Mulombi Baptist B Village

Pastor Tony:

It seems the more of God that is in our midst, the more difficult it is to explain what happens. This was one of those nights. I found myself, throughout the night, just turning aside while I was praying for people to worship my awesome Daddy! I was so awe struck with His Manifest Presence! I could tell during preaching that faith was already very high. I had the distinct feeling that word had gotten to this village about what Jesus was doing. As we released words of knowledge, about 50 people came past the heavily guarded (by men with big sticks) 'rope line.' If we didn't have the rope line, we would have been trampled. As it was, each of us praying had 10-15 people pressing in around us just about all night. Again, I would need the record book of heaven to tell you all of what happened tonight, but here is a piece of it:

- During worship a woman came to us and said, "you must pray for my baby right now, she is dying, she has syphilis!" I didn't know babies could get that. Anyways, the child's face was all swollen, one eye completely swollen shut and burning up with high fever. We prayed and instantly saw the fever leave and the baby open her eyes and look at us. The mother felt the baby and looked at her and said, "something has just happened, my baby is going to be well!" Perhaps we will see the full results tomorrow. Bless God!
- A man with a chest problem and a hernia that he could feel with his hand. As we prayed he kept his hand on the hernia and felt it disappear.
- Another man came and said, "I was across the street listening to the testimonies of what Jesus was doing and I have a large hernia that hurts very bad and I knew that I needed to come to Jesus." I asked him to put his hands on the hernia and as he reached down to his lower abdomen, **he kept feeling all around and his eyes got really big and he said, "Oh God, it's gone!"** Somewhere in his last 40 steps, the healing power of God came upon him and healed him!
- **There were many, many Muslims that received salvation tonight.** Every one of them confessed Christ only after receiving a miracle. The crowd cheered as they got to the microphone and told of what Jesus healed them from and then said, "I am no longer a Muslim, I am now saved by Jesus!" Many Christians saw the answers to their

prayers for these lost Muslims tonight and they were SCREAMING with joy! The line of people giving public testimony was non stop all night!

- Two mothers brought their babies that had malaria, wheezing and burning with fever. Both mothers confirmed that fever was gone and breathing normal.
- A lady with a paralyzed right arm and near total blindness came. She was Muslim and said, **“I promise to receive Jesus after I see for myself the miracle in my body!”** After explaining to her why there is no other wise choice but to give herself to Jesus, she again said, “no, I must see, for I will be kicked out of my family with such a decision!” OK, Thomas, watch Jesus release in your body what He died to give you! I mean, we took hold of her paralyzed arm and just began to pray and she shot her arm up into the air and smiled real big and laughed with joy. I said, has you muslim gods ever done that for you? ‘ She said, no, but I must see more. OK, Thomas, watch Jesus love on you some more. We put our hands on her eyes, she only could make out shadows and there was so much power of God there that in 10 seconds her eyes opened and she looked at me and stared at me as I was the first white person she had ‘seen’. The look of amazement on her face, then she said, “where do I go to church tomorrow to worship MY JESUS!” When she got to the microphone, she very loudly preached to the people, **“ RUN AWAY FROM THE MUSLIM RELIGION AND ALL OF YOU COME TO JESUS NOW, HE IS THE TRUE GOD, THESE PEOPLE HAVE TOLD US THE TRUTH!”**
- As a great closure to the evening, about 15 children came and said they want to be blessed and receive Jesus. We circled around them and locked arms and one of the interpreters led them in salvation prayer. Such joy came over me as these children prayed out loudly and with such fervor and conviction and emotion. It was really powerful! What an ending to this great night! Thank you Jesus!
- A young man came with a broken shoulder. He said there was extreme pain and he couldn’t life his arm. I put my hand on his shoulder and I could feel the bone sticking up, ouch! **As we prayed, the bone went back into place! A CREATIVE MIRACLE!** He was thrilled as he spun his arm around and around, praising God!
- Here is the testimony that got me the most: A young muslim girl came with very poor eyesight. She said it was like a dark film over her eyes.

She said she was muslim and couldn't receive Jesus because her muslim parents would KILL her. You could feel the seriousness of what she was saying. We said, ok, Jesus loves you so much that He will heal you while still rejecting Him. We prayed for His love to overcome her. We prayed and her eyes fully opened, she stood there motionless until tears began to flow. Jesus was hugging her right now. She said, with tears flowing, "no matter what happens to me I must receive Jesus and follow Him!" As she gave her testimony publically, I had to stop and worship as the intensity of what this little girl was doing really hit me! Oh God, have mercy on those who do not understand.

