Musoli Village

Pastor Tony:

Jesus went from village to village...we are having a taste of what it was like as the disciples traveled the circuit of villages. This little village is about 500 yards up from the shore of Lake Victoria. As we drove into the village and down the 15 foot wide main street (dirt, of course), there were buildings on either side facing each other. It looked like the Wild West main street, only the buildings were mud and brick instead of wood. You'd almost expect a shoot out to break out any second. Well, we had a shoot out alright; the kingdom of dark versus the kingdom of light. Light always wins! At one point, Gary and I were sensing the resistance as we were in the crowd dancing and we broke into intercession that ended with a very long shout that was in a perfect harmonious pitch.

All the people were drawn out of their homes as the sound of praise and worship filled the air. They set up a big heavy rope again to attempt to hold the people back. The mayor of this village stood up and said, "We welcome these visitors to our village, we welcome the gospel being preached, we welcome the blessings that they bring us, we give them freedom to do as they please!"

The people were very into the preaching and I could feel the anticipation in the air. We began to give words of knowledge and the people began coming near. We never did get to give all the words out because there were so many that came. **As we began to pray for them and the testimonies of the miracles began to be broadcasted over the microphone, the people pressed in.** People were running around the back and trying to get at us from behind. The church 'guards' were overwhelmed at trying to keep order and had to give up. We were pushed back to the big box that the keyboard was sitting on until we could barely move. I felt bad for the small people and children as the big people were muscling their way to get next for prayer. It was wild, for hours there was a mass of faces in my face.

A summary of some the prayer time:

- The first lady that I prayed for was a Christian that had night terrors. She had never experienced being filled with Holy Spirit. As I put the forces of hell on notice and asked Holy Spirit to come and fill, He came with such power upon her that at first it looked like a demonic manifestation as she was screaming out. She was violently shaking, her hands lifted into the air and spinning. We held her long enough to

ask what was happening. She said, “Jesus is touching me, He is holding me, He is so beautiful!” We let her go on spinning. If you can imagine someone spinning in the middle of a huge huddle. It was the only time all night I saw people back up. Some church leaders that have not been thru training came to push her to the ground to silence her. I told all of them to put her out in the open area and take their hands off of her, as this was God, not the devil.

- One of the words that I gave was for ‘problems in the private parts’. There were lots of problems in this area, both male and female. One man had a tumor that he felt disappear. Another man with hernia that he said had gone thru prayer. There was burning, itching, paining- all healed thru prayer. The people were not at all bashful about explaining or checking their situations.
- A lady came that said “I have two problems, one is that my left arm and hand is paralyzed AND I am 7 months pregnant and have not felt any movement in my womb for 1 month; I have been told my baby is dead!” Since the easier of these was the paralyzed arm, I began there. It was only a few moments before her arm shot into the air and she had full use back. She praised the Lord! Jesus said go raise the dead! So we prayed life into her child and after a while of prayer she said that she did not feel movement YET, but that she knew something had happened and that God had touched her. Can you imagine what she has been going thru? She left with her un-paralyzed hand rubbing her womb.
- One that really touched me was a mother that brought her 5 year old son. She was very concerned that we pray for her son that was totally deaf in one ear and had just a tiny bit of hearing in the other ear. She didn’t tell us about the massive pain she had been in for 2 years all over her body; she was way more concerned for her son. As we prayed, his little ears were opened and we asked her to check with her son. She whispered, can you hear me son? He turned his cute little face to her and said, “Yes mommy, I can hear you good now, very loud!” Mommy was overwhelmed. When you are there and enter into the emotion of the moment, it is wonderful. Then we asked mommy what about her, she shared her pain and God miraculously healed her! Wow!
- A man that said he had a bone disease, that all his bones were dying and very painful with any motion that he would make. He had the look of agony on his face when we began, then we watched his face as he began to wiggle every part of his body with joy. I could see the

