Day 3      Open Air Crusade, Red Field, Brewerville

Note: We just found out that the secretary general for the Muslim congress was all three days at the pastor's conference. He came to find out the difference between Jesus and Allah. He was convinced by the miracles that he saw at the conference that Jesus was God and he went back to the Muslim Congress and told all of them that He has seen that Jesus was the true Living God and he had given his life to Christ. He said that the other Muslim congress members got very angry and said that they would vote to get him removed. He told them to come to the crusade to see for themselves. Glory to God!

Tony:

Our deep thanks to all that are praying for us. Heaven is open and Our God is declaring that He is Lord over All! You can get a good idea of how God is moving by reading the reports of these two Pastors. All the other Pastors are experiencing the same results but we are not able to talk to them.

This area has been under intense rain except for the miraculous holding back of the rain just at the field. Driving to the field, we have been going thru rain and then it stops just at the perimeter of the field, except for tonight. Our Daddy had something different in mind for tonight. Casey shared his "pressing in" message and when it came time to give words of knowledge and pray the rain started. These people were so hungry to receive from the Lord that they didn't care how much it rained, they weren't moving. We had to shut down the sound system after only about 10 minutes into the testimonies, but the power level only increased!

Casey and I both started with identical words of knowledge again. There were lots and lots of people that came up in response to the words. There was our team and four Pastors on the platform that started the praying. Again, the miracles that I was seeing were almost instantaneous. The first few testimonies just brought

the crowd to screaming with excitement. It was obvious that Healing Angels were here and going after it. This had to be the kind of atmosphere that Jesus walked in. I quickly gave way to all the other Pastors waiting to get their hands on people that were like sea gulls diving in from the sky and scooping up the fish. Here are a few testimonies of what I personally saw:

- I watched these people come up about 10 steps to the platform. They were major league hurting, needing assistance from the ushers to get up the stairs. The first woman, about my age, said that for many years she had been unable to bend her right knee. The look of agony on her face as she tried to move it. I said, ok, let's see what God wants to do and I just declared the Name of Jesus over her knee and said, "Check it out!" I could sense the supernatural faith of God upon me. She started doing deep knee bends and crying and hollering Praise to Jesus at the same time.
- The next several people I prayed for were also instant miracles. A blind man receives his sight, and a man that had some kind of an accident that punctured his left eye. The eye looked like it wasn't there, but had been removed. There was a similar man last night. I fully expected a new eye to appear, but to my surprise he was given the ability to see perfectly with no eyeball. I put my hand over his good eye and asked him to tell me what he saw and he was seeing perfectly. What an awesome mystery!
- Holy Spirit took me into some of these folk's hearts as I watched them come. Imagine suffering with a disabling disease that renders you unable to move your legs without excruciating pain. You have to work in the fields to grow crops so your family can eat and you can go to the market to sell to stay alive. The pain shows on your face, you are 40 years old, but look to be 80. You have spent what money you had on doctors that have not been able to help and are feeling guilt for every dollar you have given to the doctors because your family has to go without bare necessities. You are standing in the crowd and hearing testimony of others that are receiving their healing from the Lord. Your heart begins to leap with faith and anticipation as you take the slow, painful journey from the crowd to the

platform. You begin to envision how your life will change when Jesus touches you. Tears begin to flow at the thought that your life is going to be returned to you. As you get closer you see the people in front of you leaping and jumping and praising and declaring how Jesus had just miraculously restored them. You sense this strange thing called faith rising inside of you, now it's your turn and you are standing in front of the person who will pray for you. You don't understand, but just know that as soon as they touch you, you will be healed. They tell you, "Holy Spirit is about to come upon you to restore you!" They put their hands on you and say "In Jesus Name!" and something comes out of you and they say jump and you do and realize that in a moment all the pain is gone and you feel like a young person again. All you want to do is to worship Jesus, to tell the world what He has done for you! (This is what Holy Spirit showed me was happening with the next number of people- I just stood in AWE at the Glory of My God; He IS the One True Living God; how could anyone live unto themselves)

- I never got off the platform tonight.

Pastor Harris:

A lady had a tumor in her throat was prayed for and she testified that she was instantly healed, that the tumor completely disappeared.

An elderly woman suffered from pain in her knee and could not easily walk was prayed for and received instant healing and began jubilating wildly jumping up and down.

A lady was insisting that she only wanted the white pastors to pray for her because she was suffering from pain in her right legs. I told her we have only one Jesus! She agreed to be prayed for by me and was shocked to see that the pain was instantly gone. Oh, the look on her face. She spend more than 10 minutes going thru every kind of exercise to be convinced that this black man had actually been used by Jesus to get her healed.

