

Mission to Uganda:
Monday, May 21, 2007
Seya Village, Lugazi District

Tony:

The people were excited as I gave them testimonies of God's healing and delivering salvation and they were ready to receive themselves. We just gave a few words of knowledge to get things going and about a dozen people came up. Everyone I prayed for tonight needed an interpreter. I began praying for a man that at first said he had continual head and chest pressure and pain. As we prayed, he smiled as it left, but then said "I cannot see well." It was weird in that he could see distances not too bad, but up close, everything was a shade of dark grey. My face looked dark grey to him and the print on a page of the Bible was not visible-only a grey page. We prayed and the grey left, but it still wasn't crystal. He then proceeded to tell me that his knees are bad and lock up and painful and he can't bend them but a tiny bit when he walks. Well, we prayed and he got a couple of new knees and should have seen him bouncing around bending his knees. OK, 3 out of 4 fixed, so back to the eyes. Now, Gary was praying for someone next to me and when I got ready to put my hands back on this man's eyes again, I heard Gary say to the lady he was praying for, "so now your eyes are totally open and you can see perfectly?" I stopped and turned to him and said, would you take over for me and at the same time he said if you'll take over for me because this lady has a pain moving around her body. Perfect timing and my guy got his eyes fully opened and his lady got the pain gone. Now, get this: this lady actually had a tumor that was moving around her body (pain included). The anointing sent everything out of her body, hallelujah!

About everyone had head and chest pressure and pain in addition to some other problem. I had all Christians tonight, except for the next young lady. She had continual tingling up and down her right arm and her shoulder seemed to have something pinched or damaged in it to the point that she couldn't lift her arm. She readily received Jesus and very quickly had her totally healed arm in the air praising God!

Another man said he had burning stomach ulcers and a large tumor near what I thought to be his stomach, but turned out to be his groin. I asked if he could feel the tumor and he said yes it is very large. So I asked him to put his hand on the tumor (while I still thought it was on his stomach). The next scene was a little embarrassing, but it seemed to bother me more than the female interpreting for me. I noticed his face while we were praying, he had

that deer in the headlights look and his hand was moving all around inside of where the tumor WAS. I said was; he said; it is almost completely gone, just went away! Wow, one more round of prayer and he was tumor free!

After a bunch more prayer, including some wanting impartation of the anointing and some spending a bunch of time laid out in the dirt under His Power, one of the Pastors said “it’s dark and very late and it’s time to go.” There was only one last person the team was praying for, but in my spirit I knew we weren’t done yet. There was still just a bunch of people sitting out there in the dark, what were they still sitting there for? I told the Pastor to announce one more time if there is anybody else before we go that needs a touch from God. He did that and about 8 or 10 more people came up and it really started to get exciting. By this time the anointing was real strong and the critters that were on people were really stirred up. The first two people I prayed for had the same problem, one man and one lady. My interpreter said they had “Shirley”. I asked who or what is Shirley? After a little of finger pointing to body parts I determined he was saying they had syphilis. I started praying for them and the lady kept yelling, “my leg!” as she was manifesting. She lifted up her dirt level dress just enough for me to see her club foot that was raised about 6 inches off the ground, that something was happening to right now. I had her sit in a chair and as the Pastor and I began to pray I heard screeches and bodies hitting the deck and rolling around. I turned around to see, only to be meet a lady flopping like a fish out of water. I turned over prayer for the lame leg to the Pastor and I went over to begin shutting down the demon and she clobbered me in the face. It was more funny then hurt, but we got that thing shut down quickly as she underwent a sovereign deliverance while I kept everyone away from her. She got up completely whole and free.

What an awesome night! This little village had a mighty visitation of the Lord tonight! Hallelujah!

