Mission to Uganda
Buchimo A. Fenesi Village

Tony:

This village is a little smaller than last night, about 250-300 people were there and I really didn't know where they came from. I later found out that a number walked from neighboring areas as the word has gone out about what Jesus was doing.

We quickly moved into words of knowledge and were surrounded in moments with lots of people. Like last night there was a powerful anointing to heal and set free.

The pastor praying together with me tonight is going to be our host tomorrow night in his village. He is very, very excited with what God is showing him these days.

I probably prayed for 50 or 60 people and had at least 40 salvations. Praying was so easy and so much fun tonight. It started raining near the end and no one would leave. I prayed for the last 7 people in the rain. Here is a summary of some of what I saw God do:

- Again Everyone I prayed for was miraculously healed or delivered
- I found out today that the lady I prayed for with AIDS virus the other night, **found out from the doctor today that she NO LONGER HAS the AIDS virus** and she was giving testimony of how she was laughed at and mocked by many, but NOW Jesus has set her free!
- One older lady came and when asked if she had Jesus she said, "No, I am an Anglican." When my interpreter explained the ramifications of not receiving Jesus she said, "When I see some healing in my body, then I will receive it." She had numerous things wrong: constant head pain, her joints aching, back pains, very bad eyesight (almost blind) and trouble breathing. I said, ok, we will pray for one thing first, then Jesus, which part do you want healed? Apparently her joints were hurting the most, so she said that. We prayed and Holy Spirit touched her and fixed all of her joints. Then we asked again and **she started laughing and said, one more healing first.** This went on for every item wrong with her until the last, even her eyes were fully opened and she laughed and said "no, later!" We were sending all the people who were receiving miracles to the microphone to give testimony, but we didn't send her. She went anyways and when she got the mike, here is what she said, "Jesus has just healed...all these

- things AND I AM NOW RECEIVING HIM INTO MY LIFE! This is the first Ugandan comedian I have met. Glory to God!
- My favorite for the night: A mother brought her, maybe 6 year old son. Momma was a Christian and she said her son had confessed Christ. She said he has always been very nearly blind and very nearly deaf and it has made his little life very difficult. We got down on the ground and looked him straight in his little eyes. As we prayed for his eyes and ears at the same time, he rubbed his eyes and looked all around then looked up at mommy with a big smile on his face. She asked him, “what happened son?” He said, “I can see you mommy and my ears are ok now too!” **Apparently, this was something everyone in the village knew about, because when she went to the microphone there were screams of joy!**
 - A lady came with arthritis and was barren. She had been married for a number of years and unable to have children. As we prayed, the arthritis left very quickly and when asked if she felt anything in her womb, she said, “I am ok.” Now, I didn’t know what that meant, but she went to the mike. After giving testimony of her healing of arthritis, she said, “when they prayed for my womb, I felt heat and something moving in there, I now KNOW that I am healed and I am going home and having a baby!” I couldn’t help but think about her husband that was standing there seeing all this. I bet he couldn’t wait to get home!
 - There were two women that brought their little babies. They carry them on their backs, like a backpack. They hold them in by wrapping them in a cloth and tying the cloth around front over momma’s abdomen. They bend over, untie the cloth, then reach behind their back and grab the baby. You just gotta see it. Anyways, both of these babies had high fever. My guess was it was malaria. Both mothers received salvation and we gave them instructions on how they can now pray, in the Name of Jesus for themselves and for their children. We then broke the curses, rebuked the fever and in both cases saw the same thing. I put my hand on the babies head and they were burning up. They were fidgety and very unsettled. Instantly, the fever left and their temperature was cool and you could see the peace of God all over these babies. Wow! Lord, you are soooooo good!

Gary:

Africa may be called the “Dark Continent”, but at least one region is experiencing a massive invasion of the “Kingdom of Light.” We are seeing

and experiencing God pouring His love out in wondrous, miraculous ways. Father loves to touch His children, and we are seeing Him do what He loves to do. This night was no exception. There is a strong sense that this area has a major stronghold over it. A lot of blessings have been sought by going to witch doctors which ultimately brings a curse because of the open door to the demonic. I feel that God is doing a major stronghold demolition in the spirit realm, but that is His domain. I am more concerned with the people standing in front of me, this is my domain. And I am just as determined to see strongholds demolished.

