

Mission to Uganda:
Tuesday, May 22, 2007
Buyukwe Tega Village

Tony:

We arrived in this small village this afternoon and it was so small we almost drove right past it. There were about a dozen women sitting under a shade tree waiting for us. By the time we started there were a couple of hundred. They had a wooden platform built that didn't look too sturdy, but after 8 dancing women got up there, bouncing all over, I figured it would hold me. Praise was led by the village church ladies. So many people were watching me dance (and laughing) that I tried to close my eyes so I didn't see them looking at me, but the ground was so rough that I couldn't keep my balance. Anyways, back to the mission: We released a blessing over the children then told the people what Jesus has come to do and then gave words of knowledge. There were just a few in the beginning, but then after a few minutes, they all just swarmed up in front of us.

The first lady we prayed for had AIDS. The next number of people had various conditions that they called 'seasonal'. Sickneses and pains that come sometimes, on and off. But for every one of them, none of them had the symptoms right now. We prayed and sent them home with the anointing, but had no testimonies to give.

Again we had people with 'things' moving around in their stomachs. They called them tumors. Some were visible, some were internal. Everyone said the problem was gone and praised God. Whoever heard of a tumor in the stomach that moves around? Do not be unaware of the schemes of the devil.

A practicing MUSLIM lady came, very pregnant, with intense pains in her back. At first I thought she might be having labor pains, but I quickly dismissed that one. I knew God wanted to save her. **She said that she hadn't seen power like this in her religion and she was ready to receive Jesus.** My translator led her into salvation and then we prayed for her paining back. She was instantly healed! Welcome into the kingdom!

There were a number of salvations tonight. It is amazing what a touch from God will do.

While I was praying for people, there was a young man standing behind me that kept poking me to get my attention. The first couple of times I ignored him, then I turned to get a good look at him and I knew he was mute. I

started to ask him some questions and a bunch of children around him said, “he cannot hear you or talk, he has always been a deaf mute in this village!” Well, that was all I needed to hear. This time I could feel the anointing as I commanded that deaf and dumb spirit to come out of him. He immediately started pointing to his ears, then pointing up to heaven. We got pictures and video because I could never explain the smile that was on this guys face. I began to ask him to say some words and he was repeating them. I motioned one of the pastors over and he prayed again, sticking his finger in his ear. The young man stopped him praying and pulled the pastors fingers out of his ears and just smiled and pointed to heaven. **This pastor got the microphone and began to get this previously deaf/mute to say words in their native language. When that happened the people of the village erupted in praise!** Holy Spirit has left a testimony in this village, in this young man, of the truth that Jesus is Alive and Jesus is Lord and Jesus is the Healer! Wow, it was awesome what God did! Thank you Jesus!

Gary:

Another wonderful night of worship and praise! The Ugandan’s worship with all their hearts minds and bodies. I thought I strained something trying to keep up. It is great watching the children dance before the Lord. We are usually blessed with 2 worship services. After the locals cut loose for awhile, Alex’s wife does a few more songs in Swahili, which gets the joint jumping again. I can only imagine what heaven is going to be like when for all eternity we gather with all tribes and nations to worship. “Come quickly, Lord Jesus.” The children here are beautiful. They are very soft spoken but they are not so shy. They like to gather around and touch and they have great smiles. I had the awesome privilege of praying for mostly children tonight. There were a variety of needs from headaches to bad dreams to tummy aches to wisdom. One girl had trouble with bed wetting. What the Lord was showing me was that many of these children had curses over their lives from witch doctors. As I prayed I could feel things break in the spirit. Then Holy Spirit led me in how to bless them. It was awesome! One woman had pain in her chest which left. At the end one of the pastors’s brought up a young man who was a Muslim and had a problem with stealing. The young man got saved and we were going to lead him through deliverance when all of a sudden someone started praying for him in his native tongue, for a long time. Tony and I were just standing there looking at each other with that “What the heck?” look on our faces. Finally, the person got done and says, “It’s done.” And walks away. Then we put our hands on the young man and

began to release the anointing in the young man. He began to complain that his shoulders were hurting. As we continued to pray the pain began to move down his arms. Then finally relief. God had sovereignly delivered him. It was awesome! The young man was raising his hands praising God, and we didn't tell him to, he was completely free. I believe that many curses were broken over lives, that the Kingdom of God has made a major advancement in the lives of these people and in this area.