- faith of others just rocket higher as these folk did what they couldn't do before.
- The people would laugh as someone that is usually emotionless busted into dance and praise at the reception of their miracle. An old lady came blind and so much arthritis and pain in her joints that she moves at snail speed due to the pain. **Her eyes were open first; she looked at me, rubbed her eyes, looked at me again, rubbed her eyes, looked at me again and started laughing.** She could see! And the first thing she sees well is this white boy! When Holy Spirit touched her body, she leaped into the air and was doing a dancing jig that would be hard for me to do. All the people around us started laughing with joy!
 - I had to pull some of the children thru the crowd to bring near for prayer as they were being pushed out. They are so sincere and will tell it to you straight. Some of the older children speak English very good, they must be learning it in school. There were a lot of young ones with the 'Ugandan head/chest/stomach' problem. All miraculously healed!
 - For some reason I seem to be attracting women that are barren. As Holy Spirit comes and touches the other sicknesses and problems they have and we prayed for their womb to open, I found myself saying... "go have a baby!" And this huge smile comes over their faces as they go running off.
 - It was well into the dark when we finished and I ended prophesying calling and destiny over a teenage man. He said what I said what was in his heart, but he didn't know what it meant.

Gary Potato:

My head is still spinning from the meeting. So much happened, so fast, that it is all a blur. But, prayerfully, Holy Spirit will help me relate it. The village Misoli we were at is right on Lake Victoria. When we stepped out of the vehicle we stepped right in the middle of a snake pit. Alex and Fredrick talked a lot about the land being cursed by witchcraft, as people actually are seeking blessings from witch doctors. This was a major stronghold for the demonic, but, where sin abounds, grace is greater and there is only One True God Who demonstrates His Power. There is only One Lord and King and He exhibits His sovereignty in all His Glory. As soon as worship started we could feel the resistance in the heavenliest. Even the music was being affected. As we prayed together the Lord gave me a vision of a wall of fire encircling the darkness over us and then moving from the outside in and

completely swallowing up the darkness. Hallelujah! Let's Get it on! 8 people received Jesus after He began their healings. Then He finished their healings.

One woman had headache and chest pains, God healed her headache, she asked Jesus into her heart, then He healed her chest.

Two people had headaches, toothaches and stomach aches both healed and saved!

Man had pain in his knees, God healed him, and he got saved.

Another lady had chest pain and hip pain, God healed her chest..she got saved...then He completed the healing.

Another man had something wrong with his private parts...he starts to get healed, gets saved, then the finish of the healing.

A boy with chest pain, healed, and then saved.

Another man with bad knees, who didn't have Jesus, got healed, but wouldn't ask Jesus in. I had **quite a few people that had to go thru deliverance before receiving their healing**. One lady had chest and hip pain that had an argument with another woman. That is when the pain started. After deliverance the pain left.

Three people were suffering with nightmares and headaches. A man, a woman and a baby (all separate) had been to witch doctors (the babies mom, of course brought the baby). All delivered. All healed.

Another lady had chest and back pain. She couldn't bend over. God began to hear her, we went thru some deliverance and God finished her healing and she could touch her toes.

God was doing some major demon butt-kicking.

Two people came with pains in their wrists, 2 with headaches and toothaches, man with headache, stomachache and private part issues, 3 more with pains in their legs, a pregnant woman suffering with stomach and back pain. ALL HEALED.

There seems to be a pattern for some sort of curse involving spirits of affliction. They usually have head, stomach, chest ailments. All that came were healed!

God was moving very quickly, though some seemed like a lot of work, it was quick work. I probably prayed for 50 people, maybe more.

WOW! What a great kingdom night! Like I said, it is still a blur.

Alex & Scalar:

We have been holding conferences and crusades in this area seeing all the churches come together. The inhabitants are afflicted so badly that they have accepted the conditions they are in as normal. There are chest pains at a high

percentage, 6 out of 10 people. Pains all over the body, 3 out of 10. Hernia 3 out of 10 people.

We prayed for many people, this was way beyond our expectations. At the end of it all we glorified God for what He had done. WOW!!!