- The first lady I prayed for came in response to a word of knowledge for pain and stiffness in her neck. The pain is all gone and there is freedom of movement AND Holy Spirit says “Let’s get it done!”
- Another lady came with pain in her back and sides. She said that **she also had a dream that a man was standing over her telling her to get up and go pray for the sick in the hospital.** We prayed and the back pain left, but not the pain in the sides. Holy Spirit revealed what He was doing, so I had her lay her hands on her side and command the pain to go in Jesus’ Name. She was laughing and twisting and touching her toes as she was pain free. Holy Spirit had me encourage her that just as she laid hands on herself for healing, she was to go and do the same in the hospital the way God spoke to her in the dream. I could see that she was going to do it by the look in her eyes.
- Another lady came with her baby and said she was getting attacked by demons at night and would scream and cry. We broke the curses and spoke the peace of God and the baby went right to sleep. She had another daughter who had chest and stomach pains so we broke the curse and she felt no pain and free. Then she had us pray for her son who got bad headaches that would cause his temples to puff out. Okay, we have a pattern here so we shifted to deliverance mode. It turns out she had a witchdoctor come to her home before she was a Christian and say some things and plant some roots in her house. After she got saved, everything was removed and her house was anointed with oil. After leading her through deliverance, she said she felt free. Then we prayed for her son and he felt free. This lady was also at the end of her pregnancy. She went to the hospital and was told that her baby was in the wrong position and couldn’t be delivered normal. We broke the curses over her unborn child and prayed. She said she felt the baby move in her womb to the right position. I don’t know how she knew that, but she was convinced!

- Another young man came up who had a hernia. I had him place his hand on it and we prayed **and the hernia DISAPPEARED!**
- Another young man had a hernia that after prayer got soft and smaller. I explained to him the difference between healing and a miracle and that he is experiencing both.
- Another came with a lump on her neck, we prayed and **she felt it shrinking under her hand.** She said that she was a backslidden Christian, so, after feeling God's touch, she re-dedicated her life to the Lord. The lump shrunk more all the way down and Holy Spirit was so heavy on her that she had to sit down.
- Another girl had headache, stomach ache and bad hearing in one ear. God healed the pain and opened her ear.
- Another lady had bad hips and knees. After taking authority over an arthritic spirit she began jumping up and down. Each jump made her smile bigger.
- We prayed for 30 or 40 people and God healed or began the healing in every one.

Fredrick and Emily
 Bugiri Day 4
 May 31, 2007

The level of the anointing has been increasing as we move from one village to another. Yesterday we witnessed mighty God's Presence that made our praying so easy that many people who were healed voluntarily became powerful heralds of what the Lord is doing in the villages, just like the Samaritan woman.

At Bumeru B, also known as Fenesi village (Fenesi means jackfruit) was a good example of God's continued increase in His activities to his people, **there was massive healings and deliverances.**

Holy Spirit released the Word of knowledge and many responded, every word that was issued was up to the mark, within the first few seconds, hallelujahs were heard because the healings had started bearing fruits. Before the Word was presented the village mayor was invited to come and open officially the crusade meeting by the local church leaders, although he was a Muslim he came forward and made a very good speech and then said I now give freedom to preach the Word of God and please whatever God told you to do in this village and there is no one shall trouble you. AND, he

announced to all that he has just now received Jesus as his Lord and Savior and that all should do likewise! Hallelujah!

