

Mission to the Philippines Outreach at Polomolok Public Market , S. Cotabato

September 18, 2010

Tony:

Jesus did say nothing by any means will hurt us, right? How about eating fried grasshoppers? Amazingly, they are pretty good!

What will our lives look like if we had The Spirit without measure, as Jesus did? This is Our Father's intention for the Church. Take some young Bible School students that have been crying out for the reality of Jesus and His world, show them what it can look like to live from heaven and watch out!

We came into the central square of Polomolok this afternoon and set up speakers blasting out music. The church had gotten word out that families could bring their sick relatives and friends, those that could not be healed by the medical profession. You know, the really bad cases. So, a small contingent stayed at this location and the rest of the team of pastors and Bible school students headed off into the market to bring the Kingdom of God.

As our group was walking to the market, we walked thru a little park area. Remember how Jesus drew crowds? The Glory and Anointing that was on Him touches a life and others come running. It is easy to draw a crowd here. When the first person that is hurting or sick allows us to pray, the miracle comes, while others just stop what they are doing to watch. There is desire within everyone to see the supernatural. The people watching are not even thinking about what is wrong with them until they see a miracle of healing or deliverance, then all of a sudden, they are asking for prayer to be rid of something in their lives.

There was a contingent of army men in uniform walking thru the park. They stopped to watch as we prayed for two women with tumors, one on her stomach, the other on her neck. Both tumors, and associated pain were completely removed. The army men that were watching this came over and said "pray for us!" They were all Christians, but had never experienced the healing power of

Jesus. Two of the men were fearful that they were dying as they told of how they were vomiting blood and it was coming out their urine and stool also. They were weak and felt all torn up inside. As we prayed for them, the expression on their faces changed from one of despair to a smile of relief. They felt something moving inside them as the pain left and they felt healing come. Glory to God! All the army men we prayed for were miraculously healed!!

We then moved off into the market. I asked the Bible Student kids to attempt to discern the direction Holy Spirit would have us to go and they did. When we found someone that wanted prayer, we would end up spending about ½ hour to an hour in that one spot. When someone would shout for joy declaring the miracle they had just received others started pushing in and grabbing our clothes or arms to get out attention to pray for them.

We started with a woman that was nearly blind, seeing only as looking thru a cloud. In a few seconds the miracle came and she saw perfectly. You could feel the atmosphere shift. Then another person nearly blind, then another blind in one eye, then a deaf person, one after another healed. We watched people that could barely walk jump for joy. The atmosphere turned electric, people laughing, singing, so happy as the loving Power of Jesus flowed to the people. This kind of move is as much felt as seen. A lady showed us a bag full of prescription pills that she had just picked up to help with some kind of disease in her legs with terrible pain. We (the youth) prayed and she was instantly healed. She jumped with excitement and then left to return the prescription to try to get her money back. I love the amazed looks on their faces. So many people healed of asthma, many people saying that “something left them!” while we were praying and that they were no longer sick or in pain. Most of these people seemed to be Christians, then we moved to another corner of the market and found we were in a totally Muslim area, Hallelujah!! Here we go, this is the scenario: “I cannot breathe well, it hurts me to breathe (or put in there any of a multitude of sicknesses we were presented with)”. We say “Is Jesus you Lord and Savior?” They say “I am a Muslim!” We say, “ok, Jesus is the Healer!”. They say “I believe in Allah!” We pray and one of their problems is miraculously healed and they feel the touch of the

Lord. We say “We will pray again for JESUS to heal the rest of your problems!” They say “I believe in Allah and Jesus!” We pray again and total healing comes to them and they say “I now believe in Jesus!” YEAH GOD!

I prayed (because all the others were already engaged in prayer and more people were pressing in) for a Christian man that a huge baseball size tumor on his left neck behind his ear. It was huge and as hard as a rock. I prayed two times and he said that he felt something moving in there and something cool. It might have shrunk a tiny bit when I prayed, but not much. I blessed him and showed him how to pray. He left with his hand on the tumor. 30 minutes later he came back and said “look, look, it has shrunk way down. It was so cool, he just kept praying and it was now about 20% of the original size. Well many Muslims lined up all around the piles of vegetables for prayer. They left one after another after another totally healed and a brother or sister in the Lord. What a sight to see, Glory to God!

Then we went back to base camp and found out that many very badly crippled and sick had been coming and getting prayer and ALL getting miraculously healed. It was now dark and we thought we were done and taxis start coming in and people bringing their sick family members. How about this: A man was carried by his wife and son. He had been working in Saudia Arabia as a truck driver for the last 18 years, when all of a sudden he had a stroke 6 months ago and lost ALL control of the left side of his body. From his shoulder down to his foot, it was totally lifeless! We sat him down, the kids started praying and in a few moments he was kicking his leg and swinging it all around. Then his arm shot out like he was boxing and his previously dead hand was opening and closing in rapid succession. Then he got up and started walking all on his own. Oh, the look on the face of his wife and son. Tears flowing from their eyes.

