Ministry to Sierra Leone, Africa; Town of Kabala  
Open Air Crusade Day 2

Tony:

Thanks to all those who are praying, they are seeing here what they have never seen before. Please pray Acts 4.13-16. We are seeing many miracles, but we are praying for the kind of miracle that Peter and John experienced with the lame man at the Gate Beautiful. The kind of miracle that will shake the entire city; a notable and remarkable miracle. We do not care how or thru whom Holy Spirit uses to bring it, just that it comes.

We are really laying a foundation here. The church here has NEVER experienced the gospel of the kingdom. They have NEVER laid hands on people for healing. They have NEVER moved with Holy Spirit as Jesus did. This is totally new to them. They are used to the evangelists doing all the ministry and they watch.

Intense efforts were made again this day to stop the crusade from going forth. Muslims came to try to argue and contend with Emmanuel that we cannot use the public ground to do this, then they came and broke the circuit breaker, then they got in the crowd and cut the power line from the generator. Just as I began to pray to begin the time of ministry, they cut the power lines again. The people have come to see, not to hear more words like what they have already heard and written off as religious jargon. They are hungry to see The Power of God, The Reality of God! So, we get right to it. We gave a word of knowledge for blurry vision, not totally blind, but almost. For them to come up on the stage for all to see how powerful the love of God is. We have learned to stick to the word and not just take any request during this time. They brought one after another up and the crowd watched as Jesus open eyes. A woman that only saw as looking thru a cloud. In a second, her vision was crystal clear. She explained with tears in her eyes to the crowd of what God had done as she looked around and spoke of what she was seeing. A old man, that most of his life could not see to read or to see any colors. He was quick to add the his constant chest pain also, to the request for healing. He said, "I have been waiting for years to see this, I want all Jesus has come to give me!" The Power of God came and he stood there spelling out the words on the LFJ banner saying "I can see, I can see, thank you Jesus!" This part of the night the miracles were very fast, but that was about to change.

After seeing these miracles of God, we asked for those to come forward to receive salvation, in the Name of Jesus. Again, about 70% of the people present RAN up to receive Jesus! Glory, Glory, Glory to God!

Then as we began to pray individually for the masses, it seemed we were working without the anointing, but only by faith. We had to push thru and be persistent in prayer, praying several times. Some of the pastors were overwhelmed by the struggle and stopped praying. At one point there were still hundreds jammed up against us for prayer and just a few still praying. We saw a lot of partial healings, THEN ALL OF A SUDDEN, BAM, Holy Spirit moved on us again with a powerful anointing. Whatever the problem, it was going!

A couple of testimonies:

As evidence of what had happened in the Spirit; a man deaf in his left ear stood before us for several rounds of prayer with absolutely no movement. We sent him over to Casey to get prayer. The Anointing broke that yoke and the man heard.

There were a lot of young men that had “personal parts” that had never appeared. Oh my God, the looks on their faces, as they put their hands in their pants to feel what God has miraculously put back. I don’t know how He did it, but it was an awesome sight to see. I heard Holy Spirit say that the enemy has tried to keep Christians from reproducing and He is now putting reproductive power back in His Body.

A little girl that was mute since birth. She had never spoken a word. As Gods Power came upon her and she spoke the Name of Jesus over and over, her Muslim mother was in shock. As this little girl opened her mouth to speak, out of came the foulest odor, the smell of demons being expelled. I have smelled it before. It was a disgusting smell, but I rejoiced as she was being delivered. Demons kept coming out until her breath got cleared and speaking was more natural.

Casey:

Tonight reminded me of a rocky movie. (Pick one) When it looks like you are going to lose the fight, then something changes in the atmosphere and everything changes. We were under attack in the beginning with Muslim’s taking out the generator and power cords, but what they don’t know we have a far greater power that cannot be shut down. The worship was even kind of flat tonight, so we even had to charge the atmosphere before we started to pray for the sick. So we went back into worship again. During the second round of worship Tony, Louis, and I started to dance with the children. This seemed to draw even more people to the crusade as there was an atmosphere

of praise. People all over started to dance and just enter into worship. I even saw Muslim men dancing and even laughing, just having a good time. Later that evening these same men accepted Jesus as their Lord. The power of high worship is so incredible. After Tony gave a short message we released a few words of knowledge. We brought some of them up on the stage with us, so everyone could see God heal them. They needed healing for their eyes. Blurry and bad vision, not blind eyes was the word given so we had to turn away the first man that they brought to us. He was totally blind, and one thing we have learned is God is going to heal right away that sickness that the word was given for. So the first few we prayed for God restored their vision back to normal. With everyone watching this seemed to stir up even more excitement then Tony gave a altar call and once again 75% came up to receive Jesus. Praise God. The people were now released to come for prayer as we jumped off the stage into another knock down drag out fight with the enemy. I thought that we were going to see the healings pop real fast, but that was not the case. We had to move into our faith mode and really fight for their healings. A bunch of the pastors just started to sit down and watch. That left a huge crowd waiting for prayer with only a few still fighting for them. Then we must have entered into the tenth round and all of the sudden BAM the anointing was back. The fight was over and you could feel the Holy Spirit there to assist you in any way needed. This is when I started to see miracles and not just healings. One of the major problems that that we were seeing last night were the young boys and men with genitals stuck in their stomachs. Ouch, you could see the pain in their faces as you prayed for them. Not long after I started to pray that look of pain would turn into a smile and you knew they were ok. They did check to make sure all was well and some just stood there with their hands in their pants just smiling. I know gross right, but this is a major problem here and they were excited to have been healed. I also prayed for a young girl that was mute and just after a real short prayer she began to make sounds. No words yet but sound was coming forth now. The people watching didn't understand the excitement of just sound. They were all expecting words to come out, that didn't happen until they took her over to Tony. Ha Ha God is Good. Tony sent me one of the young men that he prayed several times for but saw nothing. He was deaf in his left ear. I prayed several times and the ear opened and the look on this young man's face was priceless. He thought his ear wouldn't open and then pop now it is. So what started out to be a struggle tonight ended up in another major victory for Jesus. Thank you to everyone still praying for us, Blessings. ☺

Louis:

Wow God is good all the time. Tonight was crazy but in a good way. I got to dance with the children now that was way sweet. All the kids tried to climb on me, now that was funny. I love the kids, they are so nice. Prayer was fun tonight, it was a battle, but God always wins. I got the same pastor again. Man he got it good. God is all over him I did not have to say anything to him, he knew what to do. The first person we had was deaf, she was a young lady. The first time we prayed we got nothing, so we prayed again nothing. So then we asked if she knew Jesus, she said yes. So we prayed again, and bam, she heard what we were saying. We did not even finish praying, go God! We had some blind eyes open and they all were kids. I kept hearing God saying I will set my children free. Man o man, was he doing that. A lot of kid got set free. We had some weird prayer. A lot of boys had their nuggets in their stomachs. Well, they all got healed, God is a good God. I got so much I can say. I am in total shock of all I am seeing. I cannot put it in to words, sorry. Love you all see u soon.

NOTE: We just had an American missionary come to see us. He and Bible students have been at the Conference and Crusades. He said that for the last 14 years he has been rebuilding the Bible School that was destroyed in the pre-war and war times. He said that last year they opened up the school to teach reading and evangelism to the first year students. He said that our trip is "absolutely God timing" as they were praying for their students to see Jesus style evangelism, as they are now going out. It is an awesome feeling to know that we are in the center of God's Plan to reach the world!