1. An elderly woman about 75 years old had coughed all her life she came forward on the Word of knowledge that was spoken in the Crusade at the beginning of ministration. We laid hands on her, asked the Holy Spirit to minister to her, we rebuked the demon over her life of coughing and left her because I saw her hiccupping and I realize that she has been set free. Later she said, I was once saved and backslid, but now I want Jesus more than before since He has healed me she said. We led her to Jesus once again, she was so happy her face was radiant.
2. A gentleman who is a born again brother was on line waiting to be prayed for by us as we were praying for another lady who had chest problem, as she was being prayed for by us, it took long with this lady before she was finally healed and I thought he could switch to another praying center, but he just waited on. After we were done with the lady, he came forward and said, I need prayer I am born again, but my left leg is paralyzed from the waist to the foot, I can't walk properly. I have to drag it all along for the last three months. We laid hands on him two times nothing happened, then I felt we should lead him into confessions and repentance of which he was ready to do, after the exercise of confession and repentance, we laid hands on him as I was praying **I felt power coming from my arm into the man**, then I knew that there was something that was taking place. I asked him how are you doing, he said surely I am totally healed he went to the microphone to give testimony of what the Lord has done to him, jumping up and down on his new leg for all to see. Many applauded our Jesus.
3. A young fisherman, came to us speaking a fluent Swahili as he explained his condition to us, he had a serious chest pain, that had stopped him from working for along time, his body looked very weak and frail, he was not born again, we first led him to salvation then later we prayed for his condition and the Lord instantly healed him
4. We came to discover that great number of the population was not born again; they are either minimal Christians, animists or Muslims. When we entered into this village at the market center from where we had our crusade. Many people, particularly elders, were seated on benches in front the shops waiting because the word had gone around about what had happened in the previous center and about men of God in

the village, they wanted to see what is going to happen and compare the notes, before the meeting began I had time to chat with some of them without going into details about their spiritual lives.

As the testimonies intensified about healings that were taking place many of them silently came for prayer, one of the elders came to us he had a health problem, his right eye had been pinched by a stick in the bush accidentally and it was paining tears rolling down non stop, and he had sought medical local treatment, without any help, before we could lead him to Christ, we asked the Holy Spirit to heal him first, when we laid hands on him immediately the tears stopped flowing down the cheeks, and now came with new claims that the whole body was aching, then I asked him what about Jesus, because He is the only one who can give you a brand new health and change your life completely, we led him to Christ, then we asked him once again how he felt he confessed and said, when I said the last word Amen ,all pains were gone except the skin above my eye brow is itching me but I am healed. I asked him to tell others what has happened to him on the microphone, he stood and announced about his new faith in Jesus and how Jesus has healed his eye and the whole body. Because of his testimony many elders came forward to receive Jesus Christ we led them to Christ and all who were sick, the Lord healed them.

Finally, elders who presents the older generation and the village gate keepers surrendered their lives to Christ, children and the youth also gave their lives to Jesus Christ. **It was for the first time such a thing has ever happened in this place** and we still have many areas that dearly need this kind of evangelism and ministry.

Alex & Scolar:

I called out for someone who had headache in the middle of the top of their head and another who had a running stomach. Both of them came forward and we prayed for them. My wife and I prayed for the man with headache. The Lord instantly healed him and testified the pain was gone.

- Then we prayed for another man who had a running stomach. He told us it had started in the morning and also was experiencing stomach pains. We laid our hands on his belly as the life of Jesus poured out into him. He then said, I have been healed! He felt the pain leave him.
- One woman came and complained of chest pains and her heart and I laid my hand on her hand and we prayed. Tears began to flow. She testified of the pain flying out of her and her heart beat slowed down to normal. She was healed!

- One man came forward and had a hernia, left side of his private parts. I laid my hands on the hernia and prayed. It took some minutes before the hernia started to move. Another minute or so it dissolved down to the size of a pea. As he put his hand on it and saw what God had done, the healing got finished! He face beamed with thanksgiving unto God!
- A lady came with pains in her whole body and wanted us to pray for her. As we declared the Holy Spirit to take over every area of her life, she SCREAMED loudly. We carried deliverance on her. A spirit of fear was there and the result of the witchcraft had manifested. **The lady went into a trance.** I called out her name in the Name of Jesus and she came out of the trance. Then I led her through breaking of blood covenants with ancestral spirits and the blood sacrifices she had made in appeasing them. Cancelled and nullified the curses that had come into her thru the covenants. At the end we prayed with her, her face brightened as fear left. She felt her whole body feel light like air. She jumped with joy for what the Lord had done to her. All oppression was gone. Praise God!!
- Many other accounts go unreported of the glorious touches of our God and King on the lives of the people.
