HEAVEN INVADES EARTH IN KABASASUA, LIBERIA Again hundreds of Muslims run to Jesus to be saved!!! This village has been marked. Jesus is Lord!

We are so grateful to all that are praying for us. We are seeing your prayers answered.

Glory to God! We went down a dirt road past tiny houses on either side of the road until we got to a large open area surrounded by the market booths. As we got closer there were people jammed up everywhere and they just parted enough for the vehicle to get thru. We were surrounded by people on either side all the way in. They were hooting and hollering and praising God.

We have watched a continual increase of Power and Presence everyday. Praise and worship was again intense and glorious with lots of dancing. Gene encouraged the people to open their hearts and bring their sicknesses to Jesus and be touched by His love. We gave some words of knowledge and here they come. Wow, it was as if they had a winning lottery ticket and were coming to redeem it.

A young lady stood before me. I later found out that when she was a child and standing under a tree while they were cutting down coconuts, a large one fell out of the tree so hard that it broke open her skull and part of the coconut embedded in her brain and they could not get it all out. It happened at the age of 5 and now she is 18. During prayer she started to feel God touching her, she fell forward into my arms and I put her down on to the ground. She then started screaming, rocking back and forth on the ground on her knees and continued screaming out praises to God. She then got up ran over to the microphone, grabbed it out of Rev Kettor's hand and began to scream praises to God for what had happened to her. She said that she felt her head open up, the piece of coconut come out and her head close up again. It really freaked her out. She also said that she felt something like a spirit also leaving her at the same time. Wow, Wow, Wow. Glory to God.

The pastors were yelling and jumping for joy tonight as the miracles of God were popping thru their hands. They were like little kids on Christmas morning that saw the presents under the tree, realized they were for them and started opening them up and playing with them.

From blindness to deafness to cripples everyone was being healed and very, very fast. Glory to God. There were hundreds of miracles tonight and hundreds of salvations. I stand in awe!

**Rev Kettor:**

This village is one of the strongholds of the Islamic system. It is a demonic area. When we got there tonight, the first thing we experienced was a very large spider web coming down. When the spider came down, the instruments went off completely. So, we prayed and prayed and then the instruments came on. Then the leading praiser got hoarse and could not speak or sing. So, we prayed again and her voice opened and she began to sing. After that we sent for the team and opened up the outreach. Then we started praising. Eugene led us in this wonderful night.

The Sunday night meeting started late but we were right in God's timing. The Muslims congregate in the villages later at night so we were right on time. We walked into a dust bowl of praise. Tonight's praise seemed to be more electrifying than the nights before, if that is at all possible. So we just went for it again, dancing with the old, the young and the children, it was like the place exploded. It felt like I breathed in a couple pounds of dirt but when I got home and blew my nose there was No dirt in the tissue. So God must have put a holy filter around us. P tony asked me if I would lead the service and I thank him for that experience. The message was surrounded around our loving Father and how much He wants to bless us and have relationship with us thru Jesus. I could feel every word being effective in their lives. After the truth was filling the atmosphere the team gave words of knowledge and many came up for prayer.

I had a particular lady who was crying and in so much pain that she didn't even want to get up to come up front. Her friends had to pull her up there. She couldn't stand so I got a chair and put it up by the worship team. God gave me a word during the pastors conference that there was going to be a lady coming up for prayer and I was to put her in a chair and that two men were to carry her, chair and all from one side of the area to the other and when she was brought back to the place where we started then she would be healed. This was the lady that God wanted me to do this with. So, I briefly spoke to her before we carried her and asked her what her need for prayer was and she told me that she had given birth to twins a couple of years prior and both of them died during the delivery and thru that trauma she had horrid back pain and was very heart broken. So I looked her in the face as she was crying and told her Jesus was her husband and knew everything she was feeling and to get ready to receive her blessing tonight. I reassured her that she was going to see her children again one day in heaven and that Jesus was holding them for her and they were very safe and that God was going to bless her womb so that she could have more children and that God was going to bless her heart. She looked at me and smiled and I explained that we were going to carry her in the chair, if it was ok and she said yes! So, four of us picked her up and carried her across the ground, about 40 feet one way and 40 feet back shouting and praising God and we set her down and I said "Get up and walk In Jesus Name!!" and as soon as her feet hit the ground she started jumping up and down and was INSTANTLY healed. She was soooooo happy. I will never forget her face as long as I live. She got her whole life back and she got up and testified and blessed the whole village because all knew had seen her in pain and torment. I saw what my Father in Heaven was doing, just like Jesus and I did it!!

