Morning Service at Buchimo Church and  
Afternoon Crusade at Mulombi A Village

Tony:

We were at a small church in the morning service. Worship was wonderful with The strong Presence of the Lord. Gary gave the Word and spoke about how this revival can be continued with the people. During prayer time we laid hands on everyone and imparted the anointing.

Crusade:

We were already in the bush, but when we got on the dirt road to the village location of today's crusade we quickly discovered that we were going way deeper into the bush. You can tell when you get really out there because the little children are at first afraid of us whites because they've never seen the likes of us before. They warmed up to us quickly as we took their pictures and showed them what they looked like and then danced with them.

Actually, it was more they were laughing at us dancing. The local church leaders gave each of us a bottle of soda. I knew many of these children had never even tasted soda before. I managed to give about 20 children a sip of the soda. You should have seen the looks on their faces, as they puckered their lips in anticipation of the bottle coming to them. They were so thankful, just for a sip!

As I shared with the people, I encouraged them to come to Jesus as the Holy Spirit led me, then we gave words of knowledge. They had a guarded, roped off area again tonight. Again, I was glad for that. There had to be 500 people encompassing us tonight. As the people came into the roped area that were responding to the words, the 'PRESSING IN' immediately began. At one point Gary and I were pushed back and back until we were up against each other, literally back to back, praying for our separate piles of people. There was something to our covering each others' back. We would hoot and shout together as our respective prayee's received their miracle.

- Before I prayed for the first person, a man with a suit and tie pushed his way in front of me. He was holding the hand of a man he brought to me. The man was a pastor and he brought to me a man that had been paralyzed on his right side for 10 years. It was a case that nothing medical could help the man. But the real kicker was that **the man really didn't believe that these kinds of miracles would still happen and he was going to prove me wrong, so he went and found the worst case he could and put the man right in front of**

**my face with all these people of the village staring at me.** I said OK, thank you Holy Spirit for doing what you do! God will not be mocked; Holy Spirit came immediately with power upon the man and instantly the miracle happened. The pastor began to question the man, “are you sure you are totally normal now, there is no difficulty using your arm and leg, are you sure, are you sure?” The man jumped into the air waiving his arm and kicking his leg and said, “I’ve been living with this for 10 years, I AM HEALED!” I didn’t see that pastor the rest of the night, but later found myself interceding for him.

- A mother brought her son (maybe 5 years old) that has always been totally deaf in his left ear and very little hearing in his right ear. She was a believer and was confident that when we prayed, her son would get his hearing back. After we prayed we asked mommy to get down on the ground level with us to look her son in the eyes and see what God had done. She said, “Son, can you hear me, son, out of both ears?” The eyes of these kids really get me, so big and beautiful. He looked at her for a few seconds saying nothing, then said, yes, mommy, I hear everything now! Thank you Jesus.
- That was the start of the ears night as there were many more that came with varying degrees of deafness, all miraculously healed! **We also had from the completely blind to partially blind all miraculously healed!**
- Many women came with their babies for prayer, but this one I will tell you about. She said that a number of years ago she had received Jesus and had a new baby. As soon as she received the Lord, she said that her baby got real sick and died. She then blamed God and backslid. Now, her new baby is real sick and she is scared to come back to Jesus. After we ministered truth to her, we told her, watch how much Jesus loves your baby, watch what He does! It might have been malaria, we don’t know; but the fever left and the baby became alert and healed and mommy came back home to Jesus!
- Some soccer players came, still in their uniforms, with various injuries from the game. All healed! One man had sprained or twisted or broke his ankle, in bad pain. He came right from the game to the hospital of Jesus. He jumped up and down on that ankle as the power of God came.
- Again, I had women that were barren. Each one of them has other problems, like stomach or chest pain. Each one was healed of the other problems which released added faith for the opening of their

wombs. As each one said something happened in their wombs, we left them with the word, “go home and have some babies!” They each smiled and laughed with that young girl giggle. Oh, there is hope in Jesus!

