

Mission to Africa, End Time Harvest Church, Sunday Morning Service, 03-13-2016

Tony,

Thanks to all that are praying for this mission. It was a very long trip to get here, but we saw the Favor of the Lord all along the way. It is so awesome to be His son and represent Him!

The third day after we left the USA we arrived at our host's home to stay. Thank you Fredrick & Emily for loving on us! We rested and ate African cuisine in preparation for next day, Sunday, to begin our ministry here.

At the church service this morning, we dove into the praise & worship, African style. I love the sounds that many make during the praise time, a praise experience that cannot be forgotten!

Since Holy Spirit has greatly expanded, yet simplified, the gospel message for us to bring, He had me release a broad spectrum of what happened to the Christian at new birth. I would love to be able to stay and just expand on this for these believers. Their faces were precious with looks of amazement as we released gospel Truth!

Moving into ministry time, our goal is to show them what they can do, besides the obvious healing miracles given to them.

Again, we experienced all being healed. Again, many headaches, various body parts with pains, kidney issues, so many of them. We were getting them to do the healing. I had a nurse with me and she was so happy seeing the Life of God flow thru her hands! She kept looking at me and saying "this is amazing!" and, since she prayed for many children also, said "children do not lie; if they have a problem they will tell you and if it is not healed, they will tell you that also!" All the children were healed thru her hands. I could clearly see her realizing how her position as nurse was about to take a radical change!

A couple of specifics: A lady partially disabled on her entire left side, was instantly healed. My God, the look on her face! A man also had complete right side pain, he really looked in distress, but not for long. He had the look of total shock on his

face as he realized there was not a single pain in his right side as he wiggled his body.

A young boy pointed to his ear and said it was in pain and then folded his ear over to show us an ugly growth behind his ear putting pressure on his ear. Well, you probably know the rest of the story. He was feeling all around for what happened to the growth as the pain left! So wonderful to see these young people touched by God in such a tangible way that they will not forget!

After lunch, which was kukuu (fried chicken), French fried potatoes and bananas, we were off to an outreach at a small nearby village. After having fun with the kids dancing around, Patrick and Fredrick encouraged the village folks with the Truth. Words of knowledge were released and up they came! Some held back until they began to hear the miracles taking place. We had some being saved right after their healing and later more came for SALVATION. We always like to have the local pastors lead the people to receive Christ. This time I got to bless and encourage all those newly born again in the knowledge of the wonder of their new creation and relationship with Holy Spirit! You could literally see them soaking it in.

I had the thought, what if we didn't come here to this obscure little village, only gotten to by a cow path. The lives that would not have been touched, radically transformed, healed, set free and saved! I will see them in heaven and rejoice with them again!

We had drunks come up, ask to receive Jesus, get saved, get sobered up by Holy Spirit coming to them, and declare "I will never get drunk again because now I have Jesus to help me!"

A young woman came with her face all cut up and even still bleeding. Her right arm paralyzed and stuck in the bent position. Her right hand stuck in the clenched position. After interpretation, we found out that she has been getting harassed by demons coming to frighten her and she runs away and falls and gets hurt. We instructed her in the Authority of Jesus and how to use it! She really received that! We prayed for the wounds and she said that all the pain left and she felt

better. We showed her how to speak to her arm and command it to begin to respond to the Name of Jesus. I watched her arm loosen up and become mobile and after a few more prayers her hand was functional and she gripped my hand and I mistakenly said "try to squeeze my hand"! Yolanda! It felt like all circulation was cut off in my hand as she squeezed. She went away happy and confident that she "was ok!"

A woman said that some piece of farm machinery had fallen on her and messed her up pretty good. She was a hurting unit! Well, after prayer she was jumping and demonstrating to all the people of the miracle she had just received.

Another young man had some kind of accident and I think crushed his hand and arm which made him unable to function. He was in a bunch of pain, but saw instant healing and became extremely jubilantly excited to tell the people his testimony!

Ann

We are blessed with kind and friendly hosts Frederick and Emily.

This morning we had our first meeting at Bishop Frederick and Emily's church called End time harvest and discipleship church.

There was a lot of excitement, and we first gathered in their office, where we prayed together before we met up with the rest of their church. Emily saw in a vision on Friday before we came, whilst praying that a wall came tumbling down. During prayer Gem saw that the wall was down, and people were climbing over it.

Whilst we were praying the band sang, and they were singing in tongues at times, the presence of God was awesome.

Pastor Tony brought the message, and it was well received. Words of knowledge were that some had stomach problems, neck pain, headaches, knee pain. A lot of people came forward for prayer, we started praying. It was so easy, I prayed short prayers, and they were immediately healed. I lost count of the amount of people I prayed for, because when the first group of people came forward for prayer, and testified how God healed them, more and more came forward for prayer. Even

lots of children came, which amazed me that so many children had sickness in their bodies.

I prayed for a little girl with diarrhea, she claimed to be healed. A little girl came I prayed for pointed to her eyes. Not many can speak English, but their smiles and thumbs up showed that they were healed. 2 Adults I prayed for, had pain in their legs and feet. They were immediately touched. Lots of people had headaches, and everyone was healed on the spot. One lady had a headache and back pain, I started praying for her head, and when I asked how she felt she said her headache and back pain was gone. Praise God, I was so surprised at how easy it was.

