

Mission to the Philippines Thursday, February 18, 2016

God Is Faithful Church, Nueva, Ecija

Tony,

Final day of ministry at this church. They have set us up to be ministering in 3 different churches, two days in each church Plus Baptisms Plus Street ministry, Yeah God! There were a number of other pastors in this conference BUT the cool thing was the people of this church were here also with the Pastors of this church. This church pastor has had it made easier for him to move ahead full steam as he does not need to lay this Truth foundation again with his people but can now begin to reinforce it and encourage the people to walk in it. Praise God!

Since training and equipping is our goal, I praise God for the evidence that many are apprehending who they are in Christ and what that means. As we gave some words of knowledge the people just started flooding up. What I quickly saw was that many of them just wanted to be involved in the praying for others. This is totally exciting. I would ask a person what they need prayer for, they would say it, if they knew English or point to the issue if not. Then at least one other person, would say, "can I pray?" Of course! Their prayers were simple but powerful prayers of command and the miracles were instant. This prayer session turned out to be like a Jubilee. There were 3 or 4 women around me that just took off praying for others and seeing them all the way thru to getting a miracle. There were smiles, laughing, jumping for excitement, as these believers were experiencing their Identity in Christ! There was such an awesome sense of fulfillment in me of "mission accomplished!"

I didn't get to catch all of what happened as it was really happening fast. Some of what I caught was only a smiling shout of "I'm healed" or "She's healed", but here are a few:

A lady whose throat was swollen and she could not swallow, instantly healed!

Another lady with swollen glands felt all the swelling go away and relief come instantly!

A woman came holding her left hand with her right hand and said she couldn't move her wrist without serious pain. Instantly healed, her hand became a banner of praise unto the Lord!

Another lady said she couldn't do her work because she could not lift her right arm. Well that quickly changed as I watched the confident faith filled prayers of others for her. Bam, Healed, in Jesus Name!

Another lady tells of how she cannot turn her neck without pain and before she was finished saying what her issue was someone else says "I CAN TAKE CARE OF THAT!" Oh man, I'm having fun now! I cannot express the joy that I am feeling watching these folks step into their inheritance!

Ok, one more: An older woman HAD a stroke on the left side of her body. All of a sudden her left arm took off like an airplane propeller. This was just such a beautiful picture, I thought she might have been lifted off of the floor from her new propeller!

Casey:

This morning started out with Bobby waking me up somewhere close to six in the morning. He woke up around two so he was ready to go swimming, but my bed was blocking the door. So still half a sleep we headed out and found ourselves looking for someone to turn on the water for the slide. Just a normal dip in the pool wasn't going to be good enough. So yes we were hitting the water slide instead of sleeping in. I must say we were having a ball. Who ever said you can't have fun going all out for God. We are being so blessed on this trip thank you Jesus.

The morning session started out again with praise and worship and again it was great. It is so cool to see the youth leading the worship and just going all out after God. Melody even sang two songs this morning and I was her mic stand. They really loved it when she sang the bump bump song, they all sang with her and throughout the day you would hear in the crowd someone still singing bump bump lol.

After Tony's teaching we gave out more words of knowledge and started praying for those who needed healing. The first woman I prayed for she needed healing for her neck. Again today the healing was instant. As soon as I placed my hand on the back of her neck she said the pain just vanished. God is so good. The rest of the morning I teamed up with Sally and we got to see several more healing. One was a woman that was in pain in her lower back. She also said she had kidney stones. So I took the back and Sally went after the kidney stones and in a moments time she said there was no more pain. Another woman had bad eyesight, head ache and she too received instant healing. This woman also had high blood pressure and we fully believe she was healed that very moment, praise God. I know we prayed for several more ladies but I can't remember what all we prayed for. All I remember is that everyone was healed this morning.

The second part of the day we had a Spiritual awaking prayer time when we just blessed each person speaking in to them who they now are in the name of Jesus. That was a lot of fun just blessing the people.