It all started with Tony preaching about Jesus. God loves Africa. When God told us to go to Africa, we did not know where we would be, but God knew where HE was taking us. Wherever Jesus went He did good. He says, whoever believes in Him, the works that He did, we too will do, and even greater works will we do in His Name. Tony went on, I tell you if this Jesus does nothing in this place, then you can send us parking. He told of the compassion of Jesus, He feels your pain and hurt. Jesus has already taken those curses that have pressed you down. He went on, now if you have heard this message, then come and let Jesus touch you. **They moved in like very thirsty deer seeking the water in the creek.**

- The first person my wife and I prayed for was a woman she had chest pain and complained of something moving from one side of her stomach across to the other side. We assured her of the Lord Jesus healing her. My wife prayed for her chest which she said the pains had gone with I commanded the demonic power to be consumed by Holy Spirit fire. She stopped breathing and opened her mouth as if throwing up. Then I commanded all impurities put into this body by the demons to come out now in Jesus Name. She vomited some things which we did see (thank you Lord) as were standing on long grass. We prayed with her speaking life into her, filling her with the Holy Spirit. She was happy that the Lord healed her.
- We prayed for a lady who had a headache, partially blind, and pains in her legs. My wife prayed for their. **She cast out the spirit of blindness and headache pain. Instantly, she received her sight and healing.** She was able to see well and her head was clear. She testified she could see the necklace on my wife. We then prayed for her legs and the Lord made her whole.
- One lady who was always tormented by demons in the night. **She claimed the demons strangled her by night, sat on her chest and could not allow her to breathe freely.** WE led her to receive salvation and renounce the covenants she had made with her ancestors. Cancelled all agreements made with evil spirits for her protection. AS we prayed for her, my wife's hand on her belly, she vomited some dark, clumpy stuff that she later confessed had hindered her breathing. She was excited as she could feel a release in her body. "I feel lighter and totally free!"

- We prayed for several people with hernia- ALL DISAPPEARED!
Praise God!
 - We prayed for children with high temperatures in their bodies and that they cry a lot in the night. We dedicated them unto the Lord.
Temperatures returned to normal instantly!
 - We had 4 people receive Christ as Lord and Savior over their lives.
- GOD, WE GIVE YOU ALL THE GLORY, HONOR AND PRAISE!

Fredrick & Emily:

Bugiri Day 5 at Misori Beach

May 1 07

The message had gone around of what the Lord is doing in the region, that Jesus is healing, delivering people from the hand of oppression of the devil and many people are being healed. Even those areas that were considered to resistant to the gospel are welcoming the gospel this time around; because they now know God is alive in power not just in mere words as it has been the case.

At Misori, according to the reliable source of information from some of the pastors, it was for the first time that everyone came out of their houses and attend, the main occupation is fishing at night, in the mornings is selling and buying and the rest of the day is boozing up while others are busy brewing alcohol for the following day.

Our presence there changed the whole program; all business came to standstill because we took the King of Kings, Lord of Lords and the great physician to the village.

After Tony had presented the Word, to Misori the whole Misori village was there attentive, he told them about the power invested into His Word that is able to heal and deliver and set free. Tony has always seen the opportunity and the potential of Africans in Christ Jesus and every time he stands up to speak, he does not look at Africans and see poverty but Kingdom resources invested into them by God.

Well, the word of knowledge followed then that touched many people, we saw people coming forward as the Word of Knowledge was released from the team. As usual testimonies began from those who had received their miracles this encouraged those who were seated behind not sure of what would happen, they stood up and presented their cases to the praying centers.

Testimonies:

1. An elderly man with chest problem, backache and headache came for prayer he was not born again, we first led him to Jesus then asked the Holy Spirit to visit him and minister over his health, as we were praying for him, **the Lord allowed me to see in the spirit this man being un-clothed from something like a fog**, then I asked him how he was feeling, he looked into my eyes and said I have nothing to tell about, but I am healed from this sickness after many years of sufferings, thank you- I told him to thank God who has healed him.
2. A twenty five years old man had a problem with his manhood, that could not wake up whenever needed, and he also had a severe headache, he was born again, I asked him if he has had any relationship outside his matrimonial home, he said no, then we asked the Holy Spirit to come over him, rebuke the spirit of impotency and released God power into his life, we asked how he feel, he said that the headache is gone, the other part has to be tested first, we are expecting the answer to day.
