

Mission to Uganda:
Sunday, May 27, 2007
Busembatia/Namutumba

Pastor Tony:

It's Sunday! After a hearty breakfast of fresh mango, avocado, pineapple, papaya and Ugandan tea, it was off to the morning service. The praise was well under way with the only instruments being a drum and what was like a small metal rain stick. They wanted to turn the service over to us right away, but Fredrick and I had already agreed that we needed more praise and some deep worship so we passed that on and the worship team came back up. Mrs. Pastor of the church leads the worship and wow I got sucked up into heavenly ecstasy. His Presence was very, very strong and as I got up I asked the worship team if they would lay hands on us to impart more anointing for worship. They did, and it was powerful as Gary, Fredrick and I ended up glued to the wall. We could have stayed in that place a long time. I actually had some notes for a message and Holy Spirit said "trust Me". I buried the notes and as I began to speak I began to vibrate under His Power. His Presence intensified greatly; I was tremendously humbled and awe-struck at the same time. I ended with the story of the boy that stepped into the offering plate and as I invited those that wanted to give absolutely everything in their lives to Him and His Kingdom the whole church rushed to the front. I stood there with Gary completely surrounded by a couple hundred hungry Ugandan believers. As the first couple of people stepped into the basket I knew this wasn't going to work. The power of God was so strong each one was being really whacked by Holy Spirit and I personally was OVERCOME with HIS GLORY. It has been a long time since I personally felt that much power. We had to carry the people to a spot open on the ground. I asked the interpreter to tell all the people around us that God knew the offering they were making and they could go home and get in a basket and He would come in the same way, if they didn't want to wait the few hours it would take to get thru everybody, but they could wait if they wanted to. It was like they said, "you gotta be kidding, I'm not missing this touch from God for nothing!" We continued to pray with those in the basket and the power kept increasing and I kept getting more OVERCOME. These hungry believers were being mightily touched; you just had to be there. When I could talk I had them invite all those waiting, who also needed prayer for healing or deliverance to come and the rest of the team could pray for them. The interpreter said, "A few of you with real bad problems can

come up and the team will pray for you.” Guess what, ‘the few’ turned into all the rest of the people sitting down rushing the front again. At least the rest of the team had something to do now. At one point Gary got the worship leader and we had her do the praying for the people in the basket and **the anointing came so strong on her that she was just breathing on the people and they were falling under His Power. Absolutely every single person had to be carried away as they came under His Power.** What I really loved was when the interpreter said, “it’s just the children that are left, shall I send them home now as there are so many more it will take hours more?” I asked him which one he thought we should tell they cannot come. He looked at me and said, I don’t know. What happened next was amazing. We got two strong Uganda men to catch these kids. By this time they had set up an area with mats to lay the people on.

Now, you know kids. If it isn’t real they are not going to fake anything like this. As fast as they stepped into the basket, instantly the power of God came upon them, tears flowed, bodies vibrated and shaked and down they went. There had to be 50 children to young adults in about 8 minutes that were powerfully touched. As I type this I am still feeling the effect of what happened today.

As we went for lunch we gave out two cases of cookies to the children around the home of the people that were serving us meals. African children are such a blast. Jesus I love you, give me more!

Fredrick and Emily.

Busembatia Day 5

May 27, 2007

Namutumba Discipleship Church service

Praise and worship was very powerful, without PA system and keyboard, only drums and hand clapping, the presence of the Holy Spirit was felt during the service.

Many people gave their testimonies of what the Lord did for them in week that Tony and team ministered in the conference and crusade meetings at Itongo. Many confessed that their lives have changed, long time sickness and suffering has gone and some confessed that bad demonic dreams have been shut out instead the pattern of their dreams has changed to good visions that confirms their future in the Lord.

Today’s service attracted people from other churches, because of what they had seen witnessed and even touched during the crusade and the conference. the church was fully packed to the capacity.

The Word:

The man of God Tony Moto with his usual simplicity, stood up without big man of God syndrome form, asked the praise team to pray for us and impart the praise and worship anointing, he called Fredrick and Gary to join him at the altar the singers came over and laid their hands on us, and indeed the Holy Spirit was there, we were soaked into His presence, we got drunk. Our feet became so heavy that we couldn't move so easily.

When he came with the Word from Luke 16:11. He talked about the riches and the true riches, he emphasized on true riches very much. That the true riches is to have so much of the Holy Spirit of God that when demons sees you they just flee, a man with true riches can feed the multitude with so little and even turn water into wine or milk.

At the end he gave a testimony of a young man, who during the offering time in the church, instead of giving in money to the offering basket he offered himself by stepping into it, this act made the church elders to be angry with him, commanded him to stop it and to step out of it, but instead he raised his arms in the air to God and said to God, I don't have money to give in the basket but I offer myself to you O'Lord please Lord use me, and he went on to be a powerful missionary.

