

RAISED FROM THE DEAD

Mission to Liberia, Africa 2009

Saturday, November 21, 2009

FAREWELL DINNER

Our hosts organized a farewell dinner for the team with about 150 of those that worked at the conference, crusade and outreaches (Intercessors, Praisers, Prayer Warriors, Ushers, Pastors, and Community Neighbors). It was a great time of fellowship, food, testimonies and so many people blessing us.

A great way to end our time here is to make part of the record some of the testimonies that were given of transformation that happen by our mission here.

- **RAISED FROM THE DEAD: A Mother:** “I exercised the teaching that I received. I was called home because my family said my child was dead. People were crying and wailing all around in my family. When I got there, I encouraged them to trust God so that the child will live. I followed the simple way of prayer that I was taught at the conference. I didn’t need to shout. I just prayed a simple prayer of faith and my child was completely revived. My child was lying lifeless with his tongue fully extended hanging out of his mouth. I said “you spirit of death, you will leave my child NOW, in the NAME OF JESUS!” Immediately his tongue went back into his mouth and he started breathing! I have witnessed a miracle thru my hands and my child has his life back. I have never got such teaching in my life before. I am so thankful to God!”
- **A Pastor:** “I am so grateful for the conference and crusade. I was specifically blessed on the teaching for prayer and deliverance, which truly opened my eyes and transformed my life. I am now walking in great power!”
- “We are so grateful for the LFJ team coming to Liberia. I benefited from both healing and impartation. I suffered for years with ulcers and was

totally healed and now I have the power to heal other people. I thank God for your coming!”

- A Pastor: “I am so grateful for the conference being hosted in this part of the county. This is the first time that people have brought a conference to us instead of us having to go to the big city to attend a conference. As a result of the impartation I received in the conference, I stopped my younger sister from going to have an operation. I said, “No, Jesus will heal you!” After the prayer, my sister visited the hospital and the doctor could no longer find any problem. All because of the impartation I have received. I thank Jesus!”
- A Pastor: “One of my daughters in the faith had a Muslim husband. The husband didn’t want her to attend any Christian meetings. He agreed to come to the crusade one night to see what this craziness was all about and to prove her wrong, BUT God powerfully moved on him. He was healed and delivered and saved that night. The x-Muslim man now wants to preach the gospel to all.”
- A Pastor: “I am so grateful to God for the success of the conference and crusade. The impartation prayer and deliverance made a great impact into my life. One of my main concerns was about the laying on of hands, which was a problem for me and many others. I understood the teaching very clearly, that it is just a simple matter of following instruction, commanding the devil to leave, because we have authority over him. It has happened practically in my life, after the impartation. For the first time I laid my hands on my wife that was very sick. We had spent all of our money trying to get her healed! I told my wife, I have received something powerful at the conference, don’t look at me, it’s not me, it’s Jesus, and you are going to be healed!” I prayed and she received an instant miracle. Wow, I am shocked by the impartation I have gotten!”
- “I thank God for the teaching on dream interpretation. This has brought revival to my life!”

- A Pastor: “I am so grateful for the conference and crusade. The teaching and the inspiration I received was so powerful.”
- A Woman: “The conference brought a spirit of unity amongst believers and churches in this area, which was so much needed. Churches and pastors were previously all divided in this region. This happens to be the FIRST of its kind for the body to come together in this region. We are glad that it is a requirement of Living for Jesus International for all area churches to come together for this ministry. We truly understand the power of unity.”
- Some Community Mothers: “We desire to show our appreciation to the team for buying our children real soccer balls to use for the community. It has brought the children of our community together. We are so blessed!”
- A Lady: “Before, I used to be too lazy and weak to pray. On the last day of the crusade, when Pastor Tony fell under the power of God he was out dancing with the children and I was one of the ushers assigned to watch him. When he went down under the mighty power of God, I picked him up and escorted him from the field to the altar and INSTANTLY an unusual unction came over me. I felt something powerful come from him to me. Since that moment I am on fire for the Lord, revival is taking place in my life non-stop. I see clearer, I think clearer, I am feeling things happen in the spirit realm, I really cannot begin to express what has happened in my life!”

Following her testimony, Her Husband who is the head of the school, where we hosted the conference, went to the principle and told him that he doesn’t know what happened to his wife. “She is on fire, I mean a blazing fire, and praying all the time and so filled with the joy of the Lord! My wife is transformed!”

- A Girl: “The impartation that I received is working for me! My friend was sick and I asked her if I could pray and she refused. She left and went to work, but when she came home, the sickness had gotten severe. That motivated my friend to let me pray for her. That night my friend slept very well. The next morning, when she left for her job, the sickness came back

way worse and she was rushed to the hospital. When I received the information of what happened, I rushed to the hospital. I asked my friend, "Do you believe in God?" Her response was "Yes, I believe in Jesus." Then I prayed that simple prayer, no shouting, no jumping, just commanding the sickness to leave in Jesus Name. Instantly, she came out of her stupor and starting sweating profusely. Then I asked, how are you coming on? She said, when you just started praying, something happened, I felt totally relieved, something left me! I am well!" I told her, "No, don't lie to me, tell me the truth." She said, "I am not lying, I want to go home right now!" We called the nurse in to check her out and she said "I must go home now, I am well!" They checked her out and found her to be completely well and the doctors admitted to a miracle. She left the hospital and went home praising God, and since then is totally well. Glory to God!"

- An Elderly Woman: "Before I used to pray violently, shouting, jumping. The veins would bulge out of my neck when I prayed. I looked and sounded like a crazy woman to many people, but I just thought it was me being spiritual. I would have to sit down after a little prayer because I would wear myself out physically. The conference made a dramatical change in my life. After receiving impartation, they brought a child to me for prayer, and I told them to wait. The people started saying, the child is sick, pray right away, not later. I was reminded by Holy Spirit thru a flash back about the teaching I had received during the conference. I said, "Go home, the child is well, in Jesus Name!" I have never known such simple bold words of faith. Instantly, as soon as I said that, the child recovered right on the spot! I am an old lady, after all these years, I finally get it! Hallelujah!"
- A Pastor: "All the teaching I received in the conference has made a great impact in my life. Whenever I lay hands on people, not to push them to fall, but to just touch them, I am seeing results every time now. I just simply command the sickness to leave and it does! Wow, have I been blessed!"
