

Pastor's Conference Day 1 Mission to the Philippines

Tony:

Thank you intercessors!!

There were about 80 pastors coming down out of the mountains to the conference. We were told (on Monday night) that because of the rains they could not cross over the river and would not be able to be with us at the start of the conference. We just didn't accept that and prayed for the waters to recede. This morning we asked what had happened to the pastors and they told us that the waters miraculously receded and they crossed and were at the conference location.

The people of the Philippines are a beautiful people. They are sensitive and caring and very responsive to the touch of Holy Spirit.

It has been a long haul getting to this first day of the Conference. It was as if Heaven was waiting for today to release a bomb. We had a first for this ministry today, we had 3 teaching and ministry sessions in one day. How about over 8 hours of ministry? We went from the people being very shy and not too sure about us to everyone running to the front for ministry.

They were very responsive to the teaching and their hunger was drawing more and more out of me. His Presence was tangible and the atmosphere was electric with His power.

Check This Out: It was really cool to hear the people talking about the "EARTHQUAKE" that hit the building today during ministry. They were in shock as the building was shaking and moving. The Presence of The Lord was so, so powerful!

Here is a small part of what I personally saw:

- There were lots of manifestations of tears, weeping and shaking as the Presence of God came upon people to heal the people.

- Now I was completely wasted with this one: 15 bible school students asked me to pray for them to be filled with the Spirit. We formed a huddle, holding on to each other and as I began to pray they started really powerfully crying out to God, falling to the floor, and violently shaking. Their prayers of petition for Holy Spirit to completely take over their lives really got me. To see these young people so powerfully touched and yielding to Him with sincerity of heart was an awesome experience. Lord give them the desire of their hearts to Know You!
- A lady that had a nervous breakdown and it was as if her body was here but no one was home. She couldn't talk or move out of her seat for fear of what might happen. We went to her seat and prayed for her and watched the "insane" spirit come off of her and her come back to her senses. Wow, what a sight to see.
- A woman had a large cyst on her left breast. She said that it was painful and big and hard. We prayed 3 times and she said that each time it kept getting smaller. The fourth time she reached inside her dress to check it out because she could no longer feel it from the outside. That growth was completely removed. She jumped for joy and wept with the understanding of what God had just done for her.
- Then there was another lady that had a large tumor on her abdomen. It was so cool to watch her feel all over to try to find it after prayer. It had just dissolved and was gone. She just melted in His Presence as she wept for joy.
- A lady had a car accident and her left foot was deformed and twisted and she couldn't straighten it out. It happened so fast it was had to catch. We just started to pray and her foot flipped to the right position and the bones that were deformed went back into the right place. Wow, that was quite a sight to see. She was so excited.
- A lady with mouth gums swollen and painful. She said that the doctors had told her that she would need surgery and that it would be very dangerous to perform. The power of God came on her, her jaw started vibrating and she said that the pain and swelling had left!

- A lady deaf in her left ear received instant miracle and her ear just popped open. She busted out in praise as soon as she realized what happened.
- A man with kidney and bladder infection instantly healed.
- A lady said that she had an intestinal disorder and the doctors said “it was complicated and could not be easily fixed.” In a moment she felt something leave her and was miraculously healed.
- A man blind in one eye and poor vision in the other and the both eyes were constantly vibrating; he was fully restored and he could see “perfectly”.
- Now this is weird: A number of people said that they had different problems that were “connected”. They said things like when their stomach would begin to ache and pain then in a few moments they would lose their sight or their backs would begin to pain. Weird, huh? We cut off those demonic attacks and each one was released and healed.
- A lady with hypertension. Holy Spirit came upon her and she hit the deck, cried and shook a little bit, then laid there in perfect peace. She said “it has left me and I am filled with His Peace!”
- A man that has been suffering with a “knot” in his throat that felt like a big phlegm ball for the last 3 years. He hasn’t been able to swallow or eat well. It just so happened that he has been a pastor for the last 3 years also. Hello! We broke that curse and he was instantly healed and began to praise the Lord.
- Many pastors that were being persecuted and under intense pressure got prayer and great relief came to them. They were refreshed and felt renewal had come to them. I was really moved by the passion for God in the hearts of these wonderful men and women of God.

