

MISSION REPORT ARUSHA TANZANIA
FREE PENTECOST CHURCH OF TANZANIA
VENUE: UNGA LTD. ESTATE
CHURCH LEADERS CONFERENCE
APRIL 21st and 22nd 2016.

Day 1

Tony;

Thanks to all who have been moved to pray for us.

They are telling us we are in one of the darkest places of Tanzania. Well, now, that's exactly where we want to be. Thank You Jesus for letting Your light shine.

We enjoyed Tanzanian style praise and worship from the young children to the youth to both old and young. We are so blessed to join together with these believers in corporate praise. I attempted to dance with them but I'm sure I was nowhere near as smooth as they are!

When we are first time in a county, many times they want to check us out before they do much promotion. That held true here. The head of this group of churches stood at the end of the meeting first day and said "I was ready to put these people out if they were not from God". Now it was interesting sitting there listening to this. Then he said "I can tell you, after what I have seen and heard this morning, these people are clearly sent from God to bless us with the True Gospel and the true power of God!" OK, thank You Jesus, looks like we get lunch today!

This gospel of the kingdom, the gospel of grace, the gospel of Jesus Christ that we are preaching is absolutely the most wonderfully powerful message ever! Holy Spirit has spent a lot of years bringing us to this place and to say I am elated is an extreme understatement! The people are receiving and are amazed and shocked at the simplicity of the gospel. We started right away during ministry time to get the church leaders praying and participating in what Holy Spirit is demonstrating. The language here is totally Swahili and a very, very small percentage of the people speak any English. Some of the pastors do, however, so that was good. There was

just a lot of people receiving miracles, healing and deliverances that I cannot report on. I just know there were a lot of very happy people! I will report on some the ones that I did get interpretation on and can remember. There was one lady that stood before us telling us about her longstanding abdominal problems. We prayed 3x with only partial movement. But she did say that there was something moving inside of her. Then I asked if she was born again and she said no. We explained that Jesus was the healer and she gladly received Him. As soon as she became born again she was instantly healed. She was totally shocked. Now get this. This lady was walking by the church and felt she needed to come in. Her first trip into a church and BAM, into the kingdom she comes! She went back to sit down at the back of the church and I glanced over at her a number of times and saw that she was weeping continuously. I know it was the amazement of her new life!

Many just sat there after the meeting in a glorious state of shock!

Tony, Day 2

More teaching wonderfully received. Saw a bunch of things during ministry time, here are a few: A number of deliverances with people saying "something just passed right out of me and I am free and healed!"

A man said that for 26 years he had been suffering with some kind of disease that brought pain all over his body 24 hours a day. He said no pain killer can cut it, no hospital can help him, no surgery can help him, all the doctors over the years have told him they are sorry but he will have to live with this. OK, in 15 seconds of standing in faith in the Name of Jesus, this man was totally, gloriously, set free and healed. Oh, such shock and joy that filled this man as he encountered the Real Jesus!

Two men carried a man into the church near the end of the service that has been paralyzed from his waist down for quite a long time. Unable to use his hips, legs or put any weight on his feet he stated that he was in very bad pain around his waist and if he even tried to use the lower part of his body the pain was unbearable. Now this man received prayer each of the 3 days we were at this church. His healing was progressive in the 3 days and substantial enough that he knew total restoration was his present possession. He went from being able to move his legs to losing the pain in

his waist to being able to take some few steps with help to being able to stand on his own without support and without pain to walking across the church with some assistance to actually taking some steps on his own without pain. Thank You Jesus!

OK, a lady with asthma and breathing and lung problems for 19 years had been repeatedly told by the medical profession that the best they could do is give her occasional relief of symptoms, but that she had to learn to live with this. I praise God that Jesus has purchased our wholeness and we can put these things back on the devil.

And the capper for this meeting was a woman that was nearly totally deaf that had her hearing totally restored in just a moment of time! Glory, Glory, Glory to God!

Some testimonies of people that stood to tell others of their experience:

- “After I heard the truth about the authority of Jesus and the Anointing of God which are my present inheritance, I called and prayed for the man in Finland that had sponsored me. He had bad legs and could not walk for a long time. When I prayed and commanded the disease to leave his legs, instant healing occurred and he started walking. From Tanzania to Finland, God totally healed him!”
- One pastor said “Amazing! I discovered that I don’t even need to lay hands for someone to get healed. I just spoke that healing word to a sick person and they were instantly healed, before I even touched them! Amazing!”
- Another pastor said “I prayed for people with problems in legs, toes, allergies, I prayed one after another. I told them to exercise themselves and check out what God had done. When I tell them to touch where it was paining, they would do it and say NO MORE, IT IS GONE! I am so happy!”
- “This teaching is a big help to me. I have been so much thinking I must do many things to bring the power
- “The way this team is teaching and demonstrating to us how to pray is quite different than anything we have seen. I prayed for a lady with this simple prayer of faith and saw a lady get completely free of much pain and it was accompanied by heat all over her body!”
- “While I was talking to a woman this morning, I got a word of knowledge, after receiving the teaching, that I had not known about. The

word was for head pain in the forehead. I just very politely asked if she had this head pain and she said yes. When I asked if I could pray for her she said yes. I just simply, lightly touched her forehead and said 'I command this pain to go, in Jesus Name!' This is totally amazing, the pain instantly left. Before I used to pray very loud and long prayers' Thank God!