- We had a zillion people with head, chest, leg and back problems. Many with all of the above. My interpreter and I would divide up the problems and pray simultaneously and **the miracles were happening absolutely like lighting**. We probably prayed for one person every minute for a long time. Again, a continuous flow of testimonies to the microphone.
- We prayed for mostly saved people tonight, there were about 6 that we led to Jesus!
- Here is what got me the most this night: man w/no legs approached me and

Someone said that there was a better road to get back then the one we took so we departed out into the pitch black down what we found to be a cow path. Now, picture this: The land cruiser holds 8 people. We had 12 people on the inside and 13 people ON THE ROOF of the cruiser, sharing space with all the sound equipment. There were spots along the way that there was no road, just solid bush, trees, thorns, etc. I had to keep the window closed as the trees would slap me in the face as we pushed thru. It was absolutely amazing that no one was hurt! Thank you Jesus!

Gary:

Sunday morning:

This morning we had service at the church in Buchimo village. The crowd was a smaller so we were able at the end to do impartation. This is the first time we have been able to do this. The people were really getting blessed. The Lord also gave me a word of prophecy to share but at first it seemed really out of place. After a little while of holding it the Lord said ‘It’s not for them. I am making a proclamation and declaration to the heavenlies of this area!’ The word was that God of creation had come to set His people free. The glory of God was very heavy and all we could do for several minutes was stand quietly worshipping.

At lunch: A girl came into the mud hut where we were eating, that was suffering from stomach pain. The pain would go straight up from her stomach to her throat, and then back down again. She also had a lump on her side. As she sat down, I could see a lot of pain in her eyes. As we prayed the pain began to move around. Pains don’t just move, demons move, OK, Holy

Spirit, what now? I sat back and the Lord gave me a vision of a black snake coiled all around her lower torso. The head would raise straight up from the stomach to the throat and back down again. I shared with Tony what I saw and he had me pray for her. As I began to pray I could see the coils begin to loosen and I could see the white belly as it was twisting. Then I saw it begin to crawl up and out of her. When the tail disappeared I stopped and we asked her now how she felt. NO PAIN! The lump was still there so I prayed for that and **I saw it shrink and disappear, then I stopped praying and the lump was gone.** She also received Jesus as Lord!

Tony had about 3 sips of a stony tangawezi and couldn't stop burping. It was hilarious, but also prophetic...

The CRUSADE was really out there, both spiritually and physically. The road was more of a cow path but the Land cruiser didn't have a problem. I am amazed that the 13 guys on the top of the roof could hold on, though. In the team prayer huddle before the meeting, God said that 'He was going to be moving fast, so try to keep up!' And He was! Again, there were a lot of headaches, stomachaches, chest pains, hips and legs paining.

- I prayed for 4 or 5 stomach pains that as I prayed a burp started in my stomach and came out. As soon as I burped, I stopped and asked how they were doing. They were all "OK". Now, I'm sure that will shake some theology.
- A woman who suffered from back pain for 7 years was able to bend and touch her toes. She was jumping up and down. She also received Jesus as Lord.
- I had 20 people saved after complete or partial healing. The partial healings were then completed. We prayed for at least 60 people that were all healed. Here are just a few:
- A man who had malaria for 3 years, miraculously healed!
- A mother brought her baby who had malaria. Holy Spirit said to ask her what is wrong with her. She had head and stomach pain. God healed her and she asked Jesus into her heart. Then we prayed for the baby and the fever instantly left.
- Another mother brought her son that had TB. Short prayer and he was able to take deep breaths, hallelujah!
- Another mom brought her baby that had stomach pain and diarrhea along with a fever. After prayer the fever was gone!
- Another man came with chest and stomach pain and a bad back. God healed the chest and stomach and gave some relief to the back. After

receiving Jesus as Lord, he was able to bend and touch his toes, as God finished His healing.

- Another woman couldn't bend because her knees were very bad. After prayer she knelt down, twice and then was jumping up and down praising Jesus.
- Another young man received Jesus after being healed of pain all over his body.
- Another woman had pain in her stomach, hips and legs. After receiving Jesus and her healing she was jumping up and down, praising God.
- Quite a few children came with headaches and stomachaches and chest pains. Many had trouble concentrating in school. After breaking curses the healings came and they felt "free". Hallelujah!
- A young boy came who had a tooth ache. God healed him and he received Jesus!

