Outreach To: Memeih Town; A small Muslim Village

Pastor Harris & Pastor Kettor:

The meaning of “Memeih” is “to do things silently”. According to one of the village Elders, people die there very prematurely, including lots of children. There is a child that dies in this town everyday. That is, up until today. The town has only one Christian Church and it is Baptist. No Christian is allowed to live in the town, only Muslims. Because of that, many people are afraid to even speak the Name of Jesus in this village and only a few people attend the Baptist church. The sense of demonic activity is all over the town. There is one community hall, but that hall is a demonic meeting hall and they would not allow anyone else to go there. The pastors had to go to the community hall to ask the Village Elders for permission to have an Outreach to bring healing to the people. They told us OK and to go to a central spot in the village. That was the first miracle, we were allowed in the village to preach. There was no one in the village that was healthy, everyone was sick. As a result of their demonic activities one of our praise leaders was seriously attacked. While the team was praying, she saw a man coming with fire. This demonic man tied up all the little children and put them all on a chain and started taking the children away. The praise leader started to go after the man in the spirit to see where he was going with the children. Then a demonic power came upon her and she was frozen and couldn't move. She couldn't speak; all she could do was cry. Tears were pouring down her face. One of the other praise team members saw her and called us to come. Her hands and feet were as if they were tied with tight ropes. We couldn't move her arms or legs from the bound position. She was also unable to speak a word. We began to pray and we bound that demon and she was instantly released. Her arms, legs and lips were loosed instantly and she went back to leading the worship during the prayer time.

One of the other team members was attacked while they were praying and blood began to come out of them. We got behind him and prayed and the attack quickly ended. It is a very common thing to see attacks in total Muslim communities, but we ALWAYS win!

Some of the testimonies of what we personally saw:

- An elderly woman came to me and said “my husband was the head of the mosque (chief of the pagan god). He is sick but was ashamed to come for prayer. Both hips were out of joint.” So, I went to him behind the crowd and I asked him what was happening to him. He said that he couldn’t easily walk by himself. I asked whether he was serious. He said “I am not joking!” I asked him to hold both of his hips, which was very hard for him to do, because of the pain. After praying for him, in a few seconds, he was healed INSTANTLY! He was so happy, jumping up as evidence of his healing. He received Jesus right on the spot! Glory to God! Now he is the EX Chief of the pagan god and a child of Jesus, the King!
- Four people received their sight INSTANTLY, which were blind. An awesome miracle! Among the four, one case was severe, because there was terrible pain in the eyes also. She was not convinced that what happened to her was real. She kept looking at everyone around her to verify that the miracle had really happened.
- A pregnant woman said that since she conceived, she had been going thru severe pain in her stomach. But after prayer, I asked her to locate the pain. She looked all over and couldn’t find any. No pain!
- I realized that Holy Spirit likes to mess with us too. A lady came that had pain in her right knee. I told her to lay her hand on her knee and just to look into my eyes. Instantly, the pain was gone. Amazing. I told her not to rely on herself, if she was feeling any to pain to tell me, she said “No Pain! So, I believe that the same way Peter’s shadow healed the sick, which was the anointing on his life, you can pretty much say whatever and it is done!

- Four persons suffered with severe pain in the neck and the back, healed INSTANTLY!
- Three children suffered with severe, restless pain in the stomach. One of them couldn't stand by himself. After prayer, INSTANTLY all the pain disappeared and the little boy that couldn't walk was off walking. Glory to God!
- A man that was ready to traveling to town to go for medication because he couldn't stand. He was told that the "healers" were in town and he needed to stay for the outreach. When he came, he encountered the Healer Jesus. He was leaping and jumping and praising God!
- A doubting Thomas, a Muslim, doubting whether or not Jesus was real. We asked for those that still doubt and are sick to come forward. This man came and said he was sick in his back, terrible pain. I told him to put his own hand on his back and declare the Name of Jesus over his body. He was powerfully touched and I asked him who healed him and he yelled out Jesus, I said who? He said Jesus. I said who, he said Jesus. He confessed Jesus right away. How awesome is Our God!
- People were healed in all directions, back, front, sides, inside, outside, all around.
- An elderly woman came and they had to sit her down. She had pain all over in her body. I was told she was the head witch, head of the whole demonic society. I told her confess the Name of Jesus, she couldn't, I asked her again and she couldn't, I just wanted her to say the Name of Jesus, she couldn't. Finally, she did say it. She did confess that Jesus is Lord and asked Him to come into her life. We then prayed and she received all her healing. Her son that brought her was very happy and received Jesus also.
- A woman had both of her hands that were numb. This happened two years ago. Two years with no feeling in her hands. After prayer, there was total restoration of her hands.