- A pastor stood and said "you all know how we have been praying for people before, not so good. Something good is happening Now! I now know it is by The Spirit, not by my power and as I simply believe!"

Casey:

So we are back in Africa and it feels great. The people here are so awesome and they are really taking good care of us. We have a nice house that we are staying at, comfortable beds, screen on the widows and even indoor plumbing. I know this doesn't sound like much but trust me it's the small stuff that counts.

Today was our first day of meetings that we are doing. I can honestly say I can see this new teaching really take off here. They are so hungry for God. After the first teaching we released some words of knowledge. I prayed for a woman who was having hip and leg pain. After prayer was finished she was no longer in pain. Just like that the pain was gone. The next guy I prayed for had pain in his eyes, he said it feels like he has rocks in his eyes. Again after prayer all his eye pain was all gone. The next person I got to pray for had a headache and instantly it was gone after prayer. For the rest of the prayer time I was just taking video and pictures of the team as they were praying. Our next session is after lunch, time to go eat yummm. Ok, so lunch was real good the only complaint would be they serve you way too much. The afternoon teaching was on working together with Holy Spirit and words of knowledge and again they were soaking up every word. We again gave out words of knowledge after the teaching and started to pray for those who came up for healing. This time we had some of the local church members do the praying so they could see they too carry the anointing of Jesus. From what I saw, everyone was healed by the name of Jesus. It was a great first day if you ask me. Thank you everyone that is praying for us here. Blessings. ><>

April 22, Day 2

Casey:

Wow today was an awesome day. The day started 5:00 am this morning. Why you ask? Well we just happened to have the morning and part of the afternoon off, so some of us decided to go on safari. There is nothing like seeing all of the wild animals in their natural environment. We were blessed to see all of the animals in this game park, all but the elephants, they were in hiding. They even fixed us a box lunch which we ate on the top of a mountain overlooking the park, some of the views were just breathtaking. What a blessing.

The afternoon meeting started around three-ish and the topic of teaching was deliverance. Again as Tony taught, the people looked like they were on the edge of their seats hanging on every word spoken. They are really getting this new teaching and even shared testimonies on how God is using and blessing them just after the first meeting. Wow talk about transformation. When Tony was done teaching we did the backpack skit about being delivered. Carrying around all the junk and not walking in freedom, until someone tells and shows him how he can be free with the authority he have. It's a great teaching tool and it seals the deal for them about who they are in Jesus. After that we released words of knowledge and started to pray for the people. We invited anyone up that wanted to be used by God to pray for healing, and several came. I had this young man that wanted to pray so I worked with him. The first man he prayed for had shoulder and arm pain. The young man just said in the name of Jesus I command all pain to go, now move your arm. To the man's surprise all his pain was gone. They just both smiled and laughed with each other. So for the next person needing prayer I had the young man help one of his friends to pray for healing. Again all the pain instantly left the person as they all stood there with a shocked look on their face. God is so good, what an awesome day. Thank you for all your prayer support. Blessings. ><>

Gem Crilly

After a long flight we arrived safely in Kilimanjaro in the evening. The next morning we went to Free Pentecostal Church of Tanzania. It was a small church but it was full. Praises were going on when we arrived and I could feel the joy as I entered thru the doors. Three teenage church members did

a dance routine for us and it was wonderful to see how much they put into it. I felt honored they took the time to learn it for us. After an intro and Pastor Tony's sermon we went to words of knowledge. A few people started to come up for healing then more people. With an interpreter I was able to find out what each person needed healing for. I laid hands first on an elderly woman who had pain down her right arm and side into her leg and also back pain. When I asked her how she felt she smiled widely then bent over and touched her toes completely healed. Then I laid hands for neck pain and it was gone. An elderly woman had shoulder pain and abdominal pain. I laid one hand on her shoulder and the other on her abdomen. After saying words of healing she had no more pain in either her shoulders or her abdomen. Praise Jesus. Another woman came for lower back she too was healed. I then felt led by the Holy Spirit to ask one of the women watching if she would like to lay hands for healing. She was eager to do this. The next person for healing was a woman with hearing loss and abdomen pain. The pastor laid hands over each of the woman's ears while I laid hands on her abdomen. To the delight of the pastor the woman could hear and all pain was gone. We immediately thanked Jesus. Next a young woman came for prayer for healing of chest pain, personal problems and to do well in university. We laid hands on her and her pain left. We just know that she will do good in university and her personal problems will be taken care of. Praise the Lord. Pastor Tony talked again then we went for lunch