Tony and I started 10 or 15 feet apart, but as the crowd pressed around us we ended up standing back to back as we ministered. It was really wild! **The Presence of God was there to heal and He was moving fast and furious.** It would be wonderful to be able to see the spirit realm after He gets done. To see hundreds of demon tails tucked between their legs as they are kicked out of their homes! I imagine the dark clouds of a storm that begin to break up and disappear as the sun (SON) breaks through!

Fredrick and Emily:

Bugiri Day 7 at Mulombi "A" And Sunday services

It is the last Sunday of our mission to Uganda of three weeks; we began with Lugazi, Namutumba in Busembatia and now in Bugiri District conducting conferences and crusades in villages. We saw the Bible being fulfilled during this mission (Math.4: 23-25) **we have a crowd that is trailing us wherever we go (just like they did with Jesus)** up to late hours, its dark, some does not care about what they will eat and where to sleep. These days are full of supernatural signs and wonders; the level of anointing to heal and deliver is increasing day by day.

What else can it mean that the will of God would be done on the earth as it is being done in heaven?

We had an impartation service in the morning at Endtime Harvest in Buchimo village, the power of God was present, and Gary ministered the Word to people, while Alex and Scola went to minister in Discipleship Church in Mulombi A on the request of pastor Chiketi.

After lunch, we all proceeded to Mulombi “A” market center where staged the crusade, the weather was cloudy, many people were watching village football match that was taking place at the nearby football play ground, immediately, they heard the sound of singers singing praises unto the Lord, they abandoned the match and joined us.

Before we began, people came to us they want salvation before being preached to, a man came to us and asked if he could be saved again, after being angry with God for allowing his wife die when he was a Christian and a church elder, as if it was not enough, when he decided to get married once again, he approached the church leadership for wedding, he was asked to pay a lot of money for wedding expenses, he became so angry with the church and with God for being unfair to him. He eventually turned to drinking and smoking. Our presence made him feel un-comfortable with life he was living without Jesus.

We told him how Jesus still loves him, no matter what has happened to him, he felt so much encouraged, then we led him to Christ through confession, after wards he told me, that he feel that he should smoke, because he had a stick of a cigarette in his pocket, I told him it is alright if he feels that cigarette is bigger than Jesus he had just received, anyway, he took out his cigarette put on his mouth before he could light, I asked him if he could allow me take his photo with a cigarette in his lips and another one without cigarette in his lips he agreed, later I allowed him compare the two, the first one with cigarette he looked like (jambazi) Swahili word for a thug and the one without cigarette he was smiling, he looked attractive and he liked it very much, then I told him how he looked like Jesus, he accepted and gave me the cigarette to destroy. He promised later to be faithful to Jesus.

Then another man who was watching and listening to what was going on, came and said, please I also want to be prayed for, I need to be saved, we said fine, we led him to Jesus Christ, he was drunk when he came to us, later I saw him testifying on the microphone about his new found life in Jesus Christ, he also testified how he used to be very intelligent in school, but the enemy tried to destroy his life. But now, I am born again, I am a new being he said.

Some of the many, many Testimonies:

It was a tremendous, fast powerful move of God!

1. An old woman over 80 years of age, could not walk without help, some people holding her by the armpits while she also supported herself with a walking stick brought her in. Said that she was feeling pains all over her body, her legs were weak in the joints and could not stand on her own. Emily looked for a chair for her to sit on while we minister to her, after prayer, we asked her to check herself and do what she could not do before, **to our surprise she just stood up from the chair strong and smiling** and said this is God, I am totally strong and healed. We asked her to thank Jesus for that, and she did.
2. A young Muslim girl of about 8 years old, came forward for prayer, she felt pains of headache, stomachache, joints were aching even chest. We asked about Jesus, if she can accept Him, she said, it is impossible, when it is heard that I did that, my parents may do bad things to me, I asked again, suppose Jesus heal you, would you accept him? She said yes, and then I advised her to keep it to her self not to tell anyone, just yet. When we laid hands on her after asking the Holy Spirit to minister to her, we asked to find out what she felt; she said I am healed, would you accept Jesus now? She said yes then I asked my interpreter to lead her to salvation.
3. A boy was brought by one of the pastors in the crusade, **he was deaf, when we laid hands on him and he instantly got healed** and could perfectly hear.
4. Many people with different sickness, of backaches, kidneys and headaches were healed,

The meeting ended at about 9 in evening, we had many people who had followed us from areas we had ministered earlier, and some were involved in praise and worship, pastors and church elders. Almost every one wants a lift yet we only had our Land Cruiser, with PA equipments. 25 people in our vehicle. We had at least part of the Masai experience.

