Open Air Crusade Day 1

Tony:

The Kingdom of God invaded tonight. So many workers toiled all day to get everything set up and due to technical difficulties we started late. During praise and worship it started to rain down, and then the generator kept going out. When it went out it was pitch black, just a few torch lights lit the sky and you could hear the sound of voices singing praise unto God. They tried to use the backup generator but discovered it had a fuel leak. The rain was coming slow, but everything was getting wet. After 15 minutes of solid blackout, many people left. In the natural it looked like it wasn't going to happen tonight. We stood and we declared the rain to stop and the work of the Lord to go on uninterrupted. Then the power came on and they turned the crusade over to us. I knew that the enemy was giving it his best shot to stop us but that we would see tremendous victory tonight. We gave a very simple word of Who Jesus is and why He is worth dropping their religion and receiving Him. We were led to immediately get into a demonstration of His Presence thru healing. We called out for a man that had chest pressure, heart palpitations and pain in his chest. One man in the crowd started waiving his hands wildly and said that is me, that is me. We asked him to come up and as everyone watched, we prayed. Oh my, he became real choked up as the Healing Power of Jesus came upon him. With tears of joy in his eyes, he said that for the last 30 years he could hardly breathe due to the pressure and the pain in his heart never left him, not even for moment. He couldn't remember what it was like to be without pain. Now, he told the people, "Jesus has set me free, I am totally healed! Again and again he called out the Name of Jesus over the speaker system.

Well, that was enough, time for reality check. We gave opportunity for the lost to come to Jesus. There were a few thousand people left and the majority of them came forward. Glory, Glory, Glory to God!

Now comes the devils next attempt to stop the meeting. In came some witches shouting incantations and curses. Prayer intercessors that were marching all around the crowd ran over to the witches and surrounded them, praying. The witches fell to the ground under the power of God and couldn't get up. The demons had to submit to the Power of God. I don't know what happened after that as we lined all the pastors up to pray and had the people come for prayer. We were quickly pinned against the stage as the people pressed in against us.

I gave way to the pastor that I was with to lead the prayer time and it was great. He just went after it. He showed the love of Christ for the people and there were many miracles. There were all sorts of manifestations all around us. The only time people would back off of pressing us in was when someone started manifesting or hit the deck shaking.

We saw a lot of deliverance and demons leaving people. A lot of spirits of infirmity moving around peoples bodies until they shot out. At the end of the prayer time (midnight) many Muslims, that had been standing back, came for prayer. Their confession of faith in Jesus was real easy as they watched their sicknesses & diseases that they have had for years, just leave, in a moment. There were a tremendous number of curses that had been placed on people, that go broken tonight. Heaven has invaded this place!

Casey:

Tonight if you were to look at what was going on with your natural eyes; you would say the evening was going to be a bust. First we got there late, rain, no power, and witch doctors made for a good combo. As we stood up on the stage in the rain we just started to pray and take the authority over the ground we were standing on. Things began to change quickly as even the intercessors began to march the ground. They got the power back on and the rain stopped. Even the witch doctors were taken care of as they laid there in the dirt powerless. Ha ha, game on! The service was quickly turned over to us as Tony gave a real quick message and went right into a demonstration of the Holy Spirit and Power. The man we prayed for was set free from a very painful ailment he was having for thirty years. He was trying to share on what God did for him, but all he could do is cry. God is in this place and the rest of the night was a total success. I had one of the local pastors/police officers praying with me and we saw all kinds of manifestations of the Holy Spirit as well as demonic. I think and type of healing you could think of we saw. Deaf, mute, blind, and all kinds of body pains were leaving the people so fast you didn't have time to register what was happening. The crowd was pushing and pulling us in every direction; it was crazy cool to be in the middle of that hunger. There is definitely a strong presence of demonic oppression over these people here as most of the people we prayed for needed deliverance. One of the women that came for prayer said she had worms crawling around in her stomach. She said that she has been to the hospital for all kinds of treatments but, nothing worked. After talking to her for a few minutes we found out that someone offered her a piece of fish to eat five years ago as she was walking down the street. She said that she didn't know this person but she was hungry so she took the fish and ate it.

Ever since then she has had the problems with these worms crawling in her belly. Nice, huh? She is a Christian woman but never knew she had the authority over her own body to cast out these demons. She wanted to be set free so we led her through deliverance. You know you are wacked when someone barfs up demons and spits them all over your feet and all you do is laugh and press on. Yep, and that's what happened, but the look on her face when she was set totally free was priceless. Soap and water will take care of my feet, but she was free now and that makes it all worth it. The pastor that was praying with me when she started to bring up the demons asked if this was normal. I said yes and without hesitation he just smiled and kept on praying. The next young girl that we prayed for needed deliverance as well, but the pastor told me I got this one. He got it, he got it, praise God! That young girl was set free as well. What a night. Thank you and double blessings to everyone praying for us. Keep up the great work we are really feeling the effects of your prayers. Blessings 😊

Louis:

I love it when God is in the house. Tonight was crazy; it looked like there was going to be no message. It seemed like everything was messing up, but God was in control. We knew there was something big going on, and there was. Tony had a short message. Then he called out a word of knowledge for heart pressure. This old man came up with that problem he had it for 30 years. We prayed for him and the power of God fell on him and BAM !!, healed! It was so sweet; he started to cry out JESUS JESUS JESUS, he knew who healed him. Then it was time for the games to begin. I got this one pastor to pray with me. The first person we prayed for was a deaf lady. I told him to pray and I will back him up, so he did and only one ear opened up. So then I prayed and then they were both open. He did not believe her so I told him to say something, but then she said that she heard me. The pastor's eyes got so big it was funny. When she went up to thank God for what he did, they were tested her. The pastor that was with me could not stop smiling. Then we had a blind girl, I asked the pastor if he believes that she will be healed, he said yes, so we prayed. When we got done she could only see in black and white. So I told the pastor God was not done yet and we prayed again. This time when we were done she was crying, she said she could see everything. Yes! Go God! I also had a lot of women come up for prayer to have children. The pastor always asked them if they were married. We only had one say no. We told her we cannot do that, so we prayed that God gives her a good husband. Now the other women were all married so we prayed for them. They all said that before we prayed for them they felt

something moving in side them, but when we were done they said they felt a cooling feeling. Then they said that they were happy. We also had Muslims come up for prayer. One of them had polio and could not stop shaking. We prayed for her and the power of God took her out. She started to go down fast, but we caught her before she fell all the way down. God was getting her good when she got up we asked her what was going on. She told us that she felt a spirit lifting her up. I asked her what kind of spirit. She said The God Spirit. Then the pastor asked her if she knew Jesus and she said no. The pastor knew what to do then so I led her to Jesus. She was so happy she knew that God was healing her. Another Muslim one was an old lady that had a pain in her feet for over 20 years. So the pastor and I prayed and she only got 10%. So then the pastor asked if she knew Jesus she said no. well she came to know Jesus. As soon as we asked for the Holy Spirit to come and fill her she went down. Yes! Go God! Well she got 100% of her healing. Thank you all for all the prayers and keep them coming. Love u all bye for now.
