

HEAVEN INVADES MUSLIM MARKET

Mission to Liberia, Africa 2009

Wednesday, November 18, 2009

Outreach To: Sass Town Market

Tony:

Remember the story of the immigration guard that stopped us and made me get out of the vehicle? Thought you might like to know that every time we pass thru that guard post now he beams with happiness and smiles and yells out greetings to us; it is as if we have become the best of friends. Amazing what being touched by Jesus will do.

It is such a trill for the team to see the impartation that has been taken by the Church Leaders here and watching them really go with it. We are already witnessing great power and miracles thru them that are beyond where we have gone. Again, thanks to all praying, it is key to this move of God!

The pastor's testimonies below pretty much will tell you the action that was happening. I will just give a few different ones:

- All the Muslims got converted, either before or after prayer, but all, none the less. Wow, what a Glorious move of God today! I got to pray for a number of people that said they wanted us to go to their homes to pray for their sick family members, some even near death they said. I explained what their salvation had brought them and then imparted the anointing to them to go home and lay THEIR hands on their sick family and watch Jesus heal! Every one of them was vibrating under the fresh anointing of Holy Spirit coming upon them. I just know what is going to happen, but it would be cool to see it when they got home.

- Almost all of the people I prayed for started manifesting (from the anointing of God) just as my hand was getting near their body, before I touched them. They were so expectant for a powerful touch that I really didn't need to do anything. Wow, I would love to have a video of their faces for everyone to see.
- There were a number of both men and women that wanted prayer for God's intervention in their business and for God to provide a spouse. One Muslim man said, "How many Christian wives can I have?" And a number of woman that couldn't conceive. We got the husband thing straightened out first, before prayer.
- My favorite for today: Two young women brought an elderly lady up, each one holding her up under her arms. I asked what was wrong and they said "momma cannot stand on her own; she is very weak and has terrible pain all over her body. She thinks that she is close to death now." Of course, they all received Jesus and I said "let go of momma!" To my surprise, momma fell to the ground. I got down on the ground with her and she said something to the effect of; "what's the matter with you, they told you I was weak!" I apologized, and then prayed for her. First, all the pain left her body and she began to smile. Then I commanded all weakness to leave her and for the spirit of death to take a hike. Then I said, "In Jesus Name, get up!" And BAM, she jumps to the ground and runs over to the microphone to give testimony. Her two daughters were totally amazed at what Jesus had done.
- I was also blessed tonight to be able to pray for some impotent men. Listen to the testimony below. These men all received a miraculous healing.

Pastor Harris & Pastor Kettor

We are sharing some testimonies of what happened thru the local pastors that were praying with us today. There were hundreds of Muslims that received Jesus Today!

This location of Outreach today is Muslim dominated. The Muslims have been building mosques all over. Only a few of the out villages have Christian Churches. Much money is put into the mosques while the Christian churches are usually very poor. But now we have the power to totally change this. The Muslims are all sick and we have what they need. Glory to God!

With the demonstrated power of God today, the Muslims were convinced that they should be converted to Christian today. There were many, many conversions today. Many stood by to see what would become of those that were sick after being prayed for. The evidence was speaking as people began to testify about the touch of God that healed them ALL.

We don't even know how to describe what happened today. Because of the testimonies they were hearing, a clinic on the market grounds invited us to come and pray for all their patients.

- It began with many, many people that have been experiencing stomach pain for from months to 15 years or more. All of them were healed. All of the pain disappeared after receiving prayer. One man had surgery twice for his stomach problem, but there was no help for him. Today was the first time in many years that he has experienced No Pain! One Muslim said that while he was set up in the market, he heard the music and he came to see what was going on. To his utmost surprise, the stomach pain he suffered with for 9 years disappeared instantly. He had visited so many herbalists without any improvement. But today he had an appointment with Jesus.
- We observed that those healed were mostly all Muslim, before prayer. After prayer, they quickly asked to receive Jesus.

- A girl said that he had been bitten by a snake this morning and was going thru severe pain from the snake bite. After she had been prayed for, the pain totally disappeared. Glory to God!
- A young man said that he suffered impotency for 5 years. After receiving prayer he realized that he was a man again. He said “this man’s sickness is gone”. He instantly received verification in his man parts that the impotency was gone. He danced and praised the Lord! I said “how do you know that for sure?” He pointed to his trousers and said look at this! I did, and to my surprise also I agreed, he was healed!
- A lady was blind for 22 years. She received instant recovery of sight. She was a Muslim. It was actually at the moment that she said I see what Jesus is doing here and I want to receive Him, she did, and her eyes were opened!
- A woman said that she had been sick for more than 17 years. She had tormenting pain all over her body. She received Instant healing. She came a Muslim and said “I am now Christian!” She jumped up and started shouting for joy!
- A Pastor came that suffered from partial blindness but received his clear eyesight after prayer!
- A lady said for 3 years she suffered heart pain and tooth aches and her heart was enlarged and she was not able to breathe well. She received Instant healing and felt the change in her heart and her breathing became normal.
- Two people, a boy and an older Muslim man, said they suffered severe headaches from a soft skull. We felt the top of his head and it was like a new baby where there is no skull, only skin. When they breathed you could see the soft skin go in and out where there was no skull. We prayed and watched a creative miracle with the skull being restored and filling in the hole for both of them. And all the pain left them. They were so happy!