- Lady with baby- child died after giving her life to Christ. Backslide. Scared, fear to come back to Jesus. This baby always sick.
- Now this is one I have never seen before: A lady came with her baby and said that her baby is constantly tormented, cries and screams day and night. She was a muslim. She had bad stomach pains herself We prayed for her first and she was instantly healed. We then told her how valuable it would be to her child and family if she had Jesus in her life. We told her of how she could pray for her child and rout the devil, but she said not now. We then prayed for the crying baby. **When we first put our hands on the child, the baby started convulsing and screaming. We at first didn't realize there was a sovereign deliverance taking place.** Then, in moment the crying stopped, the baby got totally peaceful AND started smiling real big and laughing with a baby laugh. I would have love to have had a video of it. The mother looked at her baby laughing and decided to receive Jesus!

Gary Potato Coka;

It was a kind of strange night for James and I. We had basic types of healing all night that came in various combinations. Headache, chest pain, stomachache, back pain, leg pain. Some also had hand or wrist problems, fluttering heart and nightmares. We prayed for 40 people or so, that were all healed. Twelve people received salvation either during or after their healing. Let me start with 2 of these:

- One lady had chest, stomach and back problems. We asked her if she wanted Jesus. She said, "no, just my healing." Ok, Holy Spirit, what do we do? We prayed for her back and she was healed. Now do you want Jesus? "no!" For 5 minutes we talked with her and asked her to let Jesus in. I could see the wrestling match between the two

kingdoms for this soul. Finally, she yielded and asked Jesus in.
Hallelujah!

- The second girl wanted to go and ask her husband if it was ok and then come back. Again the battle lasted quite a few minutes. Finally, we saw the victory of Jesus!
- This area has a lot of demonic activity. The oppression of the people is the above mentioned afflictions. It is wonderful watching someone who has been suffering from a backache bend over and stand back up with a great big smile and a “thank you Jesus!” Or to see the relief of someone who has been suffering from headaches and have them say “I am free!” Not just healed, but free. Or to see someone take a deep breath without the chest pain. Or to see people laugh as they are jumping up and down after being healed of leg pain, when they couldn’t hadly walk before. Or to go through deliverance and see the relief and healing come and the peace of God settle over people as the kingdom invades and overwhelms the powers of darkness. This is why we are here, to see peoples lives changed by Jesus. I am grateful for the priviledge of being here and bring apart of what God is doing. At the end, one of the pastors came that was having ear problems in his left ear. We prayed and their was no problem. Then Tony had 15 or 20 children come up for a blessing so, along with our interpreters, we surrounded them, circling them and holding hands with them in the middle. I asked James to ask them “who wants Jesus?” And then lead them all into salvation. It was music to my ears hearing the voices of these children confessing Jesus as Lord.

Fredrick and Emily:

Bugiri Day 6 at Mulombi “B”

June 2, 2007

When Tony was invited eventually after praise and worship, he led the crowd to the Word and said, we have brought to you life, healing, deliverance and salvation not religion, you might have heard about in words of men, but, we have brought you Jesus who heals and delivers and if He does not do these things I am talking about, I allow you to kick us out of here. They responded by applauding, as sign that they were ready for what God was about to do in the village.

Then he asked the team to join him in the ministry of the Word of knowledge, many people responded positively by coming forward to be ministered to according to their needs mentioned through the Word of knowledge.

TESTIMONY:

We ministered to many people with different needs, we witnessed many bodily healings, such as tumors, hernias, and chest pains, stomachaches etc, many salvations and others were led through deliverances:

1. A lady paralyzed on one right hand side. When we prayed for her, we asked her to check herself and she raised up her hand with a surprised look that she was healed. She jumped up very happy!
2. A man brought his son aged about 8 years old who was dumb, he couldn't speak. **This little boy had never been able to speak. After prayer he spoke for the first time.** Many people who knew the boy came to hear him speaking. They were amazed at what God had done!
3. A barren woman middle aged was also suffering from headache and backache but not born again. She was healed and also left believing God had touched her womb.
4. A lady with hernia, chest pains received instant healing, she said, I can't believe this, surely these people God brought here because of our suffering, look I am healed. This Jesus of theirs is the true God!
5. Three women with similar sickness fallopian tubes blockage and kidney pains. They were all healed after prayer.
6. A man who has a swollen stomach, and told us that the doctors has told him that his intestines has problems, need to be cut at certain section and be joined, he had stayed with the problem for 25 years- miraculously healed!
7. A woman who had multi sickness ranging from headache to legs, she wanted to be prayed for, she was not saved. I began to pray for her many problems, 1st the headache disappeared and the chest pains. Now, it was backache, stomachache and swollen legs, I asked her what about Jesus, do you still deny him? Look, He has healed your head and chest, she said I think He is a good God I would like to receive him, I asked our pastor interpreter to lead her to confession of salvation.
8. A lady came with kidneys problem, tumor in the stomach and chest pains, she told us how she had suffered because sickness, and she no longer have babies, I asked her how many children do you have? She

replied, I have only 5, I asked again, how many had you planned to have? Many she replied. Then I asked she was born again, she said, I went in a born again church one time, but if this Jesus can heal me then I would like to make him to be savior and attend church regularly. Anyway we prayed for after she was led to Jesus for salvation and the Lord healed her from all her sickness. She grabbed the microphone and gave testimony on loud voice.