Another girl that suffered for over 3 years with stomach pain said the pain just disappeared as soon as we prayed.

A little girl testified of her severe headache that just disappeared after she was prayed for.

A brother that had suffered from pains shooting from the eyes to his neck for over 3 months and that it was very severe. He praised God that he was finally healed tonight!

A boy said that he fell off of a 3 story building and has since then suffered severe pain from his hip to his feet, but tonight something left him and all the pain with it and he was rejoicing God that all pain was gone and he could live again.

Rev. Kettor:

A woman that suffered with problems with her legs in severe pain for over 10 years. She had gone from hospital to hospital and no one could help her. Holy Spirit came upon her and she jumped like a crazy woman, so excited that she was finally free! She was praising God very loudly.

A fellow with a left eye problem. Something had fallen into his eye. He went to the hospital and they said they would have to remove his eye and put in an artificial one because they said he would NEVER see again. We prayed and he said his eye was instantly opened and made to be completely healed. He said "oh, now I can see, thank you Jesus for giving me a new eye!" He heard about the crusade and said, well, I am going to lose my eye in few days, what I have to lose. He was at the crusade last night and watched all the miracles, but didn't come for prayer. Tonight, he said, "I will trust Jesus". And he did and wow!

A fellow that came that was prayed for last night, suffering from diabetes. He could not eat starchy rich rice. He was eating wheat. When he was prayed over last night he didn't go for testimony because he wanted to see what would happen. Tonight he came just to give testimony. He went to the hospital this morning, after prayer last night, they tested him for diabetes. The doctor said,

“What happened to you, you do not have diabetes anymore!” The doctor said, “Tell me what happened.” He said, I told him that I came to this crusade last night and I was prayed for. The doctor said, “Oh my God man, you have received a miracle!”

A man came he said that he fell on the floor and hit the bathtub. His whole body became numb for 1 year 6 months. All hospitals could not help him, he went to herbalists, they couldn't help, he went to prayer groups, and he could not get healed. When he came to the crusade tonight, we Liberian pastors prayed for him. During prayer, he felt something coming out of his body and it was like a vacuum cleaner sucking out all the pain with it. He knew that he had received a miracle. Wow, was he happy.

A lady came, she didn't want anybody but Tony to pray for her. So I asked her, what is your problem. She said, I don't want to tell you, I must have Tony pray for me. I said, ok, go ahead. She came down from prayer and she was crying. I asked her what happened. She said for more than 8 years she had been suffering torment from night man (that is a demon that comes in the night and has sex with her) and because of this she went from herbalist to herbalist and could not be helped; she went from church to church and could not help. She said when Tony was praying for her she saw the night man leaving her. She was crying saying, I have finally been released from those terrible demons. Now God can give me a man to marry.

A man had feet that were all swollen up real big. He didn't know what had happened to him and how he got that way. He couldn't walk without great pain. After he was prayed for LAST NIGHT, the pain disappeared but his feet were still swollen. He came back tonight to give testimony that overnight ALL the swelling left and are now completely normal. He was so absolutely happy!

A lady had severe headache. When she went to the hospital she was told that she had malaria. She had been taking a lot of medication with no improvement. Her health continued to deteriorate. When she came for prayer tonight, all the pain in her head disappeared. Her body used to be so hot, but it suddenly became very cool.

A lady said that in her dream she was given food to eat. After she ate the food in the dream, when she woke up the next morning, she got severe stomach pain. She went to a herbalist and they said that she was poisoned in the dream and that she was not going to live. For the last six months she had been dying. The hospital also told her that she would die soon. After prayer tonight she felt something coming out of her stomach and all the discomfort and pain went out also. She was so happy and said that "I have set free tonight!"

A boy at about 18 years old he had chest pain, very severe. When he went to the hospital they told him that his liver was damaged and could not be fixed in this country. The last hospital he went to told him he would have to go to the US. He had been worrying; he had given up, even dropped out of school. When he tried to walk, he could only go a few steps and stop, a few steps and stop. But when a Liberian Pastor prayed for him tonight everything left him and he said "I know I am healed and that tomorrow I will go to the hospital and have them check me and I will give testimony tomorrow night!" This boy was so totally happy! Oh, I forgot to mention that he was saved tonight and tomorrow he will be telling the doctor that the Great Physician Jesus has healed him.

A woman had a bad back problem; it was so severe for 6 years. She could find no help with medical treatments. After prayer, everything left her and she was rejoicing in the Kisi language. She was singing and dancing in Kisi.