One final testimony: **OUT OF THE WHEELCHAIR!!!** The last of the night before we packed up. A lady was brought in a taxi with her wheel chair. The taxi driver put her in the wheel chair. She sat there and said that she had cancer in her stomach that was in the final stages and she had absolutely no strength to eat or to move and was ready to die. She said the cancer was terrible pain in her. The Bible

Students prayed. The lady felt everything bad inside of her removed and she felt “total peace” on the inside of her with all pain gone. Then as she stood up she felt strength come over her and she started walking. She left without the use of the wheelchair! Hallelujah!!

Casey:

Friday night at the fights and the main event was scheduled for 12 full rounds. In the gold corner the missionaries, local pastors and bible students. The other corner fighting in red the devil Boo hissss. Then the bell sounds and the fight is on. Ok I know you know where this is going and you guessed it right a first round knockout. The gold team wins with a huge blow to the kisser on the devil. Ha ha I love this stuff.

When we arrived at the market place they had set up the sound equipment and began to tell the people to bring their sick for prayer. We were across the street from the market set up in a park. It seemed that no one wanted to leave their booth to come to us so we went to them. We split into two teams and hit the market. The first person we prayed for was an old lady that had a bunch of pain in her legs. No one wanted prayer and this old lady was the first to stand up so everyone gathered around to see what was going to happen. We prayed a short prayer and she began to stomp her feet on the ground and then jump up and down. She got very excited and now those who refused prayer were now pressing into us for prayer. I had pastor Alvin and one of the church leaders and half of the bible students with me. There was no way I could pray for all of these people so I told them to use the anointing they received and to start praying. Once they saw how easy this was I had a hard time getting to pray for anyone. They would get to them first. We saw blind eyes open in the market by the youth, stroke victims getting totally restored, and all kinds of sicknesses and body pains get totally healed. The crowd grew so big in such a short time people pressing in from all directions it was crazy. It wasn't much longer and we had a riot on our hands. A real riot there were people shouting and yelling at us telling us to leave go somewhere else to pray. I don't think they were mad that we were there just mad because they were trying to sell stuff and no one could get to them to buy goods. It was a real bummer that we had to move because I knew we had an open heaven in that spot, oh well that's the way it goes some time. As we moved on

the huge crowd followed us until we arrived at an open area where we weren't in anyone's way. This was a great spot as well even all of the store workers were coming for prayer. I really don't know who prayed for what because all I could do was stand back and watch as the youth took over. I guess you could say it was an Asian invasion. They got it and it is so fun to watch this happen.

After we prayed for a while it was time for a quick snack. Yep grasshoppers we ate grasshoppers for a snack. I never thought I would find myself saying "hey can I have some more grasshopper". I ate a bag and a half of them they tasted just like hot fries. I know yuck, but don't knock it until you try it. You just might like it too.

After snack time we hit the market again. Just like before you only had to pray for one person and the crowd would grow. It is so easy to minister here I love it. The night ended with the youth praying for a woman that they brought in a wheel chair. She was so sick with cancer and so weak she could not even stand. The kids swarmed all over her going after her healing and in moments they had her up and standing on her own. A little more prayer and she was off and walking no pain at all and renewed strength. When the lady left she walked away on her own strength saying I am healed I don't need that chair anymore. Praise God. Thank you for your prayers...Blind camp Tuesday keep praying. Blessings. J

Edgar:

Another day in paradise, wake up with another local delicacies which is prawn sour soup, fried whole baby crabs rice and some local fruits. We have nothing going on in the morning. until 3:00pm. We head toward South Cotabato a town called POLOMOLOK public market. In the Plaza were we setup the music and head down to the market with some local Pastor and the bible college student. I was just kina lookout around Casey. First round was an old lady struggling for knee and ankle pain. After praying the lady started jumping and walking. Then the commotion in the market started. It's like everybody wants it now. Some vendors are yelling because there stores are covered with people that wants prayer. We continue and believe it or not Pastors wife Daisy started praying for the rain to go away and all of a sudden she saw the moon after she prayed. There was a lot of healing around, from asthma to goiter. A lady had a open cut in her legs and the students pray for her and her wound got healed right there.