- A man said that whenever he wanted to read, he could not see the print. The man was a teacher, but unable to do any teaching due to his eyes for the last two years. He kept him for being able to read anything. He had gone from clinic to clinic and today he heard about the outreach, he came and go prayer. We had him try to read some small print immediately after prayer and he was able to do it! Glory to God!
- HERE IS THE BEST PART: AFTER THE FIRST FEW PEOPLE RECEIVED MIRACLES, WE INVITED THE PEOPLE TO RECEIVE JESUS. AMAZINGLY, IT LOOKED LIKE EVERYONE (ALL MUSLIMS) RECEIVED THE LORD! THERE HAD TO BE ABOUT 150 MUSLIMS CONVERTED TODAY! We asked how many had been to a Christian Church, none raised their hands. We asked how many were ready to receive Jesus and ALL raised their hands.

Tony:

Well, Brian asked our hosts if we could please go on Outreach to an “All Muslim” village. He wanted to see a little more intense action. During the praise time I went out into the crowd and put my arm around the guys with the Bennie caps on. I just began releasing blessings over them, in preparation for what was about to happen. Read the other reports and you will see that the Kingdom of God in us suffered violence today, but the violent (us faithful ones) took it by force! Wow, there was intense spiritual activity in this place, a great invasion. Demons were flying out left and right!

We gave out one word of knowledge and moved into miracle flow. As I began to question the people as to their problem, I was having difficulty understanding them. A young man, part of the praise team, came to assist me. He was acting as the interpreter, but to his surprise, I had him do the praying. I asked him if he had ever done this before and he said no. I imparted the anointing to him and off we went. We prayed for about 30 people and all were miraculously healed. Here are a couple of them:

- A lady that had bad stomach and leg problems for 5 years. We prayed and she started jumping up and down and said, “My legs are healed, but my stomach still hurts.” She then pointed to a large tumor on her stomach and said that was the problem. The young man with me praying put his hand on the tumor and we prayed and he watched it disappear. He was completely amazed. We asked the lady to check it out. She poked all over there and with a smiling, but yet a shocked look on her face said, “Oh my God, the growth has disappeared and all my stomach problems are gone!”
- We prayed for a lady that was totally blind and when she received her sight the people around erupted. I knew her blindness had been well known in this village so it was perfect time to give a salvation call. Pastor Harris gave the call and it looked like the whole village came to Jesus. What an awesome sight to see!
- Two mothers brought their deaf children and, my, oh my, how happy they were when their children’s ears opened up. Another mother’s son had a bad ear infection with oozing infection coming out of both ears. As soon as we prayed, she kept looking into his ears to see what had happened and could no longer find any evidence of the infection.
- The Pastor of the only Christian Church in this village came for prayer. He said that as soon as he came on as pastor, he got sick, 5 years ago. He said that he couldn’t bend because his back was so bad and he couldn’t squat (or kneel –like to pray, for instance) because his knees had some kind of crippling disease. He said that he was depressed and discouraged all the time. I know how that stuff can come to a pastor, let alone one that is ministering in the middle of a demonic stronghold. I asked him if he had come to the Pastor’s conference and he said No. I asked if he was seeing anyone healed or delivered. He said No. So, I gave him a quick study on his authority and imparted the anointing to him, then had him pray for himself. Goodness, a bomb exploded in him! He was absolutely shocked at how he was miraculously healed. I then told him to pray for the next 2 people. He said, “are you sure I can?” I told him, “Watch what Holy Spirit will do thru

you!” He got the eyes of a blind lady opened and got a crippled man jumping and running. I told him to impart to the few in his church, then start going on visitation in this village to pray for all the rest of the sick Muslims and watch them get converted!