Alex & Scolar:

The Spirit of the Lord came down at the church service this morning: there was weeping, screaming and some thrown to the floor. Indeed we saw God touching them powerfully; we had to leave for the crusade.

Crusade:

We cover about 150-180 km of rough road each day. This particular day the paths were full of gullies, bush fencing in the path making visibility impossible and then coupled with rain as we traveled to Mulombi A. This village had about 400-500 people anxiously waiting for the arrival of the team to minister to them.

Tony ministered the Word:

We come as representatives of Jesus Christ. He went on to tell much of what is of God and what is of the devil. I know some of you are hurting and are in great need of Jesus, He is here to meet you.

We gave words of knowledge. Then many people came forward who were hungry and wanted a touch of God. People pressed in until it was impossible to turn around while praying for them. I looked around and saw each team member was greatly pressed in by the crowd. The people were really pushing and pressing.

Some of the many testimonies:

- One man pressed in and had a problem with his hands. He could not fold or unfold easily. We held his hands and asked the Holy Spirit to come and take charge. **We commanded the spirit of paralysis to leave his bones in Jesus Name.** WE spoke healing into his bones, ligaments, tendons and flesh and the lord made him well. He tried his hands and was completely healed.
- WE about 5 people that had eye problems in different forms. From blind to partially blind and commanded the spirit of blindness to leave and their eyes were graciously restored. They all thanked God for opening their eyes.
- One man was a drunkard and had chest pains. We led him to confess Jesus as lord and savior and cast out the spirit of drunkenness and cancelled ancestral curses and prayed for his chest and commanded the pain to leave in Jesus name and the lord instantly healed him and his breathing came back to normal. He inhaled several times without experiencing any pain and he laughed and praised God. He clapped very, very loud and went to testify to the people over the mike and told the people he is no longer a drunker but a born again.
- One man who had a stiff back and could not bend it at all and he could not work. So we laid hands on his back and called for Holy Ghost fire to burn down his spine and consume every infection in the back and every pain to go in Jesus Name, then we called for healing from head to feet **and he testified that he felt fire all over his body and it consumed the pain** and he thanked God for giving him relief. He could touch his toes with ease. He jumped up and down as a sign he had no other back pains. He thanked God.
- A lady who had migraine for one year complained of wickedness in the body and we laid our hands on her head and commanded migraine to leave in Jesus name and commanded her brain to respond to that

prayer and shut out every door that is bringing in that pain. And then we commanded healing and peace in her mind and also strength to be restored in her body and every muscle would supply energy to the whole body. **She testifies something left her head** and relief came in. She felt lighter, clearer and full of energy. She testified the Lord had healed her and thanked God for that.

STUCK IN THE MUD: Tonight we saw God's Hand deliver us from trouble. Our four wheel vehicle, as we were coming back sharing of the great signs and miracles the Lord had done in the crusade ground.....suddenly the truck veered off the road. It had rained heavily and the road was slippery. Fixing and locking the front wheel to enable the four wheels to be in effect drove the vehicle deeper into the farm by the roadside. We were stuck in the mud! About TWO hours later, all of us out in the muddy farmland were pondering what next? It was 11 something pm and a long wait before dawn breaks. Then we all decided to try again, this time if we could all help in pushing it sideways as it tried to go forward. Inch by inch it moved forward until the front wheels clawed onto the road and bravo! We were out of the muddy farmland. That was God who helped us out after He saw our efforts were leading us nowhere. We all thanked God for bailing us out. We drove snail pace getting to the hotel at 1 something am next day. We had a few hours to sleep before we attend church service. What a glorious God we serve! **HE WILL NEVER LEAVE US OR FORSAKE US!**