We went back to the plaza and we pray for a husband and wife has weak body from surgery and the husband was deaf on the left ear and ear open, they left the plaza rejoicing. Thank you LORD JESUS. Later three tricycle came with a man paralyzed half of his body. This man came with a cane and after we pray he put away his cane and start walking. Another lady with cancer (cervical cancer)come on a wheelchair very weak .after praying she fell really good and walk back to her tricycle walking without wheelchair. HALLELUIAH TO THE KING OF KING AND LORD OF LORDS. Thank you all for your prayers and keep praying for another crusade Monday and Blind Place on Tuesday Thank you LORD

Emerson:

This is my second day of encounter with the manifestation of Power and Authority to bless and heal the sick in the public market and in open park/plaza. The Cords led the group of Pastors and church leaders, some of these leaders are youth, and went to Polomolok South Cotabato public market and plaza. Then we started to roam around, the group split the other group led by Casey and Edgar as we approached the people in the shaded part of the plaza, the first lady I approached her and asked her if she needs healing ...and she said, she feels bad in the lower part of the stomach and painful, then I told her can I pray for you? Do you believe Jesus? Then I began to pray, after the prayer, I asked her how she feels, she was pressing the lower part of the stomach and smiled at me saying...no more pain. I become more excited inside of me for these remarkable experience seeing people getting healed, extending my hand and in Jesus Name the pain is gone. Then, by curiosity there were Philippines military auxiliaries roaming around in the park observing and looking at us what we are doing then two them told me that he spilling blood, he did not know what it is. So I asked him, is there pain in the chest part, he said little pain now and also at the back. And, I prayed and asked him his feeling. He ...took a breath and shaking a little bit then he said to me ...pain is gone! I told him that he has no trouble with his lungs, "Jesus healed you today!" Pastor Tony with us, we went forward inside the market: these are bodies where sickness, spirits casted out and getting healed in Jesus Name;

1. A show repairman got a kidney problem and in pain, after prayer the pain is gone and he was assured that Jesus heals him from kidney problem.

2. A lady with back problems paining instantly get healed.
3. A woman with blurred vision and head ache got healed.
4. Woman wanted to be healed of her allergies and the left foot problem and itching, get healed and itching is gone and showed to us the medicines, told us taking those did not stop itching. But after the prayer she get healed.
5. Woman feels numbness in the left arm and shoulder down to the hip and legs, we prayed 3 times, got healed.
6. Little girl age 13 brought by her mother for suffering more one year of back pain, she get healed after prayer.
7. One Lady was touching arm while praying the girl, she is zealous enough to be the next to be cast out. So I asked her problem, she said, she can't breathe well due to asthma, and she is suffering more than one year now. She believes Jesus can heal her, after prayer, she took deep breath and said ...I'm feeling well now and my breath is better, I said Jesus heals you and your asthma is gone.
8. Muslim ladies get healed from back pain and blurred vision.
9. A lady came to us for suffering of small tumor in ovary, after praying her, she is pressing the tumor and she said the pain is gone and tumor gone.
10. A lady Muslim get healed from fever and migraine instantly.

Indeed, I am so grateful for what is happening in our eyes and what God is doing through us this anointing and impartation, I appreciated the team from LFJ for this wonderful happenings signs and wonders in our hand. Wow. God is great and worthy to be praised.

Daisy (Elmerson's wife):

This is my first witnessing people came and getting held. I joined with the group going to the Public market of Polomolok South Cotabato. When Pastor Tony and my husband Elmerson left us in the jeep and watching over the equipments, a woman came to me informed that she was just discharged from hospital, she feels weak and feeling pain in both knee, she came because it is very painful she wants me to pray for her, after praying, she told me that her strength recovered and she didn't feel weak after the prayer, yet complaining that she has still little in the knees so I prayed her again, after 2nd prayer she the pain is gone, I told her to jump and praise the Lord, and I saw her so glad and she was raising hands toward

heaven and shout the word...thank you Jesus for healing me. Wow. This major experience in first time praying for the sick and get healed. Amen Lord Jesus.

Another woman suffering arthritis came to me looking for the Americans to pray for healing, I told her that I can pray for you, then I prayed over her, after prayer the pain is gone and I told her to bend up and down then she said pain is gone, then she walked thanking God saying thank you to us.

I was bothered with the clouds the start falling and drizzling and I was worried about the equipment it might wet, so I commanded the dark clouds to go, practically after praying I saw cloud moving downward away, OH my God even the rains stopped. Halleluiah. And later the moon appeared and the healing mission continue serving the sick. I am so glad for allowing me to witness such kind of real healings. Thank for this opportunity in doing mission with Jesus.

Janjan:

I was with the group who went in this open place, I was with my ant Daisy to watch over the equipment. An old man came to me and said that left knee is hard for him to the step, so I prayed 3 times to him, after praying 3 times, I told him to bend up and down and tried walking and kicking, and he said to me the wow the pain is gone and he hug me hard, I told him praise Jesus, Jesus healed you today, wow I am so glad, I can now heal sickness in Jesus name. This is my first time doing this alone praying an old man. The man went away happy and thanking the Lord. Another man came to me with his wife the wife told me that her husband can't hear and has impaired hearing so she wants her husband left ear can hear again, because they were always quarrelling each other, about the hearing of the husband sometime she has to shout and yell at him the wife bothered because even she is yelling still the husband can't hear. Also told that he has been having vertigo and told me he needs prayer, then I told him that I will pray. After prayer only prayer the hearing comes in when I checked clicking my finger, he said I hear now your voice. Praise God. He now can hear and his vertigo is gone. Halleluiah!