Casey:

Today was another awesome day. We had so much fun at the outreach in some small village out in the bush. The village was said to be 90% Muslim. That didn't seem to matter, because God was clearly there. The worship music was already jamming as we pulled up and a good crowd was forming. We got out of the car and got right into the worship. We danced with all the people and of course the children too. They love to worship here and there were even Muslims with their little hats dancing in the crowd. With the spirit of joy being poured out it's hard to stand still. When it came time for Tony to speak he said we are not here to bring you religion. We come to you to bringing the kingdom of Jesus, healing and deliverance. I was watching the crowd as Tony spoke and there was a group of older Muslim men standing across the road from where we were. When Tony said it was not about religion, all of them walked across the road to join us. Praise God! It wasn't much longer and we were praying for the sick. We gave out one word of knowledge for pain in the neck that goes down into the back. Several women responded to that word and the lady I prayed for was in a lot of pain. As soon as I started to pray for her the Holy Spirit consumed her. She was vibrating all over and rocking in all directions. I just blessed what God was doing and kept speaking “more Lord!”. When she came to, she was drunk in the Spirit and couldn't even speak. Every time she would try and talk it sounded so funny she would start laughing. It was so funny watching everyone around her, they even started to laugh. When she could finally talk she just praised God for healing her. I was standing next to Pastor Harris or as we now know him Pastor Instantly. I started to watch him pray for people and I must say the healings were coming instantly. As soon as he touched them and said “you are healed”, the person couldn't find the pain they came with. Wow, I know, but I witnessed this first hand. God is really moving here. I prayed for many other people, all healed, but here is one more. There was this woman that was sitting on a stool in the middle

of the crowd. Harvey started to pray for her first, but he had to sit down for a moment. He's ok just a nose bleed. When I stepped up to pray for this woman I laid my hands over her eyes, she was blind and I started to get real dizzy. I just pressed through not thinking much of it. Come to find out she was the head demonic leader of some cult in this village. Her skin was a grey tint, like a person that was dead, nobody else looked like this. It looked like her body was full of pain too, and after all the pain left her body she gave her life to Jesus. The critters she was packing were not happy with Harvey and me praying for her, knowing they were going to be sent packing. I also prayed for a deaf girl and she was totally healed after a short prayer. Blind eyes were opened crippling body pains and stomachaches were instantly healed tonight. Like I said we were having a bunch of fun tonight. I have seen a ton of healings, but tonight was totally amazing. Tomorrow we are going into a market place in the morning so that is going to be fun. Thanks again to everyone still covering us with your prayers. Blessings 😊

Harvey:

Today we went a little further down the road to a Muslim village for the crusade. Worship was underway when we got there so we just joined in and watched as God filled the atmosphere with his Presence. After Tony gave a short message and had a word of knowledge we began to pray. After a couple healings a salvation call was given and I think everyone responded. The healing prayer never really stopped during the salvation call and then it was game on again. I prayed for a woman with back pain who got healed and a woman with stomach pain who also left happy. I had a guy come up for prayer that I thought had some pain from his hip up toward his chest. After I prayed once he took my hand and put it down very low on his belly and said he had a hernia. I didn't feel any male body parts but my hand was awfully close. While I was praying, I felt a lump move sideways past my hand and he got a big smile and said the pain was gone. That was so cool to experience. As I looked around to see who to pray for next, I saw an old woman, who I found out later was the head "Who-Hah" of the demonic realm in

the area, come walking up very slowly and she appeared to have a crater where her right eye should be. When she got to where I was she stopped and someone came thru the crowd with a chair for her. When she sat down the guy that was with her said she was blind so I put my hand on her eyes and proceeded to pray. After I prayed I ask the guy that brought her to check and see if she was ok and he said my nose was bleeding. At the time I didn't realize the demons she was carrying. I know I was aggravating the powers of darkness. Something about the attacks of satan, they come to an end and he has to leave. We always win. After taking enough time out to turn the better part of a white hankie red I was back in the game again. After praying for a couple more people it was time pick up and head for the car. Many thanks to all of the prayer warriors!!! Later

Brian:

Today we were off to a Muslim village for some SHOCKNAWE (shock and awe). First the people are in shock from the miracles and then in awe. These people have never seen or experienced any kind of healing, or even believe in such a thing.

After worship words were given and a dozen responded. My first person was a lady with pain in her hips. Nothing was moving so I got someone else to work with her and she got healed. I'm thinking this is a great start, but the next woman's pain left instantly. It's neat when they start grinning before you can ask how they are doing. We can tell just by looking at their faces when they are being healed. More sicknesses and pains left, many of them people had had for 10-20 years. They told us that a child dies in this village everyday, there is so much sickness and demonic activity.

It is truly great to see what God did today!