Bobby,

Well I want to start out saying God is good! After hearing the teaching from Pastor Tony it left me with some things to think about. Sleeping took second place to so much going on in my head. So from about Two a.m. Father and I had a conversation and He straightened me out in the most gentle way. By five a.m. I was excited and ready to go! What better way to begin this new revelation than with a baptism! It wasn't hard to convince Casey to take a ride down the slide that was right outside our door, so that's how the day started acting like teenagers and me getting baptized! YAHOO!

The first service began with worship. It is led by young people and very good. After Pastor Tony spoke we did more words of knowledge. I prayed for a man that had pain in his neck, shoulder and abdomen. After praying for his shoulder he said it was good. I said thank you Jesus and went to pray for his belly and he said no it's good too. WOW! It was just like that with everyone! I prayed for another man and he was thanking me before I was finished praying. My prayers are normally under a minute long. God is so good!

The second service we had worship and more teaching than what is being called their spiritual awakening time. It takes the place of the impartation service because we can't impart something they already have! I didn't say very much during this time and just watched God do what He wanted through my hands. Completely awesome! One after another just being touched by God! Beautiful!

Sally,

After Pastor Tony's message, a time of healing ministry occurred with many people coming for prayer. The first one had back pain, kidney stones, high blood pressure and dizziness. After prayer, there was no dizziness and no discomfort from the stones that were blasted by Holy Spirit. Another had trouble seeing, low abdominal pain, and head pain. After coming against the spirit of blindness and commanding healing in Jesus' name, she could see much better, her head had no pain, and the pain in her abdomen disappeared. Still another one had high blood pressure and heart problems. As I laid my hand over her heart, I felt electric-like pulses going through my fingers. I knew God had healed the heart problems and circulation. The last one was a diabetic who had heart trouble. We prayed for a new pancreas and heart. She said she really believed that God had touched her because she was all "sweaty."

After lunch, we held a service of spiritual awakening in which the whole team prayed with each one in the congregation that numbered about 120 each of us prayed for. We prayed that each would apply what they had learned these last two days. Words of encouragement were given to each. God's overwhelming love for each person was very evident. A special bond of trust formed between the team and the people. Hope formed in many minds and many expressed gratitude for Jesus' work in their lives. Tears were shed; hugs were given; one was slain in the Spirit.

The afternoon ended with photographing, praise and songs of thanksgiving.

Melody

This morning every person I prayed for was healed, thirty second to two minute prayers stating the authority we have in Jesus and commanding the sicknesses to go. Commanding knees to work the way they are supposed to, neck pain to go, abdominal pain gone in Jesus Name. The worship team at this little church loved the Lord so, such a passion for Him. You just get drawn into the heavenlies. This afternoon we got to participate in praying over others for a spiritual awakening of blessings God has for them. We prayed blessings and received words to encourage as we prayed for all the people who came to the conference. I had a lady from this morning that had a knee problem that was healed. As I was about to pray a blessing over her she proceeded to share that her knee was totally healed and she was healing it all around. She then said, before you pray over me could you pray for my heart condition. I prayed and took authority for complete healing. I prayed and she said she felt good. Her knee got healed and that built her faith to trust for healing for her heart. The worship team surprised me by learning my song "Joy, Joy". They wanted other songs to learn and use in their worship. How special it was to hear others leading out in worship with the songs God gave me. What a great day this has been.

Gem Crilly

This morning I had words of knowledge for pain in the neck and people came forward. I laid hands on at least three people with neck pain. There was two women with lower abdominal pain and another with eye and neck pain. Two more people came to me with chest pain. The interpreter helped me to understand what a lot of the people's concerns were and when the next woman in line said she had abdominal pain I asked the interpreter if she would like to lay hands on her. She was excited to try and did so on this woman and the next who also had stomach pain, and both got instant healing. Next were a line of woman with babies and children all asking for a blessing for their children which I was happy to do. They are beautiful children and people. All who came for healing the Lord healed and the people responded with praises, tears and hugs. This afternoon we had a spiritual awakening ministry in which each team member prayed and gave words of encouragement to all who came forward. It was quite emotional for many of them. Thank you Jesus and Holy Spirit for helping us to glorify our Father in heaven.
