt in front of me. He began to speak of a vision he had of the brightness of the sun shining from me, then proceeded to say that I was an angel and that all the people should fear the great power that I had. It was a wrong spirit saying these words and I knew that I needed to bring correction as soon as I got the microphone. I told them that the only One to be feared was Jesus the living God and if they didn’t stop that craziness I would be unable to minister, because God would demonstrate clearly that it is not about a person but all about Jesus. I think it got thru as the people were not waiting for me to pray tonight but gladly went directly to the Pastors. If you read the rest of the passage in Acts you will see that the religious people incited those that had idolized Paul to stone him. I am very thankful that this word was not duplicated tonight.

We gave out a few words of knowledge and about 50 people came to the platform for prayer. Not quite as fast as last night, but again there was great anointing to set the captives free. We brought pastors up to pray with us so that the people could see the miracles happening thru them also. After the people had an opportunity to see the compassionate work of Jesus we gave a salvation call. 125 people came. We are clearly in a predominately Christian area, so the pastors are very pleased with the numbers being saved.

Again there was so much that God did tonight that I only saw a fraction of it, but here is some:

- A lady that was unable to lift her right arm for many years and also had very little feeling in her arm was instantly healed and praised the Lord waiving her arm for all the people to see.
- Many people with neck and spinal problems. A number stood there telling me of how they could not even begin to bend or to turn their necks. Again, in a moment, they went from sad, heavily burdened faces to doing full bends and twists and jumping for joy. Some of the people were preaching when they got to the microphone, telling the people what Jesus had just done for them!
- A man said that he was at home not even knowing about the crusade. He said a voice spoke to him and told him to get up, go out in the rain, to the location of the crusade. He questioned the voice because he was in tormenting pain for many years and unable to work or to do anything. He said that the voice again told him that would be healed by God. This man stood in front of me testifying that he had received Jesus but had never experienced His Power. In a moment, he was totally, miraculously healed! Yea God!
- When I got down on to the field, the prayer generally seemed to take a little longer, but we hung in there. I had a lady that I was with for about 15 minutes as the pain moved all over her body. She would keep falling down to the ground in agonizing pain as a spirit seemed to be torturing her. She kept saying, "it is not gone, help me, help me!" This one was a battle, but finally she stood straight up, hands lifted up, tears coming down her face and she said "yes, yes, it is gone, it has left me, and I am healed!" Thank you, Thank you, Jesus.
- There were a number of people that His Anointing came on so heavily that they were wildly manifesting. The ushers came running over and wanted to stop them. I told them to leave these folks alone as we were seeing a

sovereign healing and deliverance. Every one of them after awhile declared they had been totally set free from their ailments, all I did was watch.
Thank you Jesus!

Pastor Kettor:

A man had an eye problem. He had a stick put thru (all the way thru) both eyes and become totally blind. He went to many doctors and hospitals and they all failed. When he came for prayer his eyes were totally opened and he was so, so happy. Jumping up and down on the stage praising God.

A man came with severe foot problem for 15 years going from hospital to hospital. He went to buy strong medications to try to cut the pain a little. He had just come from purchasing the drugs. As soon as he was paid, every bit of pain left him. He was crying he was so happy. This man was a pastor but he couldn't come to the conference because of the terrible pain he was in. He took his package of drugs and threw them away for all to see. He RAN off the stage jumping for joy.

A lady was totally deaf. She had malaria 2 years ago and lost her hearing. The hospitals could not cure her. Her husband brought her to the crusade. After prayer, both ears opened totally, she stood there crying as she gave Glory to her God!

A lady came had very sever tumor in her throat and she couldn't swallow. She was just skin and bones as she had been unable to eat and was dying and the doctors couldn't operate. The tumor totally disappeared and I gave her a bottle of water and she drank it for all to see that she had been miraculously healed. It was awesome.

A lady with severe back problems. She couldn't even sit it was so bad. She had to be carried to the platform. A miracle happened to her; she immediately sat in a chair with no problem and then jumped up and down on the platform wildly praising God.