Fredrick and Emily Ogara:

Praise and worship was good and lively, but we could sense some spiritual resistance around, the man of God was invited on the stage some minutes to 7pm and he led to the book of Luke 4:18-19. The Spirit of the Lord in on me, because he has anointed to preach good news.. This statements changed the atmosphere that was once tense, people began to respond as he continued preaching, later he invited us the team to come in and contribute in sharing what the Lord was laying on our hearts through the Word knowledge. The response was good, because some of the people had gotten the information of what the Lord had done at Seya village previous night.

Some Testimonies:

1. An elderly woman came to us for prayer, she was complaining of multiple ailments from headache to backache, her feet were so painful that she could not stand for long, she also had a tumor in her stomach, we laid hands on her and it was as if we were laying hands on a dry log, nothing was responding, every time we asked her how she felt she said nothing. It was really discouraging but we did not give up, we continued, inside me I felt that at least God had done something that none of us, including the sick, had understood it at all. We asked her to have a chair and rest we shall come back to her. We had to continue with others who were already in mass standing in front of us, still we could sense some heaviness in spiritual realm but as heavy as it was at first with the first client, we began sensing manifestations of the Spirit of God at work. **At one point it was as if heaven just busted wide open and it was just powerful. All were being touched. That lady in her seat got healed!**
2. A young woman came to me and asked can you pray for me? I asked her what do you want me to pray for you? She said I have a big problem, every night some men (Not natural men) comes to me when I am asleep and make love with me and when I wake up either in the

morning or in the middle of the night, check myself I find out that it was real sexual intercourse took place. These were demons that were coming to her. She said, "I am born again, I have prayed and been prayed for but, there is no change, please pray for me." Then I summoned Pastor Joel to come over and lead her in confessions in Luganda language and repentance from the past relations (because I believe every sexual relation is a covenant between the two) after she had gone through all this process of deliverance, we laid hands on her and she immediately fell into some kind of state that looked like she wasn't there, but her body was moving, she began to twist her hips as if in sexual act. I rebuked the spirits to leave her and she was set free, later I asked what do you feel? She said, "I feel changes in my body after prayer. I am no longer having that abnormal sexual drive!"

Alex & Scolar:

On 21st night, I had a dream that there is a woman who had dedicated her children to the devil. It was not one woman who had done that but some women had. When I looked closely at one child, it had some marks on the face as a sign that it belonged to satan; prayed for the baby.

Lubanyi is a small village 30 minutes drive from Lugazi town. In this village we saw God working in a different and unique way. The first thing that happened was that Pastor Tony took the stage and said that the adults take up a child in their arms and pray for them. Pray that God raises them to know Him better. That they know the Truth and the Truth shall set them free. that the Lord protect them from everything the enemy had planned to do against them. Coincidentally I had picked a child and was praying for her that the Lord divinely protect her. Wow! Is that how the Lord works.

The team spoke words of knowledge to the crowd who were eager to hear more. Many people came forward and we prayed.....

The first lady we prayed for was not responding at all. Each time my wife said word to her it is like the words came back to her. She told me to take over and it was not any easier. We then blessed and released her. The second person was the same no breakthrough according to what we felt. Just as we were getting frustrated, the third person, a lady who had something on her wrist acting as her protector told us of how she cannot experience peace in her life and family. As we prayed for her the power of God came down powerfully and rocked everything within her and she went limp. She hung to my wife's shoulders as I prayed life into her heart. Sweat streamed out of her body as the Spirit of the Lord ministered to her. The Lord healed her. She

removed the token from her wrist that she had been given by the witchdoctor. we nullified the power behind and destroyed it in Jesus Name.

I spotted a lady as I was praying for another man who had chest pains The Lord healed his chest and his breathing came to normal and pains gone. He could afford a smile. Then I was reminded a gain of the same lady. I went looking for her. She told us she had no problems as she was born again. If there is anything you can do for me is to speak blessings into my life. As we started praying, the Spirit of the Lord revealed to me she was not at peace with her husband and she was having many problems which she has decided to live with. She wept for sometime over my wife's shoulder. We blessed her and she was relived.