A totally deaf lady could not even hear herself. When she got prayer, within two seconds, both of her ears opened up! Her mother and neighbor were both with her and they were all rejoicing, they were so happy!

Harvey:

Tonight was another good meeting. Things started a little late because it was pouring down rain and we waited for the rain to slow down before we left for the crusade. The rain stopped as we got to the crusade and stayed mostly dry till we were done. The worship was good and then Casey gave his hungry message, it was fun to watch. I'll let Casey tell you about it though. After the message we gave some words of knowledge and we were off to praying. The crowd was the

smallest so far, because of the rain. God still showed up in a mighty way though. Casey and I tag teamed praying for a couple people then we each started praying for people. I prayed for back pain, knee problem, and stomach ache, they were all healed very, very fast. God is sooooooooooooo good! We didn't pray long because the Liberian pastors were on a roll tonight and made short work of the prayer line. Many thanks to all of the prayer warriors!!        Later

Casey:

It is hard to believe that this trip is already half over. It feels like we just got here. We have seen so much on this trip and more to come. Our reports we have sent back home don't even make a dent in what's going on. Most of the real big stuff is happening through the Pastors. I know that it is because of them we are able to minister to everyone that needs prayer.

Tonight was like all the other nights. The worship was awesome and yes we left the stage and danced with the children. That really seems to bring in the Holy Spirit and you can feel the atmosphere change when we move into the crowd. The first night at the crusade when we went down to dance with the children a bunch of the parents would come grab their children from the group of children that gathered around us. Now as soon as we leave the stage the parents are bringing their children to us and walking away. I held this little girl not having a clue who she belonged to. As we danced around I was looking to see if mom was close by, but like I said I was clueless. When the music was finished I just walked toward the steps of the stage with this little girl in my arms thinking well I guess I'll preach with her. Then out of nowhere her big sister shows up and stretches out her hands. You know as I am typing this I still don't have a clue who she belonged to. Hummmmm I hope that was her sister.

Like I said I got to preach tonight so Tony could have a night off. I gave them my hunger message and passed out the money as a demonstration on how sometimes you have to go for God if you want something. This is the only place that I had a crowd run up to grab the money. Wow they understood this principle

of the kingdom real well. I felt as if I was back in Bungoma Kenya when the street boys knocked me down and took all my candy. It was great, well, that's because I was sitting on the stage. It was a nice safe place to be. I didn't preach a long message just enough to get them stoked up a bit. I then gave a salvation call and thirty came to receive Jesus. 😊 Now it was time to release words of knowledge and again Tony and I had the same words. We gave out about five words and a huge line was forming for prayer. Again Harvey and I teamed up to pray. Tonight there were a lot of stomach problems and back and leg pain. Everyone that we prayed for was miraculously healed, like lightning. The night went real quick with the Pastors praying and they were getting all the cool stuff. The evening ended with Brian and I praying for this deaf mute that has been coming every night for prayer. The first two nights she would go home in the same condition. I thought to myself not tonight, I wanted to see her healed. I know Brian wanted to see her healed too. We prayed several times and then several more and nothing was happening. It was almost time to go and everything was torn down for the evening and I felt defeated. Then I felt something rising up in me and I got this boost of faith for her. I knew something was going to move so I prayed one last time and pop! Her ears began to open and she started talking and responding to my voice. Her whole composure changed and her eyes got real big. Brian even started to speak behind her and she would turn her head to see who was talking. I praise God for her healing this one was a battle and the devil lost, Praise God! What a way to end an evening. Again thank you to all of you praying for us and our families. BLESSINGS <><

Brian:

I stepped back a bit tonight due to my stomach acting up. Those who have traveled to African countries or India can relate.

There has been a deaf mute girl who has been coming every night of the crusade and all of us have been ministering to her. I think I mentioned her in my report of

the first night crusade, we thought she had been healed. It turns out the girl can read lips. She was back again last night and we all took turns at trying to get her to hear with nothing happening. Tonight she came up again for healing and I tried, and then got a Liberian pastor and still the girl remained deaf. Casey was standing near me, but I was planning on getting every pastor there to pray for her if I had to in order for her to get her hearing back. I did not want to have her be one of those I remembered not getting healed when returning to the states. After quite a long time, bam, the breakthrough came and the girl was responding if you spoke into her ears.

A lady had broken her left hand recently and was in pain. She said she had no pain at all after a brief ministry time. I had her open and close her hand and bend it ninety degrees at the wrist to test it to make sure. She still said all the pain was gone. I noticed that the swelling had not gone down so I believe that happened after she went home. We have had people testify that they have received their healing after returning home from the crusade or conference and coming back the next day to tell us.