A man with bad problems in his back. He had a serious accident and fell out of a tree 4 years ago. He tried all kinds of medications, all with no help. He came last night but wasn't sure about all this, he said "I don't understand this." Tonight he decided to get prayer and a miracle happened. He was completely, instantly healed. He gave his life to Jesus and told the people that he had met the true God.

A man came with arm problems that could only lift it up few inches for the last 3 years. After prayer, he was waiving his arm and demonstrating what Jesus had done for him. Oh, was he so happy. The people were roaring with joy.

In Liberia, when it rains, people do not normally go out. This lady has had stomach pain for many, many years. Her condition also affected her ability to conceive. A voice spoke to her and said, "Go!" She said I will go and went out in the rain and walked a long distance in the rain. When she came for prayer she was totally, miraculously healed and felt that her womb was also opened and she was going to go home to have a baby. She danced off the stage.

Pastor Harris:

A lady suffered from left foot and leg problem for 8 years. Severe pain and was totally unable to walk. Immediately after prayer the pain completely disappeared and she could walk. She started jumping and rejoicing.

A girl said she had been suffering from chest pain for 3 years. She had to drink milk every evening to try to cool down the pain in the chest. When she was prayed for she all of the pain disappeared. She was so happy.

A man with a problem from his neck to his back for the last 3 months suffering severely. He visited various hospitals with no improvement. After prayer he checked himself by bending over, standing up straight, NO PAIN, Glory to God!

An elderly woman was suffering from a bad right leg. After prayer she said I am totally healed!

A gentleman suffering from a disabling back and leg problem and could not stand by himself without assistance. He had to even sit to rest after just trying to walk for just one minute. But, after being prayed for he stood and jumped and rejoiced for a long time without any pain.

A lady with a tumor in her stomach said that she could feel the BIG tumor. For over 5 years she had been suffering from it. When she checked it up after prayer no pain and NO TUMOR. What an awesome sight to see this big tumor just disappear before my eyes. I told her don't rely on herself; she said absolutely, it is all Jesus from now on.

A girl had severe headaches for 3 weeks nonstop. After prayer, it instantly disappeared.

An elderly man with leg problems came to the crusade grounds just be hearing the sound of the crusade. He didn't know if he would be totally healed. To his utmost surprise all of his pain disappeared.

Casey:

Second night of the crusade and all is well. Again we arrived a bit late due to the rain, but that was not going to stop us. I don't think as many turned out as last night with the rain and all. Don't get me wrong there were still plenty to pray for. Like last night Tony and I went down off the stage to dance with the children during worship. That was a lot of fun and did it ever get hot. The children would just hang on you and you would have to be careful not to lose your pants. Right Tony? One of the songs they sung has these moves that go with the words. One verse said something about getting down low and everyone would squat down while dancing. Me, wanting to fit in with the locals I followed suit. If you ask me I think it was a set up. As soon as I got as low as I could all of the children started to scream and rub my head. When I stood up I had a huge bum fuzz (rats nest). Tony said it looked so funny with all my hair standing straight up. I don't care it was still crazy fun and the kids are great. When the worship was over and we made our way back to the stage I looked a mess. Dirt all over me, my shirt all stretched out, hair all over the place and a huge smile on my face. They played a few slower songs and then the service was turned over to us. After a quick word we released a few words of knowledge. Again like last night the Holy Spirit let us nail the