- Two ladies suffered from liver problems with terrible pain. One for 1 year and the other for 3 years. Both of them received totally healing after being prayed for.
- A lady with foot problems for 3 years got instantly healed after prayer.
- A lady with breast pain for quite some time. The problem disappeared after receiving prayer.
- A boy suffered from rheumatism with terrible pain. He was healed as soon as he received prayer.
- A lady that couldn't see in both eyes for the last 7 years got healed on the spot and could see clearly!
- Because of the move of God a local girl brought some water and asked us to pray over it so she could bring it to her sick grandmother to be healed. We imparted the anointing to her and sent her off to pray for grandma.
- A Muslim man and woman confessed Jesus as Lord after both of them got healed instantly from severe back pains. They were so excited!
- A lady said she suffered severe pain in her hips for over 10 years, she could not walk and she got healed instantly, on the spot.
- Some Testimonies of those healed from Deafness:
 1. An older man that was deaf for most of his life, his ears were opened right on the spot, instantly. Another man testified that he saw this man when he was young, when he got sick and lost his hearing. He was so moved and encouraged.
 2. A girl suffered from deafness in both ears, totally closed. When Holy Spirit came upon her, it was BOOM, she heard a pop and she could hear clearly.
 3. An elderly Muslim man suffered deafness for over 17 years. His ears were opened. He was healed right on the spot and a witness came

from the crowd to testify that the old man was actually deaf. He was so happy witnessing the old man hearing and talking.

4. A lady was DEAF for 15 years. She was healed instantly and was amazed at the sound of the music and the people that were talking. She was so blessed with jubilation joy.
- A girl said that she was prayed for on the last night of the crusade. She had suffered from severe pain all over her body for many years and she could not easily stand by herself. But today she came to give testimony to tell the people that what is happening is REAL and not to doubt.
 - A man gave us three demonic rings that he had gotten for protection from a local witch. He was watching what God was doing and knew that the rings were wrong and that he needed to trust in Jesus. He confessed and said that from now on he will be trusting Jesus and be giving of his income into the kingdom of God.
 - This is an anointing that all parents would like to have: Children were confessing that they were stubborn and disobedient to their parents; they were repenting and saying how they were going to show their parents respect, honor and love.

Casey:

Well today was our outreach in a Muslim market. This place was packed out. Rev. Kettor had us set up under a huge pavilion. The sound system was again blasting with praise music and pumping out joy in all directions. This drew in a huge crowd; they all wanted to see what was going on. That would have been Jesus; He's got it all going on. We danced for a while to the praise music and then it was time to give them a quick message. Tony had turned over the helm to me this morning. I was a bit nervous at first but that didn't last long. I knew what I had to do so I turned the ship and crashed it into a huge rock. That would be Jesus, He's the rock. I just bragged on Him for a bit and what we came to do in His name. The

crowd was real excited as I told them Jesus was here to carry their load, and they were ready to see God move. I released one word of knowledge. It was the same word that Tony had gotten for them. The word was for extreme stomach pain and a bunch responded to the word. At the end of the day we realized that this word represented the large percentage of problems that people came with. Pretty cool, huh? As I started to pray for them the pain was going away so fast they just stood there in shock. It was great. If I wasn't there to see this I wouldn't believe it myself. The anointing was so strong this morning. God really wanted to show this Muslim market who was the real God. There were so many people we prayed for there is no way I could even remember who I all prayed for. I prayed for a bunch of headaches and all of them were healed. Stomach pain and back pain didn't stand a chance either.

- There was this one old woman that came up with this huge tray on her head. She asked if I could pray for her knee. It was swollen twice the size as the other one. It looked as if she had a softball for a knee. It was swollen badly and she couldn't bend it. When I touched her knee she flinched and pulled it back and said it was paining real bad. So I placed my hand as lightly as I could and started to pray for her. The pain went away small, small, she said, which means it still hurts. I prayed again and as I was praying she let out this loud screech and started kicking her leg real hard. She got this huge smile on her face and looked at her knee. The swelling was all gone both knees looked normal now, Praise God. She was dancing with everyone that was up front that had been healed this morning.
- Another woman had come for prayer said she had an operation on her stomach and she was still in pain. For some reason they all think they need to show you where the problem is before you pray for them. So she lofted up her shirt to show me her stomach and there was a long scar by her bellybutton. There was also a lump there that looked like a tumor in her stomach. I had her put her shirt down and started to pray for her. As I prayed, I felt the lump shrinking in size until our hands (my hand was on top of hers) were laying flat on her stomach. Again the shirt came up as she was looking to see what happened to her. The lump was gone and no more

pain. She turned and started showing everyone her belly and they all were clapping and shouting. They all saw what happened to her and now they all wanted a touch from Jesus too. We must have prayed for a few hours and just when you thought you were done the crowd would double in size again. The healings were coming so fast it was easy praying for that many people. Truly it was an awesome day! Thank you again to everyone still praying for us and our families. Blessings 😊

