

Mission to Uganda:
Friday, May 25, 2007
Busembatia/Namutumba
Agape Senior Secondary School

Pastor Tony:

This morning we went to a Christian School that is both primary and secondary. They gathered the high school students together first. Both Gary and I ministered a word to them then we gave out some words of knowledge and about 40 of the kids let us lay hands on them and pray for them. I prayed for a number of them with various body pains (head, back, shoulders, legs, stomach, etc.)- All healed. A few of the young men said that when they get into class they cannot concentrate. They do not have a problem concentrating out of class. Some said their head, chest and stomach hurt when they tried to worship or to pray, but only then. A clear assignment against these young people. I explained to each one how they can fight the good fight for themselves and how to submit to God and resist the devil. We prophesied over a few and then went to the younger kids. Fred (our young Ugandan camera man) brought a word of encouragement to the little ones and shared his testimony. He used to be a Boozeman. Being real short on time we prayed in mass. We asked how many didn't know for sure they were saved, about 10 said yes and each one received the Lord as Savior. Then we had them put their hands on the part of their bodies that needed healing or a touch from God. They had hands on eyes, ears, heads, stomachs, chests, backs, you name it. We prayed for Holy Spirit to bring healing to each one. After prayer we asked how many of them felt the power of God touch them and they are well. About $\frac{3}{4}$ of the hands went up. Wow, our God is awesome!

Gary (now called Gary Potato)

What a wonderful opportunity the LORD presented us with today. We went to the Agape school and had the chance to speak to hundreds of children. Tony and I tag teamed the message which was fun. The kids responded and we had a chance to pray for many. It seems that every time I pray for someone Holy Spirit has me breaking curses or leading the person through deliverance. Today was no different. Headaches, stomach aches, bad dreams, dullness in studies. All that received prayer felt relief but all were off and on problems that at the time of prayer were off. But I believe a lot more kids had a peaceful night sleep last night. Thank you Jesus. Then we went over to the little kids section. They all were very obedient and sat

quietly as we ministered to them. Our camera man, Fred, spoke to them and because of time restraints, Tony prayed a group prayer (when I know he'd rather be laying hands on each one!) He had the kids lay hands on themselves where there was any pain and pray for healing. Many raised their hands after saying that they felt better.

Fredrick & Emily:

At the school, The Lord touched some of them and gave their lives to Jesus as their personal savior; we also ministered healings and other needs to a good number of them. Then proceeded to primary level side where we were also taken to headmistress' office for introduction and signing of the visitor's book. It was about lunch hour, we did not have enough time, but the few minutes we spent with these young kids was so wonderful, Gary had time to sing an American children song to the children 'Yes I know Jesus loves me' Tony blessed them with a word of prayer.

After the school visit, we hurried to Iganga to Internet café for reports to be sent about 32km away from Busembatia.

Some Testimonies:

At Agape Secondary School-

1. A boy came forward to be prayed for headache and chest pains, he also asked me to pray that he may pass his final high exams. Then I asked the Holy Spirit Presence to come and envelope him and minister to him in all his requests, His Presence just came. I too felt His presence while my arm was placed on his forehead, and just continued to that the Holy Spirit and the great work He was doing over the His son, for the student has been born again before. Then I asked, what you do feel? He looked straight into my eyes and said, I feel free and I am blessed of God.
2. Many girls who stood in front of me to be ministered for, they had similar problems of headaches, backaches, stomachache and request for final exams prayers, after the praying for the first male student and the Holy Spirit was still there, it became so easy, I only had to lay my hands each one who came to me, thanked the Holy Spirit for what He was doing and presenting each case as it was and they were all healed and set free, and each one confessed healing and also felt so strongly that they shall do well in their national final exams.
3. One of the female students, I led her into salvation by confessing Jesus Christ as her personal savior, before I presented her case before the Lord to be solved. She had bad eyes, I saw them, they were all red, she told me that it becomes difficult for her to read, sometime tears

just roll down when she looks into the book. I asked her, are they paining right now? She nodded her head in confirmation; she also wanted God to enable her do well in her studies. The Presence of the Holy Spirit was still around. What I did was to ask the Holy Spirit to do the job. Then I asked, what do you feel? “My eyes are healed, no pains”, she said. We all thanked God for His goodness.

4. Emilie’s Testimony: On this mission we were privileged to visit Agape Secondary school being run by Bishop Patrick Baligazima with classes from Nursery to higher primary level and high school, the headmaster took us around; we were able to go to laboratory, kitchen, poultry section and many other areas within the compound. Pastor Tony spoke to the students about their future vision, particularly to girls should not have a vision of marrying after school, but able to do what God intended them to become, Gary emphasized on hearing the voice of Jesus and walk in obedience to it. We later prayed for the students and the pupils.

Alex:

Agape primary and secondary schools were started by a born again Christian in Busembatia. The deputy principle took us around the school before we could address the students. To me it was a good opportunity to possess every inch of the property that our feet stepped on. The time came for ministering to the students as they grouped under a big shade tree.

Pastor Tony and Gary Potato talked to the students. Gary told them about the fun that they experienced at a soccer match and how much more fun it could be about Jesus. Tony spoke about how Jesus wanted to touch them now and show Himself to be real. He told them about words of knowledge and team gave some of them out.

The night before the Lord had shown me in a dream of a brown (light skinned) girl that was a member of one of two praise and worship teams but was frustrated by the other girls from both teams. The B team hated her and never wanted her to be with them. Secondly I had this vision of a young girl who had been sexually abused and a pastor was involved. Are you ready for this? They both came forward and my wife and I prayed for them. We led them both thru deliverance from various spirits including rejection and oppression from ancestral covenants. The Lord touched them deeply as my wife and I hugged them, imparting the love of God into their hearts. We also prayed for a young man with a spirit of rejection and led him thru deliverance. He was the only one in their clan who had excelled to Senior 4. This had forced some of his uncles to curse him openly and speak words that

frustrated his learning. Well, there is power in prayer. The Lord healed him and we encouraged him with Isa 54.17. Others we prayed for had pains in their chests and headaches- all miraculously healed!

Rose Choke:

At the school, Jesus healed students. One girl was suffering with stomach pain for 8 years and instantly healed. One girl could not walk well and at the time of prayer she got healed instantly and was able to walk perfectly. The children have very little and are in need of most basic necessities.

Bishop Simon Choke:

Today I saw Jesus healing the students at Agape school. Many suffering with their legs were instantly healed. As Pastor Tony was talking one boy got healed of his long time nose bleeds, it just stopped!