words of knowledge. We only needed to give out three words and there was a long line that formed for prayer. We started to bring them up on the platform to be prayed for. Mighty Man Moses and I teamed up to pray for them. It was fun praying with Harvey and we seen some cool stuff too. From one of the words given this one girl had a tumor in her throat and couldn't sing anymore and if she tried it caused her pain. With a short prayer we asked her how she was. She said she couldn't find the lump so I had her try and sing. Wow could she belt it out and then went and gave testimony on how God healed her and started to sing for everyone. The crowd was really into the healings tonight as they cheered and clapped for all the testimonies. Harvey and I also prayed for several backaches and stomachache too. They were all healed as well. When the local pastors were call to pray for the sick it was pretty much game over for me. They are having so much fun praying that they grab the sick right before I got the chance to ask what they needed prayer for. Ha Ha this is so cool so I just watched them and helped if they needed any. The last person I prayed for was a little boy that was blind in his right eye. The eye was all white, but after prayer he could see out of that eye. He could count my fingers even half fingers. I thought I would test him good. Thing is his eye was still all white. Now that's cool if you ask me. God is good! Thank you again to everyone still praying for us and our families. Many Blessings!! 😊 !!

Harvey:

As Casey said, we got started a little late tonight because of the rain, but once we got there the rain quit. Worship was good and even though the crowd was a little smaller that last night things were still rocking. Tonight the whole crowd seemed to be into worship, usually you see little pockets of people that are not getting in to the worship, but last night the whole crowd was getting in to the worship. After worship and a short message, Tony gave some words of knowledge and it was time to watch God work. Casey and I teamed up because things were pretty crowded on the stage. The healings were coming pretty quick. We prayed for a couple of back aches and watched them smile as the begin moving and realized they were healed. The girl that had a problem in her throat and couldn't sing

without hurting her throat was fun to watch get healed. She sang a little for us then went up to give testimony and belted out a song. Yea God. We also prayed for some sore necks and some stomach problems and all got healed. After all of those that responded to the words of knowledge got healed things were opened up to all that wanted prayer. We moved down in front of the stage since the local pastors were called to come and pray too. I prayed for some neck pain, back pain, heart problems, and stomach problems and all were healed. I was praying for a woman that I thought had a stomach ache and back ache and when I prayed and nothing happened one of the local pastors told me she had a tumor in her stomach. I prayed against the tumor and she poked herself a few times and said the tumor got much smaller, I prayed again and after she searched for the tumor and could not find it said she was healed. Yea God!! It sure was fun. Thank you, thank you, thank you, to all of the prayer warriors. Later

Brian:

This was the second night of the crusade with a few more people than last night. It was raining when we got to the field where the crusade was set up and the people were huddled under umbrellas and whatever they could to stay dry. The rain lifted in a few minutes and the worship started.

At the finish of worship a short message was given and words of knowledge were given for specific things and we began calling these people up on stage. It was going to be a different and bizarre night for me. Unlike last night the first lady I prayed for pains in her back and legs showed no improvement at first. I had to make three more attempts before she said all the pain was gone, and I wonder if she was just getting tired and were just saying she was okay. It did not seem to me the previous nights glory was here at all. Now here is what is strange, most of the other team members were not experiencing this on stage. But Tony said when he left the stage to go down in the crowd he was struggling to get people healed at times, but I was experiencing just the opposite.

I'll tell you about a bizarre thing that happened. It began last night, the first night of the crusade when a man with a horrible looking left eye, I don't think the eye was even there. The eyelid was collapsed and was slightly open at the bottom, and all that was visible to me looked a bloody mess. I'll see if I can take a picture of the man tonight and when I get home I'll send it to you guys on the report list. Anyway, last night I prayed for the man to receive sight hoping a new eye would appear. That did not happen but the man said he could see, but not clearly with his left eye, which blew me away. After a few more attempts the man's the vision was still the same so I told him that the healing had begun and to keep thanking the Lord for his healing. At almost the end of the evening this man appeared in front of me and wanted me to pray for him again. I looked at the mess his left eye was or what was left of it. Sorry I can't do a better job, but it's difficult to describe. After the first time of prayer the man put his hand over his right eye and said the vision was better, but not clear, so I said we'll try again. He put his hand over his good eye again, looked all around and said he could see perfectly. I asked him if he was sure and he said yes. He was praising God for full vision being restored. From what I was seeing none of this is physically possible, I cannot explain any of this. This is the most bizarre miracle I have ever seen! All I can say is the team has on occasion seen similar things here in Africa.