9. A woman came with all her takos that were swollen with sores, with severe back ache she could not bend or straighten her back, we asked, what would be the cause of the problem, she became frank and told us that she was suffering from syphilis, I led into repentance from the spirits of sexual immorality and any other sins, I asked to repent to the Lord Jesus Christ she also confessed Jesus as her personal savior. Then we prayed for, and **immediately the wounds and sores all over her body just disappeared!** When she went the stage to testify about what the Lord had done to her, she was not ashamed to mention how had suffered from syphilis and Jesus has healed her and on top of that she is now born again

Alex & Scolar:

This is a village to village crusade. Today we are in Mulombi. Mulombi is another market center 3 km before Buchimo trading center. It is either Mulombi is more densely populated or more and more people are trekking long distances to come to the crusade. For sure, reports of what God is doing has reached many people and they all want to come and get touched by Jesus.

Every one that came to Jesus for healing got healed. Tony went on to talk to them about the supernatural power that is released in the Name of Jesus. Jesus is the same yesterday, today and forever. When Jesus died, He went to Hades and took the keys of authority away from satan and made His authority available for us. All authority in heaven and earth is with Jesus and Jesus has given that authority to us. Now, we lay our hands on the sick and they are healed!

Today my team has some words of knowledge for you out there. He explained to the people what that was.

The Lord had shown me the previous night that there were two women whose husbands had sent them out of their houses. The husbands did not

want them to stay together. The Lord wanted to restore them and heal their souls.

- We started praying for a lady who had problems with her eye sight and pains in her legs. My wife laid hands on her eyes and I laid mine on her knees as we prayed. We called on the Holy Spirit to come and heal as we were in agreement. The pains were cast out in the Name of Jesus. The lady recovered her sight and the Lord made her legs whole. She could afford a smile and peace showed on her face.
- There was a drunkard that came and told us that he had a headache and wanted salvation and had stomach pain and he was partially blind, he could not see very far. So, we led him to salvation and he received Christ as Lord and as I started praying for him, I put my two thumbs, one on left and one on right eye. I commanded the pain in the head and stomach pain to leave and then led him in deliverance and out of the spirit of alcohol, because he wanted to be. We bound those spirits out. We then commanded the spirit of blindness to leave and called upon the restoration of sight and his body to be made whole in the name of Jesus and I prayed for wisdom. I said, “receive your sight now” and I released my thumbs off his eyes. **There was a popping sound as his eyes opened.** He looked all around and was so excited, he couldn't believe that he could see so far, the people so far away he could see, he was so excited. We blessed him. As he testified, he assured the people, that Jesus heals. He said, “those of you who thought I was nothing, nothing but a drunkard, I am now born again.” The people clapped and shouted with joy as he continued explaining and preaching to the people.
- Two ladies on different times had gone to Tony to explain their problems so as to pray for them, but Tony brought them to us. The two women the Lord showed me the previous night. First woman said she has suffered a lot in the absence of her husband. She therefore wanted her husband back. I led her to forgive her husband and release him into the hands of God. She then prayed for him that the Lord would bless him. She renounced the words spoken by the husband against her and also cancelled the words she spoke against the husband. She also broke the spirit of rejection from her life. **The joy of the Holy Spirit came upon her and she gave testimony.** The second lady was sent away from her matrimonial home together with her children. The man followed her with scolding words and planned to kill her. The husband believed she had charms (an object to attract demonic forces for protection or for destruction- it depends on the one

that is giving them to you & what kind of a curse they have put upon it. Charms can be put on someone, tied on someone, sewed into clothing to be unseen or even put into food) that were meant to destroy the man's ego. She did not want that man back in her life. We led her to forgive her husband and all those who were against her life. We led her into deliverance session. She had to release all bitterness, hopefulness and rejection from her life and her children. We prayed for favor of God in her life and Divine protection for the enemy. God really blessed her.

- Three people, one after another, had problems with their eyes. They were partially blind. The Lord healed them and restored their sight.
- One girl was being forced to get married. Her parents wanted dowry quick. They refused to pay school fees for her and she is now in 3rd grade in high school. We prayed for favor of God upon her and counselled her. We led her in deliverance and broke demonic limitations in her life in Jesus Name. We prayed together as she lay on my wife's shoulder crying. More Lord, more!
- One man had pains in his body and hernia between his legs (loins). As we prayed for him, **his body shook all over. At the end he testified the pains gone and the hernia also was gone.** We thanked God together as he smiled broadly. The Lord healed him.
- Prayed for several children with different ailments and all were healed in the Name of Jesus. There were many, many more testimonies of God's goodness. You are an awesome God. Nothing is impossible with You. Receive all glory, honor and praise.