Casey:

Well we finally started our first day of ministry and let me tell you “It was worth it”. The church where we were at is a big church all tile and 30ft ceilings. They are still in construction, but it was very nice and an awesome breeze to boot. They had set us up for three sessions today so we were very busy. During the first session Tony had a word for stomach pain and only one person responded. He

asked for one of the local persons to come up and pray and two women came. One wanted to pray for the man that had the stomach problem and the other was in need of prayer. She was deaf in her right ear and wanted to be healed. So I got to pray for her. The first one of the trip and it was a deaf ear, yeah God. Everyone was watching very close as I started to pray for her. God was moving fast and after a short prayer I knew God had healed her. I removed my hand and snapped real loud by her ear. She smiled and shook her head yes. I kept moving away from her while snapping, she began to cry and praise and thank Jesus for her healing.

The one thing I quickly came to realize here was the passion these people have. They are very emotional when Jesus touches them. It's one of those things that just pierce your heart as you pray for them.

After the second session we again prayed for anybody that wanted prayer. Like always more and more start to come to receive their healing. I prayed for several people that had headaches and stomach ulcers. From what they are telling us the stomach ulcers are very common here. Everyone that I had prayed for said they were totally healed praise God.

When we were finished Pastor Elmerson took us to the mall for lunch. It was so cool, we went to the food court and he told us we could have anything we wanted. Well let me tell you their food court is nothing like the one we have in America. The food here is real good, strange, but good. For lunch we ate squid on a stick, I hope we get that again it was great.

Session three started out with worship like the other sessions, but there was a new worship team for the third session. Both worship teams were real good. The first one looked like a youth team and the second was a mixed team of youth and adults. I would have loved just to worship for several hours, but we still have a bunch of work to do. When Tony finished the last session we closed by praying for anyone else that wanted prayer. This is when we knew we had the breakthrough. The whole church came forward for prayer. The healings were coming so fast,

“instantly” was in the house. As soon as you touched them they were healed, just that fast. One young lady came for prayer and she said she had brain cancer. I told her ok, but not for long. As I started to pray for her several of the intercessors came to stand in agreement with me. That was real cool. As I was praying I felt this Holy authority come onto me as I proclaimed her healing. The young lady began to shake and cry and all of the intercessors all fell back and started to look at each other with this strange look. They all started to ask each other if they “felt that” and they all said yes. Meanwhile I was still praying wondering what they were all talking about, then the young lady went down in the Spirit. I asked them what they felt and they said you didn’t feel that? I said what? And they answered the church was shaking like an earthquake. They said the ground was moving back and forth and they didn’t know if the walls were going to fall in. Where was I? I thought to myself I didn’t feel anything, but by the look on their faces I don’t doubt what they felt wasn’t real one bit. All I know is I was going for it. The young lady got back up and was crying and vibrating so I prayed for her some more and then asked her what she was feeling. She said something was different she does not feel the same anymore. She said God healed her and she is going to go back to the doctor for a new check up.

The next lady I prayed for was the lady that had her right deaf ear healed during the first session. All she wanted was MORE and an impartation of the Holy Spirit. Boy, did she get lit up, I don’t think she knew what she was in for. Ha ha. God is so good. There were several others that I prayed for, but it’s hard to remember them all. Thank you intercessors for all your prayers and please keep up the good work. Blessings.

Edgar:

God is so good, He is so Awesome, the first day of ministry and He is already showing His awesome power. This is my first mission trip with these two mighty men of God, and I am so blessed. God really showed up, there’s a lot of instant healing, that I saw right in front of my eyes, including every manner of sickness, tumors disappearing, deaf ears open! At first I thought that I will just be covering

the scene as a cameraman but GOD did not agree. Pastor Tony called me to pray for somebody who has ulcer and head problems and I was kind of really nervous but God touched her life and Instantly God healed her!!!! It is really indescribable how He really works in our midst. I cannot possibly explain to you the Glory of God I am seeing. I am humbled and amazed!

One Muslim woman could not talk and could not move because of the doctors diagnosis about a certain infection that made it difficult for her to walk. We prayed for her and after few minutes she started smiling and she took off walking freely .God is so awesome!!

I prayed for a woman who has migraine every day for 9 years and I was really amazed how she was knocked down by God . I have never seen God do that thru me before. Right in front of my eyes, Oh My God!!

Here's a big one: We prayed for a teenager who has asthma and got zapped right away and GOD is really Awesome. When we just got near her, a demon manifested and she started screaming. God quickly set her free and she was just vibrating and shaking under His power. Then she started praising and thanking God with tears flowing from her eyes, while she was on the ground being set free. What an awesome sight to see. We prayed for a cripple/mute Girl and watched how GOD restored her arms and hands. She couldn't move her arms and hands. Both hands were massively twisted and clenched in a tight fist, completely unmovable. I tried to move them and couldn't. We watched her hands unfold like a flower opening up. I was already Amazed at how He did it on a first day of the ministry. Thank you very much intercessor and for those who pray for us, God Bless you all!!!!