Harvey:

Today we went to a Muslim market for our crusade. We were at a large pavilion and one of the pastors was making like Billy Mays and inviting people to come to the crusade. We worshiped for a while and ushered in the presence of God and then it was time for Casey to give the message. After Casey gave the message and gave a word of knowledge we were off and running. There seemed to be an unending stream of people coming for prayer and the healings were coming fast. The word was for stomach problems and there sure were a lot of them. I prayed for several women that seemed to have problems all over their bodies. I prayed for one that had a stomach problem, back pain, shoulder pain, heart pain, headache, and eye pain. She was happy when she got rid of all the problems and all the pain and came back after a few minutes with her young daughter who also had stomach problems. I had another woman that had stomach, back, headache, and foot pain. I prayed for her foot last and when I stood up she had a baby that needed prayer for a stomach ache and fever. Mom and baby left healed. I think we were working the family plan today because I think I had a dozen moms that came with children and they both needed prayer. I also had several men come that had pain or some other problem with their male parts. I had one guy keep moving my hand down as I prayed, but I managed to keep my hand in the safe zone. Praise the Lord! Although stomach ache was the predominant need, there were a few other things thrown in, like knee pain, hip pain, pain in the side, and a couple fevers. All were healed, Yea God! After we finished, we were invited to the clinic that was in the back of the market, to pray for the sick.

- One of the pastors called me over to pray with him. He was ready to pray for a young boy who looked like he had a hernia. The poor guy was standing there with his pants down and his manhood on display, for the entire world to see. We watched the hernia shrink and knew the affliction was on the run.

Although the crowd today never looked that big, it seemed to be never ending. It was like as soon as one was healed there was another to take their place. It was a good day filled with lots of salvations and healings. Thank you, thank you, thank you, to all of the prayer warriors!!!!!!!!!!!!!! Later 😊😊😊😊😊

Brian:

Wow hardly expresses what happened with the shock and awe visited by the Holy Spirit on this Muslim village market place today. This is what this ministry loves to do is to go out to places that others won't go, or are afraid to go, "on the edge" is what Tony likes to call it, it's our favorite thing. This village was an hour's ride from where we're staying outside of Monrovia, and is more than ninety-five percent Muslim.

The Glory was so strong Pastor Tony was having trouble standing right before ministry time. People with pains in their bodies were called up first to the prayer area. Maybe thirty people came up out of a crowd at the time two hundred people who had come to hear the worship music. You'd have thought they were all Christian they way they were getting into the music. And Tony's dancing did not hurt any as the Africans haven't seen anything quite like that. The first person I ministered to was a young woman, maybe my daughter's age with pain in her stomach. These pains are not stomach aches caused from excess gas. Most of these people turn out to have had these pains for years. What causes them I have no idea? This pain instantly left this Muslim woman which she said she had for five years. Same story with more pain cases, but the best was yet to come as the crowd kept changing as people got healed and others in the market heard what was happening and came for the same thing.

Toward the end of ministry a mother with a little boy maybe seven or eight was in front of me indicating he was deaf. After a minute that deaf and dumb spirit vacated the area and the boy said he could hear. I told the mother to talk to the boy herself to see if she could tell if the boy could now hear. Since the boy had been become deaf, after he could talk he was speaking clearly, as he told his mother he could hear her. I asked the mother how long the boy had been deaf and she said three years.

After a couple of more miracles for pains an older man was in front of me indicating he was deaf as the woman beside him was also telling me that this man was deaf. After a minute I tried to find out if the man could hear anything. He did not understand me, so I got one of our Liberians with our outreach to try and find out what was going on. He told me the man was still deaf, so I went back over the same ground as before and covered some other things. We asked the man again if he could hear me and he said yes he could. To be sure I asked the woman with him to ask him if he could hear her and again he said yes. I then asked him how long he had been deaf and he said twenty- seven years. Over one-hundred healings came up to give testimony, but there were many more miracles today. A Christian pastor was the only Christian healed at the outreach because all the rest were Muslims before they got healed, but all of these were soon converted having never seen Allah do anything remotely like what they'd seen today. What an awesome God day!
