Ministry to Sierra Leone, Africa; 12<sup>th</sup>. Infantry Battalion Armed Forces  
Compound  
Special Service for the Military

Tony:

Again we cannot thank you enough for your prayers. We are absolutely convinced that your prayers are affecting the atmosphere here. This trip has been amazing so far, in that we have experienced a very high anointing ALL THE TIME. We have not had to struggle or persist in long prayer times for break thru. The area we are in is steeped in witchcraft and they call it the gate for Islam for all of West Africa. It appears the enemy has used this location as the entry point. That entry point has begun to get closed. The conversion of Muslims has been nearly impossible for the church, but now they are saying “the reversal has begun, God’s Kingdom has come, and we have what we need to see it done!”

Some of the military were at the conference and went back to their commanding officers (mostly Muslim) and told them of what God was doing. The general (a Muslim) said, can you get these people of God here? So, a special service was set up for us this morning at their military compound. All the men in uniform were before us. The commander stands to greet us and gives us authority to do as we please. Hallelujah! His Presence and Anointing was tangible and my body started to vibrate in His Presence. As I was giving a short message I could see the people being hit. Holy Spirit is moving us to demonstrations of power very quickly so that the doubters and mockers would get shut down right away and to get their attention. Casey gave one word of knowledge and about 25 people came forward. We picked out one person with a most serious problem, that was currently suffering badly, so that all could see The Resurrected Christ. **In an instant this man was miraculously healed. Jaws were hanging everywhere, eyeballs like saucers just fixed on what was going on. That was the moment; Holy Spirit said NOW, CALL THEM TO COME TO JESUS!** We did and watched the soldiers give their life to Christ and come into the family. Wow, He really touched these men and women. Then we asked the pastors that came with us to join us in praying as we prayed for the rest of the army. The Pastors got right into it. A lot of bad backs, necks, legs and knees; instant release of miraculous power! Casey looked at me and said, “Wow, this would be a good time for them to bring in a dead person!” They asked if some of the outside women and children could come in. It is amazing how people just show up when God starts moving. I got to pray for

a young lady with epilepsy. She was about the same size of epileptic girl that gave Bobby a rollercoaster ride in Kenya. This girl smiled as she felt that spirit leave her, she looked at her momma with a huge smile. At the very end an old lady came hobbling in (one of the officer's mother). She had some crippling thing going on with her back and hips, not allowing her to bend or to walk without assistance. As The Healing Power of God came upon her I asked her to bend. She did and had such a look of amazement on her face. I started doing a little jig and asked if she would do that. She did; this old lady doing a jig with me; we both laughed and laughed at the Glory of God that has just come to her house!

Casey:

Well once again I find myself without word to properly explain the power and the anointing we were blessed to stand and operate in this morning. The only word that I can think of is "WOW". That doesn't really even come close either. We were invited to an army base to pray for the men and woman that were stationed there. When we got there I was hoping that they would let us take pictures because this was an awesome opportunity God gave us. Not only did they let us take photos but they wanted the whole service video taped. Louis and I took turns filming and praying the whole service. Tony asked if I had a word of knowledge for them and God gave me a word for back and neck problems. That was the only word we needed to give as more than twenty stood up for prayer. Tony and I prayed for one man that was in a lot of pain first. God was already in this place. You could feel Him so we didn't have to wait for Him to show up. Within seconds this man was totally healed as everyone looked on amazed to what just happened. Tony felt the leading of the Holy Spirit to give a call for salvation. From what I seen 90% accepted Jesus this morning. Again WOW. Now it was time to pray for the rest that responded to the word of knowledge. Each one received total healing and it was happening so fast that it was over in a blink of an eye. The word must have gotten out that Jesus was there and a bunch of women and children started to show up for prayer. I was filming at this point. I wanted Louis to have some fun too. 😊 However I did get to pray for one more little girl that was mute. After the meeting we were off to the only place that had internet to send off the reports. On the way Tony asked what happened to the little girl that I prayed for and I responded calmly "she spoke". I don't know why, but that made us laugh for several minutes and even now as I think about it. It's like you don't even think they are not going to be healed in this atmosphere we are blessed to be

waking in on this trip. The power of God is here please keep praying.  
Blessings to everybody love ya. ☺

Louis:

Well today was sweet! I prayed for only two people though. The pastors that came with us did most of the praying. The first one was for back and neck pain. The power of God came and he was healed immediately. Yes! Go God. The other one was for leg problem. He told me that they said he needed to go to the doctors, but your God is the real doctor. So he got healed of course. He said that he knew that God would heal him. For most of the time I was behind the camera filming, but this way I was able to see what God was doing. It was so sweet. I can't put it in to words. The only thing I can say is WOW. Again God was already waiting for us to show up just like all the other meetings. This morning, **THIS PLACE WAS ON FIRE FOR GOD.** Love you all see you all soon.