Gary

Our trip took us through the sugar cane fields to the little place we were to minister. As we huddled before the service God revealed He wanted to release His power... BOY, DID HE EVER! The worship was awesome. I love to hear the praises of the Father in different languages. It reminds me that Jesus died for EVERY tribe and EVERY nation and though I couldn’t understand the language, I could feel the result...the overwhelming sense of God’s Presence. The service was actually held under a tree. That hit both Tony and I. Here are two white guys sitting under a tree in the mountains of

Uganda Africa ready to release the Anointing of God that will change people's lives. WHO WOULD HAVE THUNK IT? Only God!

During ministry time the first woman I prayed for had a headache, bad eyes, and pain in her stomach. We prayed and the headache left and the eyes were healed, but the pain in the stomach moved to the back. At that time Tony and I tag teamed and I finished praying for a man with bad eye sight and Tony finished praying for the lady. After praying for the man he asked to see a bible. The interpreter got one that had really small print. He could read the headings but was having trouble seeing the small print. I asked her to get him another bible that that had normal sized printing and he could see that fine, as was evidenced by the smile on his face. (Heck, I had trouble reading the first bible.) As he walked away another man came up on crutches. He had broken his knee about a month and a half ago. He was in much pain. As we began to pray the pain left. I could feel God touching his knee under my hands. There was something moving inside of his knee. At first he felt a heaviness in his knee, "Yeah God, we bless what you are doing." After awhile he put his crutches down and began to walk a little. He was also bending his leg which he couldn't do before. It was awesome watching his faith rise as he very gingerly walked about. He gave testimony to his complete healing and left with someone carrying his crutches. I also had the opportunity to impart to a few young men who had the desire to minister. What an awesome night!!!

Pas. Fredrick Ogara:

This was the beginning of the 1st village meetings about 10km from Lugazi town into sugar cane plantations.

What a time we have, God ministered powerfully today in such power to a group of people numbering about 70 people in the beginning, the meeting looked so humbly but at the end when people heard testimonies of what God was doing over the microphone the number increased. As the people receiving miracles announced them at the microphone, the onlookers in the road and houses around that were just listening, began to come.

The breakthrough came when the Holy Spirit came during praise and worship by Scola Achuti in Swahili language, thereafter pastor Tony was

invited to speak, and he spoke with such faith and confidence as if Jesus was at his side right there, telling him to tell people what they should expect, he assured people about healings, deliverances and the joy of the Lord!

The ministry of the Holy Spirit was so intense during the personal ministry time, God became so real in the village people lives, and they got changed dramatically because The King was present, His authority and power demonstrating His nature.

Testimonies:

- A woman came forward for prayer, she had multiple problems, she had wasting disease that was eating up her body, We prayed for her many times, and it was as if nothing were happening, lastly, she felt some temporary relief, and even went to the microphone to testify how Jesus has healed.

While we were ministering to others, the Holy Spirit asked to look at the people who were seated on chairs, I saw the woman whom we had prayed for earlier, and He told me she is not yet delivered, I sent for her, and asked how do feel? She replied, not very bad, yet her face indicated that she was still bound; I asked her if she could allow us to pray once more for she consented.

We laid hands on her again, immediately she even came worse, I sensed that I should go deeper and find out the background of her problem.

She narrated as follows:

- I was in labor pain ready to give birth, and I called for a traditional midwife from our village (mainly they use demonic charms when helping in delivery services to expectant women) after she had help me deliver my child she demanded allot that I could not manage as a result she spoke a curse over my life, and told me that I shall never give birth to another child, and my life shall be in waste.
- Little did I know that her words could make any impact over life, indeed as from that time up to this day, I have lived in great pains with multi ailments

I asked her if she knows the name of the woman that cursed her she said yes, the I asked her if want healing she must forgive that woman, love her, confess Jesus as Lord her life. Immediately after going forgiveness and confession we laid hands on her and I told her this is the sign that shows that you have come out a curse, when I lay hands on you since you are also feeling strong headache, the pain shall go away and you shall know that you are free from the curse of the woman.