Gem Crilly

This morning we returned to the Free Pentecostal Church. Before entering the church while waiting outside a woman came to say hello. At first I did not recognize her as the woman I had asked yesterday to come lay hands with me. She was dressed completely different, yesterday she wore a yellow dress and had glasses on. Today she was not wearing glasses and she was in a full Masai outfit. As soon as I realized who she was I called her by name, Rose. She then gave me a bracelet, which she put on my right wrist, then she put matching earrings in my ears and matching ring on my finger. On my left wrist she put a black and white beaded bracelet. I mention this because later I found out that the jewelry is known as being made only by Masai and not freely given. What an honor all because I had shown how to lay hands and let Jesus use her. After service

Chrysta Brooks (21st):

*Woman had left leg pain from her thigh to her knee, and also pain in both knees. I prayed for her. She said it still hurt. I prayed 2 more times. Tony said usually after 3 times, they need to pray for themselves. We asked her if she was a Believer. She said No. We guided her through the prayer of Salvation. After praying, she said the pain in her legs and knees were completely healed.

*Prayed for a young man who had a headache. After praying, he said his headache was gone.
22 April 2016

(Free Pentecostal Church of TZ)

*Prayed for a woman's eye. She had white in her left eye, so I asked her if she needed prayer. She said she is blind in her left eye. I prayed once & she said she could see a little. Then Gem prayed for her 2 more times & she said she could see. The white film was still over her eye, but she said she could now see clearly.

Fredrick & Emily,

Emily and I left Bungoma on 18th April and arrived Arusha TZ on 19th around 5:00 pm, we wanted to be there as an advance team to make sure everything was right before other team arrives on 20th. We had a lot of challenges that was purposed by the enemy to make us cancel the trip. A week before Emily became sick, she was diagnosed with Typhoid and Malaria fever, her right side from the chest to the shoulder down to the whole arm became first numb she could not move it easily and later became very painful. The doctor thought that the cause could be malaria, after treatments of Malaria and Typhoid, still the pain was still there even much pain and more worse we prayed but the pain was stubborn.

We had to seek for another doctor's opinion who could not also explain the cause of the pain but suggested some injections that lessened some pains, arriving in Nairobi it became more worse, we rushed her to a private clinic where the X-ray and scanning was carried out, nothing wrong was established by both tests, the doctors thought it was a martial pool, the solution could be to the gym, she was given martial relaxer drugs that gave

her a temporary relief. To make the whole story short it was an enemy's attack to cause abandon the mission trip, the devil is a liar.

The meeting began on high note, we had a good sizeable attendance, we had some confusion in logistics on the eve of the conference, our Bishop host whom we had sat down with agreed on number of things, many people were expectant calling to confirm if the conference was on. However, we were forced to cancel and relocate venues to Unga Ltd Estate because our point man demands were higher than our budget. We thank God for His faithfulness many people showed up and church elders were called to come and hear Tony preach they approved Pastor Tony's ministry now we are allowed to continue with ministry.

The message of gospel of grace was timely, I wasn't sure if the people could accept it due to the long time foundation of traditions that many people were embedded in by church fathers, it was accepted with open hands.

During the ministry time through the word of knowledge, I ministered to many people with back problems, some cases were of many years in pain that could not be healed through medical scientific technology, some of these people had spent a lot of money in medical bills.

One woman who had been sick for over twenty years, sold her cows to raise medical bills, without tangible healing, she came on prayer line after explanation I asked her if could pray for she accepted and I called a young girl who was seated in the pew she came I asked if she could lay hands on the woman's back I commanded the spirits of sickness that had dwelt in the body to leave and allowed healing power to take control over the body, instantly she got delivered, in her testimony, she wondered over the microphone how simple it was, she could jump and bend for the first time in her life with a lot of joy.

An old woman with pains in her legs, came to me she was prayed for by me and got also instant healing.

A young man who is a student in one of the colleges, came over for prayer on behalf of his father George who had a bad knee, after prayer in the evening he called to find out how the father was doing, the father said he

was healed and turned out the so called was his sponsor who helps him to pay school fee from Finland.

Emily: An elderly woman had pain in her knee, backache and painful shoulder she was prayed for and got healed.

Two youthful boys had things like sand in their eyes they could see properly tears rolling down after prayer those things disappeared, tears stopped and they were happy.