There were many testimonies, but one other. A little boy came up to me and pointed to his mouth like he couldn't speak. So I asked him "you can't speak?" and he shook his head no. So I knelt down and I told him to say Jesus. And as soon as I said it, he said it. Then I said it again and again. He couldn't believe he was speaking and then I told him to say "Thank You Jesus" and he said it as perfect as I said it and then he ran off. After all this prayer ministry, testimony and miracles we gave a call for salvation and many came forward. This area was supposed to be one of the hardest in the nation. The pastors have never been able to hold any successful events. So we had the first supernatural bowl in this village. We give all the praise and glory to Jesus!!! AMEN.

Tonight we found ourselves in another Muslim strong held market doing battle. I would be lying if I said we didn't have fun cause boy howdy did we have some fun tonight. As always the worship was great and they got the crowd stoked for what was to come. The lady worship leader went from high praise to this intense worship song because she could feel what the Holy Spirit wanted to do. The song was all about

the Holy spirit coming and laying His hands on us. Wow what a great song, she could have sung that song all night. It really ushered in the Holy Spirit and set the stage for Gene's message. Yep that's right Gene's back in full swing and then some. I consider myself so blessed to be on this trip with these men. I guess you could say we have bonded as a team and most of all good friends something I will always treasure. Gene gave a great message and kept it short and right to the point and then called us up to give out some words of knowledge. When we first arrived there were maybe 500 or so at the outreach, but by the end of the evening it looked like close to 5000. They were coming out of the wood work for prayer. Tonight we had the pastors help with the praying. Time for the rubber to hit the road. They kept going until the end with some of them getting tired and dropping out, but everyone got the prayer they needed. I prayed for several women that would get pregnant, but they would always lose the baby before it was time to deliver. Some of them were still pregnant, but they were afraid they might lose their baby again. I took them through some deliverance and spoke life into them and prayed God's protection over them and their child. All of them said they felt different and a few of them said it felt they were being cleaned or washed on the inside. So I just smiled and told them to go have a baby. I also prayed for girl that was deaf in one ear and God restored her. Lots of aches and pains mostly back and stomach and all of them were healed too. Toward the end of the evening I teamed up with one of the woman pastors and was kinda helping her out. I got to help her take a teenage girl through deliverance. That was good because that is what Tony taught on this morning. So she got to put her training to the test. We took it step by step and in no time this young girl was all freed up. The woman pastor was so excited and said wow that was easy. The evening ended with a pastor who came up to Tony and I and wanted to thank us for the greatest gift he has ever received. He kept saying I've got power in my hands. I touch a leg and say in the name of Jesus and the person walked. He was so excited and said I will treasure this gift and use it everywhere I go and give it away. I think they got it and we are not going as much prayer time because they are going to want to do all the praying. That's what we came for, but it is always fun to see and watch happen right in front of you. Thank you to everyone that is praying for us. Blessings.

Woah!!! What a night! What a blessing from God!! The kingdom of darkness was shaken and brought to its knees. Many, many souls were added to the kingdom of God!! So many miracles and healings. God was everywhere... It started out with intensity and never stopped. Father God I thank you for sending me to do this work. Muslims all around us are being converted to Christianity. Not by words, but by the power of the gospel. By the power of the Holy Spirit. After intense prayer and worship, Eugene preached to the crowd on God's love. It was a beautiful message. Then he asked the team for words of knowledge. God told me there was someone who could not speak, someone who was mute. I gave this word to the crowd and a woman with her son of about 14 or 15 came forward. Other words of knowledge were given by the team and before long we had several hundred people lined up for prayer. We grabbed the local pastors and started praying for the people. I asked pastor Tony to agree with me in prayer for the mute boy. We prayed a short prayer and told the boy to say JESUS. And he did!!!! Crystal clear! Glory to God! His first word ever spoken and what a word!! So many miracles of healing and deliverance. I was praying for a man that was blind in his left eye and Casey was praying for a girl that was deaf in her left ear. We decided to switch up. Casey prayed for the blind man who started to receive his sight and I prayed for the deaf girl. I said a short prayer and the girls ear was opened and she could hear. It was a glorious moment for God. When we arrived this evening the size of the crowd was about 500. When we left I would say that there was a few thousand. People came from everywhere. So many people were healed, delivered and many, many souls were added to the kingdom. It was a great night for God!!