I laid my hands upon her head and thanked Jesus for the finished work at Calvary for his daughter, immediately after speaking these words the power of God came and made her begin spinning around wildly like a top and sweating, then fell down as we watched her, when she came back to her senses, we helped her stand on feet, her face was literally shining with the glory of God, with a big smile on her face. Praises be to our God for all glory and honor is His.

1. A young girl came, she said I can't have any money or do business and prosper because my mother cursed me for deserting the family religion and joining the born again group. Since then there is nothing I do that holds together, I want you pray for me.

I told her, its not good that your mother cursed you, but, the Jesus you received is the savior and the Lord of lords, and when you allow Him into your life you would have received God the creator Himself.

I led her into confession of the Lordship Jesus Christ over her life, forgive her mother and love her. We broke the curse and declared it inoperative. Thereafter we prayed over immediately after prayer her face brightened up, she looked happy, then I asked her, how do you feel? "I feel allot of peace inside and very much relieved."

2. A woman came for prayer but did not understand how she got here (she was somewhere else and then was here). Through an interpreter (as she spoke a dialect I didn't know), I discovered that she was suffering from spirits of depression, anger and self denial that have been driving her into committing suicide whenever she is provoked. I led her into confessing the Lordship of Jesus Christ, her personal sins, and renouncing spirits of anger, bitterness, unforgiveness and suicide. She began very well renouncing other spirits, and when she was about to utter the suicide spirit her tongue stuck and she began to make wild noises. I called upon the name of the Lord Jesus Christ to make her tongue be released, **immediately her tongue become loose** and she denounced the spirit of suicide. As soon as she renounced the spirit of suicide she went into major convulsions and fell to the ground thrashing around. She became violent. Pastor Tony came to our help and calmed her down by quietly commanding the demon to be still. I went down using the new method of deliverance taught to us and then spoke with authority into her ears about six times and she came back to her senses completely delivered. What an awesome sight to see God move this way.

- We would need a book to tell of all God had done.

Emily's report:

First day in the village at Seya, Lugazi. After praise and worship the Word of God was preached to the hearts that were open to receive the Word of God, God's Presence was real and people responded positively to the Word of knowledge that was released.

Mostly I had deliverance before healing with the people. A woman came forward for healing, she had complained of constant headaches and stomach pains, chest pains and her back, we prayed and prayed and every time we asked her how she was feeling, the answer was the pain have now moved to another place. When we enquired the cause of her pains she told us that she was involved in a car accident, even though she received medical treatment, she is being traumatized, and she lives in fear. There was a spirit of fear and torment that came in through the trauma in her life.

We led her into deliverance with confession and renunciation of the spirits of fear and intimidation and when we prayed again for her, this time all the pains left at once. There was much that God did this night!

Alex & Scolar:

The time of word of knowledge came and the team called out for people with different problems. The team prayed for many people, if not all. There were many healings and salvations. Here are two different testimonies that my wife and I prayed for:

- We prayed for a man who had a problem with excessive sweating. He could not hold the water in his body. As we prayed, the Holy Spirit revealed that he had family problems and had not told anybody. When I said it to him, he broke down and fell on my shoulder crying. The Lord healed him!
- A young lady desperate to get married could not finish telling us her predicament before she started crying. Each time she was about to get married and the wedding plans were in place, the man disappears, leaving her heartbroken. The man now in her life claims to be a man of God but has insisting on sexual relations before marriage, and now she is pregnant and he has rejected her and no longer wants to marry

her. "I am confused, disappointed and don't know what to do!" We led her to forgive those men, we broke the soul-ties she had made covenants (sexual) with and tied her soul to a NEW COVENANT through the blood that was shed on Calvary. After cancelling, nullifying and renouncing the powers behind the covenants. She bound the spirits and commanded them to leave and we asked the Holy Spirit to come and fill those places in her. We prayed the love of God into her life. She got powerfully released and the Holy Spirit put His joy upon her as she just laughed and laughed.

Hallelujah to the King of Glory for what He has done here!