At this testimony, he invited all those are willing to offer themselves fully to God to come forward and step into the basket that was at the altar.

The response was overwhelming, everyone came forward, he warned them before stepping into the basket of the price to be paid for what they were about to do. Nevertheless, the Word had entered people; they were full of zeal for anything for the Lord.

Meanwhile he asked the team to come forward and minister to all those with different kinds of problems. **Because of the very heavy anointing that was present, prayer was so easy**, the Lord touched many people just by laying on of hands on a person, without even speaking a word, and sickness and other ailments flee without any struggle. That is the benefit of true riches.

Ministry time;

1. A lady came and said that she is tired of living in poverty and in the grass thatched house with mad walls, in first marriage they kept and worshipped spirits of witchcrafts when she got born again, she was kicked out of the home, later she entered into present marriage with a child from the first marriage, who is always sickly and she suspects that her former husband want to kill her child through witch crafts, we prayed for her and the power of the Holy Spirit lain her down, when

- she woke up, we felt that Tony should pray for once more. We referred her Tony and Gary, they prayed for her and anointed her, she came back and testified to us I that I am free now.
2. A high school teacher came forward and wanted God to heal her chest and give her promotion at the place of her work, first we prayed for her bad chest and God healed her. Thereafter, we asked the Holy Spirit to cause her to be promoted according to her desire as we laid hands on her the power of God hit her so hard, I just thank God we had a catcher who landed her down safe and slowly, she stayed there for some minutes, **when she came to, she told us that she was free and she was sure she has a breakthrough.**
 3. A woman who has been prayed for many times over different problems, came and said that she felt so depressed but she could not understand why, the we asked her if she has any grudge with anybody, after thinking for some seconds she remembered that she is not in good terms with her mother in-law, she was asked if she would be willing to forgive and release her mother in-law, she accepted, we gave time to do so, when we laid hands on her, the power of God threw her down, she stayed there for some minutes when she woke up, felt peaceful with no more pressure.

Gary Potato:

Tony and I ministered together as people came to offer themselves to the Lord. It was awesome seeing the desire of the people for more of God. Not one was disappointed. At the end we prayed for an old woman whose legs, chest and eyes were restored. The last one we prayed for was a mother and baby. The mother confessed to her involvement in witch craft and we prayed for her. As I laid my hand on the baby and began to pray I began to cough. This has happened to me once before where there was transference through me from the baby as it was delivered. Two days ago Holy Spirit reminded me of the other time, so when it happened today I wasn't surprised. As soon as I started coughing I knew what was happening and felt blessed to be a part of the baby's healing. Mom said she felt free and I know baby is too. Thank you Jesus.

Alex & Scolar:

There was powerful worship going on as we entered the church compound. We joined in and felt the Presence of God in the house. When Esther, the worship leader went down on her knees in submission to God, more of the

Presence of God came into the place and I began to weep. Pastor Tony asked for those who long to be worshippers, he prayed over all the people that the Lord pour more of Him into their lives. That we give the Lord our all. On he went precept upon precept. If you want true riches, Jesus wants the whole of you, everything within you. When you seek God, the anointing will come, the visitation will come, press in for habitation. It made us all hungry for MORE. When he took off his shoes and stepped into the offering basket and asked who would give everything for Jesus, the whole of the people hurriedly ran to the front and surrounded him. He allowed others to step in. Everyone who stepped into the basket, **their hearts melted and they broke down crying and were powerfully overcome by The Spirit.** People had to be carried to a place of the floor open to lay down under the Anointing. Surely the Power and Presence of the Lord was upon us. We were experiencing confirmation of the Word concerning True Riches. Then we prayed for many people. We were speaking more words of blessing then praying for healing. Most of the people are the ones we have been praying for during the week. My wife and I blessed them. For one woman, whenever she prays, voices come in and bring confusion in her life. We silenced the voices in the Name of Jesus. She renounced the covenants she had made with ancestral spirits and made a new covenant with the Lord Jesus. She was released and was very happy.

Bishop Simon Choke and Rose:

There was no power available for the PA system, but God brought mighty power. Pastor Tony Moto as he was invited to preach, he entered into powerful praise and worship. And the power of God came down as he shared a message on the true riches of God. As he stood in the offering basket the power of God got very great. I saw the power of God come upon everyone that stepped into the basket. **When people got up off the floor they were healed and free.** We also got to pray for others that were waiting for the basket. Jesus healed many people. One man suffering for 4 years, his disease moved from his ribs down to his right leg. He was powerfully healed. Jesus healed the children and a teacher. The children had been oppressed with demonic forces for 6 years.

Gary also in a mighty man of God who likes to bring joy to people. Many who since they were born had not laughed, God uses Gary to release laughter for them.

Jesus healed a woman of blood issues, she had suffered bleeding for 5 years. She felt it instantly stop.