A young girl, I guess about 9 years of age, I prayed for, said she was healed, I saw she could understand English well, I told her to pray for 2 other small children, which she did, I coached her on how, she prayed, and they were healed immediately after she asked them how they felt.

There was also a girl about 9 years of age, with chest pains, she was touched on the spot.

As Tony mentioned when we got back to the house, he had to fit in so much in one session this morning, but people were excited, and there was a lot of amens! We trust that the leadership will continue on teaching them this message, to reinforce this word within His people.

This afternoon we went to a village 15 minutes away from the house.

This was so awesome, once again a lot of children were present. We had an exciting session of praise, and the team danced with the children, especially Tony and Patrick. Patrick then brought a message about the Lion of Judah, it was very good. Words of knowledge came out again, and similar as to the morning, it was stomach ache, neck pain, knee pain, and headaches. People came forward, and surprising a lot of children also. We all prayed for 15 plus people, just as in the morning, people were healed on the spot. There was another young girl with chest pain that I prayed for again, the interpreter confirmed that she still had pain, after praying again, she was healed. All the other people I prayed for were

healed right away. I prayed for 3 little boys that pointed to their eyes, and 2 little girls had ear problems, the interpreter confirmed every time that they said they were healed. God is so awesome, and so faithful.

Right at the end, an invitation was made for people to be saved and 15 people gave their hearts to Christ. Judging from their demeanor they were so sincere. The goodness of God led them to repentance. We were told that many of these people that were saved, are church goers, but had never been born again.

Tomorrow we will go to Uganda for 2 days pastor's conference, then we will return to Kenya.

Gem,

Today we headed with our hosts to their church Endtime Harvest & Discipleship Church. We first prayed with the pastors in the office. From there we entered the sanctuary where the praise music was already in progress. The children then blessed us when they came up front and each either recited a verse from the bible or sang a song. It was very touching. After Pastor Tony spoke we did words of knowledge, mine being headaches, and then proceeded to laying on of hands. There were so many people it is hard to remember them all. Chest pain gone. Foot and ankle pain gone. Prayed for kidney, and leg pain- gone. Also cough and side pain. One woman had pain in lower back and after praying the pain moved to between the shoulder blades prayed and again pain moved to her chest. This time the spirit was bound and sent back to hell and the woman finally was pain free. Thank you Jesus. One very young child was brought to me and it was obvious she was upset and trying hard to get away so I first prayed for peace to enter her and she immediately calmed down. I then I prayed for her deaf ears to hear. When I finished praying she leapt to her feet and ran straight out the door. Praise the Lord for all His blessings.

This afternoon we visited a village for service in the open air. Only way to describe it: "WOW WOW WOW". There were so many children it was impossible to count. It was a true celebration of God. The healings were miraculous one after another after another. Too many to count. I laid hands on women for chest and abdominal pains, for knees, for side pain yet others for eyes and more I can't even remember. One woman asked for me to lay hands on her knees, I did this and prayed. As I was commanding healing I could feel that inside her knees was click, click clicking as if bones were moving. It was a weird feeling. Then came the children. The line looked endless and most prayers were for abdominal pain with a few for eyes and headaches. The healings were fast, a short prayer and on to the next. All prayed for were healed Thanks be to God. I am loving it here.

Patrick,

Sunday morning Service

After morning worship Tony gave a message focused on what happened to us at salvation and healing. After the message congregants were called out by a word of knowledge. Soon we had about 50 folk coming up for healing.

I prayed for no less than four adults and 3 children complaining of headaches. After laying hand on them they all testified of being without pain. One young lady came with a pain in her arm and a complaint of nightmares that plagued her life. After laying hands on her arm she testified of being healed. I cast out the demons and told her that she could command the nightmares to leave as she had authority to drive them out herself.

A lady wanted me to pray for her mother who was in hospital, instead I coached her to command the sickness to go from her mother, and that she could lay hands on her mother whenever she came into contact with her. Other children came complaining of stomach pains. I laid hands on them and they were healed, in Jesus name.

Sunday afternoon Crusade

We went to an outlying district to a small village in the sticks. Luckily Fredrick has a Pajero as we navigated foot paths that took us to a clearing among the trees. There was a jovial atmosphere with tons of children all around. Chairs packed out under the trees and worshippers singing in the cool of the afternoon, makes me think of how it must have been with Adam and Eve.

We started out dancing with the little children then started a Pied Piper thing with Tony up front and about half all the kids present holding hands, dancing along behind him, to the delight of all present.

About two seconds before Tony was about to speak he says to me, “you wanna do this”. So not knowing what to speak I just opened my mouth and let whatever come out, come out. I spoke on the Lion of Juda versus the toothless lion that only comes to scare, but has no power over those who believe.

After the message we released a few words of knowledge and then Frederick took over the microphone to explain what words of knowledge were and that those who with the various ailments should come up for prayer.

I prayed for several women with pain in their neck, failing kidneys and stomach ailments. They were all healed of pain instantly. I also coached a few on how to keep their healing. An elderly lady came for healing of a failing kidney and a swollen knee. After laying hands on her she started jumping high up and down just to prove for herself that the healing was for real. Everyone I prayed for testified over the sound system that they were healed After the demonstration of power, Fredrick did a call for anyone wanting to be born again, about 14 people in total gave their hearts to Jesus. This was an awesome afternoon of singing dancing praising and worshipping God. It was an altogether awesome experience.

Thank you Lord for allowing me to be part of what you are doing here! I love You Lord!
